342 Milton Convalescent Home.

Special Signals for Fires in the Blue Hills Reservation.

91 Canton Avenue and Blue Hill Avenue.
92 Harland Street, entrance to Reservation.
93 Park Headquarters, Hillside Street.
94 Forest Street, Quincy Line.
95 Randolph Avenue, Quincy Line.
96 Randolph Avenue and Highland Street.

Running Card.

Engine No. 1 and Hose No. 1 will respond to all alarms and signals.

Ladder Truck No. 1 will respond to all alarms and signals except signal **451**.

Combination No. 1 will respond to all alarms but not to signals calling for apparatus to go out of town.

Hose No. 2 will respond to first alarms from Boxes **32, 34, 341, 6, 62, 63, 64, 65, 67, 68, 69, 651, 652, 671, 71, 73.**

Hose No. 3 will respond to first alarms from Boxes **35, 312, 315, 351.**

Hose No. 4 will respond to first alarms from Boxes **17, 142, 151, 21, 23, 24, 25, 27, 5, 51, 52, 53, 54, 56, 57, 521, 542.**

When, after an alarm has been sounded, and before the all-out signal for the same has been given, an alarm is given from another box, the alarm from the second box is to be responded to the same as a General Alarm.

Directions in Case of Fire.

Get the key to the nearest box, open and pull the hook all the way down once, then let go and close the door.

Remain at the station, if possible, after giving an alarm, to direct the firemen to the fire.

Second alarms will be given only by one of the Engineers.

Citizens are earnestly requested to keep themselves informed as to the location of the keys. Signs over each box will give the desired information.

Caution to Persons Holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of residence, return the key to the Engineers at once.

ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1916

COMPILED BY

THE AUDITORS

POOLE PRINTING CO., INC.
251 CAUSEWAY STREET
BOSTON

STATEMENT OF THE AUDITORS

To the Citizens of Milton:

In accordance with the Revised Laws and the By-Laws of the Town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending December 31, 1916, and have found the same correct.

Respectfully submitted,

J. HERBERT RAYMOND
FREDERICK N. KRIM } *Auditors*

MILTON, MASS., December 31, 1916.

*Term expires March, 1917.

REVISED BY-LAWS

TOWN OF MILTON, MARCH 2, 1902

Adopted by the Town and approved by the Superior Court May 20, 1902.

The amendments to Chapters 2, 3, 7, 8, and 10 adopted by the Town March 2, 1914, March 13, and September 1, 1915, were approved by the Attorney-General, December 10, 1914, May 8, and September 22, 1915.

CHAPTER 1

General Provisions

Section 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

Sect. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the Town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

Sect. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any

By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

SECT. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 5. In all the By-Laws of the Town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The word *public way* shall include any highway, townway, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

SECT. 6. All fines and penalties for the violation of any By-Laws shall, when received, inure to the use of the Town, and be paid into the Town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the Town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the Town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any

order of any Town officer or board of Town officers, issued under any of the By-Laws of the Town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the Town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the Town may be repealed or amended, or other By-Laws may be adopted, at any Town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2

TOWN MEETINGS

SECTION 1. The warrants for all Town meetings shall be directed to the constables of the Town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the Town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the Town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of Town officers shall be held upon the first Saturday of March, the polls to be open at fifteen minutes before six o'clock in the forenoon, and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all said officers to be voted for on official ballots. At any time after said four o'clock a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. All business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall be considered at an adjournment of said meeting to the following Saturday at one-thirty o'clock in the afternoon.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, if the decision of the Moderator is doubted, or a division of the house called for, the Moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make a report thereof to the Moderator.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

to adjourn,
to lay on the table,
for the previous question,
to postpone to a time certain,
to commit (or recommit) or refer,
to amend or substitute,
to indefinitely postpone,

shall have precedence in the order in which they are placed in this section.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for Town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the Town meeting of the ensuing year.

CHAPTER 3

THE WARRANT COMMITTEE

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the Town, the subject-matter of which is generally included in the warrants for its Town meetings; and the officers of the Town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the Town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the Town meetings held during the period for which they were appointed including the various articles in the warrant for the annual Town meeting next after their appointment; they shall also consider all questions submitted to the

voters of the Town at any meeting, including State elections under any act or resolve of the Legislature and proposed amendments to the Constitution; and they shall report in print before all such meetings their estimates and recommendations for the action of the Town."

CHAPTER 4

The Town's Finances and Property

Section 1. The financial year shall begin with the first day of March.

Sect. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the Town, a detailed report of all moneys received into and paid out of the Town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the Town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the Trustees respectively, and a statement of all other funds belonging to the Town or held for the benefit of its inhabitants; also statements of the liabilities of the Town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the Town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain

such other matters as may be required by the By-Laws of the Town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the Collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the Town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the Town.

SECT. 6. The Selectmen, being duly authorized by vote of the Town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the Town, and to give promissory notes therefor in behalf of the Town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the Town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. No order shall be drawn by any officer or

committee on the Town Treasurer for any purpose not authorized by a vote of the Town, or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the Town Treasurer shall keep full accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

SECT. 9. To provide for extraordinary expenditures of departments, should any become necessary in excess of appropriations made, the Town shall annually appropriate a certain sum of money to be known as the Contingent Fund. No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation. A certified copy of such vote shall be sent to the Town Treasurer, and the Treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

SECT. 10. No board, committee, or officer of the Town shall commit the Town to any expenditure or liability which would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the Town at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to

the Town, either by the Selectmen or other Town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the Town.

SECT. 12. The Selectmen shall have full authority as agents of the Town to institute and prosecute suits in the name of the Town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the Town,

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the Town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the Town, unless the Town shall otherwise vote in any special case.

SECT. 14. Two Auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

CHAPTER 5

THE CEMETERY

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the Town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual Town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the Town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by

the Town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such landmarks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to

give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such Tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

Sect. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.

2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.

6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6

Police Regulations

Section 1. No person shall move or assist in moving any building, over any way which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this Town is obliged to keep in repair, and desire to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any

public way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the Town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the Town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the Town for all expenses and damages which, or for which, the Town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be

propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the Town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or

perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any sign board of the Town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe

from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum nor less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars, or advertisements through the Town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, fire-arm, torpedo, fire-cracker or fireworks in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighgorhood.

SECT. 26. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the

Revised Laws, until he has recorded his name and residence with the Superintendent of Police, and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Superintendent of Police, and be approved on the first Monday in every month by the Superintendent of Police; provided, however, that the foregoing provisions shall not apply to minors licensed by the Selectmen; and, further, provided that the Selectmen may restrain the sale by minors of any or all such articles.

No person hawking, peddling or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

SECT. 27. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the Town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the Town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle

or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

SECT. 28. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

PROSECUTIONS AND PENALTIES

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the Town may be made by any constable or police officer of the Town.

CHAPTER 7

THE CONSTRUCTION AND INSPECTION OF BUILDINGS

SECTION 1. This Chapter shall constitute and be known as the Building Code and may be cited as such. It provides, in conjunction with Chapter 635, Acts of 1912, known as the "Tenement House Act," for all matters concerning the construction, equipment, alteration, repair, demolition or moving of buildings or structures erected or to be erected in the Town of Milton.

SECT. 2. Whenever the word "Inspector" occurs in this Chapter it means the Inspector of Buildings.

SECT. 3. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within the Town at any reasonable hour.

SECT. 4. In this Chapter the following terms shall have the meanings respectively assigned to them:

First Class Buildings: A first class building shall consist of fireproof material throughout, with floors constructed of iron, steel or reinforced concrete beams, filled in between with terra cotta or other masonry arches or with concrete or reinforced concrete slabs. Wood may be used only for under and upper floors, window and door frames, sashes, doors, interior finish, hand rails for stairs, necessary sleepers bedded in cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Buildings: Second class buildings shall include all buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete, concrete blocks or other equally substantial and fireproof material.

Third Class Buildings: Third class buildings shall include all buildings not of the first or second class.

Thickness of Wall: The minimum thickness of such wall.

Grade: Average grade of the ground immediately adjoining a building.

Cellar: A story more than one-half below the average grade of the ground immediately adjoining a building.

Wooden Frame Building: Any building of which an external wall is constructed wholly or partly of wood. Wood frames covered with metal, wire lath and plaster or brick shall be deemed to be wood structures.

Reinforced Concrete: By the term "reinforced concrete" is meant an approved concrete mixture reinforced by steel of any shape so combined that the steel takes up the tensile stress and assists in the resistance to shear.

Story: That part of a building between the top of any floor beams and the top of the floor or roof beams next above.

Permits

Sect. 5. Before the erection, construction or alteration of any building or part of any building, structure or part of any structure, wall, or any platform or flooring to be used for standing or seating purposes, is commenced, the owner or lessee, or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration shall, except for ordinary repairs, submit to the Inspector a detailed description of the location, purpose and construction of the proposed structure or work on proper blanks to be furnished by the Inspector, and full and complete copies of the plans of such proposed work, and such structural detailed drawings as the Inspector may require.

Such plans and detailed drawings shall be furnished in duplicate and, if approved by the Inspector, one set shall be kept at the building during the progress of the work, open to the inspection of the Inspector or his representative. The other shall be kept on file in the office of the Inspector.

The Inspector may require an applicant for a permit to submit with the plans of a building or other structure detailed drawings and calculations of any portions thereof subjected to unusual stresses, or of complicated construction, or for a steel frame or reinforced concrete construction, or of any type of construction not particularly described in this chapter.

Nothing in this section shall be construed to prevent the Inspector from granting his approval of the erection of any part of a building or structure where the general

plans and detailed descriptions have been filed for the same, before the entire detailed plans have been submitted.

SECT. 6. It shall be the duty of the Inspector to approve or reject any plans filed with him pursuant to the provisions of this chapter within a reasonable time and within ten (10) days in any event, and no work shall be commenced until a permit is issued.

SECT. 7. Upon approval of plans the Inspector shall issue a permit. The permit shall be void unless work is commenced within three (3) months from the date thereof.

SECT. 8. No building shall be lathed nor shall any metal ceiling, plaster board or other covering be put on until the Inspector has been notified that the building is ready for such work, and until he has given written consent thereto.

SECT. 9. If a proposed building or structure is of a size or character not provided for by this chapter, plans and specifications of such building or structure shall be submitted to the Inspector and referred by him, with his recommendations thereon, to the Board of Selectmen for approval.

CONSTRUCTION

SECT. 10. The Inspector shall examine all buildings in the course of erection or alteration as frequently as is necessary, to see that the Law and the By-Laws of the Town are complied with.

SECT. 11. Every portion of every building or other structure in process of construction, alteration, repair or removal and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 12. All masonry below the finished grade shall be laid up in mortar no poorer than one part Portland cement and three parts sand.

All masonry above grade shall be laid up in mortar no poorer than one part Portland cement, one part lime, and six parts sand.

SECT. 13. Every building or structure hereafter erected shall have a masonry foundation resting upon the solid ground, piles, or other durable structure. Said foundation shall be securely and properly built, and shall be of such thickness as to properly sustain the weight it is intended to support; provided, however, that the Inspector may, in his discretion, permit the use of other materials for foundations of buildings not over one and one-half stories high.

SECT. 14. The underpinning above grade, if of concrete, shall be not less than ten (10) inches in thickness; if of brick, not less than twelve (12) inches in thickness; if of stone, not less than sixteen (16) inches in thickness; and shall be laid in cement mortar, as prescribed in Section 12.

SECT. 15. All foundation walls and pier footings shall be laid at least three (3) inches below cellar bottom and not less than three (3) feet six (6) inches below any adjoining surface exposed to frost.

SECT. 16. All piers shall be built of stone, good hard burnt brick laid in mortar, or reinforced concrete. Isolated brick piers shall not exceed in height ten (10) times their horizontal dimensions and, if of reinforced concrete, fifteen (15) times their least horizontal dimensions, which shall not be less than twelve (12) inches. Cement filled iron columns may be substituted for piers if of suitable size to carry the superimposed load. Such columns shall have cast iron caps and bases and shall rest on foot-

ings of masonry, stone, or concrete which shall be at least twelve (12) inches in each dimension.

SECT. 17. For buildings other than frame, where the walls are of brick or solid concrete, the minimum thickness in inches of all exterior and dividing walls carrying the loads of floors and roofs and including foundation walls for the same shall be not less than specified in the following table:

Height	Foundations	Basement	Stories 1	2	3	4	5	6
1 Story	16	12	8					
2 Stories	16	12	12	8				
3 Stories	20	16	12	12	8			
4 Stories	20	16	16	12	12	8		
5 Stories	20	16	16	16	12	12	8	
6 Stories	24	20	16	16	16	12	12	8

The height of stories for the thickness of walls given shall not exceed:

First Story	17 feet
Second Story	15 feet
Third Story	13 feet
Fourth and Upper Stories	12 feet

and if any story exceeds the foregoing heights, it shall be counted as one additional story for each twelve feet in height or fraction thereof and the thickness of the walls not diminished from the thickness of the lower portion of such story.

If stone is used in place of brick or solid concrete, the thickness of walls shall be made four (4) inches thicker than above specified.

In external walls of the thickness specified in this section, the area of openings for windows, doors, flues, etc., shall not exceed 50 per cent of the gross sectional area.

In case the width of such openings exceeds one-half the length of the wall, the thickness of piers between openings shall be increased so as to maintain an area of at least fifty (50) per cent of the gross area required by the specified thickness; provided, however, that in the upper half of any vertical portion of the wall required to be of constant thickness a smaller addition may be made to the thickness of piers, if the stresses allowed by this code are not exceeded. Curtain walls of brick or concrete between piers, where carried to the piers by arches or lintels at each story, shall be not less than eight (8) inches in thickness.

SECT. 18. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 19. In reckoning the thickness of walls, no allowance for ashlar shall be made unless it is at least eight (8) inches thick, in which case the excess over four (4) inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four (4) inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

SECT. 20. Reinforced concrete construction will be accepted for buildings of the first class, and must be designed in accordance with the recommendations of the Joint Committee of the American Society of Civil Engineers, or American Society for Testing Materials, and all materials used in the construction must conform to the requirements of the standard specifications of the American Society for Testing Materials.

The Building Inspector shall have authority to require tests to be made of all materials used in the construction. Such tests shall conform to the requirements as approved by the American Society for Testing Materials.

Only stone or gravel concrete shall be allowed in the construction of reinforced concrete buildings, except that slag or cinder concrete may be used for fireproofing purposes and for floors or roofs where the super-imposed load does not exceed fifty (50) pounds per square foot, and the spacing between supports does not exceed six (6) feet.

The allowable unit stresses shall not exceed those recommended by the Joint Committee above mentioned.

Before issuing permit for the construction of reinforced concrete buildings, the Inspector of Buildings shall require the owner to submit a complete set of working drawings and details of the proposed construction with the approval of some well-known consulting engineer written upon each sheet of the drawing, and the cost of such approved drawings shall be paid by the owner.

SECT. 21. The studding in outside walls shall be at least two (2) by four (4) inches in size and spaced not over sixteen (16) inches on centers.

Studs next door and window openings shall be at least three (3) inches by four (4) inches and shall be mortised into sills and girts.

Openings in outside walls shall be trussed if the Inspector so requires.

SECT. 22. Every wooden building hereafter erected or altered shall have all parts of sufficient strength to carry the weight of the super-structure; shall be built with sills, posts, girts, studs and plates all properly framed, braced and secured together by mortising, strapping or halving, to the satisfaction of the Inspector.

The posts and girts shall be not less than four (4) inches in size except intermediate posts, which shall be not less than four (4) inches by eight (8) inches in size. Studs in interior partitions shall be placed not more than twenty (20) inches on centers. Plates shall be not less

than four (4) inches by four (4) inches in size, but may be two (2) inches by four (4) inches doubled. Sills shall be not less than four (4) inches by six (6) inches in size.

SECT. 23. The studding of main or carrying partitions shall be not less than two (2) by four (4) inches in size, and shall rest on a sole piece of hard pine two (2) by four (4) inches. All openings in main partitions of more than thirty-six (36) inches shall be trussed and have studs doubled at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding and two (2) inches thick, at least once in height.

Partitions over twelve (12) feet in height shall be bridged at least once in every six (6) feet.

When carrying partitions rest directly over each other, the studs shall run down between the floor beams and rest on the header of the partition below.

Headers of carrying partitions shall be at least two (2) inches by four (4) inches in size, doubled and of hard pine.

SECT. 23 A: All wooden header beams more than four (4) feet long used in any building shall be framed together and pinned or hung to the trimmer beams in stirrup-irons. When it is not practicable to frame or secure the ends of tail beams into header beams, the ends of the tail beams shall be hung to the header beams by stirrup-irons.

SECT. 24. All wooden beams of floors or flat roofs shall be properly bridged with cross bridging at least one (1) inch by three (3) inches in size, and the distance between bridging or between bridging and walls shall not exceed eight (8) feet.

SECT. 25. No part of any floor timber shall be within two (2) inches of any chimney; no studding or furring shall be within one (1) inch of any chimney; and no

timbers or woodwork shall be within two (2) inches of the back wall of any fireplace. The header beam, carrying the tail beams of a floor and supporting the trimmer arch in front of a fireplace, shall be not less than eighteen (18) inches from the finished chimney breast.

SECT. 26. Every wooden beam, except header beams, shall rest four (4) inches in the wall at each end, or upon a girder or column as authorized by this chapter, unless the wall is properly corbelled out of four (4) inches, in which case the brickwork or corbelling shall extend to the top of the floor beams.

SECT. 27. The ends of all wooden beams of floors where they rest on brick walls, and the ends of all wooden roof beams in parapeted walls, shall be cut to a bevel of three (3) inches in their depth.

SECT. 28. No cutting of timbers for any purpose shall be done so as to reduce the strength of the supporting parts below that required by the provisions of this chapter. No floor timber, header or trimmer beam of any building shall be cut into more than two (2) inches in depth for piping without a permit from the Inspector. Holes for electric wires through wooden beams, girders or floor beams shall not be located more than one (1) inch from the neutral axis thereof.

SECT. 29. Every second and third class building hereafter built shall have in each story all vertical space in the exterior walls, and carrying partitions thoroughly stopped with fireproof materials not less than four (4) inches in height. These steps may be omitted on approval of the Inspector in cases where the studding is to remain open and uncovered. In every building used solely as a mill or factory there shall be a fireproof stop between the upper and under floor. This fire stop may, however, be omitted if the floor boards are at least two (2) inches

thick and splined or tongued together and the space between the timbers of the floor open and uncovered.

SECT. 30. All floors shall be of sufficient strength to bear the weight imposed thereon and of sufficient strength in all parts to safely bear (in addition to the weight of the material of which the floor is composed), upon every square foot of its surface not less than the weights named below for the specified purposes for which such floors are respectively used or designed to be used:

Dwelling houses and hotels [except public rooms having a floor area of over five hundred (500) square feet and corridors], fifty (50) pounds; unfinished attics used for storage purposes only, thirty (30) pounds; schoolhouses, except corridors and assembly halls, sixty (60) pounds; stairs, landings, platforms, fire escapes, office floors, places of public assembly and public buildings having permanent seats, seventy-five (75) pounds; stables, private garages and the portions of public garages not containing machinery, seventy-five (75) pounds; corridors of hotels, of public buildings and of schoolhouses and rooms in hotels exceeding five hundred (500) square feet in area, one hundred (100) pounds; retail stores and buildings for light manufacturing purposes, one hundred and twenty-five (125) pounds; places of public assembly and public buildings having movable seats, dance halls and gymnasiums, two hundred (200) pounds; warehouses and buildings for heavy manufacturing purposes, two hundred and fifty (250) pounds. Loads not included in the above classification shall be determined by the Inspector.

SECT. 31. The pressure upon brick masonry in walls or piers, of which the thickness or least dimension is more than one-sixth of the height, when lime mortar is used, shall not exceed eight (8) tons per square foot; with lime and cement mortar, twelve (12) tons per square

foot; with cement mortar, eighteen (18) tons per square foot. When the thickness or least dimension is between one-sixth and one-twelfth the height, and lime mortar is used, the pressure shall not exceed seven (7) tons per square foot; lime and cement mortar, ten (10) tons per square foot; with cement mortar, fifteen (15) tons per square foot.

On first class stone work laid in cement, pressures shall not exceed: on sandstone, thirty (30) tons per square foot; on marble or limestone, forty (40) tons per square foot; on granite, sixty (60) tons per square foot.

Hollow blocks of terra cotta or concrete when used for bearing walls shall have not more than fifty (50) per cent of cellular space. Concrete blocks shall not be used in construction until they have attained the age of twenty-eight days, or developed the strength required in this section. All building blocks shall be laid in Portland cement mortar.

The compressive strength of building blocks shall in all cases be calculated upon the gross area of the bedding faces, no account being taken of the cellular spaces. The average ultimate compressive strength for terra cotta blocks laid with cells vertical shall be not less than twelve hundred (1200) pounds per square inch; the average for concrete blocks laid with cells vertical shall be not less than eight hundred (800) pounds per square inch. Concrete blocks shall be not less than thirty-six (36) days old when tested. The average strength of the blocks as here given shall be obtained by testing ten blocks of average quality.

The allowable working stress of hollow building blocks shall not exceed one hundred (100) pounds per square inch of gross area for terra cotta blocks, or seventy-five (75) pounds per square inch of gross area for concrete blocks. If a wall be built of blocks with the cells horizon-

tal, the allowable working stress shall not exceed thirty (30) pounds per square inch of gross area.

The maximum stress in pounds per square inch in woodwork shall not exceed the following:

	Long-leaved Yellow Pine Oak and Locust	Other Woods
Direct tension on compr. or fiber str.	1,500	1,000
Direct comp. side grain	500	300
Shear across fiber	1,200	800
" with "	150	100
Short columns	1,000	700

Columns may be used with a length not exceeding forty (40) times the least dimension. The unit strain for lengths up to ten (10) times the least dimensions shall be as given in the above table, with a reduction of one hundred (100) pounds per square inch for every increase of ten in the ratio of length to least dimension.

The maximum stress in tension in cast iron, or tensile fiber stress in case of beams, shall not exceed three thousand (3000) pounds per square inch. The maximum compression in short pieces or compressive fibre stresses in beams shall not exceed sixteen thousand (16,000) pounds per square inch. Cast iron columns may be used with a length not exceeding twenty (20) times their least external diameter. The unit stress for lengths up to three (3) times their least diameter shall not exceed eleven thousand (11,000) pounds per square inch, with a reduction of five hundred (500) pounds per square inch for every increase of 3 in the ratio of length to least diameter.

In rolled steel the maximum stresses shall not exceed the following:

Tension and fiber stress, 16,000 lbs. per square inch; compression in columns, 13,000 lbs. per square inch.

Columns may be used with a ratio of length (1) to least radius of gyration (r) not exceeding 16, 1 being expressed in feet and the r in inches. The unit stress allowed shall be 13,000 pounds per square inch for 1/r from 2 to 4; 12,000 from 4 to 6; with a decrease of 1000 pounds for each succeeding increase of 2 in the ratio of 1 to r.

Shear in rivets, 10,000 lbs. per square inch; shear in rough bolts, 9000 lbs. per square inch; shear in web (stiffened), 8000 lbs. per square inch; bearing on rivets, 18,000 lbs. per square inch; bearing on rough bolts, 15,000 lbs. per square inch.

The maximum stresses in wrought iron shall not exceed seventy-five (75) per cent of those allowed in rolled steel.

Materials not specifically mentioned above shall not be allowed to carry stresses exceeding one-quarter the stresses which would cause fracture or cracks in specimens of such materials of average quality under similar conditions of loading. In cases of doubt of the strength of such materials, the owner may be required to make such tests as the Inspector shall deem necessary to determine the strength, said tests to be made in the presence of the Inspector or his authorized representative.

SECT. 32. Frame buildings veneered on the outside with four (4) inches of brick or stone work shall have such brick or stone work supported on a foundation of masonry, and shall be properly anchored to the frame structure. The height of any such veneer shall not exceed twenty-five (25) feet above the solid masonry.

SECT. 33. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

SECT. 34. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipe. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 35. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

SECT. 36. All walls, ceilings and partitions inclosing drying-rooms, when not made of fireproof material, shall be wire lathed and plastered, or covered with metal, tile or other hard, incombustible material.

SECT. 36 A: No portion of any building of third class construction to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall be hereafter erected, enlarged, altered, or placed nearer than four (4)

feet to the line of any adjacent lot or to any other building of the first or sceond class; or nearer than eight (8) feet to any portion of any other building of the third class on the same lot, unless fireproof masonry walls, with openings protected as required by Section 36, are built next to the said lot or other building, such walls to be of thickness provided under Section 17.

SECT. 37. In first or second class buildings all openings in walls within four (4) feet of adjoining property lines shall be protected by metal shutters or by metal sash, frames and wire glass.

SECT. 38. Every building of the third class hereafter erected to form a block of two or more buildings shall have a wall of brick, or Portland cement concrete, or other equally substantial and approved fireproof material between adjoining buildings, completely separating same. Such walls to be of thickness specified in Section 17, carried to under side of roof boarding.

SECT. 38 A: Every dwelling to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall have at least two independent means of egress.

ELECTRIC WIRING AND FIXTURES

SECT. 39. All wires, appliances and apparatus in the interior of a public building or on private premises, which are intended for the transmission of electricity and to be connected with an outside circuit, shall be made and at all times kept safe, and shall be placed, arranged, attached, changed and maintained by the person, firm or corporation owning or using the same, to the satisfaction of the Inspector of Wires appointed in accordance with the provisions of Chapter 337 of the Acts of the year 1899. The Inspector of Wires shall have access at all reasonable times to such wires, appliances and apparatus.

Before any person, firm or corporation shall arrange, fix, or essentially change any such wires, appliances and apparatus, the Inspector of Wires shall be notified and given full opportunity to inspect the said wires and their arrangement and fixtures before the same are covered or enclosed. Wires in the interior of buildings and on private premises shall not be connected with an outside circuit which crosses or runs along, over or under any street or way of the Town without written permission therefor having been first obtained from the Inspector of Wires.

Companies and contractors making any repairs on or installing any electric plants in the Town of Milton shall send a notice to the Inspector of Wires before the work is commenced.

All work and material must be supplied and installed in accordance with provisions of the National Electric code and any amendments or additions thereto.

Gas Fixtures

Sect. 40. The burners of all gas fixtures shall be at least three (3) feet below any ceiling or woodwork, unless the same is properly protected by a shield, in which case the distance shall be not less than eighteen (18) inches. No gas bracket on any lath and plaster partition or woodwork shall be less than five (5) inches in length, measured from the burner to the plaster surface or woodwork.

Sect. 41. Gas pipes in any building or structure shall be installed in accordance with the rules and regulations prescribed by the company furnishing gas. All gas pipes shall be inspected and tested by the gas company before the pipes are covered, and a certificate of the same from the gas company shall be placed on file with the Inspector of Buildings by the owner of the building or his

representative. The method of installation of the gas pipes shall be subject to the approval of the Inspector of Buildings.

SECT. 42. Every hot water boiler hereafter installed, to be used for heating purposes, shall be provided with a safety or relief valve of a size not less than that known commercially as one-half (½) inch. Such valve shall be attached either directly to the boiler or to some pipe connected therewith at a point not more than one foot from the boiler.

REGULATIONS MADE BY THE FIRE ENGINEERS ACCORDING TO THE PROVISIONS OF CHAPTER 32, SECTION 46 OF THE REVISED LAWS IN REGARD TO CHIMNEYS, FLUES, FIREPLACES AND HEATING PIPES.

SECT. 43. All chimneys hereafter erected shall be built of brick, stone or other incombustible material.

SECT. 44. All chimneys hereafter erected, if walls are less than eight (8) inches thick, shall be lined on the inside with terra cotta or tile pipe, made smooth on the inside from two (2) feet below girder, or from the throat of the fireplace, if the flue starts from the latter, and carried up continuously to the top. The ends of all such lining pipes shall be made to fit close together, and the pipe shall be built in, as the flue or flues are carried up. The walls shall be at least four (4) inches thick. No parging mortar shall be used on the inside of any fireplace, chimney or flue. The firebacks of all fireplaces hereafter erected shall be not less than eight (8) inches in thickness if of solid brickwork nor less than twelve (12) inches if of stone. When a grate is set in a fireplace, a lining of firebrick at least two (2) inches in thickness shall be added to the fireback, unless soapstone, tile or cast iron is used and filled solidly behind with fireproof material.

All chimneys shall extend at least three (3) feet above the highest point at which the chimney cuts the roof and at least six (6) inches above any roof surface within ten (10) feet in a horizontal line.

SECT. 45. Imitation fireplaces intended for use with gas or electricity and not having a flue shall be constructed throughout, including the hearth, of fireproof material not less than two (2) inches thick.

Hearths of all fireplaces and chimney breasts where mantels are placed shall be supported by trimmer arches of brick, stone, burnt clay or concrete at least eighteen (18) inches in width measured from the face of the finished chimney breast and not less than sixteen (16) inches longer than the width of the finished fireplace opening. Wooden centers under trimmer arches shall be removed before plastering the ceiling underneath. Hearths may be supported on steel cantilever beams built not less than sixteen (16) inches into the chimney.

SECT. 46. No chimney shall be supported by, started or built upon any woodwork.

In no case shall a chimney be corbelled out more than two-thirds the thickness of a wall to which it is attached, and in all such cases the corbellings shall consist of at least five course of brick. Where chimneys are supported by piers, the piers shall start from the foundation on the same line with the chimney breast, and shall be not less than twelve (12) inches on the face, properly bonded into the walls. When a chimney is to be cut off below, in whole or in part, it shall be wholly supported by stone, concrete, brick, iron or steel.

All chimneys which become dangerous in any manner whatever shall be repaired and made safe, or taken down.

SECT. 47. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling,

unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

SECT. 48. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipes. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 49. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

CHAPTER 8

THE REGULATION AND INSPECTION OF PLUMBING

SECTION 1. There shall be in the Town a department for the inspection of plumbing in accordance with the provisions of Chapter 103 of the Revised Laws.

SECT. 2. The word "Inspector" without further addition wherever used in this chapter means the Inspector of Plumbing.

SECT. 3. Every plumber before commencing work on any part of the drainage system in a building, except in the case of the repair of leaks, shall file at the office of the Inspector upon blanks provided for that purpose, a description of the proposed work. No such work shall be done in any building unless approved by the Inspector and after a permit is issued therefor. Permits to perform plumbing shall be issued only to master plumbers. Drawings of the proposed work shall be filed when required by the Inspector.

SECT. 4. No drainage, waste or ventilation pipes shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two (2) working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All drainage, waste and ventilation pipes shall be subjected to the water test before the fixtures are set. After all the fixtures are set, said pipings and fixtures shall be subjected to pneumatic or other reliable pressure test. All such tests shall be made in the presence of the Inspector.

SECT. 6. The drainage and waste piping of every building shall be connected with the public sewer when such sewer is located in a street, way or other land adjacent to the lot upon which the building is located, if the sewer is within two hundred (200) feet of such building and is so located as to take the sewerage therefrom. If the building is more than two hundred (200) feet from

the sewer or a sewer is not accessible, connection may be made with a proper cesspool, provided a permit is granted therefor by the Board of Health.

SECT. 7. The soil pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil pipes shall be of extra heavy cast iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast iron with leaded and caulked joints, but galvanized wrought iron pipe may be used for vent purposes. All pipes shall be properly secured to walls and ceilings with wrought iron hangers. Waste pipes shall be of cast iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast iron recessed fittings. No soil pipe of any building shall be less than four (4) inches inside diameter, except by written permission of the Board of Health. No vent pipe shall be less than one and a half (1½) inches inside diameter. No waste pipe shall be less than one and a quarter (1¼) inches inside diameter.

SECT. 8. All drain pipes shall have a proper pitch, shall have an accessible clean-out, and shall extend to a point ten (10) feet outside of the cellar wall. The pipe from the sewer or cesspool to within ten (10) feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside of the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least two (2) feet above the highest window on the roof. Every drain pipe, except a drain pipe from a building having but one sink, or but one sink with adjoining trays, shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain pipe leaves the building. All changes in direction of soil pipes shall be made by Y branches or by curved pipes. No ventila-

tion pipes on the outside of any building shall be less than two (2) inches inside diameter.

SECT. 9. All joints in iron drain pipes, soil or vent pipes shall be made by thoroughly caulking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full sized wiped joint and caulking the ferrules to pipes which are of cast iron, or screwing them to pipes which are of wrought iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop hopper, and every tray or set of four or less wash trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins, or a sink and a set of four or less wash trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe.

All fixture traps shall be protected from syphonage or air pressure by special vent pipes having a diameter not less than the diameter of the waste pipe and connected with the waste pipe at a point not lower than the seal of the trap in such manner as to make the vent pipe a continuation of or a Y branch from the waste pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent pipe unless the length of the waste pipe from the trap of said fixture to the said stack exceeds three (3) feet. Vent pipes for water-closets shall be of not less than two (2) inches bore and may be connected with the water-closet waste pipe below the level of the trap seal. Two or more vent pipes may be connected together or with a soil pipe, but such connection with a soil pipe shall be above the uppermost fixture connected with such soil pipe. Lead

vent pipes may be used only where they are exposed to view.

SECT. 11. No drip or overflow pipes from safes under water-closets, urinals, or other fixtures, no overflow pipes from tanks or cisterns, no waste pipes from refrigerators or other receptacles in which food is stored, no rain water conductors, and no steam exhaust pipes, or steam waste pipes shall be connected with any soil pipe. No openings shall be allowed in the soil or waste pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to, the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil or waste pipe.

SECT. 12. Every water-closet shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one and a quarter (1¼) inches inside diameter. Flushing valves attached directly to a water-closet may be used, but when used the method of installation shall conform in every particular to the requirements of the Inspector.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. No water-closet shall be enclosed with any woodwork.

SECT. 15. None of the provisions of the foregoing sections of this chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. Every closed tank or boiler hereafter installed, which is to be used for the storage and supply of hot water, shall, if fed by direct pressure from any source

outside of the building, have a safety or relief valve and a vacuum valve. Each valve shall be of a size not less than that known commercially as one-half (½) inch.

SECT. 17. Any person violating any of the provisions of Chapters numbered Seven and Eight shall be liable to a fine of not less than twenty (20) dollars nor more than one hundred (100) dollars for each offense, to be paid into the treasury of the Town of Milton.

SECT. 18. Upon the approval of Chapters 7 and 8 by the Attorney-General of the Commonwealth and the publication as required by law, they shall go into effect, and all building laws heretofore adopted by the Town shall be thereby repealed, except that in cases where permits have been issued prior to the approval and publication as above provided, the laws then existing shall govern the work to be performed under said permits.

CHAPTER 9

STREET RAILWAYS

SECTION 1. The annual report shall contain the following concerning the street railways in the Town and the street railway companies owning or operating the same, viz.:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the Town by street railway companies during the preceding calendar year,

which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the Town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the travelling public are required upon any street railway in the Town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10

TOWN WAYS

SECTION 1. Every way that shall be laid out for the acceptance of the Town as a Town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a Town way, the documents relating to such laying out shall be accompanied by a letter from the Selectmen, which shall be filed in the office of the Town Clerk, together with said documents, before such way shall be accepted. This letter shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the Town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON

March 19, 1866. *Voted,* To establish a High School, according to the provisions of Section 2 of Chapter 38 of the General Statutes.

March 2, 1874. *Voted,* To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the Town of Milton.

March 4, 1878. *Voted,* To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers.

March 3, 1879. *Voted,* To accept the provisions of Section 21 of Chapter 38 of the General Statutes, relative to the election of School Committee.

December 8, 1879. *Voted,* To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

March 1, 1880. *Voted,* To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

March 5, 1883. *Voted,* To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children.

March 7, 1881. *Voted,* To accept the Act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners."

March 3, 1890. *Voted,* To accept the first nine sections of Chapter 51 of the Public Statutes, said chapter being entitled, "Of Betterments, and Other Assessments on Account of the Cost of Public Improvements."

February 12, 1891. *Voted,* To accept the Act authoriz-

ing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882.

MARCH 2, 1891. *Voted*, To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of Town Officers.

FEBRUARY 3, 1894. *Voted*, That the Town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of the Legislature of Massachusetts passed in the year 893, relative to the election of a separate Board of Assessors.

NOVEMBER 28, 1894. *Voted*, That the Town hereby accepts the provisions of Chapter 324 of the Acts of the Legislature of 1894, entitled, "An Act Relative to the Reservation of Spaces in Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 309 of the Acts of 1885, entitled, "An Act Authorizing Cities and Towns to License Groves, to be Used for Picnics and Other Lawful Amusements."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Section 272 of Chapter 417, Acts of the Legislature of 1893, relating to the election of Sewer Commissioners in towns.

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 462 of the Acts of the Legislature of 1893, entitled "An Act to Authorize the Establishment of a Building Line on Public Ways."

MARCH 4, 1895. *Voted*, That the Town hereby accepts the provisions of Chapter 218 of the Acts of the Legislature of 1894, as amended by Chapter 473 of the Act of the same year, being "An Act Relative to the Election of Boards of Health in Towns."

March 13, 1915. *Voted,* To accept the Act provided for in Chapter 296 of the Legislative Enactments of 1913 and to establish the office of Bird Warden provided under this Act.

G. Frank Stemp,
Town Clerk

MILTON TOWN RECORDS IN THE MUNICIPAL YEAR 1916

MARCH MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall in said Milton upon the fourth day of March next, at fifteen minutes before six o'clock in the forenoon, then and there to act upon the following articles, to wit:

At a meeting of the inhabitants of the Town of Milton held March 4, 1916, the following proceedings were had upon the several articles in the Warrant, namely:

ARTICLE 1. To choose by ballot the following Town officers: Moderator, Town Clerk, 3 Selectmen, Assessor, 2 Auditors, 2 Overseers of Poor, Treasurer, Collector of Taxes, 4 Constables, Sewer Commissioner, Member of Board of Health, 2 Members of School Committee, Water Commissioner, Cemetery Trustee for a term of five years, Cemetery Trustee for a term of one year, Park Commissioner, 3 Trustees of Public Library, Tree Warden.

The following appointments of Ballot Clerks and Tellers were made by the Selectmen to serve at said meeting, viz.:

Ballot Clerks: Thomas M. Lennon, Edwin J. Fairbank, Jr., Winthrop L. Knox, Charles E. Whelan, Henry D. Mahoney, Jesse P. Bent, James C. Burke, Jr.

Tellers: Alfred A. Shea, Leroy G. Porter, William H. McGee, Walter I. Marsden, Albert J. Eichorn, Peter J. Barry, Daniel B. McDonald, Prescott Skinner, William A.

Haley, Walter A. Cheney, Lewis B. Currier, Edward F. W. Bartol, Albert M. Hoxie, Joseph J. Mullen, Joseph F. Dalton, Charles F. Thompson, Earle Morgan, Peter A. Barry, Jr., Frederick K. Rogers, Henry F. Brierly, Frank I. Jordan, B. Sarsfield Quigley, J. Arthur Spencer, Charles B. Abbott, Clarence L. Dutton, Edward Gallagher, Patrick F. Healey, Martin L. Bannin, Carl W. Gram, D. Morton Swift, John H. Donovan, Joseph A. Rein, Alfred J. Martin, William A. Will, John M. Mullen.

All of the above-named Ballot Clerks and Tellers being sworn by the Town Clerk.

At four o'clock P.M., *Voted*, To close the Polls for Town officers in ten minutes.

All ballots cast for Town officers having been sorted, counted, declared and recorded, the result being as hereby appended, and the following officers chosen, viz.:

Maurice A. Duffy, James F. Mitchell, James S. Russell were chosen Selectmen and Surveyors of Highways.

G. Frank Kemp was chosen as Town Clerk.

Clarence Boylston was chosen Assessor.

J. Porter Holmes was chosen Town Treasurer.

H. Boyd Edwards, Harris Kennedy were chosen School Committee.

Josiah Babcock was chosen Collector of Taxes.

Frederick N. Krim, J. Herbert Raymond were chosen Auditors.

Bernard W. Trafford was chosen Park Commissioner.

Edward B. Hill was chosen Sewer Commissioner.

Theodore T. Whitney, Jr., was chosen Water Commissioner.

Abijah W. Draper was chosen on Board of Health.

Peleg Bronsdon, George W. Higgins, Timothy McDermott, Maurice Pierce were chosen Constables.

Nathaniel T. Kidder, Alexander McAdie, Frederic M. Stone were chosen Trustees of Public Library.

J. Frank Pope was chosen Trustee of Cemetery for five years.

Percy E. Sheldon was chosen Trustee of Cemetery for one year.

Frederick D. Southard was chosen Tree Warden.

Albert D. Smith, Caroline E. Williams were chosen Overseers of Poor.

Robert F. Herrick was chosen Moderator.

ARTICLE 2. To vote "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" The polls will remain open until four o'clock in the afternoon, after which time a vote may be passed to close them in not less than ten minutes. In accordance with the By-Laws the meeting will then be adjourned until Saturday, March 11, next, at one-thirty o'clock P.M. to consider the following articles.

Voted, That no license be granted for the sale of intoxicating liquors in this Town. The vote being as follows: Yes 164. No 1,020. Blanks 252.

ADJOURNED MEETING, MARCH 11, 1916

ARTICLE 3. To choose all such Town officers as are not required by law to be chosen by ballot.

The following officers were elected *viva voce,* namely: George E. Burt, Arthur H. Tucker, Surveyors of Lumber; George Y. Badger, Malcolm A. LeFevre, Fence Viewers; Ralph E. Forbes, Bird Warden; Calvin H. Sanford, Pound Keeper.

Article 4. To hear and act upon the Auditors' report and reports of other Town officers and committees.

Voted, That the Auditors' (printed) Report be accepted and placed on file.

REPORTS OF COMMITTEES

Voted, That the printed report of the Committee of Seven in the Auditors' Report of 1915 be accepted and the committee discharged.

Voted, That the printed report of the Committee of School Buildings in the Auditors' Report of 1915 be accepted and the committee discharged.

Report of the Town Landing Committee

Milton, Mass., March 7, 1916.

Your Town Landing Committee, continued for one year at the Annual Meeting last March, organized with Mr. Russell as Chairman and Mr. Wigglesworth as Secretary.

There is a balance on hand of $749.12 which should be enough for the ensuing year. One electric light has been placed on the landing. The Milton Boat Club again occupied the old police station, paying the usual rent of $50 per year. In addition, the Club did quite a little work in keeping the premises in good order and in general proved a good tenant.

The committee is still trying to settle the question of what rights, if any, the Godfrey Coal Company possesses in the flats which form a part of the Town Landing and lie just south of the Coal Company's upper wharf. At the present time the Coal Company uses these flats when storing barges south of the wharf mentioned, and to a still greater degree when swinging these barges for the trip down stream. This practically makes more than one-half the frontage of the Town Landing on the river unavailable for any other use.

Respectfully submitted,
Edward F. W. Bartol,
James S. Russell,
Norton Wigglesworth,
E. C. Williams,
Horace B. Horne,
Town Landing Committee.

Report of the Municipal Gymnasium Committee

The Committee on the Municipal Gymnasium which was continued by vote of the Town at its last Annual Meeting, reports as follows:

Early in the year Mr. Nathaniel T. Kidder, our Chairman, resigned and Mr. James S. Russell was elected in his place. The vacancy on the committee caused by Mr. Kidder's resignation has not been filled.

In view of the recommendations of the School Building Committee, that the Town enlarge the Vose School and erect a school gymnasium attached thereto and, moreover, realizing that the welfare of the schools should take precedence over other issues, we do not at this time make any definite recommendations but would request that our committee be continued for further consideration of the municipal needs at the Brook Road Playground, that the committee have power to fill vacancies and to enlarge its number to five, and that it shall report to the Town at its next Annual Meeting in March, 1917.

Respectfully submitted,
James S. Russell,
W. Newton Harlow,
Reginald L. Robbins,
Jesse B. Baxter,
Municipal Gymnasium Committee.

Voted, That the report of the Committee on the Municipal Gymnasium be accepted and placed on file and the committee continued.

Voted, That the printed report of the Legislative Committee in the Auditors' Report of 1915 be accepted.

Report of Filter Committee

To the Citizens of Milton:—

At the last March Meeting the question was raised under Article 32 as to the advisability of constructing a

building to contain a filter connected with the Town Sewer for the disposal of cesspool and privy sewage in sections without sewer facilities.

At that time it was voted to refer the matter to a committee of three consisting of a member of the Board of Health, a member of the Board of Sewer Commissioners, and Dr. David L. Edsall.

This committee organized with Dr. A. W. Draper of the Board of Health, Mr. Charles G. Waitt of the Board of Sewer Commissioners, and Dr. David L. Edsall.

After careful investigation, the committee is unanimous in its opinion that the time has come when such a building is needed in the Town, and recommends that such a building be constructed.

The cost of such a structure, consisting of a building with concrete floors, screen chamber and screen, with water attachment and necessary sewer connection, would cost in the close vicinity of $2,000.

This estimate is based upon the cost of similar buildings erected for this purpose by other towns and cities near Boston.

Presumably a suitable location could be found for this building where the cost of the land would not be excessive.

Respectfully submitted,

A. W. Draper,
Charles G. Waitt,
David L. Edsall,
Filter Committee.

Article 5. To see what sum of money the Town will vote to appropriate for the support of the schools the present year.

Voted, To appropriate $93,000 for the support of the schools the present year.

Article 6. To see what sum of money the Town will vote to appropriate for the transportation of pupils the present year.

Voted, To appropriate $2,100 for the transportation of pupils the present year.

ARTICLE 7. To see what sum of money the Town will vote to appropriate for the medical inspection of the pupils of the public schools the present year, the same to be expended under the direction and at the discretion of the School Committee.

Voted, To appropriate $1,200 for the medical inspection of the pupils of the public schools the present year, the same to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. To see what sum of money the Town will vote to appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the present year.

Voted, To appropriate $100 to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the present year.

ARTICLE 9. To see if the Town will vote to acquire in fee by purchase under the authority of the Revised Laws, Chapter 42, a certain parcel of land for the enlargement of the Vose School lot bounded and described as follows:

> Southeasterly on Central Avenue two hundred twenty-five (225) feet; southwesterly on land now or formerly of Wood & Welsh, five hundred seventy-six (576) feet; northwesterly on land now or formerly of Breck by the center line of a brook, two hundred thirty (230) feet; northeasterly on land formerly of Leeds, now of the Town of Milton, six hundred fifty-three (653) feet, be all of said measurements more or less;

also to see if the Town will vote to erect upon said school lot as thus enlarged an addition to the Vose School building for the use of the High School, containing an assembly hall, class rooms, lecture and recitation rooms, a gymnasium, laboratories, etc., to be built substantially in accordance with the plans and specifications prepared by the Committee on School Buildings appointed under Article VII of the Warrant of the Annual Meeting of 1915; and will vote to equip and furnish the same; also to see if the Town will vote to appropriate money for the purchase of said land, the building of said addition and the equipment of the same, and determine how the money shall be raised.

Voted, That the Selectmen be and they hereby are

authorized and instructed to purchase for the Town the lot of land adjoining the present Vose School lot, bounded and described as follows:

> Southeasterly on Central Avenue two hundred and twenty-five (225) feet; southwesterly on land now or formerly of Wood & Welsh, five hundred and seventy-six (576) feet; northwesterly on land now or formerly of Breck by the center line of a brook two hundred and thirty (230) feet; northeasterly on land formerly of Leeds, now of the Town of Milton, six hundred and fifty-three (653) feet, be all of said measurements more or less.

That the members of the Committee on School Buildings appointed under Article VII of the Warrant of the Annual Meeting of 1915, namely, Percy E. Sheldon, Harris Kennedy, Reginald L. Robbins, Arthur B. Smith and Malcolm Donald, be and they are hereby appointed a committee with power to fill vacancies and with full authority, general and incidental, to erect on said Vose School lot as thus enlarged, an addition to the Vose School building for the use of the High School, containing an assembly hall, class rooms, lecture and recitation rooms, a gymnasium, laboratories, etc., substantially in accordance with the plans and specifications already prepared by said committee, and with full authority, general and incidental, to equip and furnish the same. Should the committee consider it impractical after obtaining competitive bids to carry out all the purposes above recited for the sum of $175,000, said committee may in its discretion modify said building plans. Said committee shall serve without remuneration.

For purchasing said lot of land, erecting said addition and equipping the same, the sum of one hundred and seventy-five thousand dollars ($175,000) is hereby raised

and appropriated. Said money shall be raised by the issuance of bonds of $1,000 each. The issue shall be dated May 1, 1916, and shall mature ten bonds on May 1 of each of the years 1917 to 1926, both inclusive; eight bonds on May 1 of each of the years 1927 to 1935, both inclusive, and three bonds on May 1, 1936. The bonds shall bear interest coupons at the rate of not exceeding four and one-half per cent (4½%) per annum, payable semi-annually. Each bond shall be subject to registration as to principal, and the bonds shall also, in compliance with the statutory provisions therefor, be exchangeable for registered certificates without coupons. The bonds shall not be obligatory without the authenticating certificate of the First National Bank of Boston. The bonds shall state upon their face that they are exempt from taxation in Massachusetts and be denominated on the face thereof: "Town of Milton High School Loan." The bonds may be sold from time to time under the direction of the Selectmen and the Town Treasurer as the moneys above appropriated are needed, but they shall not be sold less than par and interest. Premiums received upon such bonds, less the cost of preparing, issuing and marketing them, shall be applied to the payment of the principal of the first bond or bonds to mature. All other particulars relating to the form and sale of the bonds, except as prescribed by law, shall be determined by the Selectmen and the Town Treasurer. For the purpose of payment of principal and interest on said bonds as they become due, there shall be raised by taxation each year an amount sufficient to pay said principal and interest coming due each year until all of said bonds herein authorized be paid in full. (Passed by a two-thirds vote.)

Article 10. To see if the Town will vote to take in fee by purchase or otherwise under the authority of the Revised Laws, Chapter 25, for the

purpose of erecting therein a school building, the land on Thacher Street bounded and described as follows:

> Southwesterly by Thacher Street two hundred twenty-four and 89/100 (224.89) feet; northwesterly by land now or formerly of George E. and Waldo C. Burt, four hundred and 54/100 (400.54) feet; northeasterly by land of the Town of Milton, two hundred twenty-four and 89/100 (224.89) feet; and southwesterly by land of the Town of Milton, land now or late of Michael J. Kelly, land now or late of J. Frank Pope, and now or late of Harriet C. Shields, three hundred and seventy-six and 99/100 (376.99) feet, containing two acres, as shown on plan of land by W. W. Churchill, Surveyor, dated January, 1916, entitled "Plan of a Portion of Real Estate Located in Milton, Mass., belonging to George E. and Waldo C. Burt," a copy of which is on file with the School Committee.

And also to see if the Town will appropriate money for the same and determine how the money will be raised.

Voted, That this Article be indefinitely postponed.

Article 11. To see what sum of money the Town will vote to appropriate for installing sprinkler systems in the basements of the school buildings.

Voted, That this Article be indefinitely postponed.

Article 12. To see what sum of money the Town will vote to appropriate for the Street Department the present year.

Voted, To appropriate $30,300 plus the Excise Tax from the street railways for General Expenses,

$5,000 for Construction of Sidewalks.
$10,000 for Street Watering and Oiling.
$4,000 for Removal of Ice and Snow.

And it is further voted that the sum of fifty thousand dollars ($50,000) be and hereby is appropriated for the purpose of rebuilding a portion of the main thoroughfares of the Town, as recommended by the Highway Committee in its report dated December 31, 1915, said sum to be expended under the direction and control of a committee consisting of two (2) citizens appointed by

the moderator, and the three (3) members of the Board of Selectmen; the work to be done by contract or otherwise, as the said committee shall consider for the best interests of the Town.

Committee appointed: Sidney A. Parsons, Robert H. Hallowell.

ARTICLE 13. To see what sum of money the Town will vote for the care and maintenance of Granite Avenue Bridge over the Neponset River. (See Chapter 771, Acts of 1913.)

Voted, To appropriate $1,600 for the care and maintenance of Granite Avenue Bridge over the Neponset River.

ARTICLE 14. To see what sum of money the Town will vote to appropriate for street lighting the present year.

Voted, To appropriate $17,923 for street lighting the present year.

ARTICLE 15. To see what sum of money the Town will vote to appropriate for the Fire Department the present year.

Voted, To appropriate $24,770 for the Fire Department the present year.

ARTICLE 16. To see what sum of money the Town will vote to appropriate for the purchase of new hose for the Fire Department the present year.

Voted, To appropriate $350 for the purchase of new hose for the Fire Department the present year.

ARTICLE 17. To see what sum of money the Town will vote to appropriate toward the further motorization of the Fire Department the present year.

Voted, That the Committee on Motorization of the Fire Department, authorized by the Town Meeting of 1915, be continued for one year, and that the sum of seven thousand six hundred and fifty dollars ($7,650)

for further motorization of the said department be appropriated, and the further sum of two hundred dollars ($200) for the making of changes in the Central Fire Station in connection with said motorization be appropriated, both sums to be expended by the said committee, and that any money derived from the sale of apparatus may also be used for this purpose.

ARTICLE 18. To see if the Town will vote to increase the pay of the permanent members of the Fire Department including the Chief Engineer, and appropriate money for the same.

Voted, That the pay of the permanent members of the Fire Department, who have served three years or over be increased to $1,200 per year, and the Chief to $1,600 per year, and that the sum of $1,296 be appropriated.

ARTICLE 19. To see what sum of money the Town will vote to appropriate for the use of the Department of Wires, the Police and Fire Alarm Signal System, and Inspection of Wires, the present year.

Voted, To appropriate $1,190 for the Department of Wires, the Police and Fire Alarm Signal System, and the Inspection of Wires the present year.

ARTICLE 20. To see what sum of money the Town will vote to appropriate for the Police Department the present year.

Voted, To appropriate $33,245 for the Police Department the present year.

ARTICLE 21. To see if the Town will vote to purchase a Stanley Steamer Automobile for the use of the Police Department, and appropriate money for the same.

Voted, To appropriate $1,550 to purchase a Stanley Steamer Automobile for the use of the Police Department.

ARTICLE 22. To see what sum of money the Town will vote to appropriate to provide police protection during the day and night on the following streets, namely: Dyer Avenue, Warren Avenue, Dyer Road, Winthrop and Grove Streets, in the section known as Milton Park.

Voted, That this Article be indefinitely postponed.

ARTICLE 23. To see what sum of money the Town will vote to appropriate for the Public Library the present year.

Voted, To appropriate $10,000, together with all fines received at the Public Library for 1916 and the Dog Tax for 1915.

ARTICLE 24. To see what sum of money the Town will vote to appropriate for the improvement of the Cemetery the present year.

Voted, To appropriate $4,250 for the improvement of the Cemetery the present year.

ARTICLE 25. To see what sum of money the Town will vote to appropriate for the general uses of the Board of Park Commissioners the present year.

Voted, To appropriate $3,500 for the general uses of the Board of Park Commissioners the present year.

ARTICLE 26. To see what sum of money the Town will vote to appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect pests, injurious to trees, the present year.

Voted, To appropriate $1,800 and receipts of the department for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect pests, injurious to trees, the present year.

ARTICLE 27. To see what sum of money the Town will vote to appropriate to be expended by the Local Superintendent for the suppression of gypsy and brown-tail moths and the extermination of the gypsy and brown-tail moths the present year.

Voted, To appropriate $9,500, together with the receipts from all sources, to be expended by the Local Superintendent for the suppression of gypsy and brown-tail moths and the extermination of the gypsy and brown-tail moths the present year.

ARTICLE 28. To see what salary (if any) the Town will vote to pay the Tree Warden.

Voted, To pay no salary to the Tree Warden.

ARTICLE 29. To see what sum of money the Town will vote to appropriate for the support of the poor the present year.

Voted, To appropriate $7,000, together with the proceeds of the Town Farm and reimbursements from other cities and towns.

ARTICLE 30. To see what sum of money the Town will vote to appropriate for Soldiers' Relief the present year.

Voted, To appropriate $1,250 for Soldiers' Relief the present year.

ARTICLE 31. To see what sum of money the Town will vote to appropriate for State Aid the present year.

Voted, To appropriate $1,450 for State Aid the present year.

ARTICLE 32. To see what sum of money the Town will vote to appropriate for the maintenance of the Sewer Department the present year.

Voted, To appropriate $1,000 for the maintenance of the Sewer Department the present year.

ARTICLE 33. To see what sum of money the Town will vote to appropriate for the extension of the sewerage system the present year.

Voted, To appropriate $12,000 out of the sewer assessment account for the extension of the sewerage system the present year.

ARTICLE 34. To see what sum of money the Town will vote to appropriate for completing and filing records of the Sewer Department.

Voted, To appropriate $2,000 for completing and filing records of the Sewer Department.

ARTICLE 35. To see what sum of money the Town will vote to appropriate for the extension of water mains the present year.

Voted, To appropriate $2,500 for the extension of water mains the present year.

ARTICLE 36. To see what sum of money the Town will vote to appropriate for hydrant service the present year.

Voted, To appropriate $9,000 for hydrant service and the further sum of $500 for water service to public fountains the present year.

ARTICLE 37. To see if the Town will vote to purchase one heavy auto truck and one Ford auto truck for the use of the Water Department, and appropriate money for the same.

Voted, To purchase one heavy auto truck and one Ford auto truck for the use of the Water Department, and to appropriate $2,400 for the same.

ARTICLE 38. To see what sum of money the Town will vote to appropriate for the Health Department the present year.

Voted, To appropriate $4,000 plus the receipts of the department, and that this appropriation include the expense of inspection of sewer connections.

ARTICLE 39. To see what sum of money the Town will vote to appropriate for the collection of ashes and garbage the present year.

Voted, To appropriate $4,000 to be expended under the direction of the Board of Health for the collection of ashes and garbage during the present year from such places as said board in its discretion may designate.

ARTICLE 40. To see what sum of money the Town will vote to appropriate for salaries the present year.

Voted, To appropriate $10,800 for salaries for the present year, to be disbursed as follows:

Selectmen: Chairman, $700. Other members, $500 each.

Assessors: Chairman, $600. Other members, $500 each.

Treasurer, $1,500. Town Clerk, $500.

Collector of Taxes, $1,500. Auditors, $250 each.

Registrars of Voters: Clerk, $100. Other members, $50 each.

Inspector of Animals, $300.

Inspector of Buildings, $1,000.

Inspector of Milk, $300.

For Printing, $2,400.

For Insurance, $5,100.

ARTICLE 42. To see what sum of money the Town will vote to appropriate for the general uses of the Board of Assessors the present year.

Voted, To appropriate $800 for the general uses of the Board of Assessors the present year.

ARTICLE 43. To see if the Town will vote to authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer, when appointed Collector, may use.

Voted, That the Collector of Taxes be and hereby is

authorized to use all means of collecting taxes which the Town Treasurer, when appointed Collector, may use.

ARTICLE 44. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

Voted, To fix the rate of interest on taxes unpaid after November 1, 1916, at six per cent.

ARTICLE 45. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year ending December 31, 1916.

Voted, That the Town Treasurer with the approval of the Selectmen be and hereby is authorized to borrow to an amount not to exceed $250,000 in anticipation of the revenue of the financial year ending December 31, 1916, and to issue a note or notes therefor, payable within one year from the date thereof, any debt or debts incurred under this vote to be paid from the revenue of the financial year ending December 31, 1916.

ARTICLE 46. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money on and after January 1, 1917, in anticipation of the revenue of the financial year ending December 31, 1917.

Voted, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow on and after January 1, 1917, to an amount not to exceed $50,000 in anticipation of the revenue of the financial year ending December 31, 1917, and to issue a note or notes therefor; any debt or debts incurred under this vote to be paid from the revenue of the financial year ending December 31, 1917.

ARTICLE 47. To see if the Town will vote to appropriate the sum of two hundred and fifty dollars ($250) to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

Voted, To appropriate $250 to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ARTICLE 48. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before committees of the General Court.

Voted, That the Selectmen be and hereby are authorized to employ counsel to represent the Town at hearings before committees of the General Court.

ARTICLE 49. To see if the Town will vote authorizing the Moderator to appoint a committee of five citizens to consider such proceedings of the Legislature and of State boards and commissions as may affect the interests of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have the power to fill vacancies in its own number, and to report in print to the Town at the Town meeting next following the close of its term of office.

Voted, That the Moderator be and hereby is authorized to appoint a committee of five citizens to consider such proceedings of the Legislature and of State boards and commissions as may affect the interests of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have the power to fill vacancies in its own number, and to report in print to the Town at the Town Meeting next following the close of its term of office.

Committee appointed: Roger Wolcott, Guy A. Ham, Charles S. Pierce, Robert L. Raymond, G. Frank Kemp.

ARTICLE 50. To see what sum of money the Town will vote to appropriate towards the restoration of the Perpetual Care Fund.

Voted, That the sum of $2,000 be appropriated; that

such sum be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ARTICLE 51. To see what sum of money the Town will vote to appropriate for the retirement of teachers in the public schools under the provisions of Chapter 498, Acts of 1908, for the present year.

Voted, To appropriate $775 for the retirement of teachers in the public schools under the provisions of Chapter 498, Acts of 1908, for the present year.

ARTICLE 52. To see what sum of money the Town will vote to appropriate for the present year for the purpose of providing pensions for members of the Police and Fire Departments retired and placed upon the pension roll under the provisions of Chapter 327, Acts of 1904.

Voted, To appropriate $2,150.25 for the present year for the purpose of providing pensions for members of the Police and Fire Departments retired and placed upon the pension roll under the provisions of Chapter 327, Acts of 1904.

ARTICLE 53. To see what sum of money the Town will vote to appropriate for pensions for laborers under Chapter 503, Acts of 1912, for the present year.

Voted, To appropriate $1,451.75 for pensions for laborers under Chapter 503, Acts of 1912, for the present year.

ARTICLE 54. To see what sum of money the Town will vote to appropriate to pay awards of compensation for injuries under Chapter 807, of the Acts of 1913.

Voted, To appropriate $351 to pay awards of compensation for injuries under Chapter 807, of the Acts of 1913.

ARTICLE 55. To see what sum of money the Town will vote to appropriate to be expended by the Selectmen for a band concert and fireworks for the celebration of the Fourth Day of July.

Voted, To appropriate $300 to be expended by the Selectmen for a band concert and fireworks for the celebration of the Fourth Day of July.

ARTICLE 56. To see what action the Town will take toward continuing the improvement of Pine Tree Brook and appropriate money for the same.

Voted, That the balance of the appropriation made by the Town at its March Meeting of 1914 remain at the disposal of the Board of Sewer Commissioners for the purpose of the improvement of Pine Tree Brook.

ARTICLE 57. To see what action the Town will take toward continuing the improvement of the Town Landing, and what sum of money it will appropriate for the same.

Voted, That the Committee on the Town Landing, consisting of Edward F. W. Bartol, Horace B. Horne, James S. Russell, Norton Wigglesworth and Edward C. Williams, be continued for the ensuing year as a committee of five members, vacancies therein at any time to be filled by the remaining members of the committee, said committee on behalf of the Town to take charge and management of the property known as the Town Landing, consisting of upland and flats, with power to improve, alter or change the same, to make rules and regulations as to the use thereof by the public, to erect and maintain suitable and proper structures thereon, and to rent the same for terms expiring not later than March 1, 1917, to enter into agreements with owners of abutting lands relative to the use of said Town property, to protect and enforce the rights of the Town therein and prevent unlawful infringement of said rights, and to do all things necessary or proper in the premises, including the bringing of suits and employment of counsel, and that any unexpended balance from previous appropriations for said committee or receipts by it, and any sums

which may be received as rentals of said property during the ensuing year, be appropriated for the use of said committee; said committee to report in writing at the next Annual Town Meeting.

ARTICLE 58. To see if the Town will vote to authorize the Park Commissioners to take in fee by gift for public park purposes under authority of Revised Laws, Chapter 28, and Acts in amendment thereof and in addition thereto the land situated in said Town of Milton bounded and described as follows, to wit:

> All that part of certain premises conveyed by Catherine W. Faucon to Nellie S. Nickerson by deed dated May 17, 1915, recorded with Norfolk Deeds, Book 1311, Page 68, lying easterly of the following described line: commencing at a point on the northerly boundary line of the said premises conveyed by Faucon to Nickerson and 50 feet distant westerly from a stone monument at the high water mark of the Neponset River and thence running southerly through the said premises of said Nickerson on a straight line to the southerly boundary line of the premises of said Nickerson to a point 50 feet distant westerly from the high water mark of said river, subject to existing rights of way over said premises along said river front if any.

Voted, That the Park Commissioners be and hereby are authorized to take in fee by gift for public park purposes under authority of Revised Laws, Chapter 28, and Acts in amendment thereof and in addition thereto the land situated in said Town of Milton bounded and described as follows to wit:

> All that part of certain premises conveyed by Catherine W. Faucon to Nellie S. Nickerson by deed dated May 17, 1915, recorded with Norfolk Deeds, Book 1311, Page 68, lying easterly of the following described line: commencing at a point on the northerly boundary line of the said premises conveyed by Faucon to Nickerson and 50 feet distant westerly from a stone monument at the high water mark of the Neponset River and thence running southerly through the said premises of

said Nickerson on a straight line to the southerly boundary line of said premises of said Nickerson to a point 50 feet distant westerly from the high water mark of said river, subject to existing rights of way over said premises along said river front if any.

And that the thanks of the Town be extended to the donors.

ARTICLE 59. To see whether the Town will vote to amend Section 2 of Chapter 10 of the Revised By-Laws by adding thereto the following:

Provided, however, that this section shall not apply to the laying out of any Town way under the provisions of law authorizing the assessments of betterments, nor to the laying out of any Town way if the persons requesting said way shall deposit with the Selectmen a sum sufficient to cover the estimated cost of putting said way into such condition that it shall equal in construction the average construction of the existing highways of the Town of similar purpose and use, said deposit to be returned to the persons depositing it if the Town shall not accept said way.

Voted, To amend Section 2 of Chapter 10 of the Revised By-Laws by adding thereto the following:

Provided, however, that this section shall not apply to the laying out of any Town way under the provisions of law authorizing the assessments of betterments, nor to the laying out of any Town way if the persons requesting said way shall deposit with the Selectmen a sum sufficient to cover the estimated cost of putting said way into such condition that it shall equal in construction the average construction of the existing highways of the Town of similar purpose and use, said deposit to be returned to the persons depositing it if the Town shall not accept said way.

(The above amendment to the Revised By-Laws was disapproved by the Attorney General.)

ARTICLE 60. To see if the Town will vote to accept the provisions in its favor contained in the will of the late Edwin D. Wadsworth, and the real and personal estate devised and bequeathed thereunder, and to make provisions for the management of said property and to authorize conveyances and transfers thereof.

Voted, That the Town accept the provisions in the will of the late Edwin D. Wadsworth, and the real and personal property devised and bequeathed thereunder, and ratify and confirm the action of the Town Treasurer and Selectmen in the receipt and administration thereof; that the Selectmen and the Town Treasurer be appointed a committee to prepare and report to the Town not later than the next Annual Meeting a plan for the permanent management and control of said property; that until the Town shall vote otherwise, said property, both real and personal, shall remain in the custody of the Town Treasurer who shall collect the revenues accruing therefrom and who shall have authority, subject to the approval of the Selectmen, to expend sums of money out of such revenues for maintenance, repair, insurance, and other proper purposes in connection with the management of said estate, and subject to said approval to make in the name of the Town leases or conveyances of the whole or any portion thereof, to change investments of property real and personal, and execute conveyances and transfers thereof, and to do all other things necessary to preserve, manage and administer said property.

ARTICLE 61. To see what action the Town will take toward changing the location of the Blue Hill Street Railway Company tracks in Blue Hill Avenue and appropriate money for the same.

Voted, That this matter be referred to a committee of five consisting of the Selectmen and two citizens to be named by the Moderator, to investigate the entire situation as to the location of the Blue Hill Street Railway Company's tracks in Blue Hill Avenue, to determine the

legal rights of the Town in respect thereto, to determine further what steps the Town may take in order to remedy the existing situation and to report to the Town on or before its Annual Meeting in 1917; and that the sum of two hundred fifty dollars ($250) be appropriated for the use of said committee.

Committee appointed: W. Rodman Peabody, John A. Ewell.

Article 62. To see if the Town will vote to appropriate the sum of five hundred dollars ($500) for the construction of a sidewalk on Robbins Street, between Canton and Blue Hill Avenues.

Voted, That this Article be indefinitely postponed.

Article 63. To see what sum of money the Town will vote to appropriate toward the widening and reconstruction of the easterly side of Randolph Avenue from Tucker Hill to the Metropolitan Park Line.

Voted, That this Article be indefinitely postponed.

Article 64. To see what action the Town will take for improving the lighting at the Town Hall, and appropriate money for the same.

Voted, That this Article be indefinitely postponed.

Article 65. To see what action the Town will take toward raising and appropriating money for the George Washington Memorial Building, Washington, D. C.

Voted, That this Article be indefinitely postponed.

Article 66. To see if the Town will vote to accept Wharf Street, and the approach from Wharf Street to the Milton Depot, running from Adams Street to the boundary line of the property of the N. Y., N. H. & H. R.R. Co., a distance of about 365.55 feet more or less, as altered and laid out by the Selectmen, as a Town way.

Voted, To accept Wharf Street, and the approach from Wharf Street to the Milton Depot, running from Adams Street to the boundary line of the property of the N. Y., N. H. & H. R.R. Co., a distance of about 365.55 feet more

or less, as altered and laid out by the Selectmen, as a Town way.

ARTICLE 67. To see if the Town will vote to accept the proposed new street running northerly from Dyer Avenue to Kahler Avenue, as laid out by the Board of Selectmen, as a Town way.

Voted, That this Article be indefinitely postponed.

ARTICLE 68. To see if the Town will vote to erect four six-hundred-candle-power Mazda electric lights on Adams Street at the grade crossing in East Milton, and appropriate money for the maintenance of the same.

Voted, That four six-hundred-candle-power Mazda electric lights be erected on Adams Street at the grade crossing in East Milton, and $272.90 be appropriated.

ARTICLE 69. To see if the Town will vote to erect three electric lights on Belvoir Road, between Blue Hills Parkway and Blue Hill Avenue, and appropriate money for the same.

Voted, That the subject matter of Articles 69 to 81 inclusive be referred to the Selectmen with authority to erect lights at such places mentioned therein as they approve, and that the sum of $300 be appropriated for the purpose.

ARTICLE 70. To see if the Town will vote to erect two electric lights on the private way leading to the Milton Hill House, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 71. To see if the Town will vote to erect two electric lights on Breck Street and one on Clapp Street, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 72. To see if the Town will vote to erect two electric lights on Cantwell Road, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 73. To see if the Town will vote to erect one electric light on Clifton Road, near Reedsdale Road, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 74. To see if the Town will vote to erect three electric lights on Pagoda Street, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 75. To see if the Town will vote to erect three electric lights on that part of Hillside Street running easterly from the Town of Canton line to Metropolitan Park line, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 76. To see if the Town will vote to erect two electric lights on Mathaurs Street, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 77. To see if the Town will vote to erect three electric lights on Curtis Road, between Blue Hills Parkway and Eliot Street, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 78. To see if the Town will vote to erect two electric lights on Harold Street as follows: one light between Dyer Road and Warren Avenue, one light corner Harold Street and Dyer Road, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 79. To see if the Town will vote to erect one electric light on the corner of Dyer Road and Revere Street, and one on Revere Street between Dyer Road and Warren Avenue, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 80. To see if the Town will vote to erect one electric light on the corner of Grove Street and Dyer Road, and one light on Dyer Road between Grove and Revere Streets, and appropriate money for the same.

(See vote under Article 69.)

ARTICLE 81. To see if the Town will vote to erect one electric light on Oak Street, at or near the corner of Brook Road, and appropriate money for the same.

(See vote under Article 69.)

On its own initiative the Warrant Committee recommends that a committee of five (5) citizens be appointed by the Moderator for the purpose of considering and studying the question of the adoption of a system whereby certain departments of the Town may be consolidated and the active supervision of certain of the various affairs

of the Town may be under the general direction of a Town manager; said committee to make recommendations and report a plan in print to be distributed to the citizens of the Town on or before January 1, 1917.

Voted, To adopt the foregoing recommendation.

Committee appointed: Charles S. Pierce, William B. Thurber, Arthur H. Tucker, Theodore T. Whitney, Jr., Charles E. Rogerson.

And you are directed to warn said inhabitants qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling-houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton, the eleventh day of February, nineteen hundred and sixteen.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
GEORGE L. ANTHONY,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

MILTON, March 4, 1916.

Pursuant to the within Warrant I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place, and for the purpose therein mentioned, by posting attested copies of the same in the post-offices of the Town and leaving copies at the dwellings of the inhabitants.

PELEG BRONSDON,
Constable of Milton.

March 11, 1916, at 5 hours 22 minutes P.M., *Voted*, That the meeting be dissolved.

The foregoing meeting was opened at 5.45 o'clock A.M. by the Town Clerk (who proceeded to read the Warrant); upon the conclusion of the reading of the second Article it was moved that the further reading of the Warrant be dispensed with. Said motion being put was unanimously carried and the further reading of the Warrant (except the concluding paragraphs) was dispensed with.

At the meeting aforesaid the total number of ballots cast was 1,491, 55 ballots being cast by women voters for School Committee.

A true record.

Attest:

G. Frank Kemp
Town Clerk

Warrant Committee

The following citizens were appointed by the Moderator as a Warrant Committee for the ensuing year in accordance with Chapter 2 of the Revised By-Laws, viz.:

Arthur H. Weed, Stephen B. Ames, Edward F. W. Bartol, David J. Brown, Edward E. Ford, Guy A. Ham, William H. Hooper, Carl R. Horne, James M. Hoy, Edmond M. Poitevin, Carleton A. Row, Wayne M. Shipman, Bernard W. Trafford, Charles E. Whelan, Charles F. Williams.

Recount of Votes

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, ss.

MILTON, March 9, 1916.

At a meeting called and held at the Town Hall in said Milton on the above date, as per order of the Chairman of the Board of Registrars (a recount of votes cast at the Annual Town Meeting, held upon March 4, 1916, for Auditors, having been petitioned for by more than ten voters), said recount was held upon the above date with results as follows:

ERNEST E. JOBLING, three hundred and seven votes.

FREDERICK N. KRIM, six hundred and fifty votes.

ERNEST P. LIBBY, six hundred and thirty-five votes.

J. HERBERT RAYMOND, seven hundred and eighty-one votes.

BLANKS, four hundred and ninety-nine.

All the above votes after being counted were again sealed up and delivered to the Town Clerk.

Signed:

PATRICK F. MAHONEY,
EDWARD F. W. BARTOL,
G. FRANK KEMP,
Registrars of Voters.

PRESIDENTIAL PRIMARY

WARRANT

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton who are qualified to vote in Primaries to meet in the Town Hall in said Milton Tuesday, the twenty-fifth day of April, 1916, at 4 o'clock P.M., for the following purposes: To bring in their votes to the Primary officers for the election of candidates of political parties for the following offices: four Delegates-at-Large to the National Convention of the Republican Party; four Alternate Delegates-at-Large to the National Convention of the Republican Party; four Delegates-at-Large to the National Convention of the Democratic Party; four Alternate Delegates-at-Large to the National Convention of the Democratic Party; eight Delegates-at-Large to the National Convention of the Prohibition Party; eight Alternate Delegates-at-Large to the National Convention of the Prohibition Party; two District Delegates to the National Convention of the Republican Party, Fourteenth Congressional District; two Alternate District Delegates to the National Convention of the Republican Party, Fourteenth Congressional District; two District Delegates to the National Convention of the Democratic Party, Fourteenth Congressional District; two Alternate District Delegates to the National Convention of the Democratic Party, Fourteenth Congressional District; one District Delegate to the National Convention of the Prohibition Party,

Fourteenth Congressional District; one Alternate District Delegate to the National Convention of the Prohibition Party, Fourteenth Congressional District.

All the above candidates and officers are to be voted for upon one ballot. The polls will be open from 4 o'clock P.M. to 9 o'clock P.M. And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of the Warrant in each of the post-offices of said Milton at least fourteen days before the date of said meeting.

Hereof fail not and make due return of this Warrant, with your doings thereon, to the Town Clerk at or before the time of said meeting.

Given under our hands at Milton this seventh day of April, nineteen hundred and sixteen.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, ss.

MILTON, April 25, 1916.

Pursuant to the within Warrant I have notified the inhabitants of the Town of Milton as therein directed, to meet at the Town Hall in said Milton upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to a Warrant of which the foregoing is a copy, upon April 25, 1916, the following number of votes were given in for the several persons hereinafter named for the respective offices specified below, namely:

REPUBLICAN

Delegates-at-Large to the National Convention to nominate candidates for President and Vice-President of the United States

Albert J. Orem of Sharon, one vote.
John B. Lewis of Reading, one vote.
John M. Fisher of Attleboro, one vote.
Wilbur D. Moon of Lynn, one vote.

At the meeting aforesaid, the following appointments of Ballot Clerks and Tellers were made by the Selectmen to serve at said meeting, namely:

Ballot Clerks: George A. Lobban, Winthrop L. Knox, Republicans.

Thomas M. Lennon, Henry D. Mahoney, Democrats.

Tellers: Arthur W. Briggs, Clifton P. Lord, Prescott Skinner, William E. Leavitt, William A. Will, Leonard M. Bradlee, Walter A. Cheney, William H. McGee, Charles F. Thompson, Republicans.

Joseph A. Rein, Joseph F. Dalton, Edward Gallagher, Joseph J. Mullen, John H. Donovan, James C. Burke, Jr., William P. Melley, Democrats.

All of the above-named Ballot Clerks and Tellers being sworn by the Town Clerk before entering upon their duties.

At 9 o'clock P.M., *Voted*, To close the polls.

At 10 o'clock and 50 minutes P.M., *Voted*, That the meeting be dissolved.

A true record.

Attest:

G. Frank Kemp Jr.
Town Clerk

Number of ballots cast: Republican, 397; Democratic, 15; Prohibition, 1; Void, 5. Total, 418.

SEPTEMBER PRIMARY

WARRANT

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton on Tuesday, the twenty-sixth day of September next, at four o'clock in the afternoon, then and there to bring in their ballots to the primary officers for the nomination of candidates of political parties for the following offices of Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, Senator in Congress, all for this Commonwealth; Member of Congress for the Fourteenth Congressional District; Councillor for the Second Councillor District; Senator for the Norfolk Senatorial District; Representative in General Court for the Fourth Norfolk District; County Commissioner for the County of Norfolk; two Associate Commissioners for the County of Norfolk; District Attorney for the Southeastern District; Clerk of Courts for the County of Norfolk; Register of Deeds for the County of Norfolk; and for the election of the following officers: District Member of State Committee for each political party for the Norfolk Senatorial District; Members of the Democratic Town Committee; Members of the Republican Town Committee; Members of the Prohibition Town Committee; Delegates to the State Convention of Political Parties.

All the above candidates and officers are to be voted for upon one ballot.

The polls may be closed at 9 o'clock P.M.

And you are directed to warn the inhabitants qualified as aforesaid to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Milton at least fourteen days before the date of said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk at or before the time of said meeting.

Given under our hands at Milton this first day of September, nineteen hundred and sixteen.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, ss.

MILTON, September 26, 1916.

Pursuant to the within Warrant I have notified the inhabitants of the Town of Milton as therein directed, to meet at the Town Hall in said Milton upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

CHESTER W. FORD of Rockland, fifty-five votes.

For State Committee

JOHN C. DONNELLY of Walpole, sixty-six votes.

For Delegates to State Convention

JAMES G. MULLEN, seventy-six votes.
J. FRANK CURLEY, seventy-four votes.

For Town Committee

JAMES S. GALLAGHER, sixty-one votes.
JAMES G. MULLEN, sixty-six votes.
PATRICK F. MAHONEY, sixty-five votes.
J. FRANK CURLEY, sixty-four votes.
JAMES H. SHEA, sixty-two votes.
JOHN J. GALLAGHER, sixty-one votes.

At 9 o'clock and 10 minutes P.M., *Voted*, To close the polls. All of the above votes were duly sorted, counted, declared and recorded, sealed up in open meeting and delivered to the Town Clerk.

The following Ballot Clerks and Tellers were appointed by the Selectmen to serve at the foregoing meeting:

Ballot Clerks: Republican: Ralph Eaton, John A. Larrabee.

Democratic: Thomas M. Lennon, Henry D. Mahoney.

Tellers, Republican: Winthrop L. Knox, William H. McGee, Clarence L. Dutton, Prescott Skinner, Leonard M. Bradlee, Henry F. Brierly, Robert J. Duncan, Morton Swift, J. Arthur Spencer, Walter A. Cheney, E. J. Fairbank, Jr., Frank I. Jordan, J. Arthur Robson, Charles B. Abbott, Walter I. Marsden, Chester W. Currier, James P. Thurber, William A. Will, LeRoy G. Porter.

Democratic: Edward Gallagher, Joseph J. Mullen, William A. Haley, John H. Donovan, B. Sarsfield Quigley, Albert J. Eichorn, Martin J. Bannin, James C. Burke, Jr., Joseph F. Dalton, Patrick F. Healey, William A. Murray, William P. Melley, Peter A. Barry, Joseph H. Duffy, John M. Mullen, Edward Lee, James B. Harrington, James G. Mullen, William R. Pierce.

All of the above-named Ballot Clerks and Tellers were sworn by the Town Clerk.

Whole number of ballots cast, 919.

At 10 o'clock and 40 minutes P.M. September 26, 1916, *Voted*, That the meeting be dissolved.

A true record.

Attest:

G. Frank Stevens
Town Clerk

Town Clerk.

NOVEMBER MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, ss.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton on Tuesday, the seventh day of November next, it being the Tuesday after the first Monday in said November, at five forty-five in the forenoon, then and there to bring in their ballots for sixteen electors of President and Vice-President, Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, Senator in Congress, all of this Commonwealth; Member of Congress for the Fourteenth Congressional District; Councillor for the Second District; Senator for the Norfolk Senatorial District; Representative in General Court for the Fourth Norfolk District; County Commissioner for the County of Norfolk for the term of three years, and two Associate Commissioners; District Attorney for the Southeastern District; Clerk of Courts for the County of Norfolk; Register of Deeds for the County of Norfolk; also to see if the Town will vote to accept the provisions of the following Acts:

Chapter 98, General Acts of 1916, entitled "An Act to ascertain and carry out the will of the people relative to the calling and holding of constitutional conventions."

Chapter 104, General Acts of 1916, entitled "An Act to make the first day of January, known as New Year's Day, a legal holiday."

Chapter 179, General Acts of 1916, entitled "An Act to prevent the voters of one political party from voting in the primaries of another political party."

All to be voted for on one ballot.

The polls may be closed at 4 o'clock P.M.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Milton at least fourteen days before the date of said meeting, and leaving printed copies hereof at the dwelling-houses in said Milton at least four days before said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk at or before the time of said meeting.

Given under our hands at Milton this twentieth day of October, nineteen hundred and sixteen.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, ss.

MILTON, November 7, 1916.

ROBERT A. NUTTING of Brockton, eighteen votes.

BLANKS, two hundred and forty-one.

For Clerk of Courts (Norfolk County)

LOUIS A. COOK of Weymouth, ten hundred and ninety-two votes.

BLANKS, six hundred and thirty-eight.

For Register of Deeds (Norfolk County)

EDWARD L. BURDAKIN of Dedham, ten hundred and eighty-six votes.

BLANKS, six hundred and forty-four.

"Shall there be a convention to revise, alter or amend the constitution of the Commonwealth?" Yes, 682. No, 506. Blanks, 542.

"Shall an Act passed by the General Court in the year nineteen hundred and sixteen, to make the first day of January, known as New Year's Day, a legal holiday, be approved and become law?" Yes, 1,103. No, 284. Blanks, 343.

"Shall an Act passed by the General Court in the year nineteen hundred and sixteen, entitled 'An Act to prevent the voters of one political party from voting in the primaries of another political party' be approved and become law?" Yes, 764. No, 440. Blanks, 526.

At the meeting aforesaid the following appointments of Ballot Clerks and Tellers were made by the Selectmen, namely:

Ballot Clerks: Charles F. Thompson, John A. Larrabee, James Sangster, Republicans.

Joseph H. Duffy, Thomas M. Lennon, Henry D. Mahoney, Democrats.

Tellers: William A. Will, LeRoy G. Porter, J. Arthur Robson, Chester W. Currier, J. Arthur Spencer, Prescott Skinner, James P. Thurber, Thomas A. Anderson, William H. Hooper, Henry F. Brierly, D. Morton Swift, John T. Forde, Jr., Robert J. Duncan, Clyde Whittier, Republicans.

William A. Haley, John L. Kelley, Edward F. Lee, Daniel B. McDonald, Joseph J. Mullen, Edward Galagher, Charles O. Jordan, Albert J. Eichorn, Joseph F. Dalton, B. Sarsfield Quigley, James C. Burke, Jr., John H. Donovan, Patrick F. Healey, John M. Mullen, Peter A. Barry, Frank I. Jordan, Henry W. Walsh, Edward L. Corkery, Democrats.

All of the above named Ballot Clerks and Tellers were sworn by the Town Clerk before entering upon their duties.

At 4 o'clock P.M. *Voted,* To close the polls in ten minutes.

At 4 o'clock and 10 minutes, *Voted*, That the polls be closed.

At five o'clock P.M., *Voted*, To dissolve the meeting.

A true record.

Attest:

Whole number of ballots cast, 1,730.

Whole number of registered voters, November 1, 1916: Men, 1,927; Women, 641.

Fourth Norfolk Representative District

We the undersigned Town Clerks of the towns of Canton, Westwood and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify: That at an election duly held in said towns upon the seventh day of November, A.D. 1916, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For ELLSWORTH HUNTINGTON of Milton, one hundred and sixty-four votes.

For JAMES G. MULLEN of Milton, eight hundred and eighty-three votes.

For ROGER WOLCOTT of Milton, sixteen hundred and sixty-nine votes.

BLANKS, two hundred and twenty-four.

Given under our hands at Canton, this seventeenth day of November, A.D. 1916.

WALTER AMES,
W. W. BAKER,
G. FRANK KEMP,
Town Clerks of Canton, Westwood and Milton.

REPORT OF THE BLUE HILL AVENUE SPECIAL COMMITTEE

MILTON, MASS., February 3, 1917.

To the Citizens of Milton:

At the Annual Town Meeting, March 4, 1916, the following provision was made:

> "ARTICLE 61. To see what action the Town will take toward changing the location of the Blue Hill Street Railway Company tracks in Blue Hill Avenue and appropriate money for the same.
>
> *Voted,* That this matter be referred to a committee of five consisting of the Selectmen and two citizens to be named by the Moderator, to investigate the entire situation as to the location of the Blue Hill Street Railway Company's tracks in Blue Hill Avenue, to determine the legal rights of the Town in respect thereto, to determine further what steps the Town may take in order to remedy the existing situation and to report to the Town on or before its annual meeting in 1917; and that the sum of two hundred and fifty dollars ($250) be appropriated for the use of said committee."

The Moderator, Robert F. Herrick, appointed Messrs. John A. Ewell and W. Rodman Peabody to act with the Selectmen. Organizing with James S. Russell, Chairman, and James F. Mitchell, Secretary, a number of meetings have been held during the year.

After investigation it appears to your committee that the present location of the Blue Hill Street Railway

Company's tracks in Blue Hill Avenue is legal, although unsatisfactory to the Town; especially for a distance of about three-fifths of a mile through the thickly inhabited section from Cheever Street to the junction of Blue Hill Avenue and the Blue Hills Parkway. This is because the railway operates in a reserved space along the westerly side of the avenue and so shuts off all approach to property on that side. Not only this, but when both tracks are in use the cars on the inside one actually overhang the sidewalk.

The company was given this location some fifteen years ago in accordance with Chapter 121 of the Acts of 1895, which provides that street railways shall only be operated through Milton in reserved spaces and because Blue Hill Avenue being only sixty-six feet wide did not offer an opportunity for putting a double track reserved space in the middle of the road. Your committee approves of the principle of reserved spaces for street railways in Milton, but sees in this section of Blue Hill Avenue a proper case to make an exception, and therefore prepared and presented a bill to the Legislature doing away with the special restrictions of the 1895 act along the stretch of Blue Hill Avenue mentioned. This bill is as follows:

HOUSE . . . . No. 103

"Section 1. The Town of Milton may by a vote of the majority of its voters assembled and voting thereon in a Town Meeting called for the purpose revoke the reservation of a special reserved space for the use of street railways in that portion of Blue Hill Avenue which lies between the point of intersection of Blue Hill Avenue with the Blue Hills Parkway and a point on Blue Hill Avenue three hundred feet southwesterly of its intersection with the southerly side of Cheever

Street. Upon such revocation by the said Town the provisions of Chapter one hundred and twenty-one of the Acts of the year eighteen hundred and ninety-five shall not apply to that portion of Blue Hill Avenue which lies between said points. The question whether such reserved special space shall be revoked may be voted upon in an open Town Meeting and need not be placed upon the official ballot.

"Section 2. The revocation of the special space reserved for street railways in that portion of Blue Hill Avenue referred to in Section one hereof shall not affect the validity of the location heretofore granted therein to the Blue Hill Street Railway, but said location may be altered in accordance with the provisions of Section sixty-five of Part three of Chapter four hundred and sixty-three of the Acts of nineteen hundred and six and any acts in amendment thereof or in addition thereto.

"Section 3. This Act shall take effect upon its passage."

The Blue Hill Street Railway Company has not proved a financial success and objects to the proposed change of location on account of its attendant cost. At the State House hearing, January 28, before the Committee on Towns, about twenty Milton citizens appeared in favor of the bill. The only person to oppose it was A. Stuart Pratt, Vice-President of the Railway Company. The committee reported the bill favorably on the same day and it has since passed both Houses and been signed by the Governor.

You will find an article in the Warrant for the March Meeting under which the Town will vote whether it will

revoke so much of the reserved space for the use of street railways as lies in that part of Blue Hill Avenue between Cheever Street and Blue Hills Parkway. If the Town votes to discontinue the reserved space the present location of the railway will not be affected except to the extent that the Town may resurface that portion of the highway now occupied by the tracks which will be then open to public travel like the remainder of the road. Thereafter any interested persons may petition the Selectmen to alter the location of the street railway from the westerly side to the center of the highway. If the Selectmen direct the change of the location they may fix the terms upon which it shall be done, including the share of the cost to be borne by the railway and the Town. The action of the Selectmen will not become effective until it is approved by the Public Service Commission. The Street Railway has estimated the cost of this change of location to be approximately $10,000. The Edison Illuminating Company and the New England Telephone Company, who are joint owners with the Railway of the poles now situated near the center of the highway, have expressed their willingness to do their part of such work as may be necessary to transfer their wires to the side of the street without cost to the Town.

Respectfully submitted,

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
JOHN A. EWELL,
W. RODMAN PEABODY,
Selectmen.

REPORT OF THE LEGISLATIVE COMMITTEE

MILTON, MASS., January 1, 1917.

To the Citizens of Milton:

The undersigned, the committee appointed in accordance with the vote of the Town under Article 46 of the Warrant of March 6, 1915, has continued its work throughout the regular and special sessions of the Legislature of 1916, as suggested in our report of a year ago.

Two members of the committee have looked over all matters coming before the Legislature. The committee has read and considered one hundred and twenty-seven bills and reports which seemed as if they might affect the interests of the Town—favorably or otherwise. We have felt that the influence of the Town would be wasted if we advised representation in favor of or against all the numerous bills which affected the town only indirectly or as only one of the municipalities of the state, such as appropriation bills and the like, and we have therefore left representation on such matters to those more directly concerned, like the state commissions and the vigilant law department of the City of Boston—by far the largest municipal tax-payer.

We have advised the Selectmen that the Town should be represented in opposition to four bills, House numbers 739, 1,336, 1,464 and 1,495. We also advised that the hearing on House 970 should be attended and the bill watched on its passage through the Legislature. Mr. Reginald L. Robbins was appointed by the Selectmen to represent the Town at the hearings on the above bills.

House numbers 739, 1,336 and 1,495 all provided for state taxation and apportionment for the support of the public schools. Opposition was advised on the ground

that our public schools ought to continue peculiarly a local matter, controlled by the parents and tax-payers through the local school committees elected by them. We felt that state control of the schools could only work to the detriment of the pupils in a town like Milton, with its high standards and rate of expenditure. All three bills received adverse reports from the Committee on Education and all failed of passage.

House 1,464 provided that certain corporate franchise taxes now collected by the state and in part apportioned to the cities and towns should henceforth be retained by the state. Opposition was advised on the same grounds as to a similar bill in 1915, namely, that the state already had abundant sources of revenue and that revenue of the municipalities should not be further restricted. The bill was defeated.

House 970 sought in rather ambiguous language to change the price of the Metropolitan water service. We advised watching this bill as we suspected that a possible new draft or amendments to it might be detrimental to the Town. An adverse report on it, however, was promptly accepted.

After a second year of service we are more fully convinced that it is for the benefit of the Town to maintain a careful watch on all proposals for legislation, and we therefore recommend that the Town continue to have a legislative committee substantially according to the vote of last year.

ROGER WOLCOTT, *Chairman*,
GUY A. HAM,
CHARLES S. PIERCE,
ROBERT L. RAYMOND,
G. FRANK KEMP.

COMMITTEE ON MOTORIZING FIRE APPARATUS

MILTON, MASS., January, 25, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Committee on Motorizing Fire Apparatus, Town of Milton, begs to report as follows:

The Town voted in March, 1916, to expend $7,650 for further motorizing the fire apparatus of the Town and $200 additional thereto for alterations to the Central Fire House in order to take care of the motor apparatus.

The combination wagon and the hook and ladder truck having previously been motorized, the committee decided it was best to do away with the steamer in the Central Fire House and to purchase a motor pump engine in its place for this location. Bids were therefore called for, and after careful consideration on March 20 contract was given to the American La France Company for a six-cylinder motor-pump pumping engine to be delivered in ninety days.

This engine arrived at the Central Fire House on June 30. It was tested for pumping under service conditions for a continuous run during the afternoon of the same day before representatives of the New England Insurance Exchange and of the Milton Fire Department. It was also given a thorough road test over the worst hills in the town. Having filled all these tests satisfactorily it was thereupon accepted and has been in service ever since.

The receipts and disbursements of the committee since last report are as follows:

RECEIPTS

Balance from purchase of combination	$34 00	
March 1916 appropriation	7,850 00	
From sale of horses, wagons and other equipment	897 00	
Total receipts		$8,781 00

DISBURSEMENTS

Motor pump engine	$7,650 00	
Repair and alterations to fire house	1,091 51	
Total disbursements		8,741 51
Balance		$39 49

The service given by the motor apparatus has been even better than the committee anticipated. They are proving to be a great economy for the Town. It is therefore the committee's opinion that all fire apparatus should ultimately be motorized, but it is not recommended that further motorizing be done immediately.

Very respectfully,

MAURICE A. DUFFY, *Chairman*,
J. HARRY HOLMES, *Chief of Dept.*,
ARTHUR H. WEED,
E. B. HILL, *Secretary*.

REPORT OF THE COMMITTEE ON SCHOOL BUILDINGS

MILTON, MASS., January 2, 1917.

To the Citizens of Milton:

The contract for the addition to the Vose School, to adapt it for use as a High School building, was awarded to McGahey & O'Connor of Cambridge, Mass., in November. Work was started at once and aided by an exceptionally pleasant fall has progressed rapidly. At this writing the foundations and basement to the level of the first floor have been completed. The building should be ready for occupancy in September.

Your committee calls attention to the fact that the appropriation voted by the Town was $20,000 below the estimates. This reduction, together with the rapid increase in cost of labor and materials, necessitated the omission of certain features which were included in the original plans. The building now being constructed includes the laboratories and workshops, in fact, all those elements of our High School which require special fittings. It has been necessary, however, to cut out three school rooms at the end of one wing of the building, and to omit entirely the new Assembly Hall, which omission cuts out also the Lunch Room.

The committee was unanimously of the opinion that the High School needs were so great that the immediate construction of the building was warranted, and that it would have been a short-sighted policy not to have built at this time. The portions of the building actually under construction are as originally planned, and those portions which it has been necessary to omit can be added at any time. The retention of the old Assembly Hall, which

was to have been converted to other uses, and the leaving off of three school rooms, reduces the seating capacity of the building to the present immediate needs and leaves no room for growth. Ultimately, the entire building can be completed in accordance with the original plans.

Respectfully submitted,

PERCY E. SHELDON, *Chairman,*
HARRIS KENNEDY, *Secretary,*
A. B. SMITH,
MALCOLM DONALD,
REGINALD L. ROBBINS,
Committee.

REPORT OF THE EDWIN D. WADSWORTH FUND SPECIAL COMMITTEE

MILTON, MASS., December 28, 1916.

To the Citizens of Milton:

At the Annual Town Meeting, March 4, 1916, the following vote was passed under Article 60:

> "That the Town accept the provisions in its favor contained in the will of the late Edwin D. Wadsworth, and the real and personal property devised and bequeathed thereunder, and ratify and confirm the action of the Town Treasurer and Selectmen in the receipt and administration thereof; that the Selectmen and the Town Treasurer be appointed a committee to prepare and report to the Town not later than the next Annual Meeting a plan for the permanent management and control of said property; that until the Town shall vote otherwise, said property, both real and personal, shall remain in the custody of the Town Treasurer who shall collect the revenues accruing therefrom and who shall have authority, subject to the approval of the Selectmen, to expend sums of money out of such revenues for maintenance, repair, insurance, and other proper purposes in connection with the management of said estate, and subject to said approval to make in the name of the Town leases or conveyances of the whole or any portion thereof, to change investments of property real and personal, and execute conveyances and transfers

there, and do all other things necessary to preserve, manage and administer said property."

The Committee organized by choosing Mr. Holmes, Chairman and Treasurer, and Mr. Russell, Secretary, and has made various changes in the property held so as to make it more suitable for trust fund purposes, as follows:

SALES

				Valuation 1915
April	29.	1 share Boston Athenaeum	$385 00	$300 00
May	19.	Russell St. property to Helen S. Baker	8,000 00	5,300 00
July	13.	Randolph Ave. pasture to Margaret E. Reed	2,100 00	1,000 00
Aug.	19.	Mechanic St. property, East Milton, to William I. Powell	2,300 00	1,650 00
Nov.	8.	Quincy St. property, Quincy, to B. Del Monte	2,150 00	2,475 00
March	27.	B. S. Reed mortgage collected	800 00	
Nov. & Dec.		Hattie H. Wagner mortgages collected	6,500 00	

PURCHASES

July	19.	5—$1,000 Amer. Tel. & Tel. Collateral Trust 4% due July, 1929	$4,593 75
July	19.	1—$5,000 C. B. & Q. Nebraska Ex. Mtg. Sinking Fund 4% due May, 1927	4,906 25
Sept.	19.	1—$5,000 Chicago Junction & Union Stock Yds. Mtg. Collateral Trust Ref. 5% due April, 1940	5,068 75

On December 31, 1915, the fund amounted to $61,776.63. It now has a value of $67,264.76. Elsewhere in this volume you will find detailed statements of both capital and income accounts submitted by Mr. Holmes as Treasurer.

In accordance with the vote of the Town last March, your committee has considered plans for the permanent

management of the fund and has caused an article to be placed in the Warrant for the Annual Meeting next March embodying its ideas.* After consultation with a number of interested citizens and with Charles S. Pierce, former Town Counsel, and Lincoln Bryant, present Town Counsel, the committee is of the opinion that this fund can best be managed by a board of three trustees elected by the voters of the Town. To accomplish this satisfactorily legislation is necessary, and it will not be until the Annual Meeting of March, 1918, that such a Board of Trustees can be established. For the coming year, therefore, the management of the fund will continue to rest with the Town Treasurer and the Selectmen, as provided at the Annual Meeting March 4, 1916, in the vote recited near the beginning of this report.

Your committee feels that the property of the fund should be converted into safe securities suitable for trust funds and that the fund should be allowed to accumulate until the hospital requirements of the Town are more clear than at present.

Respectfully submitted,

J. Porter Holmes, *Town Treasurer,*
James S. Russell,
Maurice A. Duffy,
James F. Mitchell,
Selectmen.

December 28, 1916.

*Note:

Section 1. The town of Milton may at an Annual Meeting elect by ballot a Board of Trustees consisting of three persons, male or female, for the purpose of managing and controlling the property, real and personal, bequeathed and de-

vised to the town under the will of Edwin D. Wadsworth, late of said Milton, and of expending the same in accordance with the terms of said will and for the other purposes hereinafter specified. When such board is first chosen, one-third thereof shall be elected for one year, one-third for two years and one-third for three years, and thereafter one-third shall be elected annually for a term of three years; provided, however, that the Town may at any annual or special meeting called for the purpose increase the number of the board by an additional number, divisible by three, of persons, which number shall at the next annual meeting thereafter be elected one-third for one year, one-third for two years and one-third for three years, and thereafter one-third annually for a term of three years. The board shall, from its own number, annually choose a Chairman, Secretary and Treasurer, who shall give a bond similar to that given by the Town Treasurer, in an amount and with sureties to the satisfaction of the Selectmen. The board may appoint such other officers and agents as it thinks fit. Whenever a vacancy shall occur in said board by reason of the death, resignation or otherwise of members so elected, the remaining trustees shall fill the vacancy for the unexpired term.

Section 2. The board shall have the custody and management of said property and shall invest and reinvest the same and may add the income thereof to the principal and allow said property to accumulate until said property with any other funds and revenues received by the board shall in the opinion of the board be sufficient to establish and maintain a public hospital within the Town of Milton, and when said property funds and revenues in the custody and management of the board shall in the opinion of the board be sufficient for the purpose, or when the Town at an annual or special meeting called for the purpose shall direct the board to do so, the

board shall establish a public hospital in said Town to be maintained under rules and regulations from time to time made by the board, and may expend so much as may be necessary of the funds at any time in its custody and management in the purchase, in the name of the Town, of such real and personal property as may be necessary for the establishment and maintenance of the hospital, and the hospital together with all funds and other property owned by the Town relating thereto shall be in the custody and management of the board. The Town may appropriate and raise money for the establishment, support or maintenance of the hospital which shall be expended by the board, and may receive money or property by gift, devise or bequest for the hospital, which shall be administered by the board in accordance with the provisions of such gift, devise or bequest. Section 17 of Chapter 719 of the Acts of 1913 as amended shall apply to investments by the board.

Section 3. The board shall have power to manage, sell, lease, convey and transfer all real or personal property at any time in its custody, management or control, and may in the name and behalf of said Town execute, acknowledge and deliver all instruments necessary or proper to carry its powers into effect.

Section 4. Nothing in this act contained shall be construed to alter or impair any of the provisions of the will of said Edwin D. Wadsworth relating to said property given to the Town or the provisions of any gift, devise or bequest or vote whereby any other property shall come into the custody, management or control of the board.

Section 5. The board shall make an annual report to the Town of its receipts and expenditures and of the property in its custody with a statement of any unexpended balance of money and of any gifts or bequests which it holds in behalf of the Town.

Section 6. This Act shall take effect upon acceptance by the Town at any annual town meeting, and the Board of Trustees may be nominated upon the official ballot and elected at the same meeting wherein the Act is accepted; provided, however, that for the purpose of acceptance by the Town this Act shall take effect upon its passage.

VITAL STATISTICS

Registry of Births, Marriages, and Deaths, in 1916

BIRTHS

The whole number of births registered in 1916 (returned by physicians as by law required) was 134 (males 67; females 67), as follows:

DEPARTMENT REPORTS

REPORT OF THE SELECTMEN

MILTON, MASS., December 31, 1916.

To the Citizens of Milton:

The bonded debt of the Town is as follows:

Outstanding January 1, 1916	$307,000.00
Issued during 1916, High School Loan . .	175,000.00
	$482,000.00
Paid during 1916	27,000.00
Outstanding December 31, 1916 . .	$455,000.00
Also	
Note due November 15, 1917, being Milton's share of new bridge over the Neponset River on Granite Avenue	$ 7,512.62

EDWIN D. WADSWORTH FUND

Last year we referred to this as the Wadsworth Bequest, but the above appears to be the more accurate title.

At the Annual Meeting last March, Town Treasurer J. Porter Holmes and ourselves were made a Special Committee to take temporary charge of this fund. You will find the committee's report elsewhere in this volume.

WESTON BEQUEST

Both the $6,000 Hospital Fund left with the Massachusetts Hospital Life Insurance Company, and the $15,000 Poor Fund left with Francis C. Welch, Trustee, have been established and are now accumulating at about four per cent.

Weston Fountain

On June 23, 1916, we authorized certain changes in the fountain. This was done at the request of interested citizens and with the approval of the Milton Art Commission, being intended to improve the appearance of Mr. Weston's generous gift without impairing its usefulness.

Appointments

A list of our appointments appears early in this volume. Few changes were necessary.

Highway Department

Mr. Spates has continued his good work of last year.

At the Annual Meeting in March it was voted under Article 12 to appoint two citizens to act with us in spending the $50,000 for rebuilding main thoroughfares. Robert H. Hallowell and Sidney A. Parsons were named by Moderator Robert F. Herrick. Their assistance has been valuable and we hope they will be continued.

In June we raised the men from $2.25 to $2.50, single teams from $3.50 to $3.75 and double teams from $5.50 to $6; and in August included September in the Saturday half-holiday period, and recommended May also for next year. These increases cost the Town about $5,000, but seemed to us fair. Before granting them we, together with representatives from the Water Commissioners, Sewer Commissioners and Cemetery Trustees, held a conference with members of the Milton Town Employees Union No. 950.

Added costs of labor, teams and material have cut into results, as for instance, in the main thoroughfare work where the expense per mile has been almost $13,000 instead of the $12,000 figured by last year's Highway Committee.

To offset this general rise we are suggesting somewhat larger appropriations for the March Meeting. Mr. Spates's report gives full particulars regarding the work of the department.

Town Counsel

After many years of efficient service Charles S. Pierce has felt obliged to resign. June 16, 1916, we appointed Lincoln Bryant to fill the vacancy and have since benefited from his assistance on many subjects.

Legislative Counsel

Reginald L. Robbins was appointed to this important position, for which his experience as a former member of the House well qualifies him.

Fire and Police Departments

Motorization of the Fire Department has gone forward under a special committee of which our Mr. Duffy is Chairman. Its report is elsewhere in this volume. In other ways the department has had an average year, with Engineers Philip S. Dalton, James S. Gallagher and Harry J. Holmes in charge.

The work of the Police Department has been satisfactory under the efficient leadership of Superintendent Maurice Pierce and Deputy Superintendent Timothy McDermott.

Art Commission

June 23, 1916. Accepting Henry Forbes Bigelow's resignation with regret, we were fortunate in securing Philip Wadsworth for the unexpired term.

School Committee

November 10, 1916. Acting as a joint board with the School Committee, the vacancy caused by the resignation of Miss Hester Cunningham was filled by the appointment of Mrs. William W. Churchill.

Tree Warden

November 17, 1916. Ralph S. Carpenter was appointed for the unexpired term of Frederick D. Southard, resigned. Mr. Carpenter having proved his ability as Moth Superintendent, both departments are now in good hands.

Advisory Committee

On Moth, Tree Warden and Forest Warden work.

We desire to thank Messrs. W. L. W. Field, Charles M. Rogerson and Marcy L. Sperry for assisting both Mr. Carpenter and us.

Militiamen

December 5, 1916. The townspeople gave an enthusiastic welcome home to the thirty-six Milton members of the State Militia who had taken the federal oath and served on the Mexican border. The entire success of the occasion challenged the memory of the oldest inhabitant and was largely due to the efforts of the following committee appointed by us: Robert L. Raymond, Chairman, W. Rodman Peabody, Frank W. Cappers, W. R. Driver, Jr., Alexander Hobbs, Jacob S. Lincoln, Frank L. Richards, T. T. Whitney, Jr., Roger Wolcott. All expenses were met by public subscription.

Street Cars

Both the Bay State and the Blue Hill companies are going through hard times and our efforts to secure better

service are thus hampered. The increasing tendency to run freight cars is also a cause of annoyance to many of our citizens living close to the car lines. The situation is a difficult one to handle, as congestion on the steam railroads tends to throw business to the electric lines, and needy corporations seek all possible relief. We have made some progress, however, and shall continue until satisfied.

Perambulation of Boundaries

November 2, 1916. Together with a committee from the City Council of Boston we went over the line between Boston and Milton and found it properly marked.

Bowling Alleys

December 22, 1916. A license was granted to Frank H. Rudy of Auburndale to operate bowling alleys in East Milton. This being the first application for public alleys, we held an advertised hearing at which there was no opposition.

Granite Avenue, Not Willard Street

At our request, Lincoln Bryant, Town Counsel, has investigated the legal name for that piece of street running south southeast from Adams Street, just east of the railroad to the Quincy line, a distance of one-quarter mile. Mr. Bryant reports that the right name for this street is Granite Avenue and not Willard Street.

In General

During the past year capital has been abundant and rates of interest low, this state of things helping us with our temporary borrowing and in selling the High School bonds. General prosperity offsets heavy expenditures.

Such conditions are not perpetual, however, and with world affairs so much disturbed, together with the new tax laws in Massachusetts still untested, it behooves us in Milton to tread carefully.

The above report for the year ending December 31, 1916, is respectfully submitted.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen of Milton.

REPORT OF THE ART COMMISSIONERS

MILTON, MASS., February 7, 1917.

To the Selectmen of the Town of Milton:

GENTLEMEN:—The Art Commission of the Town of Milton begs to report as follows for the year 1916:

The Commission was called upon to pass upon the plans of the proposed addition to the Vose School, as submitted to them by Mr. Robbins of the School Committee, and on February 26 approved them in general.

On June 20 the Commission approved a suggestion contained in a letter from Mr. John Balch, referred to it by the Selectmen, to alter the fountain at the corner of Randolph Avenue and Adams Street.

Other than this, the Commission has not been requested to pass upon any municipal structure, work of art or ornament, as provided by law.

Very respectfully,

MILTON ART COMMISSION,
By
PHILIP WADSWORTH,
Chairman of Art Commission.

REPORT OF THE ASSESSORS OF TAXES FOR THE YEAR 1916

MILTON, MASS., January 5, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Assessors of Taxes of the Town of Milton herewith submit their annual report for the year 1916.

Weekly meetings were held in January and February for the transaction of such business as came before this board.

In March Mr. Herbert B. Tucker's term as a member of this board expired, and wishing to be relieved of his duties he decided, much to the regret of the other members of this board, not to be a candidate for re-election. Mr. Clarence Boylston was elected to fill his place.

The board organized as follows: William W. Churchill, Chairman; Charles H. Horne, Secretary; Wallace C. Tucker, Clerk.

During the month of April the board made the usual canvass of the Town for the listing of poll tax payers, women voters, and gathering such other information as is required.

Mr. Horne took the west district, which includes Mattapan; Mr. Boylston the central section of the Town, and Mr. Churchill the east section of the Town.

The first two weeks in May were devoted to viewing the new buildings and areas which have been recently subdivided. After May 15 we began the work of assessing the real estate and personal property, and held almost daily meetings through the latter part of May, June and part of July, until this work was completed. In September the tax rate was computed and declared to be $14.20

per thousand valuation, an increase of $1.70 over last year's rate; the raise is largely due to the increased Town appropriations, which we could not overcome in spite of a gross gain of about $3,000,000 taxable property and a net gain of about $1,500,000.

In October we held regularly Thursday evening meetings, as advertised, to listen to petitioners for abatements on their taxes and such daytime meetings as were necessary. In November and December weekly meetings were held largely to dispose of the abatement matters.

The meetings of the Board of Registrars of Voters held in February and October have been attended by at least one member of this board.

The Assessors report the population of the Town to be 8,933. Additional statistics are as follows:

Number of people liable to military duty	1,473
Total number of horses	489
Total number of cows	626
Total number of neat cattle other than cows	6
Total number of swine assessed	70
Total number of fowls assessed	2,745
Total value of fowls	$2,745
Total number of dogs	529
Total number of dwelling houses	1,876
Total number of acres assessed	6,219.4
The Town received in corporation and bank taxes,	$54,983.43

TAXES ASSESSED IN THE TOWN OF MILTON FOR THE YEAR 1916

Valuation of personal property, including resident bank tax	$19,989,444 00	
Valuation of real estate, including buildings	15,114,600 00	
Total valuation		$35,104,044 00
Tax rate $14.20 per thousand; total tax		498,477 42
Town tax	$373,338 08	
State tax	52,640 00	
County tax	25,036 76	
South Metropolitan sewer tax	20,839 61	

Metropolitan Park, including State Highway tax	$10,235 81	
Charles River Basin tax	3,532 60	
Metropolitan District Fire Prevention tax,	295 00	
Overlay	12,553 96	
Additional overlay	5 60	
2,364 poll taxes	4,728 00	
Local Town sewer tax	2,408 97	
Gypsy Moth tax	637 06	
Sidewalk assessments	97 77	
Non-resident bank tax	1,776 78	
Bay State St. Ry. Excise tax	2,267 63	
Blue Hill St. Ry. Excise tax	613 75	
Additional taxes in December	4,751 25	
Additional poll taxes (58)	116 00	
Additional Town sewer tax (Oct. 1, 1916),	9,119 07	
		$524,993 70

Respectfully submitted,

WM. W. CHURCHILL,
CHARLES H. HORNE,
CLARENCE BOYLSTON,
Assessors of Milton.

REPORT OF THE BIRD WARDEN

MILTON, MASS., January 2, 1917.

To the Citizens of the Town of Milton:

I beg to submit to you my report as Bird Warden for the year 1916.

As no appropriation was asked for or made by the Town for the purpose of bird protection, no expenses have been incurred, and there are no accounts to be submitted.

I have, during the year, made some study of the conditions of the bird-life throughout the Town and as a result I reached the conclusion that several species of birds during the past year were less numerous than usual, although it was possible to find a few individuals of almost all of the usual kinds to be found within the Town. In the summer months especially it was noticed by several observers that the birds were unusually scarce. I presume that this was partly due to the large amount of rain which we had during the usual breeding season which probably destroyed a great many nests and young birds. I believe that the pheasants especially suffered from the wet weather and raised very much smaller broods than during the previous years.

At the beginning of the nesting season I gave the Superintendent of Schools a number of notices which I asked to have posted in the schools and which I believe was done. This notice was a warning to the children against molesting the nests or young birds, and called their attention to the general protection of the birds by statute.

Some organized work was done in the spring months in the Brush Hill region, in the way of reducing the English

sparrows which are so numerous as to be a pest in many parts of the Town. This was accomplished through the efforts of the Brush Hill Bird Club, and I think gave satisfaction to many residents in that section. I am encouraging this club, and individuals, to continue in this work during the coming months, and hope that we shall secure the return of some native birds which seem to disappear when the English sparrow pest becomes too bad.

I do not recommend the expenditure of money by the Town for feeding stations, shelters, etc., as that is being carefully done by many private individuals who are interested and who take pleasure in giving it their personal attention, and who control much more suitable localities as a rule than any of the public grounds of the Town would prove for such a purpose.

Respectfully submitted,

RALPH E. FORBES,
Bird Warden.

REPORT OF TRUSTEES OF CEMETERY

MILTON, MASS., January 13, 1917.

To the Citizens of Milton:

The Trustees make the following report for 1916: The meeting to organize was held at the office of Thomas K. Cummins, Boston. Samuel Gannett was appointed Chairman, J. Frank Pope, Secretary and Treasurer, and Thomas W. Pond, Superintendent. The Trustees appointed Percy E. Sheldon to take the place of his father's unexpired term, and he was duly elected for a year to fill this term at the Town Meeting held on March 4, 1916.

105 interments were made during the year, 51 coming from out of Town. 23 lots were taken by citizens, 2 lots were sold to non-residents, 1 single grave sold, 2 lots regraded and seeded, 3 perpetual care lots regraded and re-seeded, 1 iron fence removed, 13 lots taken under perpetual care, 1 English ivy border planted, 9 graves planted to English ivy or myrtle, 26 foundations for monuments, 7 foundations for markers and headstones, 11 graves evergreened, 15 removals were made, 5 cords of wood sold, 12 corner posts set, 3 steps set, 34 lots laid out in 1914 were finished.

Besides the above work, we have taken care of the avenues and paths. Mr. Pond reports that excellent work has been done by the Moth Department.

We respectfully ask for $5,500.

SAMUEL GANNETT,
J. FRANK POPE,
C. MINOT WELD,
THOMAS K. CUMMINS,
PERCY E. SHELDON,
Trustees of Cemetery.
THOMAS W. POND,
Supt. of Cemetery.

ENGINEERS' REPORT

MILTON, MASS., January 1, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Board of Fire Engineers submits its report for the year 1916 as follows:

The board organized with J. Harry Holmes as Chief and James S. Gallagher as Clerk.

There have been 131 alarms, 28 of which were bell alarms. The department has answered 8 calls to Boston and 6 calls to Quincy. Boston has responded to 10 alarms in Milton.

The value of property at risk was $66,160. Total loss by fire $5,207.30. Insurance paid $4,332.30.

One permanent man has been pensioned and one permanent man appointed.

The department has laid 10,100 feet of hose, raised 914 feet of ladder, and used 1,357 gallons of chemical.

Permits have been issued as follows:

3 for fireworks, 43 for blasting, 58 for gasoline, 582 for out-of-door fires.

The apparatus of the department now consists of 1 Motor Ladder Truck with chemical tank attachment; 1 750-gallon capacity Motor Pump Engine; 1 Motor Combination Hose and Chemical Truck; totalling a cost to the Town of $19,450, all of which is housed in the Central Fire Station. The department also maintains horse-drawn combination hose and chemical apparatus at both East Milton and Brush Hill.

The Combination Motor Truck was delivered November 30, 1915, the Ladder Truck March 30, 1916, and the Motor Pump Engine June 30, 1916, all of the above apparatus being purchased from the American La France

Fire Engine Company. Ample time has elapsed to thoroughly test out the reliability of this motor apparatus and prove that it is most efficient in every particular and very economical to operate. In this connection a few figures will be of interest.

The combination hose and chemical in use one year travelled 240.7 miles at an operating cost of $59.95.

The ladder truck in use nine months travelled 97.3 miles at an operating cost of $40.84.

The pump engine in use six months travelled 71.3 miles, was used two hours steady at the trial of the pump and several times after at an operating cost of $50.61.

A number of the men at the Central Fire Station were sent to Elmira where the American La France Company have their factory, to perfect themselves in the construction and operation of the apparatus. As to further motorization for the houses at East Milton and Brush Hill, we believe that as a business proposition it is the most economical method of procedure.

By way of illustration it is interesting to note that in 1914 when all apparatus was horse drawn, it cost the Town for the maintenance of horses in the vicinity of $2,200. At present prices for hay, grain, straw, etc., together with shoeing, repairs and the necessity of a further purchase of a pair of horses, it would have been necessary for the board to have asked in the neighborhood of $4,200 for maintenance during the year 1917. As it is, we are asking for the maintenance of horses $1,000, and maintenance of automobile apparatus $500. This latter amount includes the maintenance of the Chief's car.

With the consolidation of the motor apparatus under one roof it became necessary to provide suitable quarters for those men who had previously occupied the old chemical house. By vote of the Town any surplus after the

purchase of motor apparatus, together with receipts from the sale of horses, etc., was available for reconstructing the Central Fire Station for the above purpose. This work was completed in September, the men moving to their new quarters, and the chemical house being turned over to the Selectmen for whatever disposition they saw fit.

The number of regular men in the department, including the Chief, is 15; number of call men 27; substitutes 5.

A petition has been presented to the board by the regular men for an increase in pay of 10 per cent, the request being based upon the general high cost of living. The board has a good deal of sympathy with the request, as it is based on an economic condition which is well known to everyone and recommends that the Town vote this increase.

Respectfully submitted,

J. Harry Holmes, *Chief*,
James S. Gallagher,
Philip S. Dalton.

REPORT OF THE BOARD OF HEALTH

MILTON, MASS., January 1, 1917.

To the Citizens of Milton:

The number of cases of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1916	1915	1914
Chicken Pox	36	27	27
Cerebro-Spinal Meningitis	0	0	1
Diphtheria	17	23	8
German Measles	10	2	1
Measles	35	362	7
Mumps	5	6	3
Ophthalmia Neonatorum	0	0	1
Scarlet Fever	45	29	52
Septic Sore Throat	0	47	5
Suppurative Conjunctivitis	0	2	0
Tuberculosis	8	16	9
Typhoid Fever	4	4	5
Whooping Cough	20	55	16
Anterior Poliomyelitis	11	0	0

The whole number of deaths recorded in 1916 is 115 (male 52, female 63), giving a death rate of 12.87 per thousand inhabitants.

	1916	1915	1914
Number of deaths	115	102	110
Rate per thousand	12.87	11.5	12.71

There seems to exist in Milton a feeling that although the Department of Health may be required by law, yet it remains more or less a "joke" or more often a "pest" if asked to get in line and "clean up" or abate a nuisance.

Therefore we wish to make this report a small enlighten-

ment upon a few of the duties of this department, that our citizens may know what they are receiving from the money invested.

One must realize that in a town the size of Milton, the Department of Health cannot be a police organ with its patroling forces constantly in touch with existing conditions throughout the Town; consequently we are more or less dependent upon the complaints from the citizens, such complaints being duly signed and not the more common anonymous type, where there seems to be a desire to have this department settle their private troubles and feuds.

We find invariably when receiving verbal complaints, and the complainant is asked, "If necessary would you so testify in court?" the answer will be an absolute refusal "what may be accomplished at court without evidence."

In all towns the Health Departments must differ from the other departments in that here one must deal with many problems arising instantaneously and unexpectedly; therefore we are unable to pursue a fixed line of campaign, for at any time we may be obliged to supervise and assume the expense of the epidemic type of disease.

Contagion

There are over ninety-seven physicians reporting diseases to this department from time to time, these reports being filed and duplicates forwarded at once to the State Department of Health.

The State requires the recording of the date of recovery or death of these cases, therefore in the case of children returning to school, there must exist a certificate signed by the attending physician and countersigned by this department to enable us to secure the required data.

The placarding and fumigation of houses is routine.

As Milton maintains no contagious hospital it is nec-

essary in many instances to provide transportation and care of patients at the proper hospitals, both to insure the proper care and quarantine of patient as well as protect the locality from which the patient is taken.

Milk

There is at this time an examination being made of milk from all new cows coming into the Town where milk is on sale. Also frequent examinations are made of all milk sold in Milton, whether produced within the Town or brought in for sale.

There is also a constant inspection of the local dairies with a careful score-card system used, which enables the department to determine the fitness for the granting of permits to produce or for the sale of milk in Milton.

Sewers

The department passes upon all sewer connection permits and issues a series of three permits besides recording same; also supervising the care of old cesspools and construction and location of new ones.

The department supervises the collection of ashes and garbage; care of dumps and location of same, all persons desirous of obtaining ashes being required to obtain a permit that we may be constantly in touch with any locality where there might be cause for complaint.

The issuing of burial permits and the supervision of Inspector of Slaughtering are under this department.

The above-named few from the many duties must establish the fact that this department is providing for Milton as much as any other unsalaried board appointed by the Town.

The time is fast coming when Milton will be obliged to assume the expense of maintaining a Tubercular

Dispensary; also the question of garbage disposal either by incineration or transportation to Boston and down the harbor. These two items alone will increase the expense of the Health Department greatly.

There has been during the past year the usual occurrence of contagious diseases and we feel that the fact we have been spared a real epidemic is in great part due to the maintenance of proper quarantine.

The Town is to be congratulated upon its escape from a serious invasion of Anterior Poliomyelitis, there being but eleven cases with two deaths; these occurring in a zone immediately adjoining Boston with its many victims.

The board feels that some decided action should be taken in regard to the Pine Tree Brook conditions as the adjoining sections are being rapidly built upon; this section being mostly unsewered and providing a soil most unsatisfactory for the function of cesspools.

In closing let us urge more real, true cooperation of all our citizens, either individually or through our clubs and societies, that there may be provided a more efficient Department of Health.

Carleton A. Rowe, M. D.
Abijah W. Draper, M. D. V.
J. S. Lincoln.

MILTON, MASS., January 30, 1917.

To the Board of Health:

GENTLEMEN:—I herewith submit my report for the year ending December 31, 1916.

I have collected 1,412 double loads of ashes, 521 loads of paper, and 163 carts of garbage.

Yours respectfully,

SAMUEL G. CRAIG.

MILTON, MASS., January 30, 1917.

To the Board of Health:

GENTLEMEN:—I herewith submit my report for the year ending December 31, 1916.

Six vaults, forty cesspools; and ninety loads from same.

Respectfully yours,

JOHN R. LAWRENCE.

REPORT OF THE INSPECTOR OF ANIMALS

MILTON, MASS., January 1, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my report as Inspector of Animals for the year ending December 31, 1916.

During the year I inspected 91 stables where cattle are kept and found them in good sanitary condition—ventilation, water supply, drainage, light, etc., meeting requirements of the Department of Animal Industry.

I gave a physical examination to 749 cows, 18 bulls, 215 swine and 46 sheep, all of which were free from tuberculosis or other contagious diseases. One cow was quarantined for tuberculosis, turned over to the Department of Animal Industry and later killed per order of same.

I examined also the cattle (amounting this year to about 11 carloads) coming into the Town from outside the State, and reported findings on same to the Department of Animal Industry.

Respectfully submitted,

JAMES SPENCER,
Inspector.

REPORT OF INSPECTOR OF BUILDINGS

MILTON, MASS., January 1, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my annual report for the year ending December 31, 1916.

There have been 232 applications made and permits issued for building and repairing. I have made 1,440 inspections. There have been 22 buildings examined for permits to move and 5 permits issued.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT

Months	Permits for Wooden Buildings	Permits for Stone, Cement and Brick Buildings	Valuation by Application
January	5	4	$26,650 00
February	4	1	14,625 00
March	16	2	44,475 00
April	13	5	51,765 00
May	15	11	106,245 00
June	19	6	43,618 00
July	14	6	49,182 00
August	13	8	24,095 00
September	10	7	21,975 00
October	21	2	51,344 00
November	18	12	78,848 00
December	12	8	237,025 00
	160	72	$749,847 00

Making the valuation as per applications $749,847.

Respectfully submitted,

G. E. BURT,
Inspector of Buildings.

REPORT OF THE INSPECTOR OF MILK

MILTON, MASS., January 1, 1917.

To the Honorable Board of Health:

GENTLEMEN:—I herewith submit the following report as Inspector of Milk for the year ending December 31, 1916. There have been forty licenses issued for the sale of milk and cream—sixteen to stores, twenty-four to wagons. Of these twenty-eight were to residents and twelve to non-residents. There have been one hundred sixty-four samples of milk and cream taken for chemical tests, and three hundred seventy-six samples for bacteriological examination.

Barns and dairies have been inspected as usual with good results.

Respectfully,

WALLACE C. TUCKER,

Inspector.

REPORT OF THE INSPECTOR OF PLUMBING

MILTON, MASS., January 1, 1917.

To the Board of Health:

GENTLEMEN:—I beg to submit the following report of the Department of Inspection of Plumbing for the year ending December 31, 1916.

One hundred ninety-two (192) permits for plumbing have been issued from this office during the year. The approximate valuation of this work, as stated in applications for the above permits, is seventy-one thousand seven hundred fifty-one dollars ($71,751).

While the number of permits issued was forty-two (42) less than in 1915, the valuation of the work was increased seventy-five hundred dollars ($7,500), making a large average increase in the cost of each piece of work. This increase was due partly to the installation of several large jobs and partly to the heavy advances in cost of materials.

Sixty-nine connections have been made with the Town sewers.

All new cesspools constructed have received particular care and attention, strong effort being made to see that they conform to your regulations. There is great difficulty, in many cases, in building cesspools that will be satisfactory in operation for any extended time, owing to poor leaching qualities of soil, insufficient area of house lots and low levels of land, but results for the year have been, on the whole, satisfactory. Extensions of the sewer system will gradually remove the troubles which inevitably arise from this source.

Thanking you for your co-operation, I am,

Respectfully,

LORENZO E. YOUNG,

Inspector of Plumbing.

REPORT OF THE INSPECTOR OF SLAUGHTERING

MILTON, MASS., January 1, 1917.

To the Board of Health:

GENTLEMEN:—As Inspector of Slaughtering I report that for the year ending December 31, 1916, I have examined and stamped sixty-four carcasses—fifty-one hogs and thirteen sheep.

Respectfully,

WALLACE C. TUCKER,

Inspector.

REPORT OF THE MOTH DEPARTMENT

MILTON, MASS., January 1, 1917.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Moth Department of this Town for the past year:

There seems to exist throughout the Town such a general lack of understanding of the Moth Department and its work that it seems well at this time to offer a brief explanation.

About ten or twelve years ago the gypsy moth and later the brown-tail moth appeared in Milton. Their ravages occur in the spring of the year when the moths, then in their caterpillar state, feed upon the new leaves of the trees. Left to themselves they strip the trees of every leaf and thus in the course of two or three years would kill every tree so stripped. It was at once apparent that we must move to save our trees and the work of suppression was begun and has continued without cessation to the present time. In spite of this effort the gypsy moths have increased steadily and tremendously. This is not only Milton's experience, but that of every locality where they exist. The idea of extermination has long since been abandoned and all that is now expected is, that the insects be held in check until, perhaps, nature produces some counteracting force, or man devises something more effective than anything yet discovered.

The brown-tail moth at one time bade fair to be quite as destructive as the gypsy moth, but this variety has for the past few years been less numerous and it is to be hoped has struck its natural level. The gypsy moth, however, still flourishes, although this winter we find

fewer nests than for several years. This is probably but a temporary and local condition.

Various methods of suppression have been employed with indifferent success and abandoned, until three remain in general use to-day. They consist of creosoting the egg clusters in the winter and early spring, spraying of the foliage with arsenate of lead in solution in the late spring and early summer, and cutting of brush and thinning of badly infested areas in the summer and fall. Of these the most effective is spraying.

The past year we had an unusual seasonal condition in the cold rainy weather in May. The moths normally hatch the second week of May, but this year were more than two weeks later. It is a law of nature, however, that natural growth thus retarded will make up the time lost and mature nearly on time. It was necessary, therefore, to do the work, which our equipment usually required about seven weeks to accomplish, in five weeks. The men responded to the emergency and it was done and I believe the foliage of the Town was maintained in a creditable condition. There were very few cases of stripping of foliage and those were of small extent. The cemetery was in particularly bad condition and required spraying several times in addition to an extensive creosoting. The results are gratifying, however, there being fewer egg clusters this winter than for many years.

The rainy weather which we experienced during the whole spraying season was a hindrance, not only losing to us much time, but in several instances it undid our work by washing off new spray. This was a financial loss but could not be avoided. The dampness, however, was an aid in developing the so-called "wilt disease" which in some sections was plainly shown. It seems to be, however, of only limited value and undependable, requiring peculiar conditions. Our spraying season was on the

whole satisfactory and has resulted in a decrease in the number of egg clusters. Arthur O. Allen, the Field Superintendent, appointed this year, employed several new and original ideas and is, I feel, to be commended on his technical knowledge of the work and his systematic and tireless effort.

It was plainly demonstrated that we needed supplementary equipment. The work of spraying must all be done during the period when the caterpillars are feeding upon the leaves, and if done when the insects are young is vastly more effective than when they are reaching maturity. Milton is a large town and it was found difficult to cover it effectively, relying wholly upon horse-drawn machines. We believed it wise, therefore, to buy one small sprayer, which could be transported quickly by automobile. Such an outfit could do much of the work now being done by the four large horse-drawn machines and at much less cost.

It is unduly expensive to spray, with a large high-power sprayer and a gang of five men, trees which could be handled by two men and small machine. We consequently bought a one-ton "Kissel" truck especially constructed and a four horse-power, two-hundred-gallon sprayer. The truck was delivered in December, and will be used to good advantage for other work this winter. It should show us a saving for the future and make possible more effective work.

We have also done considerable work repairing, replenishing and housing our equipment. It was apparent during the spraying season that all our sprayers were in bad condition and needed rebuilding. This we had done at the close of the season. We plan to keep up the repairs on these machines in the future so that this large expense at one time may not again be necessary. The sprayers had formerly been housed in an open shed at the Town

farm, the spraying hose had been kept at the old fire house at Blue Hill, which was out of repair and unsafe from fire, and the ladders had been stored out of doors. It did not seem advisable to continue this plan, if it were possible to house all the equipment in the moth building on the Town lot. The building as originally constructed was divided with posts and partitions and would house but a part of the equipment. We have removed the partitions and posts and built a twenty-foot addition containing racks for ladders and hose and space for general storage. As a result we have been able to house in the building all of the equipment and tools of the department. We also felt the need of a place for storing oils, tar, creosote and other inflammables. We consequently moved and repaired for this purpose a small building which the department owned and to it have moved all inflammables stored in the main building, as well as those which previously had been left out of doors. We also acquired fire extinguishers and sand buckets, and have, we believe, much reduced the fire risk. Furthermore, we have now concentrated all of the property of the department so that it can be well cared for. Anticipating a large increase in the price of hose, we have recently purchased the necessary supply for next year.

Immediately following the spraying season we cut brush and undesirable growth in all sections of the Town. Not having the Tree Warden's work which is customarily done at this time of year, we continued "brushing" all summer and covered ninety-three acres and five miles of road. This is a decided advantage to the moth work and was advised by the State District Inspector. It has meant an unusual expense, but the funds have been sufficient.

We have also installed a motor with grindstone and emery wheels for sharpening tools. This will be a time

saver and hence an economy. Our outfit of tools has also been replenished.

Early in the year we raised the pay of the men to a wage schedule which compares favorably with pay of men for similar work in this vicinity. We have received more and better work, however, so that the benefit has been mutual. There was almost no careless spraying, which in the past has been the source of much annoyance and complaint besides being very costly.

We made application for State reimbursement, as provided for by law, but had some difficulty owing to the fact that it has not been applied for for several years and it was claimed it established a precedent for refusing it. We succeeded, however, in obtaining it.

The work for the coming year will probably mean covering about the same amount of territory as last with creosoting and spraying. There are several tracts which show an improvement which will make necessary much less thorough work, but there are others which will need more attention. We should do further "brushing" in addition to going over again the territory just covered. This second cutting can be done at small expense and should be done each year to maintain the good already effected. There will, however, for next year be almost no expense aside from labor and materials. This past year has been an unusual one in the purchase of permanent equipment, including a Ford car besides those already mentioned. There should be, however, little of such expense for several years unless something unforeseen occurs. The appropriation necessary, however, for next year will depend upon the price of arsenate of lead on the State contract not yet signed. If the price expected prevails it will mean an expense of several thousand dollars more for this one item than last year. It is our desire, however, to give proper attention to the trees of

our Town at the least possible expense, but we trust that our citizens will not underestimate its importance. The fact that we make special effort to keep free from bad infestation those trees in sight, often, I fear, leads the uninformed to think that the moth question is much exaggerated. It is a fact, however, that a single year of neglect would result in a distressing condition of our Town.

I wish to express my appreciation and thanks to the Advisory Committee appointed for this past year for their interest and opinions. While there have been few consultations, their views, when sought, have been of value.

To further acquaint the citizens of the Town with the details of this work, I am annexing as Appendix A an inventory of the equipment as replenished and repaired; Appendix B, the work accomplished by the department. This I am sure will compare favorably with the work done in former years were such data available. Appendix C, a financial statement of the receipts and expenditures of the department. The unusual amount of repairs and new equipment which has been necessary to obtain efficiency will be noted. Appendix D, a statement of the cost of operating the Ford car, not allowing, however, for depreciation. I leave this item out that the figures may be comparable with previous cost for this service.

APPENDIX A

Inventory of Property of the Moth and Tree Warden's Department

4 2-horse spraying machines at $1,250.00 each	$5,000 00
1 1-horse spraying machine	150 00
1 motor car spraying machine	250 00
2 50-gallon barrel sprayers at $15.00 each	30 00
1 1-ton motor truck	1,430 45
1 Ford car (with express body)	450 00
Tools of all kinds (including field supplies)	612 43
Spraying hose	594 00
Building and equipment (including stationary devices)	2,203 05
Total	$10,719 93

APPENDIX B

Work Accomplished

Area sprayed	1,788 acres
	88 miles of road
Area creosoted	1,092 acres
	88 miles of road
Area cleared of brush and dead trees	93 acres
	5 miles of road
Area of private property on which trees were trimmed,	55 acres

APPENDIX C

Financial Statement

Appropriation		$9,500 00	
Received from tax assessments		945 01	
Received from State of Massachusetts		1,839 43	
Received from private work		4,935 16	
Total receipts			$17,219 60
Cost of spraying		$5,899 48	
Cost of creosoting		3,936 47	
Cost of clearing brush and dead trees and trimming		2,627 96	
Repairs, new equipment and stock on hand:			
Building improvement	$416 10

REPORT OF THE PARK COMMISSIONERS

MILTON, MASS., December 30,1916.

To the Citizens of the Town of Milton:—

In accordance with the vote of the Town, our board has taken in fee, by gift for public park purposes, a strip of land adjoining the Neponset River, known as the "Faucon Lot." Several public-spirited citizens gave to the Park Commissioners $623.50 to spend on this lot in such manner as seemed advisable to us. We planned to use this fund for public bathing, but after receiving a report from the Public Health Department that the pollution of the river at this point was ten times greater than that of any other waters used for swimming in the Metropolitan District, we decided to wait until the sanitary conditions had improved.

Crane Field, Hollingsworth Field, and the East Milton Playground have needed no special attention during the year, except that at the East Milton Playground (also at Town Field) quite a little clearing of brush and moth work was done. The Street Department has taken 653 loads of sand and gravel from the East Milton Pit.

There has been a large attendance at the Brook Road Playground this year, especially of the smaller children. During July and August an accurate count was taken twice daily (except Saturdays) with an average weekly attendance of one thousand.

Tennis has been more popular than ever, and the time has arrived when the temporary experimental clay courts built in 1914 should be improved and made substantial and permanent.

With the completion of the New High School Building the activities at the Brook Road Playground will be

greatly increased. Using the new physical department for dressing and bathing purposes, the High School teams will use Town Field for baseball, track events, soccer, football, field hockey, etc. We believe that a cinder running track is much needed, and that it should be built next spring, so that it will be in good condition in the fall, when the new High School opens.

The report of Mr. Martin W. Souders, our new Physical Director, is appended hereto, and gives more in detail the activities at the playground during the year.

In asking for an increase in our appropriation for 1917, we again wish to bring to your attention that at present the Director and his Assistant are engaged by the Park Commission, and that their entire salaries are paid out of our appropriation, although for three-fourths of the year they act as directors of Physical Education in the Public Schools. Our appropriation for 1916 was $3,500; the salaries paid from this appropriation to the Director and his Assistant were $2,459.32, of which $1,844.49 was paid while they were engaged in school work, and $614.83 while at the playground; consequently the entire amount of the appropriation of $3,500 available for direct use by the Park Commissioners was $1,655.51.

Our recommendations are:

General Appropriation (includes running track and new tennis courts)	$5,000
Park Commission and School Committee . .	100

J. Sumner Draper,
Malcolm Donald,
Bernard W. Trafford,
Park Commissioners of the Town of Milton.

PLAYGROUND REPORT

Season of 1916

MILTON, MASS., December 30, 1916.

To the Park Commissioners:

GENTLEMEN:—I respectfully submit the following report on the playground work at Town Field for the year ending November 30, 1916.

The regular playground activities started July 1. The tennis courts had been opened earlier and were used during a part of June. Good attendance started the first week. The children had a vacation between the school session and July 1, and were eager for organization and playground sports.

NEW EQUIPMENT

Eight swings and six see-saws were purchased in 1915 from the Narragansett Machine Company of Providence and were set up on the playground the first week of July for use. The frames of this equipment are made entirely of steel pipe and the rest of the material is constructed for permanent hard use. The swings and see-saws have proven very popular for both the younger and older boys and girls. The value of such equipment cannot be estimated in dollars and cents.

The basket-ball goals, which were in an out-of-the-way place, were taken down, repaired and erected near the center of activities. Basket-ball, which had been played very little before, became very popular with a little coaching, and was one of the favorite games with the older boys and girls.

The vacant space that was not used on the tennis courts

was put in condition and a single court installed. This court, with the growing popularity of tennis, was especially in demand and the younger players got much benefit from its use.

Baseball outfits were bought for the juniors and seniors, and the national game received its share of the time.

For the fall activities football and soccer ball were added; goal posts were erected for these sports.

Industrial work for the girls consisted of sewing. Materials for this work were purchased.

Attendance

The success of a playground in any community is largely determined by the attendance. If the activities are interesting and the environment good, the children will come. The attendance this year has shown a large increase over last season, especially of the smaller boys and girls. When a playground is successful in drawing the children from the streets and keeping them busily employed in good clean recreation and sports, we feel this work should have a permanent and important place in Milton.

The attendance was taken at ten o'clock in the morning and three-thirty o'clock in the afternoon. These figures were added together for the day's attendance. The work for the children closed at twelve o'clock Saturday noon.

The attendance for each week was as follows:

Week ending July 8	1,000
Week ending July 15	1,075
Week ending July 22	1,785
Week ending July 29	1,170
Week ending Aug. 5	1,210
Week ending Aug. 12	700

Week ending Aug. 19	1,010
Week ending Aug. 26	1,400
Week ending Sept. 3	950
Total	9,300

After the first of September most of the time was given to the older children, as Miss Whiting had gone on her vacation and on account of the paralysis situation. During this time and until school started October 2, no attendance was taken but large numbers came daily for the sports. The above attendance does not include the Saturday afternoon ball games by the men.

Program

The schedule of the day's program was not fixed, but could be changed according to weather conditions, special work to be done, etc.

The program for general use was as follows:

9 to 9.30 A.M. Getting ground in order.
9.30 to 10 A.M. Free play.
10 to 11.30 A.M. Active games — baseball, basket-ball, soccer, volley ball, captain ball, german bat ball, tennis, etc.
11.30 to 12M. Rest period; apparatus.
1 to 2 P.M. Free play.
2 to 3 P.M. Story hour, sewing, bean bags for the girls; baseball, track, and quoits for the boys.
3 to 3.30 P.M. Shower baths.
3.30 to 5 P.M. Group games.

One afternoon each week was set aside for hikes and outings.

Hikes and Outings

The following are the hikes and outings taken during July and August:

July 13. Twenty-five boys walked to Houghton's Pond in the Blue Hills. Took their dinners. Swimming was the chief sport.

July 18. Forty girls walked to Houghton's Pond. Took their dinners. Went swimming and boating.

July 17. Twenty boys hiked to Houghton's Pond for an afternoon's swim.

July 25. Fifteen boys went to Brookline for sports with Heath Playground.

July 27. All day picnic to Castle Island for boys and girls. One hundred took the trip. Dinner and entertainment was furnished free by the Randidge Excursion Fund. Many went in bathing at City Point in the afternoon. All went through the fish aquarium.

August 3. Sixty-five boys and girls went to a morning show at Bijou Dream Theatre. Free admission was given by the management. Picnic dinner in Boston Public Gardens. Spent afternoon boating and going through the State House.

August 8. Eighty-eight boys went in a special car to Braves Field to see Braves and Pittsburg play. It was greater Boston day for playgrounds and several hundred boys were there from other towns. Rain caused the game to be postponed.

August 11. Girls hiked to Wollaston Beach and boys went to Braves Field to see Pittsburg and Braves play a double header. The boys saw two good exhibitions of the National game.

August 17. Forty boys and girls hiked to Wollaston for bathing and sports on the beach.

August 30. Ninety children were taken to Keith's Theatre, Boston. An overnight hike was planned for the boys but did not materialize.

Competitive Sports

Games were arranged and played with Brookline and East Milton teams. The competitive sports are given a prominent place in the program with the idea of teaching the children clean sport and fair play. During the fall a soccer league was formed between the Tucker, Vose and Belcher schools. The games were played each week on Town Field and at Cunningham Gymnasium. Football and basket-ball have been the chief sports during October and November.

Tennis

Tennis has been very popular at Town Field during the playing season. The courts have been used to their limit. The playing time for each person had to be shortened and the courts kept open till dark. The courts were given over to the children in the mornings; to the older players in the afternoons, and reserved for business men and women from five o'clock until dark.

During the season three tournaments were held. There were sixteen entries for the men's singles and doubles tournament. The medals for the winners were given by citizens. Twenty-four boys under sixteen years of age played in a singles tournament. A racket was given the victor. A set of tennis balls was given the winner of a tournament in which fourteen girls played.

With the large number of girls and boys becoming interested in tennis, four courts will be altogether too few in a few years.

Play Festival and Field Meet

A play festival and field meet was planned for August 26 to mark the climax of the summer season. There were to have been sports for children of all ages, an exhibition of playground games, and the final matches in

the tennis tournament. Prizes were to be given winners of events. Two hundred boys and girls were entered. On account of the infantile paralysis in Milton, the program was cancelled. The sports that were arranged were held in small groups during the two following weeks and prizes awarded.

Sewing

Sewing was the only industrial work given much time on the playground, on account of the gardening, manual training and millinery taught in the summer school sessions. Embroidery, crocheting and plain sewing were taught. An exhibition was held at the end of the summer and prizes awarded for the best work.

Baths

The shower baths were fully appreciated by the boys during the hot days. The bathing period was divided for small and large boys. An average of thirty boys took baths each day through July and August.

The last week in October all of the apparatus was painted and put away for the winter. The field house was painted and an inventory made of equipment on hand.

Respectfully submitted,

Martin W. Souders,

Director.

POLICE DEPARTMENT

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1916.

Superintendent.—Maurice Pierce.
Deputy Superintendent.—Timothy McDermott.

Officers off duty and reporting at fires	21

Residences temporarily unoccupied and special attention requested	156
Stray animals found	17
Stray teams found	2
Street obstructions removed	19
Stolen automobiles found	3
Water running to waste	7
Wires burning trees	15
Wires broken, electric light and telephone	19

STOLEN PROPERTY

Amount reported stolen	$947 54
Amount recovered	753 00

AUTOMOBILE SERVICE

During the year the automobile ambulance and patrol has responded to thirty-two calls for accidents and sickness, has been in constant use throughout the year and is in good condition at the present time. The number of miles run was 1,329.

The new Stanley steamer, which was delivered to the department on July 19, 1916, has been in constant use since it was delivered to the Town, responding to many emergency calls and performing general patrol work. The number of miles run was 8,000.

CRIME

During the year two unoccupied houses were entered and jewelry to the value of six hundred dollars was stolen. All the property has been recovered and the thieves caught. They are now doing time at the Concord Reformatory. There was a house entered at night and the woman of the house spoke to the burglar as he entered her room and frightened him away. There was no man in the house at the time, and it required some courage to go to a neighbor's house at 2 A.M. to call the police, as her telephone had been tampered with. Nothing was stolen.

When we consider the size of our Town, and surroundings, we wonder we have been as fortunate as we have.

THE FORCE

The conduct of the officers has, in the main, been excellent and the rules and regulations governing the department have been generally observed.

TRAFFIC ON STREETS

The marked increase of motor vehicle traffic through our principal streets, particularly Adams Street, required the detailing of one officer every day at the railroad crossing at East Milton, and the officer who patrols the route in the daytime to help out when the traffic is heavy, especially on Sundays. The duty performed by these officers made traffic easier, and added to the comfort and safety of our people.

Credit is due the officer on Adams Street at the Village for the way he has regulated traffic.

CONCLUSION

My relations with the Honorable Board of Selectmen have been most pleasant, and I wish to thank them for the support and assistance rendered the department.

My thanks are due Judge Albert E. Avery of the District Court for valuable advice and assistance, and to Lawrence W. Lyons, Clerk of the Court; also to all citizens who have in any way assisted the officers in their work.

I wish to express my appreciation to the members of the department who have, by their efforts and deportment, shown a desire to live up to their obligations and the rules of the department.

Respectfully,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF OVERSEERS OF THE POOR

MILTON, MASS., December 31, 1916.

To the Citizens of the Town of Milton:—

The Board of Overseers of the Poor presents its report with the usual statistics for the year 1916.

The members of the Board and its organization are the same as last year.

The Board takes pleasure in stating that Mrs. Lavina H. Brackett as Visitor, Mr. Albert Rounseville as Agent, and Mr. and Mrs. Calvin H. Sanford as Superintendent and Matron of the Town Farm, fulfilled their several duties with the same interest and zeal as in the years past.

There were ten new cases taken care of in the past year, together with the usual old ones that run over from year to year. On the other hand there were only six hospital cases this year, instead of many more that the Board has been obliged to take care of in the years past. One inmate died at the Town Farm during the year.

The usual slight repairs were made that are always necessary in keeping up the Town Farm buildings.

The Board received $625 from the estate of Mary Sullivan who died April 26, 1915. This sum partly reimburses the Town for aid given her during the many years that she stayed at the Town Farm.

EXPENDITURES AT TOWN FARM, 1916

(Inside Poor)

Salary of Superintendent and Matron	$624 99	
Wages of help, washing, etc.	271 29

					$4,619 33

One hundred and one persons participated in Outside Relief.

The Board has for some time past considered the posting of Rules and Regulations at the Town Farm. This has come about through an attempt to make clear to the inmates what is expected of them while they are at the Town Farm. The following is the schedule of said Rules and Regulations:

I The Superintendent may require any inmate to perform such labor as is suited to his strength and capacity.
(Revised Statutes of Mass., Ch. 81, Sec. 23.)

II Any inmate refusing or neglecting to perform any labor required, or who, in the performance of such labor, wilfully damages any property of the Town, shall be punished by imprisonment in the House of Correction or at the State Farm, according to the Statutes of Massachusetts.
(Revised Statutes of Mass., Ch. 81, Sec. 24.)

III Smoking in bedrooms and hallways is forbidden.

IV No intoxicating liquors of any kind will be allowed on the premises.

V No inmate shall use profane, indecent, or insulting language in the almshouse or upon the almshouse premises.

VI The doors of all bedrooms and closets shall be left unlocked.

VII Inmates shall not absent themselves from the premises without the permission of the Superintendent.

VIII Inmates may at any time present complaints to the Overseers of the Poor or the State Board of Charities.

The Board recommends that the Town accept the above Schedule of Rules and Regulations.

During the last year, under the provisions of Chapter

669, Acts 1911, aid was discontinued to two persons who formerly had settlements in Milton.

The men's house has been closed for the winter and the men have been transferred to the main building. This has been done because there are no female inmates at the present time at the Town Farm.

An appropriation of $7,000, together with receipts from sales at the Town Farm, and reimbursements for aid rendered, is recommended.

Respectfully submitted,

ARTHUR H. TUCKER, *Chairman,*
WALTER D. BROOKS, *Secretary,*
HORACE N. PLUMMER,
CAROLINE E. WILLIAMS,
ALBERT D. SMITH.

REPORT OF THE TRUSTEES OF THE MILTON PUBLIC LIBRARY FOR THE YEAR ENDING DECEMBER 31, 1916

MILTON, MASS., January 1, 1917.

To the Citizens of the Town of Milton:

The Trustees of the Milton Public Library have the honor to present their annual report to the Town. They take much satisfaction in calling the attention of the citizens of the Town to the increasing use that is being made of the Library as set forth in the annual report of the Librarian which is printed herewith. The scope of the Library is continually being extended, and it becomes evident that the Library is no longer merely an agency for the circulation of literature among the citizens, but that it is also a storehouse of useful knowledge which is made available for all through the skilled attention of the Librarian and her assistants.

The central building and the branches are being used more and more for the service of the public along broad and generous lines of education and general information.

The funds available for the purchase of books are limited, and it is necessary to select with care. This selection is made as impartial and as discriminating as possible, while the mechanism for the distribution of the books is being improved all the time so that the public may be served more quickly and more efficiently.

There have been considerable fluctuations in the number of books circulated this year, but where these fluctuations would apparently suggest a decrease in the use that was being made of the Library, this is soon explained by the presence of one or two epidemics of illness, notably infantile paralysis, which made it necessary that the Trustees put temporary restrictions on the use of the Library in the interest of public health.

For some years the Trustees have been faced by the necessity of making in the near future a substantial increase in the salaries paid the members of the Library Staff. Last year a small increase was made in the salaries of one or two of the assistants. In view of the additional work which is expected of the Librarian and her assistants, and also because of the large increase in the cost of living, the Trustees feel that another increase in salaries this year is imperative, and this increase to apply practically to all the staff. This increase must be made if the Library is to continue its present standard of efficiency. In previous years the Library has lost the services of several able assistants because the Trustees could not pay larger salaries. The time has come when the Library must be just in this matter of compensation for service rendered, and for this reason the Trustees ask the Town to make, at its Annual Meeting in March, an appropriation of $11,500, the dog tax for 1916 and the fines for 1917.

This brief report cannot be closed without a reference to the late Orrin A. Andrews, who was elected a member of the board in 1886, and continued to serve until a month before his death. Mr. Andrews was a devoted member of the Board of Trustees during this long period of service. His colleagues looked to him for support in everything that furthered the growth and development of the Library. He was open-minded and generous in his acceptance of new ideas, and progressive in the best sense of the word. The pleasure of being associated with him will remain long in the memory of his friends.

REPORT OF THE LIBRARIAN

MILTON, MASS., January 1, 1917.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1916.

Since it is impossible — owing to lack of time — for a Board of Trustees to keep very closely in touch with the actual workings of a Library, I shall try to present to you, in this report, the relation of your Public Library to the Town as a whole, and the way in which its work is being carried on.

Years ago, when reorganization of the Library began, we set before us a high ideal of service.

That service was not to be limited to the mere buying and circulating of books, however good, but that service was to include a generous hospitality, a careful consideration of every suggestion or request, the opening wide of our doors to societies and clubs and classes, a general clearing house of ideas, an encouragement to men and women to think for themselves and in their own way; in short the Library was to stand for a social and civic centre in the largest and truest sense of the word.

Thanks to the generous backing and encouragement of the Board of Trustees, and a quick response from the townspeople, some of those ideals have been realized.

We hear much in these days of efficiency, about "the graphic presentation of facts," and your up to date business man, through the medium of a chart, would be able to show you at a glance, the various ramifications of the Library.

Lacking this graphic method, perhaps you will, for a few minutes, imagine the Library in the centre of a

spider's web, with a network of threads stretching out in many directions.

One thread would lead to the Woman's Club, with its various committees, seventeen of which have met at the Library during the year, with a total attendance of 947.

In addition to meetings of the different committees, the Woman's Club has been responsible for four meetings of the Anti-War Knitting Circles, for a Parliamentary Class, and for a series of lectures on Nursing and First Aid, under the direction of the Red Cross Committee.

Other threads of our imaginary spider's web would lead to many other Town organizations, which are using the Library as a central meeting place.

The monthly meetings of the Executive Board of the Social Service League are held at the Library, also the annual meeting of the League.

The Milton Chapter of the Red Cross has held one general meeting: a Committee on extended use of school buildings has met twice, and the Coöperative Council (now known as the Council of Town Organizations) has met once.

The Workers' Club, composed of twenty-nine little girls, meets every Wednesday from November to May, with an average attendance of 30. A Boys' Electrical Club meets on Friday afternoons, for the special study of wireless telegraphy.

Through other meetings of the various committees of the Education Society, the Historical Society, the churches, the Junior Woman's Club, the Memorial Society, The Tuell Alumni Association, and the Anti-Suffrage League the Library is constantly in touch with Town organizations.

Three special occasions should also be mentioned, as showing how the Library is keeping a hold on its public:

First—the four readings given by Mrs. Edward Holton James, on Sunday afternoons in February; second: the Christmas Book Party, which was held in the Children's Room on December 3 from 3 to 5 o'clock; third: the informal talk given by Dr. Harris Kennedy, on December 17, in connection with the exhibit of Japanese towels, collected and arranged by Dr. and Mrs. Kennedy.

Mrs. James's readings attract many people of varying tastes, not only because of her exceptional dramatic ability, but because of her varied programme. For instance, she read this year, H. R. H. the Prince of Hester Street, one of Myra Kelly's delightful stories, as well as, Macbeth, Across the Border and The Medea.

The Christmas Book Party, although an experiment, was a great success. Seventy-four people came especially for the party, and one and all expressed their appreciation. The Children's room was decorated with greens, and books suitable for Christmas gifts were all about on the tables.

At 4 o'clock, Miss Snow told Christmas stories, which added much to the gayety of the occasion. Several of the men said that they had never been in the Library before, and one mother said she had no idea that the Library was such a lovely place.

Dr. Kennedy's talk attracted about thirty people, who guided by him, spent a most enjoyable hour in Japan. Several people, whom the Librarian met the next day, said they did not know when they had been so entertained.

Many of the men and women, who come to these special gatherings, take out books or periodicals, and it gives the Library an excellent opportunity to make known its resources, and to encourage further reading. This is particularly true of the boys and girls who come to the clubs, for they not only take out books for themselves,

but they invariably carry home books to their fathers and mothers.

Another thread of the Library's work leads to the Schools.

Miss Allen has continued to give to the Freshman Class of the High School talks on the use of the Library and the work is slowly but surely showing its effect by a more intelligent use of the Library by the pupils. Since October, and at the request of Miss Woodbury, Miss Snow, the Children's Librarian, has been to the Vose School every other Friday morning, to tell stories to the children.

This story hour is a reward of merit for those boys and girls who have attained a certain percentage in their studies. The number of children in the group has increased rapidly from twenty-five to seventy. Children from the kindergarten class through the sixth grade attend: as soon as the story is told the youngest ones are dismissed, while the older ones remain for a chapter in Robin Hood.

Miss Woodbury feels that this experiment has proved most successful: and the demand for books bearing on the story hour would seem to confirm her opinion.

Twice, during the year, your Librarian has had an opportunity of addressing the Parents' Associations, and in each case the response has been hearty. People are glad to know about the Library and invariably express surprise that so much work is being done.

There has been a steady increase in the use of the Library, due somewhat to the growth of the Town.

This increase is, however, only slightly shown by figures of circulation.

In the first place, the epidemic of infantile paralysis, which, from September 20 to October 23, prevented children under sixteen from using the Library, interfered

perceptibly with the normal growth of circulation, and in the second place, the most important part of the increase does not show itself in actual circulation.

More pupils are studying at the Library than ever before—this is true not only of the Central Library, but of the Branches—and more men are coming to the Library for help in their professions or trades.

The most up to date and live books on business and the various trades, on labor, wages, and other industrial questions; on banks and banking, on accounting, on the tariff and economics, or on commerce and manufactures, have been moved from the stacks to the main Reading Room. With these books have been shelved the various business and scientific journals, also business manuals, charts, hand books, etc.

For example, here have been placed Bartholomew's Atlas of the World's Commerce, the Cyclopedia of Modern Shop Practice, Pagē's Automobile Charts, also the Pan American Bulletin, System, Engineering, the American City and other periodicals of special interest to men.

The slight confusion incident to looking in two places for books on these subjects, is more than offset by the availability of the books, and by the enthusiastic appreciation of the men who are using them.

The new registrations for the year number 465, against 377 for 1915: of these new borrowers, 225 have registered at the Central Library; 94 at the East Milton Branch; 125 at the Mattapan Branch; and 21 at Russell Reading Room. Of those registered at the Central Library, 23 represent the section covered by house to house delivery.

The number of books delivered through the house to house system, has increased from 4,773 in 1915, to 4,965 in 1916.

There has also been an increase in the number of books sent to the schools. (See appendix 2.)

On April 18, a new system of call slips for Branches was adopted, which has very materially bettered the service through the weekly exchange. The old system provided but one slip for several titles: under the new system, there is a separate slip for each book, which makes it easy to keep on file, at the Central Library, slips for books out in circulation, but wanted for Branches.

This method insures prompter service and saves a borrower the trouble of sending his slip back and forth several times. In consequence, the weekly delivery to East Milton has increased from 605 in 1915, to 767 in 1916, and the delivery to Mattapan has almost doubled by an increase from 792 in 1915, to 1,255 in 1916.

In addition to the increase through the weekly exchange, there has also been a considerable increase in circulation at the Mattapan Branch: 17,135 against 16,675 in 1915. This has been, as was the case last year, entirely in the adult circulation. The total increase in adult circulation was 1,035, but a loss of 575 in juvenile circulation brought the net gain down to 460. The loss in juvenile circulation is due to quarantine during the epidemic of infantile paralysis.

The attendance for the year has been 16,489 against 16,991 in 1915.

At East Milton the circulation has been 17,709 as compared with 19,024 in 1915: this is a loss of 1,143 in the adult, and a loss of 172 in the juvenile circulation, a total loss of 1,315.

Here again the drop in juvenile circulation is due to paralysis, but the adult loss is less easily accounted for.

A nearby circulating library, which supplies the new novels in any number undoubtedly affects the Branch circulation; but as many of those novels are unimportant, it should not cause us concern.

At Russell Reading Room, in spite of quarantine, there

has been the rather large gain in juvenile circulation of 217; but a loss of 191 in adult has brought the net gain down to 26.

The attendance has been 1,782 against 1,973 in 1915.

The circulation at the Central Library has been 38,307 against 37,236 in 1915, a gain of 1,241 in adult, but a loss of 170 in juvenile.

The total circulation for the whole Library System has been 75,977 as compared with 75,735 in 1915.

It is interesting to note, that with a circulation of 75,977, and with open stacks, not a single adult book was unaccounted for, at the yearly inventory; and only ten volumes were missing from the Children's room.

The Children's department has prospered greatly, under the excellent supervision of Miss Snow.

On November 13, 1915, Story Hours were begun at the Central Library and its three Branches, and were continued until April 22, 1916.

In all, 59 Story Hours have been held, 23 at East Milton, 17 at Central, 15 at Mattapan, and 4 at Russell Reading Room, with a total attendance of 1,346. The largest attendance at any one Story Hour was at Mattapan, when 99 children crowded into one small room.

The average attendance has been 25 at East Milton, 15 at Central, 28 at Mattapan, and 24 at Russell Reading Room.

On account of the delayed opening of schools, and the necessary precautions due to infantile paralyses, the Story Hours, which were scheduled to begin in October, have been postponed until January, 1917.

On November 11, Mr. A. Frederick Collins, the author of many books on electricity for boys, gave a talk on wireless models at the Boys' and Girls' Book Shop in Boston. Ten Milton boys, conducted by Miss Snow,

went in for the demonstration. This was the beginning of the Electrical Club, already mentioned.

There is no limit to the work which might be done with the boys and girls of Milton, were it possible for the Library to have extra helpers in the Children's room.

The exhibits for the year have been: December 9, 1915 to January 30, a Tree exhibit, arranged by the Natural History Committee of the Education Society, with an attendance of 59; February 1 to April 6, Etchings by Charles Émile Jacque, from the Whitman Collection, owned by the Milton Public Library, with an attendance of 41; April 9 to May 8, Shakespeare exhibit in connection with the Shakespeare tercentenary: attendance 55; May 9 to June 9, Etchings by the Chicago Society of Etchers: attendance 34; June 20 to August 31, Herbarium by the public school children of Milton, arranged by Miss Turner: attendance 22: October 2 to November 15, Water colors by Miss Rosa Wallis of London, with an attendance of 163; November 14 to January 3, Japanese towels, collected and exhibited by Dr. and Mrs. Harris Kennedy; November 21 to December 19, Paintings and small sculpture, by Miss Alice F. Tilden.

Up to December 19, when Miss Tilden's pictures were taken away, the joint attendance at the last two exhibits was 254: as the exhibits were shown in adjoining rooms, it was impossible to keep separate statistics.

The notable gifts of the year have been: a copy of Sloane's Napoleon in 4 volumes, with autograph of the author, from James S. Russell, Esq.; Civilization and Climate, from the author, Ellsworth Huntington, Esq.; 7 pamphlets by Robert Bennet Forbes, for the Milton Collection, from Allan Forbes, Esq.; 11 volumes of the publications of the Colonial Society of Massachusetts, from Horace E. Ware, Esq.; a manuscript copy of "A Dangerous Experiment"—a play written for the Dra-

matic Club of Milton Academy—by Mrs. Philip L. Saltonstall, the gift of the author; 114 miscellaneous volumes and pamphlets from Robert Saltonstall, Esq., which included a limited edition in quarto of Irving's Life of George Washington, a fine edition of Don Quixote. an 1833 edition of Byron in 8 volumes, with engravings by Edward Finden, also a set of Shakespeare in 15 volumes, with illustrations from the plates of Boydell's edition; a copy of Favourites of a Nursery of Seventy Years Ago, from the author, Mrs. William H. Forbes; and 38 bound volumes of the North American Review, from Mrs. William P. P. Longfellow of Cambridge.

Other gifts of books, periodicals and pamphlets have been received from Mrs. J. Malcolm Forbes, Miss Catherine W. Faucon, Mrs. George E. Luther, Mrs. Charles E. Chaddock, Dr. Harris Kennedy, Mrs. E. M. Cary, Milton Academy, The Brush Hill Bird Club, Nathaniel T. Kidder, Esq., Mrs. Strafford Wentworth, Mr. Charles S. Gage, Mrs. Charles H. Williams, George C. Mann, Esq., Mrs. Orrin A. Andrews, Mrs. Sidney Clementson, Mrs. Mary W. Tileston, Mrs. Joseph Brewer, Mrs. Charles S. Minot, Miss Louise W. Brooks, Miss Theodora Kimball, Mrs. Ellerton P. Whitney, Mrs. Edward H. James, Edmund Brownell Weston, Esq., and from the Estates of Mrs. George H. Chickering and the Misses Ellen and Fanny Channing.

Many of these gifts have been reserved for the Milton Collection, which is growing steadily.

The new room which has been fitted up for this collection is already proving its worth: the joy of having a place for this material can be appreciated only by members of the staff, who for several years, have had to work in a heap, with safe, cupboards and shelves filled to overflowing, and with the necessity of frequent moving of old books in order to put away new treasures.

Miss Josephine P. Little, who became a member of the staff on September 7, 1915, left the service on September 2.

Miss Little had exceptional ability in work with the public, and the Library is still regretting her going.

With the rapid growth of the Library, the financial problem is perplexing. The running expenses are increased in proportion to its use; this is especially true of fuel, lights, binding, supplies, and books. But the great problem is that of salaries, which in every kind of work have increased so much during the last five years.

This Library is not paying adequate salaries for the grade of work required, furthermore cost of living in Milton is high and it is next to impossible to find a place, at any price, where an assistant coming from out of town can live. Such conditions must be reckoned with and salaries rated accordingly, if the quality of the service is to be maintained at its present standard.

My report would be incomplete without mention of Mr. Andrews, whose death on March 25, deprived the Library of one of its valued trustees.

Mr. Andrews was elected a member of the Board on March 30, 1886; on March 18, 1889, he was elected a member of the Executive Committee, of which he remained a member until March 9, 1908. A few weeks before his death on March 25, 1916, he resigned from the Board.

During the early days of reorganization, his enthusiasm and his encouragement never failed: he was greatly interested in the movement for a new Library building, and he kept his interest in the work of the Library, up to the last.

Respectfully submitted,

GERTRUDE E. FORREST,

Librarian.

REPORT OF SEALER OF WEIGHTS AND MEASURES

MILTON, MASS., January 18, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my report as Sealer of Weights and Measures for the year ending December 31, 1916.

Number of scales, weights and measures sealed	681
Number condemned	2
Total	683
Number of scales found incorrect and adjusted	5

I would respectfully renew my recommendation of last year that the sum of $700 be appropriated for a new 20-ton scale to be located at some convenient place, and that the scale now located at the Town Stable be abandoned as it is of no use to the Town in its present condition.

Respectfully submitted,

JAMES SANGSTER,

Sealer of Weights and Measures.

REPORT OF SEWER COMMISSIONERS

MILTON, MASS., January 1, 1916.

The Board of Sewer Commissioners makes the following report of operations of the Sewer Department during the year ending December 31, 1916.

General		
Population by census of 1915		8,600
Estimated length of streets of Town (miles)		50
Percentage of length provided with sewers		32.2%
Method of disposal		Metropolitan system
	For Sewage	**For Sewage & Surface Water**
Collection Mains		
Lineal feet pipe (measured)	84,991.30	700 (storm overflow)
Lineal feet extended during year*	5,202.93	
Number of inverted siphons	1	
Number of manholes	366	
Number of storm overflows	1	
Number of emergency overflows	1	
Number of automatic pumping stations	1	
House Connections		
Number made during year	71	
Number of stoppages coming to notice of department	6	
Discharge of Sewer		
Estimated population using sewer system	5,150	
Number of buildings connected	922	
Financial		
Total cost of collection mains to December 31, 1916		$173,854 28
Bonded debt at date		29,000.00
Average rate of interest on bonds		4.16%

For details of sewer construction and maintenance account reference is made to the Financial Report compiled by the Auditors as shown elsewhere.

Respectfully submitted,

ASAPH CHURCHILL,
CHARLES G. WAITT,
E. B. HILL,
Board of Sewer Commissioners.

*The extensions made during the year were in Otis Street 179 feet; State Street 283 feet; Curtis Street 300.13 feet; Plymouth Avenue 100 feet; Oak Street 1,079.17 feet; Tucker Street, 604 feet; Churchill Street 900 feet; Dyer Avenue 310 feet; Churchill's Lane 1,025 feet; Central Avenue 422.63 feet.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration my second annual report for the fiscal year ending December 31, 1916.

As the past year has been somewhat abnormal in causing increases in the prices of supplies, labor, etc., after estimates and appropriations had been made, I shall endeavor to outline below how it has affected the Highway Department.

PERMANENT CONSTRUCTION

The permanent work has been handled by the Board of Selectmen with the assistance of two citizens, Mr. S. A. Parsons and Mr. R. H. Hallowell, who took up the work and named streets and portions of streets to be built in 1916. The estimates were made principally on the basis of tar construction which is considered as the cheapest permanent pavement so-called.

I have personally made a careful study of this and other types of construction, visiting various work in other towns and State experimental work, and although we have kept as near as possible to the above type of pavement we thought it wise in two short pieces to use Bermudez asphalt and heavy oil binders. While these have been a little more costly, there will be in time, by so doing, a saving for the Town.

The very just increase in the price of labor has affected the department greatly in its finances, coming as it did after the appropriations had been made, and also the

increased cost of twelve cents per ton for broken stone, as well as the increases in the cost of coal and other supplies. We are not alone in the increase of costs as all other towns are subject to the same.

Our equipment needed additions and these were partially met out of the above appropriation, but it is of course on hand to carry on the permanent work for some years. These equipment costs are shown below in the itemized statements.

These above costs and expenditures have slightly cut down the estimated mileage of new construction that was figured on at the beginning of the season.

GENERAL STATEMENT OF PERMANENT CONSTRUCTION ACCOUNT

Appropriation	$50,000 00	Expenditures	$50,037 50
Credits:

Note on Canton Avenue, Section No. 3.—Although the above section has shown the effects of frosts previous to the time it was reconstructed, we found during the reconstruction that the foundation was good excepting in about 300 feet at the easterly end. We, therefore, concluded it was wise to put in a leach drain on the southeasterly side, which we did, of the ordinary standard type, 2 feet wide and 3½ feet deep, with 5 and 6 inch open joint pipe in the bottom, and the trench filled with broken stone. This drain was connected at intervals to the surface drainage system.

AUTO ACCOUNT

In March, 1916, we traded the old auto for another second-hand car in good repair. The account is itemized as below:

New second-hand automobile		$300 00
Gasoline, 831 gallons		199 59
Repairs, new parts and labor	$ 62 35	
Fittings and labor	38 18	
Pay Roll	3 09	
Tires, new, and repairs	191 41	
		295 03
Oil, 1 barrel (50 gallons) Primus No. 3		20 00
Distilled water, 13 gallons		2 00
Denatured alcohol, 1 gallon		1 15
1916 and 1917 registration		10 00
Registration transfer for new car		2 00
Chauffeur license, renewal		1 00
Repairs to, and recharging batteries		3 45
Pump		4 00
Miscellaneous supplies		1 30
Total		$839 52

TRUCK ACCOUNT

The old Atterbury truck was traded in for a new four-ton locomobile truck, which has given splendid satisfaction. While the truck was working on appropriations other than the General Highway, the cost of supplies was charged to the several different accounts. This will explain, as in the itemized account below, how the amount of gasoline, for instance, seems so small, or in other words, you will find some gasoline and supplies charged to sidewalks and permanent construction.

The Atterbury		
Storage, three months at $8.00	$24 00	
Put in repairs for sale	97 43	
		$121 43
The locomobile		
One-half the cost of new truck (balance charged to Permanent Construction Acct.)	$1,312 50	
Gasoline, 364 gallons	91 18	

Pay Roll, repairs	$13 00	
Small parts and labor repairs	16 40	
1916 and 1917 registration	28 00	
Oil, 20 gallons and 1 quart	9 00	
Grease, 10 pounds	2 00	
Fan belt	3 25	
12-foot chain	1 00	
		$1,476 33
Total		$1,597 76

OFFICE

Superintendent's salary, five months		$1,041 65
Pay Roll		482 50
Telephone, office and Superintendent's residence		107 39
Furniture, typewriter stand	$11 25	
Second-hand Derby roll-top desk	20 00	
		31 25
Second-hand typewriter		45 00
Supplies		37 41
Coal, 5 tons		41 75
Typewriting 1915 report		10 00
Screen door and fixtures		3 65
Total		$1,800 60

STABLE AND PLANT

Hostlers, Pay Roll		$1,284 12
Pair black horses		775 00
Horseshoeing		207 58
Plant repairs, Pay Roll	$105 12	
Material	6 05	
		111 17
Hay, 27.06 tons		810 04
Oats, 1,200 bushels		759 50
Shorts, 2,400 pounds		41 80
Straw, 2.72 tons		54 15
Salt bricks, 5½ dozen		15 75
Standard food, 4 barrels		60 00
Vacations for regular men (hostlers, drivers, and foremen)		370 00
Coal, 7.1 tons		55 95
Meter water		32 50
Veterinary, services	$20 00	
Medicine	1 75	
		21 75

Electric lighting		$15 40
Supplies		42 28
Blacksmith supplies		85 04
Express and freight charges		10 12
Total		$4,752 15

PATCHING STREETS

Pay Roll		
General work	$2,638 94	
Outside teams	179 66	
		$2,818 60
Tar, Patching Compound No. 2, Independent Coal Tar Co.		
45,368 gallons at 9 cents	$4,083 12	
Teaming and barrel charges	83 06	
		4,166 18
Stone		
10.55 tons at $1.40	$ 14 77	
119.64 tons at 1.38	165 11	
42.55 tons at 1.35	57 44	
346.56 tons at 1.00	346 56	
		583 88
Stone dust		
15.6 tons at $1.20	$ 18 72	
195.25 tons at 1.00	195 25	
304.85 tons at .80	243 88	
70.02 tons at .75	52 50	
		510 35
Coal		
8.80 tons at $5.50		48 37
Sand, Milton Park Commission		
109½ double loads at 30 cents		32 85
Stone, Milton Park Commission		
64½ double loads at 30 cents		19 35
Tar kettle repairs		4 00
Total		$8,183 58

Repairing streets with the tar patching compound has been carried on all the season in order to keep the streets safe for travel. By referring to last year's report you will see that the expenditures for this year are more than one thousand dollars less than what they were last year, in spite of the increased costs of labor and stock, owing,

of course, to the amount of new construction built this year.

STEAM ROLLERS AND REPAIRS

One-half the cost ($2,500) of new 6-ton roller		$1,250 00
New parts and labor		
Pay Roll	$ 8 94	
12-ton roller	228 91	
10-ton roller	29 95	
		267 80
Overhauling and laying to		102 92
New roller picks		
28 for 12 ton	$35 00	
28 for 10 ton	26 60	
		61 60
Supplies for		
12-ton roller	$ 3 80	
10-ton roller	6 47	
6-ton roller	19 75	
Miscellaneous	24 20	
		54 22
Waste, 2 bales		28 50
Inspection of 3 rollers		15 00
Miscellaneous repairs	$6 00	
Pay Roll	9 25	
		15 25
Oil		
25 gallons cylinder	$12 50	
25 gallons engine	7 50	
		20 00
Total		$1,815 29

We have three steam rollers at present, a 12 ton, 10 ton and a 6 ton. The 6-ton roller, purchased this season, is of the tandem type, and it has given excellent satisfaction for both sidewalk and street work. The 10-ton roller is in good condition. The 12-ton roller, however, is very old, and the steam pressure has been reduced by the State Inspector to such an extent that the roller is almost useless. The wheels are so thin that they are expected to collapse at almost any time. I would recommend that this roller be traded in for a new one of the scarifier type.

BROOK ROAD RESURFACED SECTION

From Adams Street to Canton Avenue

Pay Roll		
General work	$273 55	
Outside teams	98 47	
		$372 02
Stone dust		
242.48 tons at $1.00	$242 48	
31.3 tons at .80	24 98	
		267 46
Oil, John Baker, Jr. Co.		
4,012.5 gallons liquid asphalt No. 1 at $ .0725		290 90
Coal, 7.3 tons		39 97
Total		$970 35

ADAMS STREET RESURFACED SECTION

From Centre Street to Randolph Avenue

Pay Roll		
General work	$93 44	
Outside teams	51 02	
		$144 46
Oil, John Baker Jr. Co.		
4,012.5 gallons liquid asphalt No. 1 at $ .0725		290 91
Stone dust, 119.82 tons at $1.00		119 82
Total		$555 19

CLEANING CATCH BASINS

Pay Roll		
General work	$969 90	
Outside teams	181 88	
General work on		
Catch basin and drain repairs	50 25	
New catch basin at Eliot Street, corner of Oak Road	30 50	
Raising catch basin covers and removing edge stones	116 35	
		$1,348 88
Cement and brick for new basin at Eliot Street, corner of Oak Road		24 50
2 culvert stones		12 00
2 covers, grates and frames		20 25
Total		$1,405 63

REPAIRS TO SMALL TOOLS

Repairs and sharpening		
Outside work	$4 45	
Pay Roll	54 50	
		$58 95
Iron and steel		1 50
		$60 45

REPAIRS TO CARTS AND WAGONS

Repairs		
Outside work	$18 95	
Pay Roll	84 54	
		$103 49
Lumber		22 69
New parts	$47 61	
Pay Roll	7 66	
		55 27
Freight and express charges		2 94
Total		$184 39

SQUANTUM STREET CRUSHER

Moving and resetting the crusher from the old pit on Squantum Street to the new pit on Squantum Street		
Pay Roll		
General work	$157 05	
Outside teams	11 00	
Moving charges	58 75	
		$226 80
Equipping with labor and fixtures in new position for the season		
Pay Roll		
General work	$83 94	
Installing water service	88 69	
Lumber	22 24	
		194 87
Crushing stone		
Pay Roll		
General work	$303 90	
Outside teams	17 50	
		321 40
Repairs and renewals to boiler and machinery		308 61
Coal, 21.9 tons		124 09
Oil, 25 gallons cylinder	$12 50	
25 gallons engine	7 50	
		20 00
Meter water		10 73

Supplies, roofing material	$4 42	
New parts	4 80	
		$9 22
Grease, 25 pounds		3 75
Total		$1,219 47

SATURDAY AFTERNOON TIME

The amount of the Saturday afternoon time off given to the laborers and teams employed on general highway work during the months of June, July, August and September amounted to the following:

Pay Roll		
Laborers	$385 76	
Outside teams	66 00	
		$451 76

REMOVAL OF ICE AND SNOW

The Amount Expended Over the Annual Appropriation

Pay Roll		
General work	$1,084 77	
Outside teams	251 58	
		$1,336 35
Outside labor		24 75
New plow		60 00
Outside plow repairs		24 05
Sand storage		5 00
Repair supplies		12 00
Steel for repairs		3 12
Sand, 30 loads at 30 cents		9 00
Total		$1,474 27

In order that this account, as a part of the General Highway account, may not be confused with the specific $4,000 1916 appropriation for the Removal of Snow and Ice, I would explain that the heavy storms of 1915–16 exhausted the $4,000 appropriation so that the above amount of $1,474.27 had to be obtained from the General Highway Account. During the month of December, 1916, the Warrant Committee increased the $4,000 appro-

priation to $5,000. By referring to the Removal of Snow and Ice Account, as apart from the General Highway Account, you will see that a part of the additional appropriation of the $1,000 by the Warrant Committee was left as a balance as at December 31, 1916.

MISCELLANEOUS HIGHWAY WORK AND SUPPLIES

Road repairs, patching with gravel all the bad streets that were not patched with tar or newly built:			
Pay Roll			
General work	$1,045 84		
Outside teams	361 38		
		$1,407 22

Transferred to the General Highway Account			1,575 13
(To reimburse for oil work done on portions of Brook Road and Adams St.)			
Total of Street Watering and Oiling Account			$10,170 08

Owing to the uncertainty of the prices of oils at the beginning of the season and the one-thousand-dollar-smaller appropriation, we charged the treatment of Brook Road, from Adams Street to Canton Avenue, and Adams Street from Centre Street to Randolph Avenue, to the General Highway account.

After realizing the settled prices on oils, etc., and knowing the conditions of the above appropriation, we have, as you will see, reimbursed to the General Highway Account from the Water and Oil Account to amount of the costs of treating the above-named sections of Adams Street and Brook Road.

GENERAL STATEMENT OF SNOW AND ICE ACCOUNT

Appropriation	$4,000 00	Expenditures	$4,699 03
Appropriated by the Warrant Committee	1,000 00	Balance, Dec. 31, 1916	300 97
	$5,000 00		$5,000 00

REMOVAL OF ICE AND SNOW

Pay Roll		
General work	$3,760 17	
Outside teams	873 01	
		$4,633 18

Sand		
2 loads at $1.00	$2 00	
83 loads at .30	24 90	
10 loads at .50	5 00	
		$31 90
Paymaster, services		30 00
Plow repairs		2 45
New tools		1 50
Balance at Dec. 31, 1916		300 97
Total cost		$5,000 00

Owing to the very severe winter of 1915–16, the expenditures have been unusually heavy. We have purchased a snow-plough attachment for the truck which will be of great benefit in handling the snow in the streets.

Between the time, March, 1916, of total expenditure of the annual appropriation of the $4,000 appropriated at the March meeting and the time, December, 1916, of the additional appropriation of $1,000 granted by the Warrant Committee, the funds of the General Highway account had to be resorted to in payment of snow and ice charges. This amount, $1,474.27, will be found as an itemized account under the General Highway Account expenditures.

Four pungs	200 00	
Two gutter plows	200 00	
		1,000 00
Total Highway Department Inventory		$23,345 00

RECOMMENDATIONS

I would respectfully recommend the purchase of a light auto truck for all the light trucking for the department and for patrolling the Town, etc. Also, that a portion of Adams Street at the Lower Mills and Wharf Street be especially considered in the way of new work

with cement construction, which would provide good footing for horses.

I desire to express my thanks to your Honorable Board and, through you, to the foremen and the men of the department, for the courtesies I have received, as well as to the other Town departments that have so kindly assisted us during the past season.

Respectfully submitted,

HENRY A. SPATES,

Superintendent of Streets.

REPORT OF THE SUPERINTENDENT OF WIRES

MILTON, MASS., January 15, 1917.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Department of Wires for the year ending December 31, 1916.

INTERIOR WIRING

	1915	1916
Certificates issued for light and power	280	311
Number of inspections	702	768
Number of incandescent lights wired for	5,005	4,925
Number of motors installed	14	14
Total horse-power	50	33
Number of rectifiers installed	1	2
Total watts	3,000	9,500
Number of electric heaters and stoves	17	24
Total watts	29,330	61,972
X-Ray machine	0	1
Total watts	0	7,200

OVERHEAD AND UNDERGROUND WIRES

The line of poles starting at Pleasant Street and Reedsdale Road and extending a distance of two miles to Bryant Avenue, East Milton, having been condemned by this department, has been replaced by a new forty-foot line. This line carries the Edison Electric Illuminating Company, Bay State Railway Company and New England Telephone and Telegraph Company wires.

The Postal Telegraph Company is now replacing a large number of defective poles on Edge Hill Road and Pleasant Street.

The Edison Electric Illuminating Company and New England Telephone and Telegraph Company have replaced defective poles on the following streets: Randolph Avenue, Canton Avenue, Reedsdale Road, Central Avenue, Brush Hill Road, Grafton Avenue, State Street and Sheldon Street.

The Milton Academy has had installed on its grounds a private Fire Alarm Box No. 321 which operates on the Fire Alarm System and is cared for by the Wire Department.

As was recommended last year, I also recommend this year that the Town wires on Adams Street, between East Milton Square and Washington Street, be placed underground.

RECOMMENDATION

For the maintenance of Wire Department and installing wires underground I recommend an appropriation of twenty-five hundred dollars ($2,500).

Respectfully yours,

E. E. Choate,
Superintendent of Wires.

REPORT OF THE TREE WARDEN

MILTON, MASS., January 1, 1917.

To the Honorable Board of Selectmen:

I beg to submit my report as Tree Warden.

Having been appointed to this office but a few weeks ago and finding neither records nor reports for my enlightenment, I am unable to make any statement of the year's work for the period prior to this time.

Upon taking office I found the Tree Warden's appropriation exhausted, although some unpaid bills, mostly for labor, were presented to me in addition to several complaints of dead and decayed trees on our roadsides which were a menace to public safety. The Warrant Committee transferred from the contingent fund sufficient money to enable me to pay these bills and to remove the trees.

I would like to offer some suggestions for the future conduct of this department which I am increasingly convinced is of more importance than has been attached to it by the Town as a whole. The work of trimming and caring for existing trees which has been done in the past few years has been, in my opinion, along right lines, well executed and of sufficient extent. The only suggestion I would offer for this work is that in the future it be done with system, a regular amount accomplished each year, sufficient to cover the entire Town in not more than five years, and the territory covered plotted on a map and dated. Under such a plan all trees in proper rotation will be cared for with sufficient frequency to keep them in good condition and insure the maximum life.

The tree planting which we have done, however, I believe entirely insufficient, although it is the most important function of the department. Do we all

realize that year after year our old trees, both on the highways and on private property, are being removed and not one in twenty replaced by a new tree? There can be only one result of such practice; ultimate denuding. It is difficult to get people to rise to this prospect, as it is remote, and it is the future generations, not we ourselves, who will suffer by our neglect. Should we not give to those to come what our forefathers have given us in the old elms and maples on our roadsides?

My answer to the question is this: plant not less than 100 new trees each year; good trees, well planted and cared for, and replace tree for tree every one cut down.

What will this whole program cost?

Trimming and caring for trees sufficient to cover the Town in five years, $1,000 per year; one hundred new trees at $10 each, this to include purchase, planting, and care, $1,000; removing dead trees and replacing with new, $350.

I would, therefore, recommend a regular appropriation each year, indefinitely, of $2,350.

Respectfully submitted,

R. S. Carpenter,

Tree Warden.

REPORT OF THE WATER COMMISSIONERS

To the Citizens of the Town of Milton:

The Board of Water Commissioners respectfully submits the following report for the year 1916.

At the Annual Meeeting in March the Town appropriated money for the use of the department as follows:

For extensions of mains	$2,500
For hydrant rental	9,000
For the purchase of motor equipment	2,500

Construction

The year has been one of continued activity for the department. Owing to the demand for the extensions in private ways it was impossible to carry on as much new work in the way of general improvement and connecting of dead ends in accepted streets as should be done. An 8-inch emergency connection, however, was made with the Boston system at the boundary line of Brush Hill Lane—a continuation of Milton Avenue in Hyde Park. This connection should eliminate the possibility of interruptions of service on the high pressure system such as occurred in 1915 because of breaks in the Metropolitan System outside of the Town limits. In addition, about 429 feet of 6-inch pipe was laid in Kahler Avenue through to Thacher Street, in the course of which approximately 150 feet of 4-inch pipe, previously installed, was substituted by the larger pipe and a dead end was closed up.

The amount expended for new work was $9,681.99, apportioned as follows:

Public ways	$712 25	
Private ways	8,969 74	
Total		$9,681 99

PUBLIC WAYS

Kahler Avenue, Mattapan		712 25

PRIVATE WAYS

Curtis Road, Mattapan	$1,247 70	
Governor Road, East Milton	170 67	
Curtis Road, East Milton	732 26	
Milton Avenue, East Milton	1,106 87	
Brush Hill Lane, near Hyde Park	1,891 17	
Columbia Street, Mattapan	539 98	
Edgefield Road, Mattapan	943 88	
Brierfield Road, Mattapan	861 88	
Aberdeen Road, Mattapan	479 35	
West Street, Mattapan	780 10	
Bailey Avenue, Milton	215 88	
Total private ways		$8,969 74

During the year 4,763 feet of 6-inch pipe and 879 feet of 8-inch pipe were installed. In addition, 6,345 feet of service pipe was laid. The number of hydrants installed was thirteen, one being on private grounds.

The number of active services is 1,965, an increase for the year of 98, six services having been discontinued. The total number of hydrants now in use is 432, of which 31 are private.

Motor Cars

The appropriation of $2,500 granted by the Town was applied for the purchase of an auto truck and a new Ford runabout. The Ford car previously in use was converted into a truck. The three horses and entire stable equipment were disposed of and the department was placed on a complete motor basis on May 1, 1916. The saving brought about by this change has been well within our estimates. In previous years the stable expense of the department, including rent and wages, approximated $2,700 a year. For the eight months that the motor cars have been in operation, the total expenses, including

liberal depreciation, wages and rent for garage, indicate a saving over former stable expenses of more than $300 a year.

During the eight months of 1916 the cost of storing automobiles in the public garage in Dorchester Lower Mills amounted to $128. The Selectmen have turned over to this department the building in the center of the town formerly used by the Fire Department for the chemical engine. At a nominal cost this building is being remodeled as a garage, and the arrangement will be more satisfactory than the present use of a public garage.

During 1917 another Ford car will be added to the equipment to reduce the mileage of the auto truck and to facilitate work on maintenance of hydrants and services, which has become less satisfactory owing to the rapid growth of the system during the past three years.

Wages

In May, 1916, the wages of all the permanent men of the department were increased approximately 10 per cent. The wage for day labor was also raised from $2.25 to $2.50 per day, the rate established in all other departments of the Town.

Rates

In March, 1916, the Commissioners voted to reduce the minimum rate of $12 for 4,800 cubic feet of water to $11 for the same amount, leaving the rate for one tap service the same, namely, $6 for 2,400 cubic feet of water. This reduction became effective as of April 1, 1916.

The Commissioners wish to remind citizens that the Town, in 1913, accepted Chapter 191 of the Acts of 1907, known as the "Board of Survey Act." According to this Act, no extension of water mains on private ways can be approved by the Commissioners until all provisions of the Act have been complied with.

The appropriations asked for the ensuing year are as follows:

For extensions of mains	$2,500
For hydrant rental	9,000

These recommendations are for the same amounts as in previous years.

We believe citizens will be interested in the tables of unit cost of construction, cost of motor operation and other statistics appended hereto.

For details of receipts and expenditures for 1916, reference is made to the financial report compiled by the Auditors shown elsewhere.

Water Commissioners.

REPORT OF SUPERINTENDENT

MILTON, MASS., January 1, 1917.

To the Honorable Board of Water Commissioners:

GENTLEMEN:—I have the honor of submitting to you the following statistics pertaining to the operation of the Water Department.

STATISTICS RELATING TO THE CONSUMPTION OF WATER

Population of Milton		8,933
Number of families (5 in family)		1,787
Percentage of population supplied (approximately)		98%
Number of consumers		1,965
Total consumption for 1916:		
By Adams Street venturi	119,101,000 gallons	
By Metropolitan Avenue meters	16,777,000 gallons	
Total	135,878,000 gallons	
Registered by house meters	109,376,926 gallons	
Unaccounted-for water	26,501,074 gallons	
Percentage of water unaccounted for		19%
Average daily consumption, gallons		371,300
Gallons daily to each inhabitant		42
Gallons daily to each family		208
Gallons daily to each tap		189
Cost of water, 1916, for 135,878,000 gallons		$16,874 40
Cost per 1,000 gallons		1242
Cost per 100 cubic feet		0929

STATISTICS RELATING TO DISTRIBUTION SERVICE

Mains

Kind of pipe—cast iron.
Sizes—2 inches to 16 inches.
Extended 5,642 feet during 1916.
150 feet discontinued.
Total now in use—275,306 feet—52.1412 miles.
Length of pipes under 4 inches—5,344 feet—1.0121 miles.

Number of hydrants added during 1916:

Public	11
Private	1
Total	12

Number of hydrants now in use:

Public	401
Private	31
Total	432

Number of stop-gates added during 1916—35.
Number of stop-gates now in use—684.
Number of stop-gates smaller than 4 inches—19.
Number of blow-offs—16.
Range of pressure on mains—30 to 133 pounds.

STATISTICS CONCERNING SERVICES

Kinds of pipe—brass, cast iron, cement-lined, enameled, galvanized, lead, plain iron, tarred iron, tin-lined lead.
Sizes—$\frac{5}{8}$ inches to 6 inches.
Extended—6,345 feet in 1916.
Discontinued—640 feet.
Total now in use—208,703 feet—39.5270 miles.
Average length of service—106 feet.
Number of services added—104.
Number of services discontinued—6.
Number of services in use—1,965.

CONCLUSION

Original cost of works:

Amount paid to Milton Water Co.	$199,608 35
Bonds of Milton Water Co. paid off	120,546 67
Total	$320,155 02
Town funds expended on plant to Dec. 31, 1916	342,651 38
Total bond issue	312,000 00
Bonds paid off	152,000 00
Bonded debt, Dec. 31, 1916	160,000 00
Per capita debt	17 91
Rate of interest (payable semi-annually)	$3\frac{1}{2}\%$

Date of maturity—August 1, 1932.

Respectfully submitted,

D. A. HEFFERNAN,
Superintendent.

CHARLES E. ROGERSON,
Treasurer.

FUNDS HELD BY THE TOWN

PERPETUAL CARE FUND

Amount held December 31, 1916 . . . . . $36,761 00

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15–18, of the Public Statutes, interest at the rate of 6 per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

JASON REED CEMETERY FUND

Amount held December 31, 1916 . . . . . $2,626 67

The interest on this at the rate of 4 per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. REED PUBLIC PARK FUND

Amount held December 31, 1916 . . . . . $4,963 64

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

MARY L. PEABODY FUND

Amount held December 31, 1916 . . . . . $5,000 00

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith its report for the year ending December 31, 1916.

School Buildings

The Committee on School Buildings last year recommended that the Town appropriate $195,000 for the acquisition of three and one-half acres of land adjoining the Vose School lot, the building of an extension to the Vose School building, and the conversion and equipment of the entire building as a modern High School, with a gymnasium, assembly hall, lunch room, manual training rooms, science laboratories, etc. The recommendation was adopted, but the appropriation was cut to $175,000.

In order to meet this cut and also the great advances in wages and materials which have occurred since the Town Meeting, the plans of the extension had to be reduced. Not only have several class rooms been omitted, so that the school will be full when it opens, but even the Assembly Hall had to be omitted. The High School must use the old Assembly Hall in the present Vose School building. This is a makeshift which will soon be inadequate. Furthermore, the plans contemplated cutting up this old Assembly Hall into a study room and two classrooms, which would accommodate about one hundred and fifty pupils. This cannot now be done. The cut in the appropriation has also made necessary a reduction in the equipment, to the disadvantage of the school.

The School Committee believes that as soon as the Town feels able to do so, the plans for the High School building should be carried out as originally drawn.*

*See Report of Special Committee of Seven in the 79th Annual Town Report of Milton, Page 209: "Your committee believes that if the schools need additional facilities, such as recommended by the School Building Committee, the appropriation for this purpose should have precedence over the appropriations for a Town Hall."

We believe that as soon as the High School occupies the new building the wisdom of carrying out the original plans of the School Building Committee will be demonstrated to the satisfaction of the Town and we hope that by another year the Town will appropriate a sufficient sum to give the school the rooms and equipment which are now omitted, and that when in the future recommendations are made for new grammar schools the Town will face the problem squarely and appropriate adequately.

We also believe that another recommendation of the Committee on School Buildings, namely—the purchase or taking land adjoining the Brook Road Playground for a new Tucker School—which was not adopted by the Town last year, should be voted at the March meeting of 1917.

The growth in the Tucker School district will soon so increase the school population in that part of the Town that a new school must be built. The present school site is inadequate. The present Tucker School is wooden and should not be added to. The land recommended is well located and is still vacant. Now is the time to act.

Milton maintains its school system well. It appropriates large amounts every year for that purpose. It ranked forty-first in 1916 among the cities and towns of the State in the expenditure per pupil, and three hundred and thirty-fifth in the expenditure per $1,000 of valuation, that is, it spent about $2.70 per $1,000 compared with about $15 per $1,000 spent by the Town which headed the list. Surely Milton can afford to have adequate school buildings. We believe it is good economy also.

Fire Hazard

We spoke last year of the excellent reports made by Mr. Cabot, the State Police, the Town Building Inspector, and the Chief of the Fire Department upon our buildings,

and stated that we were carrying out the recommendations made to insure greater safety.

This year we have continued the work at the High School building by constructing a brick partition in place of a wooden one to separate the coal bins from the rest of the basement, and at the Sumner School by building brick partitions about the furnace room and coal bin.

An expert on hot air furnaces has been employed to inspect and report upon what should be done towards greater safety from conflagrations from this cause.

He reported the Belcher, Glover, Thacher, Sumner, and Tucker School buildings as not in danger from their furnaces. He made slight criticisms as to the arrangement of the furnace pipes at the Houghton and Wadsworth Schools, and the portable building at the Belcher School His suggestions for improvements have already been carried out.

Advisory Bureau

We are sorry to have to report that Miss Hester Cunningham was obliged to resign from the School Committee in October, 1916, on account of ill health.

Miss Cunningham was instrumental in establishing the Advisory Bureau in 1915 and as its director has rendered the School Department and the young people seeking employment valuable assistance. Since her resignation, the Bureau has been reorganized and Mr. Clarence M. Hunt, Director of Manual Education in the schools, has been appointed executive secretary. The Bureau is collecting data regarding the pupils who are now in school, or who have recently left school, and is ready and anxious to advise and assist those who wish work. Pupils present or past and employers are asked to communicate with Mr. Hunt at the High School.

New Principal of the High School

In June, 1916, Mr. Charles L. Curtis resigned as Principal of the High School after a service of six years to accept a similar position in Winchester. In his place we have elected Mr. Burton P. Fowler, a graduate of Syracuse University, who was Principal of the Dunkirk High School, New York, before he came to this Town.

Death of Mr. Andrews

In March, 1916, Mr. O. A. Andrews died. As Principal of the Belcher School for almost forty-five years he exerted a wide and beneficial influence upon the community. His service in our schools extended over a longer period than that of any teacher who has been employed by this Town. Mr. Andrews was "an old fashioned schoolmaster." We regret that his type is passing. Above all, he was a patriotic American. As a teacher and useful citizen he will always be remembered affectionately by his pupils and the citizens of this Town.

The vacancy caused by his death was not filled until September, when Mr. Joseph H. Burlingame of Belmont was made Principal of the school.

Gifts to the Schools

The Committee desires to gratefully acknowledge the following gifts, which have been made to the schools during the year:

High School:

Picture—"The Printing Press" from Class of 1916.

Belcher School:

Victrola—Funds raised by Mr. Andrews.
Five Victrola Records from Mrs. Lavina Brackett.
Two Victrola Records from Mrs. Farquhar Carter.

Our State and National Flag from Mrs. Olaf Olsen.
Nine Flags from Belcher School Parents' Association.

TUCKER SCHOOL:

Desk Set from Class of 1916.
Victrola Records from a Friend.

VOSE SCHOOL:

Photographic Portrait of Felix Mendelssohn from R. Felix Turner.

Five Silk Flags from Emma Forbes Ware Tent 57, Daughters of Veterans.

WADSWORTH SCHOOL:

Piano—Anonymous.

REQUIREMENTS FOR 1917

Your Committee has made careful estimates for the ensuing year and is of the unanimous opinion that the following amounts should be appropriated:

General school expenses	$94,500 00
Transportation of pupils	2,300 00
Medical services and nurse . . .	1,200 00

REGINALD L. ROBBINS, *Chairman,*
DR. HARRIS KENNEDY, *Secretary,*
MRS. W. W. CHURCHILL,
REV. H. BOYD EDWARDS,
FRANK P. FANNING,
STEPHEN C. MITCHELL,
School Committee.

Statistics

	1915	1916
Assessed valuation of the Town	$33,429,117 00	$35,438,639 00

PART I

EDUCATIONAL SURVEY

REPORT OF THE SUPERINTENDENT

To the School Committee:

The term School Department in its comprehensive aspect oftentimes signifies much or little according to the concepts which one's experience and relations and interests have developed.

For those who are working on one phase, or in one section of the great public school enterprise, or, on the other hand, for those who by reason of their own profession or business have become disassociated to a greater or less degree from this great public institution, it is occasionally helpful to bring into clearer view its general scope and purpose. Consequently, I desire to direct attention for a moment not to the national public school organization, which is becoming more and more clearly the institution upon which the other institutions of this country must eventually depend for permanence, but to that small section of the national system which the Town of Milton is undertaking to administer.

The forces back of such a great institution are liable to be taken for granted or even forgotten in the same way that we enjoy the convenience and benefits of electric current and pure water supply, without any thought of the great amount of planning, foresight, extensive and even minute details, which are necessary for their production and distribution.

On its material side, there is required a great plant consisting of land, buildings, and equipment, representing $400,000, the upkeep of which, together with the proper maintenance to provide for the comfort and safety of a large school population, is a matter of no small concern. This plant requires the services of a dozen experi-

enced, intelligent, safe men, as caretakers, who have to be responsible not only for the proper manipulation of expensive heating apparatus and its proper use, but also in a great measure for the safety of hundreds of children. Under this heading there might also be specified a long list of materials, such as fuel, light, paper towels, liquid soap, drinking fountains, floor oil, disinfectant, etc., that have to be purchased and distributed for the proper heating, lighting, sanitary and hygienic requirements.

To properly organize and minister to the varying needs of sixteen hundred boys and girls from the lisping kindergarten child to the high school senior about to face examinations for higher institutions or the tests of the actual work-a-day world, requires the trained, patient, and skilful services of seventy teachers, principals, and supervisors, together with a wide variety of equipment and a complete list of supplies and books.

The State, realizing the extent, aims, and necessities of public schools, has required that the towns and cities shall elect a School Committee, consisting of three, six, nine, or more members, who shall have general responsibility and control over the whole school system. This School Committee, acting under its broad powers as a board of directors with judicial and legislative functions, is ordered by the State to employ an executive and administrative officer under the caption of Superintendent of Schools, who, as the executive agent of the board of education, has to be familiar, in towns and small cities at least, with all phases of the system. His administrative functions make it necessary for him to be alert as to proper housing conditions and suitable equipment, and materials for care and instruction. He also has to have intelligent comprehension of the financial matters, including appropriations and expenditures. The chief and by all odds the most important responsibility falling

upon the board of education and its executive officer is that of providing a trained, skilful, and sympathetic corps of principals and teachers, who by their intelligence, personal character, and influence, shall leave the right kind of imprint upon the priceless human material which is placed under their care. This human element that is so necessary to the school system presents most delicate and difficult problems.

The temporary aspect of the profession for a large number of women teachers, together with the decreasing number of men who are attracted to the profession, makes the task of recreating the teaching force one of constant thought and persistent searching.

Believing as we do that the success of the school system depends very largely upon the principals and teachers, no small part of the Superintendent's time is required to investigate the fitness of scores of candidates for positions which have been open in Milton.

This past year has been unusual in respect to the heavy responsibilities in filling vacancies. Mr. Andrews for nearly a half century had worked and labored and so interwoven his influence and personality into the Belcher School and the graduates of the Belcher School that his name had almost become synonymous with the school itself. To replace a principal who had become so much a part of the community and so highly esteemed by pupils and parents required a man of unusual characteristics, poise, and adaptability. The Department was fortunate in finding Mr. Burlingame, a young man with professional training and experience, who seemed to be able to take up the work with the spirit of making such modifications and adjustments as might seem beneficial, but with no appearance of making changes just for the sake of a change.

The resignation of Mr. Curtis, who for six years had

been principal of the High School, left vacant the most important and responsible position in the teaching corps. The principal of the High School has the great and delicate task of arranging for the proper instruction, discipline, and inspiration of three hundred and more boys and girls during that restless, transitional, momentous period of their lives. He has to be a wise counsel to pupils and parents alike. He has to guide, direct, and develop the policies and practices of his assistants. Such a position requires the ability, insight, and personal qualities, which in business would command large remuneration. It is becoming more and more difficult to find the type of man we wish to place in such a position. The disastrous consequences of placing the destinies of Milton or any other high school boys and girls under the charge of a person of inferior personal or professional qualities are immeasurable and irretrievable. The appointment of Mr. Burton P. Fowler, after months of consideration of candidates through correspondence, conference, and travel, appears to have been a wise one.

Another position, which calls for not only technical training and skill, but unusual personal qualities, was that caused by the resignation of Mr. Hall as director of physical education and playgrounds. The responsibilities of this position are growing more and more evident, as we realize the need for more intelligent and effective training and developing of the physical life and recreational activities, as a means towards more healthful and wholesome living. The coöperation of the Park Commission in the appointment of Mr. Martin W. Souders, has given the Department a young man of unusual promise.

Several other positions, relatively equal in importance, had to be provided for. Mr. Walter H. Neaves, a graduate of Harvard University, was appointed as

assistant in the High School, Miss Ellen H. Humphrey, a graduate of Simmons College, as teacher of sewing in the grammar grades, Miss Betsy H. Perkins, a graduate of Gorham Normal School and Columbia University Teachers' College, as seventh grade teacher at the Tucker School.

Special Classes

The organization of an advanced ungraded or special class in one of the rooms of the Thacher School has taken care of from sixteen to twenty boys and girls, who are over age and who for one reason or another could not fairly and economically be taken care of under regular grade conditions.

The organization of this class was a direct outgrowth of the successful results of the class organized last year in one of the rooms at the Wadsworth School. This plan of taking care of a limited number of boys and girls of advanced ages requiring special individual instruction in one group and of the younger children in another group is no longer an experimental undertaking, and while reckoned on a per capita basis is costly, when considered in its broader relations to the rest of the system, as well as to what is just to these children, is in the interests of efficiency.

Miss Grace A. Taylor, a graduate of Wellesley College, who had had considerable experience in individual instruction and under similar conditions in a well known private school was appointed to take charge of this newly organized group, while Miss Jaquith remains in charge of the younger group at the Wadsworth School.

With these most acute cases removed from regular classrooms all over town, with Mrs. Gordon acting as primary supervisor and coach teacher for children needing special help in grades one to five, and with the principals' assistants responsible for a limited amount of

individual instruction and coaching in the upper grades, there has been brought about a systematic and definite way of making the work of the regular classroom teacher more effective, and has also provided for a reasonable amount of help for those pupils who are slightly backward or for various reasons are out of adjustment with the requirements of the grade. The organization of these two special classes provides the type of instruction and conditions under which the more acute cases can be taken care of with justice to themselves and to the rest of the children in the system.

During the past year, the schools have been organized and conducted on practically the same basis as heretofore, though plans are being carefully studied and considered for the organization and management of the Junior High School in connection with the new high school building, as was outlined and discussed in the last annual report.

For several years I have been urging and advocating a more definite and systematic attempt at adequate provision for compulsory physical education. The discoveries made by Plattsburg experiments and physical examinations at recruiting stations in this country have pointed out the needs in this direction and have influenced public opinion more strongly than what has hitherto been considered the theoretical appeal of schoolmen here and there. There also has followed as a result of the great war a more or less universal demand for preparedness, and superficial thinking has in some cases led people to argue for the establishment of military training in the public schools. In my last report, I discussed at some length the reasons why we should avoid such a futile scheme as military training in the public schools, either for purposes of preparedness or for adequate physical training. Among those who have

thought this thing through and have made themselves familiar with the actual experience in this and other countries, there is a sound conviction that real preparedness either for life or for military service must be based fundamentally on good physical development, good lung capacity, good teeth, good digestion, good feet, and consequent powers of endurance. Successful military training can be superimposed on nothing less than a well developed smooth running human machine. One of the most important matters before the Legislature this year will be the finding of the correct answer to the question regarding proper physical training which is destined to be universal throughout the State. Much good or much harm will be the result, according as this legislation is worked out wisely or unwisely.

The High School had been so handicapped and cramped for both room and facilities to carry on some of the most fundamental and vital phases of the work that it greatly rejoiced in anticipation of the provisions as recommended by the School Building Committee and regret that some of these most important provisions are liable to be postponed.

Those of us who are directly responsible for the organization of a Junior High School and the improvement in high school facilities and activities earnestly hope that funds will be provided so that the school may start out with a complete plant and can at once without any further years of waiting organize itself in such a manner as to render the greatest service to its pupils and the public.

Respectfully submitted,

FRANK M. MARSH,
Superintendent.

MILTON, OUR MILTON

Tune: "How Can I Leave Thee"

Milton, our Milton!
Thy name we dearly love,
Thee we exalt above
All other schools.
We will be ever true
Whene'er we think of you;
Thy memory will renew
Our love for thee.

Milton, our Milton!
For thee we e'er will fight:
We'll love the red and white
Always, dear school.
We'll raise the banner high;
Thy fame shall never die;
Our lips will ne'er deny
Our love for thee.

Milton, our Milton!
To thee we'll loyal be,
Trusting always in thee,
Dearest of schools.
Thy name shall ever stand;
We pledge thee heart and hand;
All honor can demand
We'll do for thee.

J. D. Anderson.

1915	92.
1916	93.

MEDICAL INSPECTION REGULATIONS

School Physician

1. The school physician is to visit the schools whenever he is directed to do so by the superintendent of schools.

2. The school physician shall make a prompt examination and diagnosis of all children referred to him as hereinafter provided, and such further examination of teachers, janitors, and school buildings, as in his opinion the protection of the health of the pupils may require. The school physician shall make a prompt examination of every child who wishes to obtain an age and schooling certificate, as provided in Section 60 of Chapter 514 of the Acts of the year 1909, and who presents to said physician an employment ticket, as provided in said section, and the physician shall certify in writing whether or not in his opinion such child is in sufficiently sound health and physically able to perform the work which the child intends to do.

3. There shall be referred to the school physician for examination and diagnosis every child returning to school without a certificate from the Board of Health, after absence on account of illness or from an unknown cause.

4. The school physician may be consulted by the superintendent of schools on any matter pertaining to the health of the children.

5. Principals shall promptly notify the superintendent by telephone, whenever in their judgment the services of the school physician are needed.

School Nurse

1. The school nurse shall assist the school physician, follow up his recommendations, and so far as possible see that his directions are carried out.

2. She shall visit each school at such times as she may be directed by the superintendent of schools, observe the general health conditions, inspect the children as to cleanliness and obvious defects, and help the teachers by advising them on matters of health.

3. She shall report in person to the principal of the school or the teacher in charge, immediately upon her arrival each day and before her departure.

4. She shall keep such records in such form as the superintendent may determine.

5. She may visit excluded pupils at their homes; provided that such visits shall not be made in cases of smallpox, scarlet fever, diphtheria, measles, whooping cough, or mumps, and keep a record of all her visits, and the results of all her visits. She shall revisit from time to time as may be necessary.

6. She may visit the homes where there are flagrant cases of pediculosis and show the mothers how to treat the condition and encourage persistence.

7. She shall not treat cases of trachoma, but shall urge upon parents where necessary the need of treatment, and if advisable take the child to a dispensary.

8. She shall under the direction of the school physician give first aid in cases of minor cuts and bruises.

9. She shall check up vaccination records.

10. She shall make the sight and hearing tests of the children.

11. She shall urge upon parents, where necessary, the importance and value of a proper care of the teeth.

12. In general, under the direction of the superintendent of schools, she shall perform such other professional duties, consistent with the nature of her work, as will promote better hygienic living in school and home.

Diseases

1. No child shall be admitted to school who has not been vaccinated, except upon presentation of a certificate granted for cause stated therein, signed by a regular practicing physician, that he is not a fit subject for vaccination.

2. A child who is a member of a household in which a person is ill with smallpox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid, shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed, and that in the case of smallpox, diphtheria, and scarlet fever, at least two weeks, and in case of measles, at least three days, have elapsed since the recovery, removal, or death of such person.

3. A child sick with either smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria, or influenza, tonsilitis, whooping cough, mumps, scabies, trachoma, or other infectious disease, shall be excluded from school, and shall not be allowed to return until the teacher of the school has been furnished with a certificate from the Board of Health or from the attending physician of such person, stating that danger of conveying such disease by such child has passed; and that in case of smallpox, diphtheria, and scarlet fever, at least two weeks, and in case of measles, at least three days, have elapsed since the recovery, removal, or death of such person.

4. Notice of the disease or defects, if any, from which any child is found to be suffering, shall be sent to his parent or guardian. A child showing symptoms of smallpox, scarlet fever, measles, chicken pox, tuberculosis, diphtheria, or influenza, tonsilitis, whooping cough, mumps,

scabies, or trachoma, is to be sent home immediately, or as soon as safe and proper conveyance can be found, and the Board of Health shall at once be notified.

5. Children showing symptoms of pediculosis, ring worm, or impetigo, shall be excluded until danger of contagion has passed, and the parent or guardian shall be notified at once of the exclusion.

6. Whenever it is found advisable, a child who is a member of a household in which a person is ill with any infectious or contagious disease other than the foregoing, may be excluded until the teacher has been furnished with a certificate from the Board of Health of the town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

7. Each child in the public schools shall be separately and carefully tested and examined at least once in each year to ascertain whether he is suffering from defective sight or hearing, or from any other disability or defect tending to prevent his receiving the full benefit of his school work, or requiring a modification of the school work in order to prevent injury to the child or to secure the best educational results. Notice of any defect or disability requiring treatment shall be sent to the parent or guardian of the child, and a physical record of each child shall be kept in such form as the State Board of Education shall prescribe.

8. A household includes all persons occupying the same rooms and using the same entries.

If two or more families occupy the same house, but with separate entrances, and they use no rooms in common, such families are considered to be separate and distinct households. All doubtful cases shall be referred by the superintendent to the Board of Health for decision.

9. A monthly report of medical inspection shall be sent to the superintendent by the principal on blanks furnished for the purpose.

81st

ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1917

COMPILED BY

THE AUDITORS

POOLE PRINTING CO., INC.
217 FRIEND STREET
BOSTON

STATEMENT OF THE AUDITORS

To the Citizens of Milton:

In accordance with the Revised Laws and the By-Laws of the Town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending December 31, 1917, and have found the same correct.

Respectfully submitted,

J. HERBERT RAYMOND
FREDERICK N. KRIM } *Auditors*

MILTON, MASS., December 31, 1917.

(3) Term expires May, 1920.

REVISED BY-LAWS

TOWN OF MILTON, MARCH 2, 1902

Adopted by the Town and approved by the Superior Court May 20, 1902.

The amendments to Chapters 2, 3, 7, 8, and 10 adopted by the Town March 2, 1914, March 13, and September 1, 1915, were approved by the Attorney-General, December 10, 1914, May 8, and September 22, 1915.

CHAPTER 1

General Provisions

Section 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

Sect. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the Town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

Sect. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any

By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

SECT. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 5. In all the By-Laws of the Town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The word *public way* shall include any highway, townway, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

SECT. 6. All fines and penalties for the violation of any By-Laws shall, when received, inure to the use of the Town, and be paid into the Town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the Town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the Town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any

order of any Town officer or board of Town officers, issued under any of the By-Laws of the Town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the Town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the Town may be repealed or amended, or other By-Laws may be adopted, at any Town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2

TOWN MEETINGS

SECTION 1. The warrants for all Town meetings shall be directed to the constables of the Town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the Town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the Town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of Town officers shall be held upon the first Saturday of March, the polls to be open at fifteen minutes before six o'clock in the forenoon, and they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all said officers to be voted for on official ballots. At any time after said four o'clock a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. All business except the election of such officers and the determination of such matters as by law are required to be elected or determined by ballot shall be considered at an adjournment of said meeting to the following Saturday at one-thirty o'clock in the afternoon.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, if the decision of the Moderator is doubted, or a division of the house called for, the Moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make a report thereof to the Moderator.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

to adjourn,
to lay on the table,
for the previous question,
to postpone to a time certain,
to commit (or recommit) or refer,
to amend or substitute,
to indefinitely postpone,

shall have precedence in the order in which they are placed in this section.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for Town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the Town meeting of the ensuing year.

CHAPTER 3

THE WARRANT COMMITTEE

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the Town, the subject-matter of which is generally included in the warrants for its Town meetings; and the officers of the Town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the Town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the Town meetings held during the period for which they were appointed including the various articles in the warrant for the annual Town meeting next after their appointment; they shall also consider all questions submitted to the

voters of the Town at any meeting, including State elections under any act or resolve of the Legislature and proposed amendments to the Constitution; and they shall report in print before all such meetings their estimates and recommendations for the action of the Town."

CHAPTER 4

The Town's Finances and Property

Section 1. The financial year shall begin with the first day of March.

Sect. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the Town, a detailed report of all moneys received into and paid out of the Town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the Town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the Trustees respectively, and a statement of all other funds belonging to the Town or held for the benefit of its inhabitants; also statements of the liabilities of the Town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the Town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain

such other matters as may be required by the By-Laws of the Town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the Collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of November in the same year; and on all such taxes as are not paid on or before the said first day of November, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 71 of Chapter 490 of the Acts of the year 1909, Part 1, and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of November in the same year.

SECT. 5. No person being an officer of the Town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the Town.

SECT. 6. The Selectmen, being duly authorized by vote of the Town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the Town, and to give promissory notes therefor in behalf of the Town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the Town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. No order shall be drawn by any officer or

committee on the Town Treasurer for any purpose not authorized by a vote of the Town, or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the Town Treasurer shall keep full accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

SECT. 9. To provide for extraordinary expenditures of departments, should any become necessary in excess of appropriations made, the Town shall annually appropriate a certain sum of money to be known as the Contingent Fund. No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation. A certified copy of such vote shall be sent to the Town Treasurer, and the Treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

SECT. 10. No board, committee, or officer of the Town shall commit the Town to any expenditure or liability which would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the Town at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to

the Town, either by the Selectmen or other Town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the Town.

SECT. 12. The Selectmen shall have full authority as agents of the Town to institute and prosecute suits in the name of the Town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the Town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the Town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the Town, unless the Town shall otherwise vote in any special case.

SECT. 14. Two Auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

CHAPTER 5

THE CEMETERY

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the Town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual Town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the Town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by

the Town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such landmarks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to

give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such Tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

SECT. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.

2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.

6. Dogs are not allowed within the Cemetery grounds

CHAPTER 6

POLICE REGULATIONS

SECTION 1. No person shall move or assist in moving any building, over any way which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this Town is obliged to keep in repair, and desire to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any

public way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the Town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the Town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the Town for all expenses and damages which, or for which, the Town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be

propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the Town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or

perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any sign board of the Town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe

from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars, or advertisements through the Town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, fire-arm, torpedo, fire-cracker or fireworks in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

SECT. 26. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the

Revised Laws, until he has recorded his name and residence with the Superintendent of Police, and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Superintendent of Police, and be approved on the first Monday in every month by the Superintendent of Police; provided, however, that the foregoing provisions shall not apply to minors licensed by the Selectmen; and, further, provided that the Selectmen may restrain the sale by minors of any or all such articles.

No person hawking, peddling or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

SECT. 27. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the Town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the Town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle

or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

Sect. 28. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

Prosecutions and Penalties

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the Town may be made by any constable or police officer of the Town.

CHAPTER 7

The Construction and Inspection of Buildings

Section 1. This Chapter shall constitute and be known as the Building Code and may be cited as such. It provides, in conjunction with Chapter 635, Acts of 1912, known as the "Tenement House Act," for all matters concerning the construction, equipment, alteration, repair, demolition or moving of buildings or structures erected or to be erected in the Town of Milton.

Sect. 2. Whenever the word "Inspector" occurs in this Chapter it means the Inspector of Buildings.

Sect. 3. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within the Town at any reasonable hour.

SECT. 4. In this Chapter the following terms shall have the meanings respectively assigned to them:

First Class Buildings: A first class building shall consist of fireproof material throughout, with floors constructed of iron, steel or reinforced concrete beams, filled in between with terra cotta or other masonry arches or with concrete or reinforced concrete slabs. Wood may be used only for under and upper floors, window and door frames, sashes, doors, interior finish, hand rails for stairs, necessary sleepers bedded in cement, and for isolated furrings bedded in mortar. There shall be no air space between the top of any floor arches and the floor boarding.

Second Class Buildings: Second class buildings shall include all buildings not of the first class, the external and party walls of which are of brick, stone, iron, steel, concrete, reinforced concrete, concrete blocks or other equally substantial and fireproof material.

Third Class Buildings: Third class buildings shall include all buildings not of the first or second class.

Thickness of Wall: The minimum thickness of such wall.

Grade: Average grade of the ground immediately adjoining a building.

Cellar: A story more than one-half below the average grade of the ground immediately adjoining a building.

Wooden Frame Building: Any building of which an external wall is constructed wholly or partly of wood. Wood frames covered with metal, wire lath and plaster or brick shall be deemed to be wood structures.

Reinforced Concrete: By the term "reinforced concrete" is meant an approved concrete mixture reinforced by steel of any shape so combined that the steel takes up the tensile stress and assists in the resistance to shear.

Story: That part of a building between the top of any floor beams and the top of the floor or roof beams next above.

Permits

Sect. 5. Before the erection, construction or alteration of any building or part of any building, structure or part of any structure, wall, or any platform or flooring to be used for standing or seating purposes, is commenced, the owner or lessee, or agent of either, or the architect or builder employed by such owner or lessee in connection with the proposed erection or alteration shall, except for ordinary repairs, submit to the Inspector a detailed description of the location, purpose and construction of the proposed structure or work on proper blanks to be furnished by the Inspector, and full and complete copies of the plans of such proposed work, and such structural detailed drawings as the Inspector may require.

Such plans and detailed drawings shall be furnished in duplicate and, if approved by the Inspector, one set shall be kept at the building during the progress of the work, open to the inspection of the Inspector or his representative. The other shall be kept on file in the office of the Inspector.

The Inspector may require an applicant for a permit to submit with the plans of a building or other structure detailed drawings and calculations of any portions thereof subjected to unusual stresses, or of complicated construction, or for a steel frame or reinforced concrete construction, or of any type of construction not particularly described in this chapter.

Nothing in this section shall be construed to prevent the Inspector from granting his approval of the erection of any part of a building or structure where the general

plans and detailed descriptions have been filed for the same, before the entire detailed plans have been submitted.

SECT. 6. It shall be the duty of the Inspector to approve or reject any plans filed with him pursuant to the provisions of this chapter within a reasonable time and within ten (10) days in any event, and no work shall be commenced until a permit is issued.

SECT. 7. Upon approval of plans the Inspector shall issue a permit. The permit shall be void unless work is commenced within three (3) months from the date thereof.

SECT. 8. No building shall be lathed nor shall any metal ceiling, plaster board or other covering be put on until the Inspector has been notified that the building is ready for such work, and until he has given written consent thereto.

SECT. 9. If a proposed building or structure is of a size or character not provided for by this chapter, plans and specifications of such building or structure shall be submitted to the Inspector and referred by him, with his recommendations thereon, to the Board of Selectmen for approval.

CONSTRUCTION

SECT. 10. The Inspector shall examine all buildings in the course of erection or alteration as frequently as is necessary, to see that the Law and the By-Laws of the Town are complied with.

SECT. 11. Every portion of every building or other structure in process of construction, alteration, repair or removal and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 12. All masonry below the finished grade shall be laid up in mortar no poorer than one part Portland cement and three parts sand.

All masonry above grade shall be laid up in mortar no poorer than one part Portland cement, one part lime, and six parts sand.

SECT. 13. Every building or structure hereafter erected shall have a masonry foundation resting upon the solid ground, piles, or other durable structure. Said foundation shall be securely and properly built, and shall be of such thickness as to properly sustain the weight it is intended to support; provided, however, that the Inspector may, in his discretion, permit the use of other materials for foundations of buildings not over one and one-half stories high.

SECT. 14. The underpinning above grade, if of concrete, shall be not less than ten (10) inches in thickness; if of brick, not less than twelve (12) inches in thickness; if of stone, not less than sixteen (16) inches in thickness; and shall be laid in cement mortar, as prescribed in Section 12.

SECT. 15. All foundation walls and pier footings shall be laid at least three (3) inches below cellar bottom and not less than three (3) feet six (6) inches below any adjoining surface exposed to frost.

SECT. 16. All piers shall be built of stone, good hard burnt brick laid in mortar, or reinforced concrete. Isolated brick piers shall not exceed in height ten (10) times their horizontal dimensions and, if of reinforced concrete, fifteen (15) times their least horizontal dimensions, which shall not be less than twelve (12) inches. Cement filled iron columns may be substituted for piers if of suitable size to carry the superimposed load. Such columns shall have cast iron caps and bases and shall rest on foot-

ings of masonry, stone, or concrete which shall be at least twelve (12) inches in each dimension.

SECT. 17. For buildings other than frame, where the walls are of brick or solid concrete, the minimum thickness in inches of all exterior and dividing walls carrying the loads of floors and roofs and including foundation walls for the same shall be not less than specified in the following table:

Height	Foundations	Basement	Stories 1	2	3	4	5	6
1 Story	16	12	8					
2 Stories	16	12	12	8				
3 Stories	20	16	12	12	8			
4 Stories	20	16	16	12	12	8		
5 Stories	20	16	16	16	12	12	8	
6 Stories	24	20	16	16	16	12	12	8

The height of stories for the thickness of walls given shall not exceed:

First Story	17 feet
Second Story	15 feet
Third Story	13 feet
Fourth and Upper Stories	12 feet

and if any story exceeds the foregoing heights, it shall be counted as one additional story for each twelve feet in height or fraction thereof and the thickness of the walls not diminished from the thickness of the lower portion of such story.

If stone is used in place of brick or solid concrete, the thickness of walls shall be made four (4) inches thicker than above specified.

In external walls of the thickness specified in this section, the area of openings for windows, doors, flues, etc., shall not exceed 50 per cent of the gross sectional area.

In case the width of such openings exceeds one-half the length of the wall, the thickness of piers between openings shall be increased so as to maintain an area of at least fifty (50) per cent of the gross area required by the specified thickness; provided, however, that in the upper half of any vertical portion of the wall required to be of constant thickness a smaller addition may be made to the thickness of piers, if the stresses allowed by this code are not exceeded. Curtain walls of brick or concrete between piers, where carried to the piers by arches or lintels at each story, shall be not less than eight (8) inches in thickness.

SECT. 18. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 19. In reckoning the thickness of walls, no allowance for ashlar shall be made unless it is at least eight (8) inches thick, in which case the excess over four (4) inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four (4) inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

SECT. 20. Reinforced concrete construction will be accepted for buildings of the first class, and must be designed in accordance with the recommendations of the Joint Committee of the American Society of Civil Engineers, or American Society for Testing Materials, and all materials used in the construction must conform to the requirements of the standard specifications of the American Society for Testing Materials.

The Building Inspector shall have authority to require tests to be made of all materials used in the construction. Such tests shall conform to the requirements as approved by the American Society for Testing Materials.

Only stone or gravel concrete shall be allowed in the construction of reinforced concrete buildings, except that slag or cinder concrete may be used for fireproofing purposes and for floors or roofs where the super-imposed load does not exceed fifty (50) pounds per square foot, and the spacing between supports does not exceed six (6) feet.

The allowable unit stresses shall not exceed those recommended by the Joint Committee above mentioned.

Before issuing permit for the construction of reinforced concrete buildings, the Inspector of Buildings shall require the owner to submit a complete set of working drawings and details of the proposed construction with the approval of some well-known consulting engineer written upon each sheet of the drawing, and the cost of such approved drawings shall be paid by the owner.

SECT. 21. The studding in outside walls shall be at least two (2) by four (4) inches in size and spaced not over sixteen (16) inches on centers.

Studs next door and window openings shall be at least three (3) inches by four (4) inches and shall be mortised into sills and girts.

Openings in outside walls shall be trussed if the Inspector so requires.

SECT. 22. Every wooden building hereafter erected or altered shall have all parts of sufficient strength to carry the weight of the super-structure; shall be built with sills, posts, girts, studs and plates all properly framed, braced and secured together by mortising, strapping or halving, to the satisfaction of the Inspector.

The posts and girts shall be not less than four (4) inches in size except intermediate posts, which shall be not less than four (4) inches by eight (8) inches in size. Studs in interior partitions shall be placed not more than twenty (20) inches on centers. Plates shall be not less

than four (4) inches by four (4) inches in size, but may be two (2) inches by four (4) inches doubled. Sills shall be not less than four (4) inches by six (6) inches in size.

SECT. 23. The studding of main or carrying partitions shall be not less than two (2) by four (4) inches in size, and shall rest on a sole piece of hard pine two (2) by four (4) inches. All openings in main partitions of more than thirty-six (36) inches shall be trussed and have studs doubled at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding and two (2) inches thick, at least once in height.

Partitions over twelve (12) feet in height shall be bridged at least once in every six (6) feet.

When carrying partitions rest directly over each other, the studs shall run down between the floor beams and rest on the header of the partition below.

Headers of carrying partitions shall be at least two (2) inches by four (4) inches in size, doubled and of hard pine.

SECT. 23 A: All wooden header beams more than four (4) feet long used in any building shall be framed together and pinned or hung to the trimmer beams in stirrup-irons. When it is not practicable to frame or secure the ends of tail beams into header beams, the ends of the tail beams shall be hung to the header beams by stirrup-irons.

SECT. 24. All wooden beams of floors or flat roofs shall be properly bridged with cross bridging at least one (1) inch by three (3) inches in size, and the distance between bridging or between bridging and walls shall not exceed eight (8) feet.

SECT. 25. No part of any floor timber shall be within two (2) inches of any chimney; no studding or furring shall be within one (1) inch of any chimney; and no

timbers or woodwork shall be within two (2) inches of the back wall of any fireplace. The header beam, carrying the tail beams of a floor and supporting the trimmer arch in front of a fireplace, shall be not less than eighteen (18) inches from the finished chimney breast.

SECT. 26. Every wooden beam, except header beams, shall rest four (4) inches in the wall at each end, or upon a girder or column as authorized by this chapter, unless the wall is properly corbelled out of four (4) inches, in which case the brickwork or corbelling shall extend to the top of the floor beams.

SECT. 27. The ends of all wooden beams of floors where they rest on brick walls, and the ends of all wooden roof beams in parapeted walls, shall be cut to a bevel of three (3) inches in their depth.

SECT. 28. No cutting of timbers for any purpose shall be done so as to reduce the strength of the supporting parts below that required by the provisions of this chapter. No floor timber, header or trimmer beam of any building shall be cut into more than two (2) inches in depth for piping without a permit from the Inspector. Holes for electric wires through wooden beams, girders or floor beams shall not be located more than one (1) inch from the neutral axis thereof.

SECT. 29. Every second and third class building hereafter built shall have in each story all vertical space in the exterior walls, and carrying partitions thoroughly stopped with fireproof materials not less than four (4) inches in height. These steps may be omitted on approval of the Inspector in cases where the studding is to remain open and uncovered. In every building used solely as a mill or factory there shall be a fireproof stop between the upper and under floor. This fire stop may, however, be omitted if the floor boards are at least two (2) inches

thick and splined or tongued together and the space between the timbers of the floor open and uncovered.

SECT. 30. All floors shall be of sufficient strength to bear the weight imposed thereon and of sufficient strength in all parts to safely bear (in addition to the weight of the material of which the floor is composed), upon every square foot of its surface not less than the weights named below for the specified purposes for which such floors are respectively used or designed to be used:

Dwelling houses and hotels [except public rooms having a floor area of over five hundred (500) square feet and corridors], fifty (50) pounds; unfinished attics used for storage purposes only, thirty (30) pounds; schoolhouses, except corridors and assembly halls, sixty (60) pounds; stairs, landings, platforms, fire escapes, office floors, places of public assembly and public buildings having permanent seats, seventy-five (75) pounds; stables, private garages and the portions of public garages not containing machinery, seventy-five (75) pounds; corridors of hotels, of public buildings and of schoolhouses and rooms in hotels exceeding five hundred (500) square feet in area, one hundred (100) pounds; retail stores and buildings for light manufacturing purposes, one hundred and twenty-five (125) pounds; places of public assembly and public buildings having movable seats, dance halls and gymnasiums, two hundred (200) pounds; warehouses and buildings for heavy manufacturing purposes, two hundred and fifty (250) pounds. Loads not included in the above classification shall be determined by the Inspector.

SECT. 31. The pressure upon brick masonry in walls or piers, of which the thickness or least dimension is more than one-sixth of the height, when lime mortar is used, shall not exceed eight (8) tons per square foot; with lime and cement mortar, twelve (12) tons per square

foot; with cement mortar, eighteen (18) tons per square foot. When the thickness or least dimension is between one-sixth and one-twelfth the height, and lime mortar is used, the pressure shall not exceed seven (7) tons per square foot; lime and cement mortar, ten (10) tons per square foot; with cement mortar, fifteen (15) tons per square foot.

On first class stone work laid in cement, pressures shall not exceed: on sandstone, thirty (30) tons per square foot; on marble or limestone, forty (40) tons per square foot; on granite, sixty (60) tons per square foot.

Hollow blocks of terra cotta or concrete when used for bearing walls shall have not more than fifty (50) per cent of cellular space. Concrete blocks shall not be used in construction until they have attained the age of twenty-eight days, or developed the strength required in this section. All building blocks shall be laid in Portland cement mortar.

The compressive strength of building blocks shall in all cases be calculated upon the gross area of the bedding faces, no account being taken of the cellular spaces. The average ultimate compressive strength for terra cotta blocks laid with cells vertical shall be not less than twelve hundred (1200) pounds per square inch; the average for concrete blocks laid with cells vertical shall be not less than eight hundred (800) pounds per square inch. Concrete blocks shall be not less than thirty-six (36) days old when tested. The average strength of the blocks as here given shall be obtained by testing ten blocks of average quality.

The allowable working stress of hollow building blocks shall not exceed one hundred (100) pounds per square inch of gross area for terra cotta blocks, or seventy-five (75) pounds per square inch of gross area for concrete blocks. If a wall be built of blocks with the cells horizon-

tal, the allowable working stress shall not exceed thirty (30) pounds per square inch of gross area.

The maximum stress in pounds per square inch in woodwork shall not exceed the following:

	Long-leaved Yellow Pine Oak and Locust	Other Woods
Direct tension on compr. or fiber str.	1,500	1,000
Direct comp. side grain	500	300
Shear across fiber	1,200	800
" with "	150	100
Short columns	1,000	700

Columns may be used with a length not exceeding forty (40) times the least dimension. The unit strain for lengths up to ten (10) times the least dimensions shall be as given in the above table, with a reduction of one hundred (100) pounds per square inch for every increase of ten in the ratio of length to least dimension.

The maximum stress in tension in cast iron, or tensile fiber stress in case of beams, shall not exceed three thousand (3000) pounds per square inch. The maximum compression in short pieces or compressive fibre stresses in beams shall not exceed sixteen thousand (16,000) pounds per square inch. Cast iron columns may be used with a length not exceeding twenty (20) times their least external diameter. The unit stress for lengths up to three (3) times their least diameter shall not exceed eleven thousand (11,000) pounds per square inch, with a reduction of five hundred (500) pounds per square inch for every increase of 3 in the ratio of length to least diameter.

In rolled steel the maximum stresses shall not exceed the following:

Tension and fiber stress, 16,000 lbs. per square inch; compression in columns, 13,000 lbs. per square inch.

Columns may be used with a ratio of length (1) to least radius of gyration (r) not exceeding 16, 1 being expressed in feet and the r in inches. The unit stress allowed shall be 13,000 pounds per square inch for 1/r from 2 to 4; 12,000 from 4 to 6; with a decrease of 1000 pounds for each succeeding increase of 2 in the ratio of 1 to r.

Shear in rivets, 10,000 lbs. per square inch; shear in rough bolts, 9000 lbs. per square inch; shear in web (stiffened), 8000 lbs. per square inch; bearing on rivets, 18,000 lbs. per square inch; bearing on rough bolts, 15,000 lbs. per square inch.

The maximum stresses in wrought iron shall not exceed seventy-five (75) per cent of those allowed in rolled steel.

Materials not specifically mentioned above shall not be allowed to carry stresses exceeding one-quarter the stresses which would cause fracture or cracks in specimens of such materials of average quality under similar conditions of loading. In cases of doubt of the strength of such materials, the owner may be required to make such tests as the Inspector shall deem necessary to determine the strength, said tests to be made in the presence of the Inspector or his authorized representative.

SECT. 32. Frame buildings veneered on the outside with four (4) inches of brick or stone work shall have such brick or stone work supported on a foundation of masonry, and shall be properly anchored to the frame structure. The height of any such veneer shall not exceed twenty-five (25) feet above the solid masonry.

SECT. 33. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling, unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

SECT. 34. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipe. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 35. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

SECT. 36. All walls, ceilings and partitions inclosing drying-rooms, when not made of fireproof material, shall be wire lathed and plastered, or covered with metal, tile or other hard, incombustible material.

SECT. 36 A: No portion of any building of third class construction to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall be hereafter erected, enlarged, altered, or placed nearer than four (4)

feet to the line of any adjacent lot or to any other building of the first or second class; or nearer than eight (8) feet to any portion of any other building of the third class on the same lot, unless fireproof masonry walls, with openings protected as required by Section 36, are built next to the said lot or other building, such walls to be of thickness provided under Section 17.

SECT. 37. In first or second class buildings all openings in walls within four (4) feet of adjoining property lines shall be protected by metal shutters or by metal sash, frames and wire glass.

SECT. 38. Every building of the third class hereafter erected to form a block of two or more buildings shall have a wall of brick, or Portland cement concrete, or other equally substantial and approved fireproof material between adjoining buildings, completely separating same. Such walls to be of thickness specified in Section 17, carried to under side of roof boarding.

SECT. 38 A: Every dwelling to which the provisions of Chapter 635 of the Acts of 1912 do not apply shall have at least two independent means of egress.

ELECTRIC WIRING AND FIXTURES

SECT. 39. All wires, appliances and apparatus in the interior of a public building or on private premises, which are intended for the transmission of electricity and to be connected with an outside circuit, shall be made and at all times kept safe, and shall be placed, arranged, attached, changed and maintained by the person, firm or corporation owning or using the same, to the satisfaction of the Inspector of Wires appointed in accordance with the provisions of Chapter 337 of the Acts of the year 1899. The Inspector of Wires shall have access at all reasonable times to such wires, appliances and apparatus.

Before any person, firm or corporation shall arrange, fix, or essentially change any such wires, appliances and apparatus, the Inspector of Wires shall be notified and given full opportunity to inspect the said wires and their arrangement and fixtures before the same are covered or enclosed. Wires in the interior of buildings and on private premises shall not be connected with an outside circuit which crosses or runs along, over or under any street or way of the Town without written permission therefor having been first obtained from the Inspector of Wires.

Companies and contractors making any repairs on or installing any electric plants in the Town of Milton shall send a notice to the Inspector of Wires before the work is commenced.

All work and material must be supplied and installed in accordance with provisions of the National Electric code and any amendments or additions thereto.

Gas Fixtures

Sect. 40. The burners of all gas fixtures shall be at least three (3) feet below any ceiling or woodwork, unless the same is properly protected by a shield, in which case the distance shall be not less than eighteen (18) inches. No gas bracket on any lath and plaster partition or woodwork shall be less than five (5) inches in length, measured from the burner to the plaster surface or woodwork.

Sect. 41. Gas pipes in any building or structure shall be installed in accordance with the rules and regulations prescribed by the company furnishing gas. All gas pipes shall be inspected and tested by the gas company before the pipes are covered, and a certificate of the same from the gas company shall be placed on file with the Inspector of Buildings by the owner of the building or his

representative. The method of installation of the gas pipes shall be subject to the approval of the Inspector of Buildings.

SECT. 42. Every hot water boiler hereafter installed, to be used for heating purposes, shall be provided with a safety or relief valve of a size not less than that known commercially as one-half (½) inch. Such valve shall be attached either directly to the boiler or to some pipe connected therewith at a point not more than one foot from the boiler.

REGULATIONS MADE BY THE FIRE ENGINEERS ACCORDING TO THE PROVISIONS OF CHAPTER 32, SECTION 46 OF THE REVISED LAWS IN REGARD TO CHIMNEYS, FLUES, FIREPLACES AND HEATING PIPES.

SECT. 43. All chimneys hereafter erected shall be built of brick, stone or other incombustible material.

SECT. 44. All chimneys hereafter erected, if walls are less than eight (8) inches thick, shall be lined on the inside with terra cotta or tile pipe, made smooth on the inside from two (2) feet below girder, or from the throat of the fireplace, if the flue starts from the latter, and carried up continuously to the top. The ends of all such lining pipes shall be made to fit close together, and the pipe shall be built in, as the flue or flues are carried up. The walls shall be at least four (4) inches thick. No parging mortar shall be used on the inside of any fireplace, chimney or flue. The firebacks of all fireplaces hereafter erected shall be not less than eight (8) inches in thickness if of solid brickwork nor less than twelve (12) inches if of stone. When a grate is set in a fireplace, a lining of firebrick at least two (2) inches in thickness shall be added to the fireback, unless soapstone, tile or cast iron is used and filled solidly behind with fireproof material.

All chimneys shall extend at least three (3) feet above the highest point at which the chimney cuts the roof and at least six (6) inches above any roof surface within ten (10) feet in a horizontal line.

SECT. 45. Imitation fireplaces intended for use with gas or electricity and not having a flue shall be constructed throughout, including the hearth, of fireproof material not less than two (2) inches thick.

Hearths of all fireplaces and chimney breasts where mantels are placed shall be supported by trimmer arches of brick, stone, burnt clay or concrete at least eighteen (18) inches in width measured from the face of the finished chimney breast and not less than sixteen (16) inches longer than the width of the finished fireplace opening. Wooden centers under trimmer arches shall be removed before plastering the ceiling underneath. Hearths may be supported on steel cantilever beams built not less than sixteen (16) inches into the chimney.

SECT. 46. No chimney shall be supported by, started or built upon any woodwork.

In no case shall a chimney be corbelled out more than two-thirds the thickness of a wall to which it is attached, and in all such cases the corbellings shall consist of at least five course of brick. Where chimneys are supported by piers, the piers shall start from the foundation on the same line with the chimney breast, and shall be not less than twelve (12) inches on the face, properly bonded into the walls. When a chimney is to be cut off below, in whole or in part, it shall be wholly supported by stone, concrete, brick, iron or steel.

All chimneys which become dangerous in any manner whatever shall be repaired and made safe, or taken down.

SECT. 47. All hot air furnaces, low pressure boilers, and hot water heaters shall be placed at least two (2) feet from any wooden or combustible partition or ceiling,

unless such partition or ceiling is properly protected by incombustible material, when the distance shall be not less than one (1) foot.

SECT. 48. No wood shall be placed within one (1) inch of any smoke flue or metal pipe used to convey hot air. No smoke pipe shall pass through any wood floor. No smoke pipe shall be placed nearer than twelve (12) inches to any woodwork unless it is properly guarded by metal shields; if so guarded smoke pipes shall be not less than six (6) inches distant. Where smoke pipes pass through a lath and plaster partition they shall be guarded by galvanized iron ventilated thimbles at least twelve (12) inches larger in diameter than the pipes, or by galvanized iron thimbles surrounded by solid masonry extending through the partition and eight (8) inches larger than the pipes. No smoke pipe shall pass through the roof of any building unless a special permit be first obtained from the Inspector of Buildings.

SECT. 49. Steam or hot water heating pipe shall not be placed within two (2) inches of any timber or woodwork, unless the timber or woodwork is protected by a metal shield; then the distance shall be not less than one (1) inch. All steam or hot water heating pipes passing through floors and ceilings or lathed and plastered partitions shall be protected by a metal tube one (1) inch larger in diameter than the pipe—having a metal cap at the floor.

All pipes or ducts used to convey air warmed by steam or hot water shall be of metal or other fireproof material. All steam and hot water pipe coverings shall consist of fireproof materials only.

CHAPTER 8

THE REGULATION AND INSPECTION OF PLUMBING

SECTION 1. There shall be in the Town a department for the inspection of plumbing in accordance with the provisions of Chapter 103 of the Revised Laws.

SECT. 2. The word "Inspector" without further addition wherever used in this chapter means the Inspector of Plumbing.

SECT. 3. Every plumber before commencing work on any part of the drainage system in a building, except in the case of the repair of leaks, shall file at the office of the Inspector upon blanks provided for that purpose, a description of the proposed work. No such work shall be done in any building unless approved by the Inspector and after a permit is issued therefor. Permits to perform plumbing shall be issued only to master plumbers. Drawings of the proposed work shall be filed when required by the Inspector.

SECT. 4. No drainage, waste or ventilation pipes shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two (2) working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All drainage, waste and ventilation pipes shall be subjected to the water test before the fixtures are set. After all the fixtures are set, said pipings and fixtures shall be subjected to pneumatic or other reliable pressure test. All such tests shall be made in the presence of the Inspector.

SECT. 6. The drainage and waste piping of every building shall be connected with the public sewer when such sewer is located in a street, way or other land adjacent to the lot upon which the building is located, if the sewer is within two hundred (200) feet of such building and is so located as to take the sewerage therefrom. If the building is more than two hundred (200) feet from

the sewer or a sewer is not accessible, connection may be made with a proper cesspool, provided a permit is granted therefor by the Board of Health.

SECT. 7. The soil pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil pipes shall be of extra heavy cast iron pipe. All drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast iron with leaded and caulked joints, but galvanized wrought iron pipe may be used for vent purposes. All pipes shall be properly secured to walls and ceilings with wrought iron hangers. Waste pipes shall be of cast iron, of lead, or of annealed brass of a thickness not less than No. 13 Stubbs gauge with brass or cast iron recessed fittings. No soil pipe of any building shall be less than four (4) inches inside diameter, except by written permission of the Board of Health. No vent pipe shall be less than one and a half (1½) inches inside diameter. No waste pipe shall be less than one and a quarter (1¼) inches inside diameter.

SECT. 8. All drain pipes shall have a proper pitch, shall have an accessible clean-out, and shall extend to a point ten (10) feet outside of the cellar wall. The pipe from the sewer or cesspool to within ten (10) feet of the cellar wall shall have tight joints. The clean-out, if made accessible, may be placed outside of the cellar wall. All drain or ventilation pipes shall extend undiminished in inside diameter at least two (2) feet above the highest window on the roof. Every drain pipe, except a drain pipe from a building having but one sink, or but one sink with adjoining trays, shall have a suitable trap placed with an accessible clean-out at a reasonable distance from the point where such drain pipe leaves the building. All changes in direction of soil pipes shall be made by Y branches or by curved pipes. No ventila-

tion pipes on the outside of any building shall be less than two (2) inches inside diameter.

SECT. 9. All joints in iron drain pipes, soil or vent pipes shall be made by thoroughly caulking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full sized wiped joint and caulking the ferrules to pipes which are of cast iron, or screwing them to pipes which are of wrought iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop hopper, and every tray or set of four or less wash trays shall have a separate trap, placed as near the fixture as possible, except that when two sinks or two basins, or a sink and a set of four or less wash trays adjoin, one trap shall be sufficient. A basin and bath-tub adjoining shall each have a separate trap, and in no case shall the waste from the bath-tub or other fixtures be connected with the water-closet trap or water-closet lead outlet pipe.

All fixture traps shall be protected from syphonage or air pressure by special vent pipes having a diameter not less than the diameter of the waste pipe and connected with the waste pipe at a point not lower than the seal of the trap in such manner as to make the vent pipe a continuation of or a Y branch from the waste pipe, except that the highest fixture on a stack which extends through the roof shall not require such special vent pipe unless the length of the waste pipe from the trap of said fixture to the said stack exceeds three (3) feet. Vent pipes for water-closets shall be of not less than two (2) inches bore and may be connected with the water-closet waste pipe below the level of the trap seal. Two or more vent pipes may be connected together or with a soil pipe, but such connection with a soil pipe shall be above the uppermost fixture connected with such soil pipe. Lead

vent pipes may be used only where they are exposed to view.

SECT. 11. No drip or overflow pipes from safes under water-closets, urinals, or other fixtures, no overflow pipes from tanks or cisterns, no waste pipes from refrigerators or other receptacles in which food is stored, no rain water conductors, and no steam exhaust pipes, or steam waste pipes shall be connected with any soil pipe. No openings shall be allowed in the soil or waste pipe of any building for the purpose of receiving the surface drainage of the cellar except by permission of, and in a manner satisfactory to, the Board of Health. No brick, sheet metal, earthenware, or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil or waste pipe.

SECT. 12. Every water-closet shall be supplied with water from a tank or cistern, and shall have a flushing pipe of not less than one and a quarter (1¼) inches inside diameter. Flushing valves attached directly to a water-closet may be used, but when used the method of installation shall conform in every particular to the requirements of the Inspector.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. No water-closet shall be enclosed with any woodwork.

SECT. 15. None of the provisions of the foregoing sections of this chapter shall apply to the drainage systems of barns and stables, except so far as ordered by the Board of Health, and all drainage systems of barns and stables shall be constructed according to plans approved in writing by the Board of Health.

SECT. 16. Every closed tank or boiler hereafter installed, which is to be used for the storage and supply of hot water, shall, if fed by direct pressure from any source

outside of the building, have a safety or relief valve and a vacuum valve. Each valve shall be of a size not less than that known commercially as one-half (½) inch.

SECT. 17. Any person violating any of the provisions of Chapters numbered Seven and Eight shall be liable to a fine of not less than twenty (20) dollars nor more than one hundred (100) dollars for each offense, to be paid into the treasury of the Town of Milton.

SECT. 18. Upon the approval of Chapters 7 and 8 by the Attorney-General of the Commonwealth and the publication as required by law, they shall go into effect, and all building laws heretofore adopted by the Town shall be thereby repealed, except that in cases where permits have been issued prior to the approval and publication as above provided, the laws then existing shall govern the work to be performed under said permits.

CHAPTER 9

STREET RAILWAYS

SECTION 1. The annual report shall contain the following concerning the street railways in the Town and the street railway companies owning or operating the same, viz.:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the Town by street railway companies during the preceding calendar year,

which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the Town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the travelling public are required upon any street railway in the Town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10

TOWN WAYS

SECTION 1. Every way that shall be laid out for the acceptance of the Town as a Town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a Town way, the documents relating to such laying out shall be accompanied by a letter from the Selectmen, which shall be filed in the office of the Town Clerk, together with said documents, before such way shall be accepted. This letter shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the Town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON

MARCH 19, 1866. *Voted,* To establish a High School, according to the provisions of Section 2 of Chapter 38 of the General Statutes.

MARCH 2, 1874. *Voted,* To accept the provisions of Chapter 265 of the Acts of 1873, relative to public landing places in the Town of Milton.

MARCH 4, 1878. *Voted,* To accept the provisions of Sections 23 to 32 of Chapter 24 of the General Statutes, relative to the establishment of a board of fire engineers.

MARCH 3, 1879. *Voted,* To accept the provisions of Section 21 of Chapter 38 of the General Statutes, relative to the election of School Committee.

DECEMBER 8, 1879. *Voted,* To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 1, 1880. *Voted,* To accept the provisions of Section 1 of Chapter 234 of the Acts of 1878, relative to truants and neglected children.

MARCH 5, 1883. *Voted,* To accept the provisions of Section 10 of Chapter 48 of the General Statutes, relative to truants and neglected children.

MARCH 7, 1881. *Voted,* To accept the Act of the Legislature, Chapter 158 of the Laws of 1871, entitled, "An Act to Provide for the Election of Road Commissioners."

MARCH 3, 1890. *Voted,* To accept the first nine sections of Chapter 51 of the Public Statutes, said chapter being entitled, "Of Betterments, and Other Assessments on Account of the Cost of Public Improvements."

FEBRUARY 12, 1891. *Voted,* To accept the Act authorizing towns and cities to lay out public parks within their limits; being Chapter 154 of the Acts of 1882.

MARCH 2, 1891. *Voted,* To accept the provisions of Chapter 386 of the Acts of 1890, relative to the election of Town Officers.

FEBRUARY 3, 1894. *Voted,* That the Town does hereby accept the provisions of Section 268 of Chapter 417 of the Acts of the Legislature of Massachusetts passed in the year 893, relative to the election of a separate Board of Assessors.

NOVEMBER 28, 1894. *Voted,* That the Town hereby accepts the provisions of Chapter 324 of the Acts of the Legislature of 1894, entitled, "An Act Relative to the Reservation of Spaces in Public Ways."

MARCH 4, 1895. *Voted,* That the Town hereby accepts the provisions of Chapter 309 of the Acts of 1885, entitled, "An Act Authorizing Cities and Towns to License Groves, to be Used for Picnics and Other Lawful Amusements."

MARCH 4, 1895. *Voted,* That the Town hereby accepts the provisions of Section 272 of Chapter 417, Acts of the Legislature of 1893, relating to the election of Sewer Commissioners in towns.

MARCH 4, 1895. *Voted,* That the Town hereby accepts the provisions of Chapter 462 of the Acts of the Legislature of 1893, entitled "An Act to Authorize the Establishment of a Building Line on Public Ways."

MARCH 4, 1895. *Voted,* That the Town hereby accepts the provisions of Chapter 218 of the Acts of the Legislature of 1894, as amended by Chapter 473 of the Act of the same year, being "An Act Relative to the Election of Boards of Health in Towns."

MARCH 4, 1895. *Voted,* That the Town hereby accepts the provisions of Sections 20 and 21 of Chapter 50 of the Public Statutes, relating to the establishment and grading of sidewalks, by the Selectmen.

JUNE 29, 1895. *Voted,* That the Town accept the provisions of Chapter 304 of the Acts of 1895, entitled, "An

Act to Authorize the Town of Milton to Construct One or More Systems of Sewerage."

March 1, 1897. *Voted,* That the Town accept Chapter 101 of the Public Statutes, entitled, "Of the Suppression of Common Nuisances."

March 1, 1897. *Voted,* That the provisions of Chapter 481 of the Acts of the year 1894, be accepted, entitled, "Regulation and Inspection of Buildings."

March 5, 1900. *Voted,* That Chapter 344, Acts of 1899, entitled, "An Act to Make Eight Hours a Day's Work for City and Town employees," be accepted.

March 3, 1902. *Voted,* That the Town accept Section 18 of Chapter 122 of the Revised Laws, relative to the appointment of an Inspector of Wires.

March 3, 1902. *Voted,* That the Town accept Chapter 38 of the Revised Laws of Massachusetts, relative to the election of a treasurer of Public Library Trustees.

July 14, 1902. *Voted,* To accept Chapter 307 of the Acts of 1902, entitled, "An Act to Supply the Town of Milton with Water."

August 16, 1902. *Voted,* To accept Sections 58 to 64, inclusive, of Chapter 48 of the Revised Laws, relative to jurisdiction of towns over highways and county bridges.

March 2, 1903. *Voted,* To accept Sections 20 and 21, of Chapter 25 of the Revised Laws of Massachusetts, relating to public baths, etc.

March 2, 1903. *Voted,* To accept Section 339 of Chapter 11 of the Revised Laws, and Acts in amendment thereof and in addition thereto, relative to the election of Overseers of the Poor.

March 7, 1904. *Voted,* To accept Section 70 of Chapter 75 of the Revised Laws, relating to privy vaults.

March 6, 1905. *Voted,* To accept Chapter 103 of the Revised Laws, relative to supervision of plumbing.

July 21, 1905. *Voted,* To accept Chapter 381 of the Acts

of 1905, relative to the suppression of gypsy and brown-tail moths.

March 1, 1909. *Voted,* To accept the provisions of Chapter 476, Acts of 1908, relative to vacations of members of Police departments.

March 7, 1910. *Voted,* To accept the provisions of Section 43 of Chapter 49 of the Revised Laws, relative to the grading and construction of sidewalks.

March 4, 1911. *Voted,* To accept the provisions of Section 359 of Chapter 560 of the Acts of 1907, relative to the election of Moderator for the term of one year.

March 4, 1911. *Voted,* To accept the provisions of Section 362 of Chapter 560 of the Acts of 1907, relative to the number of Constables to be elected.

November 7, 1911. *Voted,* To accept Chapter 634, Acts of 1911, authorizing counties to establish retirement systems for employees.

March 11, 1912. *Voted,* To accept Chapter 146 of the Acts of 1911, authorizing the Town to establish an Art Commission.

March 11, 1912. *Voted,* To accept the provisions of Chapter 468 of the Acts of 1911, relative to the extension of the Civil Service Act to the Chiefs of Police in certain cities and towns.

March 11, 1912. *Voted,* To accept the provisions of Chapter 314 of the Acts of 1911, relative to authorizing the School Committee to spend money for the supervision of sports.

March 11, 1912. *Voted,* To accept the provisions of Chapter 367 of the Acts of 1911, relative to the use of school halls for other than school purposes.

November 5, 1912. *Voted,* To accept the provisions of Chapter 503 of the Acts of 1912, an Act relative to pensioning laborers in the employ of cities and towns.

March 3, 1913. *Voted,* To accept the provisions of

Chapter 327 of the Acts of 1904, relative to the pensioning of permanent members of the Police and Fire Departments.

MARCH 3, 1913. *Voted,* To accept Chapter 498, Acts of 1908, entitled An Act to Authorize Cities and Towns to Establish Pension Funds for Teachers in the Public Schools.

MARCH 4, 1913. *Voted,* To adopt Chapter 635 of the Acts of 1912, known as the Tenement House Act for Towns.

MARCH 4, 1913. *Voted,* To accept the provisions of Chapter 191 of the Acts of 1907, authorizing the establishment of Boards of Survey in Towns.

MARCH 2, 1914. *Voted,* To accept Chapter 807 of the Acts of 1913, being an Act to provide for compensating laborers, workmen and mechanics for injuries sustained in public employment, and to exempt from legal liability counties and municipal corporations which pay such compensation.

MARCH 2, 1914. *Voted,* To accept the provisions of Section 42 of Chapter 514 of the Acts of 1909, as affected by Chapter 494 of the Acts of 1911, which provide that eight hours shall constitute a day's work for city or town employees.

MARCH 13, 1915. *Voted,* To accept the Act provided for in Chapter 296 of the Legislative Enactments of 1913 and to establish the office of Bird Warden provided under this Act.

MARCH 10, 1917. *Voted,* To accept Chapter 15, Special Acts of 1917. "An Act authorizing the Town of Milton to revoke the reserved space for the use of street railways in a part of Blue Hill Avenue."

G. Frank Kemp,
Town Clerk

1917

MARCH MEETING

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, SS.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall in said Milton upon the third day of March next, at fifteen minutes before six o'clock in the forenoon, then and there to act upon the following articles, to wit:

ARTICLE 1. To choose by ballot the following Town officers: Moderator, Town Clerk, 3 Selectmen, Assessor, Overseer of Poor, Treasurer, 2 Auditors, Collector of Taxes, 4 Constables, Sewer Commissioner, Member of Board of Health, 2 Members of School Committee, Water Commissioner, Cemetery Trustee, Park Commissioner, 3 Trustees of Public Library, Tree Warden.

Charles S. Pierce was chosen Moderator Pro Tem.

The following appointments of Ballot Clerks and Tellers were made by the Selectmen to serve at said meeting, viz:

Ballot Clerks: Thomas M. Lennon, Henry D. Mahoney, John A. Larrabee, Charles H. Bearce, Ralph Eaton, Edwin J. Fairbank, Jr., Charles E. Whelan, Jesse P. Bent.

Tellers: Martin L. Bannin, Henry F. Brierly, William A. Haley, Edward Gallagher, Prescott Skinner, Joseph J. Mullen, Patrick F. Healey, D. Morton Swift, B. Sarsfield Quigley, James P. Thurber, Clyde L. Whittier, William P. Melley, Ernest P. Libby, Walter I. Marsden,

Joseph Shields, John Monahan, Frank R. Forde, James F. Burke, Jr., J. Arthur Spencer, Edward F. W. Bartol, Joseph A. Rein, James A. Roberts, Edward L. Corkery, Frederick K. Rogers, Peter A. Barry, Jr., Frank I. Jordan, Albert J. Eichorn, Albert M. Hoxie, Charles E. Cross, John L. Kelley.

All of the above-named Ballot Clerks and Tellers were sworn by the Town Clerk.

At four o'clock P.M., *Voted*, To close the Polls for Town officers in ten minutes.

All ballots cast for Town officers having been sorted, counted, declared and recorded, the result being as hereby appended, and the following officers chosen, viz.:

Maurice A. Duffy, James F. Mitchell, James S. Russell were chosen Selectmen and Surveyors of Highways.

G. Frank Kemp was chosen Town Clerk.

Charles H. Horne was chosen Assessor.

J. Porter Holmes was chosen Town Treasurer.

Eva B. T. Churchill, Charles M. Rogerson were chosen School Committee.

Josiah Babcock was chosen Collector of Taxes.

Frederick N. Krim, J. Herbert Raymond were chosen Auditors.

J. Sumner Draper was chosen Park Commissioner.

Warland Wight was chosen Sewer Commissioner.

Edward E. Ford was chosen Water Commissioner.

Lloyd T. Brown was chosen on Board of Health.

Peleg Bronsdon, George W. Higgins, Timothy McDermott, Maurice Pierce were chosen Constables.

Roger L. Scaife, Roderick Stebbins, Arthur H. Tucker were chosen Trustees of Public Library.

Percy E. Sheldon was chosen Trustee of Cemetery.

Ralph S. Carpenter was chosen Tree Warden.

Walter D. Brooks was chosen Overseer of Poor.

Robert F. Herrick was chosen Moderator.

ARTICLE 2. To vote "Yes" or "No" in answer to the question "Shall licenses be granted for the sale of intoxicating liquors in this Town?" The polls will remain open until four o'clock in the afternoon, after which time a vote may be passed to close them in not less than ten minutes. In accordance with the By-Laws the meeting will then be adjourned until Saturday, March 10, next, at one-thirty o'clock P.M., to consider the following articles.

Voted, That no license be granted for the sale of intoxicating liquors in this Town. The vote being as follows: Yes 164. No 1,008. Blanks 237.

ADJOURNED MEETING, MARCH 10, 1917

ARTICLE 3. To choose all such Town officers as are not required by law to be chosen by ballot.

The following officers were elected *viva voce*, namely: Ralph E. Forbes, Bird Warden; George Y. Badger, Malcolm A. LeFevre, Fence Viewers; George E. Burt, Arthur H. Tucker, Surveyors of Lumber; Calvin H. Sanford, Pound Keeper.

ARTICLE 4. To hear and act upon the Auditors' report and reports of other Town officers and committees.

Voted, That the Auditors' (printed) Report, also the reports of the following committees: Blue Hill Avenue Special Committee, Legislative Committee, Committee on Motorizing Fire Apparatus, Committee on School Buildings, and the Edwin D. Wadsworth Fund Special Committee, contained therein be accepted and placed on file.

REPORTS OF COMMITTEES

COMMITTEE ON TOWN MANAGEMENT

To the Citizens of Milton:

At the Annual Meeting in March, 1916, it was *Voted;* That a committee of five citizens be appointed by the Moderator, for the purpose of considering and study-

ing the question of the adoption of a system whereby certain of the departments of the Town may be consolidated and the active supervision of certain of the various affairs of the Town may be under the general direction of a Town Manager; said committee to make recommendations and report a plan in print to be distributed to the citizens of the Town on, or before, January 1, 1917.

On this committee, the Moderator appointed Charles S. Pierce, Charles E. Rogerson, William B. Thurber, Arthur H. Tucker and Theodore T. Whitney, Jr.

It will be noted that the committee was instructed to "report a plan in print to be distributed to the citizens of the Town on, or before, January 1, 1917." The study of this Town Manager plan, however, is necessarily dependent upon the development of the plan in municipalities where it is in force, or about to be tried out, and your committee early decided that a report by January 1 would be of little value to the citizens, as it would be only a Report of Progress without embodying very definite recommendations, and, therefore, not commensurate with the expense of printing and distributing the report to the individual citizens. We trust this decision will meet your approval.

Our study of the problem has been along various lines. We have studied such pamphlets and articles as have been written upon the Town Manager plan, with special reference to New England towns. We have interviewed Town officials and interested citizens representing both advocates and opponents of the plan. We have attended conferences where the plan was under discussion, and also attended Town Meetings in Winchester, where a plan closely resembling the Norwood plan was discussed at special meetings in January. Our work has also included consideration of a Bill now before

the Legislature embodying the general ideas of the Town Manager plan of local government. The hearings to be held on this Bill should be of interest and value to your committee.

While advocates of the plan may differ somewhat as to just what particular offices should be appointive and what elective, yet all agree that there should be a decided reduction in the number of elective offices in comparison with Milton's present system. Also, by empowering the Selectmen to appoint an Executive officer, designated as a Town Manager, a large amount of the administrative work now handled by the Selectmen, or by various boards or commissions, is handled by this new officer, thus abolishing certain existing boards, and enabling such as are continued to devote their time and attention to broader and larger questions.

The appointment of a Town Manager does not necessarily mean the removal of the existing Superintendents or Chiefs of the various departments. Each Town department must have its responsible official, the same as any department in any well conducted business. The value of this Town Manager—who in our opinion is better designated by the title of General Superintendent—is in his opportunity and ability to co-ordinate the work of the various departments, concentrate responsibility and control and prevent the duplication of work and overlapping of authority, which even the strongest supporters of the present type of Town Government must admit is at times apparent. Let it be clearly borne in mind that this General Superintendent is directly responsible to the Selectmen, and the Selectmen in turn are under the control of the voters, just as directly as they are to-day.

But apart from the argument for greater business efficiency, and very possibly more important, is the

fundamental question—Is it better for the citizenship of a community to have its political duties lessened by reducing the number of elective officers, or does the fact of reducing the number of elective officers, in a Town the size of Milton, enable the average citizen to obtain better knowledge of the fitness of the smaller number of men for whom he is voting, and thus really increase his interest and render more effective his vote on election day? In other words, does, or does not, a short ballot with consequently more appointive offices tend to make the average voter more alert and more interested in his political responsibilities, and thus produce a better public spirit in a Town like ours? These are large questions not to be decided hastily, but only after careful thought and candid expression of opinion by men who take their political obligations seriously, and who would be slow to relinquish any existing scheme of Town Government upon the sole argument that a new plan might develop better business efficiency. We can well afford to move slowly in this matter, and in order to obtain a wider opinion, and a study of the project from more varied points of view, your committee not only asks to be continued, if you see fit so to do, but also that the number of members be increased to fifteen, so that when our final report, whether for or against the plan, is submitted, it may be the judgment of a larger, and, consequently, more representative body of citizens.

WM. B. THURBER, *Chairman*,
CHARLES S. PIERCE,
CHARLES E. ROGERSON,
ARTHUR H. TUCKER,
THEODORE T. WHITNEY, JR., *Secretary*,
Committee.

MILTON, MASS., February 10, 1917.

Voted, That this report be accepted and placed on file.

Report of Town Landing Committee

Milton, Mass., March 6, 1917.

To the Citizens of Milton:

Your Town Landing Committee, which was continued last March for another year, begs to report as follows:

The Milton Boat Club has again rented the old police station for $50, and acted as the committee's agent in boating matters. Additional plumbing has been installed in the club house at a cost of $237, toward which the committee contributed $100 and the boat club $137.

In April, 1911, your committee spent $300 for dredging in front of the landing, the work being done by the Bay State Dredging Company. A gradual silting up has gone on since, until last summer it was necessary to dredge again. This was done by the Gerrish Dredging Company of Boston at a cost of $300, and in connection with work the same company was doing just across the river for the Metropolitan Park Commission. Mr. Charles L. Bertram, the present commodore of the Milton Boat Club, kindly represented the committee on this work, and his experience and close attention proved most helpful.

Legal questions with the Godfrey Coal Company, mentioned in last year's report, have progressed slowly but your committee hopes to settle them this year. The balance now on hand is $374.62, which together with rentals and possible other receipts should prove sufficient for the ensuing year.

Respectfully submitted,

Edward F. W. Bartol,
H. B. Horne,
James S. Russell,
Norton Wigglesworth,
E. C. Williams,
Town Landing Committee.

Voted, That this report be accepted and placed on file.

Report of Municipal Gymnasium Committee

Milton, Mass., March 9, 1917.

To the Citizens of the Town of Milton:

The Municipal Gymnasium Committee respectfully submits the following report:

The Town having voted to build a gymnasium in connection with the Vose School and it being the intention of the School Committee to utilize it for municipal as well as school purposes, we believe that the usefulness of our committee has ended.

We note with pleasure that it is the intention of the Park Commissioners to improve Brook Road Playground by building a running track and resurfacing the tennis courts and we heartily approve of a continuance of similar improvements. We request that this report be accepted and the committee discharged.

Respectfully submitted,

James S. Russell,
Jesse B. Baxter,
Reginald L. Robbins,
W. Newton Harlow,
Municipal Gymnasium Committee.

Voted, That this report be accepted and the committee discharged.

Article 5. To see what sum of money the Town will vote to appropriate for the support of the schools the present year.

Voted, To appropriate $94,000 for the support of the schools the present year.

Article 6. To see what sum of money the Town will vote to appropriate for the transportation of pupils the present year.

Voted, To appropriate $2,300 for the transportation of pupils the present year.

ARTICLE 7. To see what sum of money the Town will vote to appropriate for the medical inspection of the public schools the present year, the same to be expended under the direction and at the discretion of the School Committee.

Voted, To appropriate $1,200 for the medical inspection of the public schools the present year, the same to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. To see what sum of money the Town will vote to appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the present year.

Voted, To appropriate $100 to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of school lots the present year.

ARTICLE 9. To see if the Town will vote to take in fee by purchase or otherwise under the authority of the Revised Laws, Chapter 25, for the purpose of erecting thereon a school building, the land on Thacher Street bounded and described as follows:

> Southwesterly by Thacher Street two hundred twenty-four and 89/100 (224.89) feet; northwesterly by land now or formerly of George E. and Waldo C. Burt, four hundred and 54/100 (400.54) feet; northeasterly by land of the Town of Milton, two hundred twenty-four and 89/100 (224.89) feet, and southeasterly by land of the Town of Milton, land now or late of Michael J. Kelley, land now or late of J. Frank Pope, and land now or late of Harriet C. Shields, three hundred and seventy-six and 99/100 (376.99) feet, containing two acres, as shown on plan of land by W. W. Churchill, Surveyor, dated January, 1916, entitled "Plan of a Portion of Real Estate Located in Milton, Mass., Belonging to George E. and Waldo C. Burt," a copy of which is on file with the School Committee,

and also to see if the Town will appropriate money for the same and determine how the money shall be raised.

Voted, That this Article be indefinitely postponed.

ARTICLE 10. To see if the Town will vote to erect as a part of the addition to the Vose School, now in process of construction, an Assembly Hall with a lunch room in the basement thereof and to sub-divide the present Assembly Hall in the original building into class rooms, said As-

sembly Hall, lunch room, and the work of the sub-division to be substantially in accordance with the plans and specifications already prepared by the Committee on School Buildings; and will vote to equip and furnish the same; also to see if the Town will vote to appropriate money therefor and determine how the money shall be raised.

Voted, (1) That the sum of $3,000 is hereby raised and appropriated to be expended by the Committee on School Buildings appointed under Article 7 of the Warrant of the Annual Meeting of 1915, and continued under Article 9 of the Warrant of the Annual Meeting of 1916 as a Building Committee, to subdivide the present Assembly Hall in the original Vose School Building into class rooms substantially in accordance with the plans and specifications already prepared by said committee, and to equip and furnish the same.

(2) That the further sum of $30,000 be appropriated to be expended by said committee to erect as part of the addition to the Vose School now in process of construction, an Assembly Hall with a lunch room in the basement thereof substantially in accordance with the plans and specifications already prepared by said committee, to equip and furnish the same; that said $30,000 shall be raised by the issuance of bonds of $1,000 each; the issue shall be dated May 1, 1917, and shall mature three bonds on May 1, 1918, two bonds on May 1 of each of the years 1919 to 1927, both inclusive, and one bond on May 1 of each of the years 1928 to 1936, both inclusive. The bonds shall bear interest coupons at a rate not exceeding 4½ per cent per annum, payable semi-annually. Each bond shall be subject to registration as to principal, and the bonds shall also, in compliance with the statutory provisions therefor, be exchangeable for registered certificates without coupons. The bonds shall not be obligatory without the authenticating certificate of the First National Bank of Boston. The bonds shall state upon their face that they are exempt from taxa-

tion in Massachusetts and be denominated on the face thereof: "Town of Milton High School Loan." The bonds may be sold from time to time under the direction of the Selectmen and the Town Treasurer as the moneys above appropriated are needed, but they shall not be sold at less than par and interest. Premiums received upon such bonds, less the cost of preparing, issuing and marketing them, shall be applied to the payment of the principal of the first bond or bonds to mature. All other particulars relating to the form and sale of the bonds, except as prescribed by law, shall be determined by the Selectmen and Town Treasurer. For the purpose of payment of principal and interest on said bonds as they become due, there shall be raised by taxation each year an amount sufficient to pay said principal and interest coming due each year until all of said bonds herein authorized be paid in full.

Passed by more than two-thirds vote and so declared by Moderator.

ARTICLE 11. To see if the Town will vote to appropriate the sum of $500 to be expended under the direction of the School Committee, for the supervision of play and games on land under their control and for the equipment thereof in accordance with Acts of 1911, Chapter 314.

Voted, To appropriate $100 to be expended under the direction of the School Committee, for the supervision of play and games on land under their control and for the equipment thereof in accordance with Acts of 1911, Chapter 314.

ARTICLE 12. To see what sum of money the Town will vote to appropriate for the Street Department the present year.

Voted, To appropriate $59,000 as follows:

General Expenses $40,000 plus the Excise Tax.
Construction of Sidewalks $5,000.
Street Watering and Oiling $10,000.
Removal of Ice and Snow $4,000.

And it is further voted to appropriate $50,000 for the purpose of rebuilding a portion of the main thoroughfares of the Town, as recommended by the Highway Committee in its report dated December 31, 1915; said sum to be expended under the direction of the present Highway Committee consisting of the Selectmen and Messrs. Robert H. Hallowell and Sidney A. Parsons, as the said committee shall consider for the best interests of the Town.

ARTICLE 13. To see what sum of money the Town will vote for the care and maintenance of Granite Avenue Bridge over the Neponset River. (See Chapter 58, General Acts, 1915.)

Voted, To appropriate $2,500 for the care and maintenance of Granite Avenue Bridge over the Neponset River.

ARTICLE 14. To see what sum of money the Town will vote to appropriate for street lighting the present year.

Voted, To appropriate $18,639.28 for street lighting the present year.

ARTICLE 15. To see what sum of money the Town will vote to appropriate for the Fire Department for the present year.

Voted, That the pay of the regular members of the Fire Department be increased 10 per cent and that the sum of $27,041.98 be appropriated for the general expenses of said department.

ARTICLE 16. To see if the Town will vote to fireproof the apparatus room in the Central Fire Station and appropriate the sum of $1,500 for the same.

Voted, That this Article be indefinitely postponed.

ARTICLE 17. To see what sum of money the Town will vote to appropriate for the use of the Department of Wires, the Police and Fire Alarm Signal System, and the Inspection of Wires, the present year.

Voted, To appropriate $2,500 for the use of the Department of Wires, the Police and Fire Alarm Signal System, and the Inspection of Wires, the present year.

ARTICLE 18. To see what sum of money the Town will vote to appropriate for the Police Department for the present year.

Voted, To appropriate $36,963.15, to include an increase of 10 per cent in the pay of the regular members of the Police Department the present year.

ARTICLE 19. To see what sum of money the Town will vote to appropriate for the Public Library the present year.

Voted, To appropriate $11,500, together with all fines received at the Public Library for 1917, and the Dog Tax for 1916, for the Public Library the present year.

ARTICLE 20. To see what sum of money the Town will vote to appropriate for the improvement of the Cemetery the present year.

Voted, To appropriate $5,140.11 for the improvement of the Cemetery the present year.

ARTICLE 21. To see what sum of money the Town will vote to appropriate for the general uses of the Board of Park Commissioners the present year.

Voted, To appropriate $5,110 for the general uses of the Board of Park Commissioners the present year.

ARTICLE 22. To see what sum of money the Town will vote to appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect pests, injurious to trees, the present year.

Voted, That the sum of $2,350 be appropriated, together with the receipts of the department, and that the further sum of $300 be appropriated to be expended under the direction of the Tree Warden for the care of the trees in the cemetery.

ARTICLE 23. To see what sum of money the Town will vote to appropriate to be expended by the Local Superintendent for the suppression of the gypsy and brown-tail moths the present year.

Voted, To appropriate $8,500, together with receipts from all sources to be expended by the Local Superintendent for the suppression of the gypsy and brown-tail moths the present year.

ARTICLE 24. To see what salary (if any) the Town will vote to pay the Tree Warden.

Voted, That the Town pay a salary of $400 to the Tree Warden for the present year, provided that the said salary shall cease and determine at any time during the year when the Tree Warden shall cease to occupy the position of Local Superintendent for the Suppression of Gypsy and Brown-tail Moths, and the sum of $400 is appropriated for the purpose.

ARTICLE 25. To see what sum of money the Town will vote to appropriate for the support of the poor the present year.

Voted, To appropriate $7,000, together with the proceeds of the Town Farm and reimbursements for aid rendered, for the support of the poor the present year.

ARTICLE 26. To see if the Town will vote to approve the orders and regulations made by the Overseers of the Poor under the provisions of Section 4, Chapter 30 of the Revised Laws for the maintenance of order at the almshouse, as contained in their report.

Voted, That the Town approve the following orders and regulations:

Smoking in bedrooms and hallways is forbidden.

No intoxicating liquors of any kind will be allowed on the premises.

No inmate shall use profane, indecent, or insulting language in the almshouse or upon the almshouse premises.

The doors of all bedrooms and closets shall be left unlocked.

Inmates shall not absent themselves from the premises without the permission of the Superintendent.

Inmates may at any time present complaints to the Overseers of the Poor or to the State Board of Charities.

ARTICLE 27. To see what sum of money the Town will vote to appropriate fo the Soldiers' Relief the present year.

Voted, To appropriate $1,250 for the Soldiers' Relief the present year.

ARTICLE 28. To see what sum of money the Town will vote to appropriate for State Aid the present year.

Voted, To appropriate $1,000 for State Aid the present year.

ARTICLE 29. To see what sum of money the Town will vote to appropriate for the maintenance of the Sewer Department the present year.

Voted, To appropriate $1,000 for the maintenance of the Sewer Department the present year.

ARTICLE 30. To see what sum of money the Town will vote to appropriate for the extension of the sewerage system the present year.

Voted, To appropriate $5,000 and to transfer $15,000 from the Sewer Assessment Account for the extension of the sewerage system the present year.

ARTICLE 31. To see what sum of money the Town will vote to appropriate for the extension of water mains the present year.

Voted, To appropriate $2,500 for the extension of water mains the present year.

ARTICLE 32. To see what sum of money the Town will vote to appropriate for hydrant service the present year.

Voted, To appropriate $9,000 for hydrant service, and the further sum of $600 for water service to public fountains, for the present year.

ARTICLE 33. To see what sum of money the Town will vote to appropriate for the Health Department the present year.

Voted, To appropriate $3,800 plus the receipts of the department, and that this appropriation include the expense of inspection of sewer connections, for the present year.

ARTICLE 34. To see what sum of money the Town will vote to appropriate for the collection of ashes and garbage the present year.

Voted, To appropriate $5,500, to be expended under the direction of the Board of Health, for the collection of ashes and garbage during the present year from such places as said board in its discretion may designate.

ARTICLE 35. To see what sum of money the Town will vote to appropriate for salaries the present year.

Voted, To appropriate $7,400 for salaries for the present year, to be disbursed as follows:

Selectmen: Chairman, $700. Other members, $500 each.

Assessors: Chairman, $600. Other members, $500 each.

Treasurer, $1,800. Town Clerk, $500.

Collector of Taxes, $1,500. Two (2) Auditors, $250 each.

ARTICLE 36. To see what sum of money the Town will vote to appropriate for miscellaneous expenses the present year.

Voted, To appropriate the following sums for miscellaneous expenses the present year:

For General Expenses, $7,950.

For Interest Charges, $17,255.50.

For Contingent Fund, $3,500.

For Town Hall and Lot, $1,800 and receipts.

For Printing, $2,500.

For Insurance, $8,605.58.

ARTICLE 37. To see what sum of money the Town will vote to appropriate for the general uses of the Board of Assessors the present year.

Voted, To appropriate $1,300 for the general uses of the Board of Assessors for the present year.

ARTICLE 38. To see if the Town will vote to authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer, when appointed Collector, may use.

Voted, To authorize the Collector of Taxes to use all

means of collecting taxes which the Town Treasurer, when appointed Collector, may use.

ARTICLE 39. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

Voted, That this Article be indefinitely postponed.

ARTICLE 40. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the financial year ending December 31, 1917.

Voted, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow to an amount not to exceed $300,000 in anticipation of the revenue of the financial year ending December 31, 1917, and to issue a note or notes therefor, payable within one year from the date thereof; any debt or debts incurred under this vote to be paid from the revenue of the financial year ending December 31, 1917.

ARTICLE 41. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money on and after January 1, 1918, in anticipation of the revenue of the financial year ending December 31, 1918.

Voted, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow on and after January 1, 1918, to an amount not to exceed $50,000, in anticipation of the revenue of the financial year ending December 31, 1918, and to issue a note or notes therefor; any debt or debts incurred under this vote to be paid from the revenue of the financial year ending December 31, 1918.

ARTICLE 42. To see if the Town will vote to appropriate the sum of two hundred and fifty dollars ($250) to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

Voted, To appropriate $250 to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ARTICLE 43. To see if the Town will vote to authorize the Selectmen to employ counsel to represent the Town at hearings before committees of the General Court.

Voted, That the Selectmen be and are hereby authorized to employ counsel to represent the Town at hearings before committees of the General Court.

ARTICLE 44. To see if the Town will vote authorizing the Moderator to appoint a committee of five citizens to consider such proceedings of the Legislature and of State Boards and Commissions as may affect the interest of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have the power to fill vacancies in its own number, and to report in print to the Town at the Town Meeting next following the close of its term of office.

Voted, That the Moderator be and hereby is authorized to appoint a committee of five citizens to consider such proceedings of the Legislature and of State Boards and Commissions as may affect the interests of the Town, and confer as they may think expedient with the Selectmen in regard to the employment of counsel to represent the Town in any such proceedings; such committee to hold office for the calendar year next following its appointment, to have the power to fill vacancies in its own number, and to report in print to the Town at the Town Meeting next following the close of its term of office.

Committee appointed: Messrs. Charles S. Pierce, Lincoln Bryant, G. Frank Kemp, W. Rodman Peabody, Felix Rackemann.

ARTICLE 45. To see what sum of money the Town will vote to appropriate towards the restoration of the Perpetual Care Fund.

Voted, To appropriate $2,000 towards the restoration of the Perpetual Care Fund; that such sum be deposited by the Town Treasurer in the same manner and upon the same terms as the appropriation of 1910.

ARTICLE 46. To see what sum of money the Town will vote to appropriate for the retirement of teachers in the public schools, under the provisions of Chapter 498, Acts of 1908, for the present year.

Voted, To appropriate $775 for the retirement of teachers in the public schools, for the present year, under the provisions of Chapter 498, Acts of 1908.

ARTICLE 47. To see what sum of money the Town will vote to appropriate for the present year for the purpose of providing pensions for members of the Police and Fire Departments retired and placed upon the pension roll under provisions of Chapter 327, Acts of 1904.

Voted, To appropriate $2,196.88 for the present year for the purpose of providing pensions for members of the Police and Fire Departments retired and placed upon the pension roll under the provisions of Chapter 327, Acts of 1904.

ARTICLE 48. To see what sum of money the Town will vote to appropriate for pensions for laborers under Chapter 503, Acts of 1912, for the present year.

Voted, To appropriate $1,572.15 for pensions for laborers under Chapter 503, Acts of 1912, for the present year.

ARTICLE 49. To see what sum of money the Town will vote to appropriate to pay awards of compensation for injuries under Chapter 807, of the Acts of 1913.

Voted, To appropriate $351 to pay awards of compensation for injuries under Chapter 807, of Acts of 1913.

ARTICLE 50. To see what sum of money the Town will vote to appropriate to be expended by the Selectmen for a band concert and fireworks for the celebration of the Fourth Day of July.

Voted, To appropriate $300 to be expended by the Selectmen for a band concert and fireworks for the celebration of the Fourth Day of July.

ARTICLE 51. To see what action the Town will take toward continuing the improvement of Pine Tree Brook and appropriate money for the same.

Voted, That the balance of the appropriation made by the Town at its March Meeting of 1914 remain at the disposal of the Board of Sewer Commissioners, but that no more of said appropriation be spent for any other purpose than the actual improvement of Pine Tree Brook.

ARTICLE 52. To see what action the Town will take toward continuing the improvement of the Town Landing, and what sum of money it will appropriate for the same.

Voted, That the Committee on the Town Landing, consisting of Edward F. W. Bartol, Horace B. Horne, James S. Russell, Morton Wigglesworth and Edward C. Williams, be and hereby is continued for the ensuing year as a committee of five members, vacancies therein at any time to be filled by the remaining members of the committee, said committee on behalf of the Town to take charge and management of the property known as the Town Landing, consisting of uplands and flats, with power to improve, alter or change the same, to make rules and regulations as to the use thereof by the public, to erect and maintain suitable and proper structures thereon, and to rent the same for terms expiring not later than March 1, 1918, to enter into agreements with owners of abutting lands relative to use of said Town property, to protect and enforce the rights of the Town therein and prevent unlawful infringement of said rights, and to do all things necessary or proper in the premises, including the bringing of suits and employment of counsel, and that any unexpended balance from previous appropriations for said committee or receipts by it, and any sums which may be received as rentals of said property during the ensuing year, be appropriated for the use of said committee, said committee to report in writing at the next Annual Meeting.

ARTICLE 53. To see if the Town will revoke the reservation of the specially reserved space for the use of street railways in a portion of Blue Hill Avenue as authorized by Chapter 15 of the Special Acts of 1917.

Voted, To revoke the reservation of the specially reserved space for the use of street railways in a portion of Blue Hill Avenue as authorized by Chapter 15 of the Special Acts of 1917.

ARTICLE 54. To see if the Town will instruct the Moderator to enlarge the Committee on Town Management, so-called (appointed under Resolution at the March, 1916, Meeting), and to see what sum of money the Town will appropriate for the purpose of said committee.

Voted, That the Moderator be and hereby is authorized and instructed to enlarge the Committee on Town Management so-called, to fifteen members, and to appropriate $300 for the purposes of said committee.

Committee appointed: William B. Thurber, Josiah Babcock, Jr., William B. Batchelder, Joseph H. Duffy, James S. Gallagher, W. Newton Harlow, G. Frank Kemp, Patrick F. Mahoney, James F. Mitchell, Charles S. Pierce, Robert L. Raymond, Charles E. Rogerson, Arthur H. Tucker, Charles E. Whelan, Theodore T. Whitney, Jr..

ARTICLE 55. To see if the Town will vote as follows:

"At the Annual Town Meeting to be held in March, 1918, the Town shall elect one Selectman for a term of one year, one Selectman for a term of two years, and one Selectman for a term of three years. At each Annual Town Meeting thereafter the Town shall elect one Selectman for a term of three years. In case of a vacancy in said office, the Town shall elect a Selectman for the unexpired term in which such vacancy occurs. The office of Surveyor of Highways is hereby abolished."

Voted, That this Article be indefinitely postponed.

ARTICLE 56. To hear the report of the committee appointed to prepare a plan for the permanent management and control of the property received under the will of Edwin D. Wadsworth and for other purposes and to act on anything relating to said report or to the management and control of said property.

Voted, That the Town accept the report of the committee appointed to prepare a plan for the permanent management and control of the property received under

the will of Edwin D. Wadsworth, that said committee be authorized to introduce into the Legislature a bill substantially in accordance with the bill recommended by them and that said property remain in the custody and management of the Town Treasurer and Board of Selectmen as provided in the vote of the Town relating thereto passed at the Annual March Meeting of 1916.

ARTICLE 57. To see if the Town will vote to increase the pay of the permanent men of the Fire Department 10 per cent of their present pay, and appropriate the sum of $1,437.15 for the same.

(See vote under Article 15.)

ARTICLE 58. To see if the Town will vote to pension the call firemen who have been in the service of the Milton Fire Department twenty years or more; said pension to amount to two-thirds of the call men's yearly compensation.

Voted, That this Article be indefinitely postponed.

ARTICLE 59. To see if the Town will vote to increase the pay of the police officers of the Town $200 per year, and appropriate money for the same.

(See vote under Article 18.)

ARTICLE 60. To see if the Town will vote to increase the wages of all the employees of the Street, Water, Moth and Cemetery Departments fifty cents per day, and appropriate money for the same.

Voted, That the wages of all employees of the Street, Water, Moth and Cemetery Departments be increased so that each employee shall receive not less than $3 per day and shall be paid by the department that employs him out of the general appropriation made for the use of such department.

ARTICLE 61. To see whether the Town will authorize the Selectmen to stipulate in writing in behalf of the Town to indemnify and save harmless the Commonwealth against all claims and demands for damages which may be sustained by any person whose property is taken for or injured by the construction of a road in said Town, at or near Granite Avenue which the Massachusetts Highway Commission proposes to lay out and construct as a state highway, commencing at the northerly end of the second section of state highway laid out in the year 1899 (Station 25) and extend-

ing northerly to the southerly end of the first section of highway laid out in the year 1899 (Station 35) as shown on a plan and profile entitled "Plan and Profile of Proposed State Highway in Milton," signed by A. M. Lovis, First Assistant Engineer, dated January 29, 1917, a copy of which is on file in the office of the Selectmen, under the provisions of Chapter 47 of the Revised Laws.

Voted, That the Town authorize the Selectmen to stipulate in writing in behalf of the Town to indemnify and save harmless the Commonwealth against all claims and demands for damages which may be sustained by any person whose property is taken for or injured by the construction of a road in said Town at or near Granite Avenue, which the Massachusetts Highway Commission proposes to lay out and construct as a state highway, commencing at the northerly end of the second section of state highway laid out in the year 1899 (Station 25) and extending northerly to the southerly end of the first section of highway laid out in the year 1899 (Station 35) as shown on a plan and profile entitled "Plan and Profile of Proposed State Highway in Milton," signed by A. M. Lovis, First Engineer, dated January 29, 1917, a copy of which is on file in the office of the Selectmen, under the provisions of Chapter 47 of the Revised Laws.

Article 62. To see if the Town will vote to accept the provisions in its favor contained in the will of the late Ellen Channing of Milton, and the real and personal estate devised and bequeathed thereunder and to make provisions for the management of said property and to authorize conveyances and transfers thereof.

Voted, That the Town hereby accepts the provisions in its favor contained in the will of the late Ellen Channing of Milton and the real and personal property devised and bequeathed thereunder, and that the Town Treasurer be and hereby is authorized to give due receipt for said personal property to the executors of the will of said Ellen Channing and upon receipt of the same to deliver said personal property to the Board of Trustees

of the Milton Public Library to be by them administered in accordance with the provisions of said will relating thereto, and that the Town Treasurer with the approval of the said Board of Trustees of the Milton Public Library be, and he hereby is, authorized to manage, sell, lease or convey the said real estate and any portion thereof and to execute and acknowledge on behalf of the Town conveyances and transfers thereof and after payment of all necessary and proper expenses incurred in the management and sale thereof to deliver the net revenues and proceeds of said real estate to said Board of Trustees to be by them administered as aforesaid.

Article 63. To see if the Town will vote to accept and allow Central Avenue, Eliot Street and Brook Hill Road as widened and altered at the junction of Central Avenue and Eliot Street and at the junction of Eliot Street and Brook Hill Road by the Selectmen, and appropriate money for the same.

Voted, To accept and allow Central Avenue, Eliot Street and Brook Hill Road as widened and altered at the junction of Central Avenue and Eliot Street and at the junction of Eliot Street and Brook Hill Road by the Selectmen, and to appropriate $125 therefor.

Article 64. To see if the Town will vote to accept Belvoir Road, running from Blue Hills Parkway to Blue Hill Avenue, as laid out by the Board of Selectmen, as a Town way.

Voted, To accept Belvoir Road, running from Blue Hills Parkway to Blue Hill Avenue, as laid out by the Board of Selectmen, as a Town way.

Article 65. To see if the Town will vote to install Town scales, and appropriate money for the same.

Voted, To install Town scales and to appropriate $700 therefor.

Article 66. To see if the Town will vote to appropriate the sum of forty dollars ($40) to reimburse Warren Pond and Eugene Fanning, High School students, for the loss of their overcoats taken from a coat room in the High School Building on November 21, 1916.

Voted, That this Article be indefinitely postponed.

ARTICLE 67. To see if the Town will vote to plant an evergreen hedge along the boundary line of the Town property on Randolph Avenue, and that money be appropriated for the same; and, to see if the Town will vote to erect a suitable building for the Water Department to replace those now being used by said department, and appropriate money for the same.

Voted, That this Article be indefinitely postponed.

ARTICLE 68. To see if the Town will vote to purchase a new piano for the Town Hall, and appropriate money for the same.

Voted, That this Article be indefinitely postponed.

ARTICLE 69. To see if the Town will vote to accept the provisions of Chapter 291 of the General Acts of 1916.

Voted, That this Article be indefinitely postponed.

ARTICLE 70. To see if the Town will vote to relocate the electric light now in front of lot 2, on Grove Street, to the next pole south, and to erect a new electric light between Warren Avenue and the said light now located on pole in front of lot 2, and appropriate money for the same.

Voted, That the subject matter of Articles 70 to 86 inclusive be referred to the Selectmen, and that the sum of $521 be appropriated for the erection, location or relocation of electric lights in the Town under the direction of said Selectmen.

ARTICLE 71. To see if the Town will vote to erect one electric light on pole in front of the residence of John H. Reynolds on Hillside Street near the Metropolitan Park Line, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 72. To see if the Town will vote to erect four electric lights on Briarfield Road, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 73. To see if the Town will vote to erect two electric lights on Viola Street, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 74. To see if the Town will vote to erect two six-hundred-candle-power Mazda lights in Milton Village, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 75. To see if the Town will vote to erect one six-hundred-candle-power Mazda light on Brook Road at or near its junction with Blue Hills Parkway, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 76. To see if the Town will vote to erect one electric light on Atherton Street, at or near its junction with Canton Avenue, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 77. To see if the Town will vote to erect two electric lights on Decker Street, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 78. To see if the Town will vote to erect two additional electric lights on Mathaurs Street, and one at the corner of Spruce and Elm Streets, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 79. To see if the Town will vote to erect six electric lights on Aberdeen Road between Blue Hill Avenue and Brush Hill Road, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 80. To see if the Town will vote to erect one electric light at the corner of Kahler Avenue and Thacher Street, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 81. To see if the Town will vote to erect three electric lights on Dyer Road, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 82. To see if the Town will vote to erect four electric lights on West Street, running easterly from Blue Hills Parkway, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 83. To see if the Town will vote to erect two electric lights on Columbia Street, running easterly from Blue Hill Avenue, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 84. To see if the Town will vote to erect one electric light on Central Avenue opposite the Vose School, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 85. To see if the Town will vote to erect an additional electric light on Clifton Road about 300 feet westerly from Reedsdale Road, and appropriate money for the same.

(See vote under Article 70.)

ARTICLE 86. To see if the Town will vote to provide illumination for the clock located on the front of the Parkway Building, corner of Blue Hills Parkway, and Blue Hill Avenue, for the benefit of the public.

(See vote under Article 70.)

Resolved, That by the death of Deacon John A. Tucker the Town of Milton has been deprived of one of its honored citizens of the old school. Born here and always a resident of Milton, he was an honored member of the community, and by his long life of industry, integrity and interest in religious and historical matters he won the respect and esteem of all.

The foregoing resolution was presented to the meeting by Mr. Charles S. Rackemann and unanimously accepted.

And you are directed to warn said inhabitants qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling-houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton, the fourteenth day of February, nineteen hundred and seventeen.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

MILTON, March 3, 1917.

Pursuant to the within Warrant, I have notified the inhabitants of the Town of Milton, as therein directed, to meet at the Town Hall in said Milton upon the date above mentioned for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

March 10, 1917, at 5 hours 27 minutes P.M., *Voted*, That the meeting be dissolved.

The foregoing meeting was opened at 5.45 o'clock A.M. by the Town Clerk (who proceeded to read the Warrant); upon the conclusion of the reading of the second Article it was moved that further reading of the Warrant be dispensed with. Said motion being put was unanimously carried and the further reading of the Warrant (except the concluding paragraphs) was dispensed with.

At the meeting aforesaid the total number of ballots cast was 1,416, 9 ballots being cast by women voters for School Committee.

A true record.

Attest:

G. Frank Stenk,
Town Clerk

NOVEMBER MEETING

WARRANT

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

To either of the Constables of the Town of Milton, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet in the Town Hall in said Milton on Tuesday, the sixth day of November next, it being the Tuesday after the first Monday in said November, at five forty-five in the forenoon, then and there to bring in their ballots for Governor, Lieutenant-Governor, Secretary, Treasurer, Auditor, Attorney-General, all of this Commonwealth; Councillor for the Second District; Senator for the Norfolk Senatorial District; Representative in General Court for the Fourth Norfolk District; County Commissioner for the County of Norfolk for the term of three years; Register of Deeds for the County of Norfolk, to fill vacancy; also to see if the Town will vote to accept the following Articles of Amendment submitted by the Constitutional Convention:

ARTICLE OF AMENDMENT NO. 1

The General Court shall have power to provide by law for voting by qualified voters of the Commonwealth who at the time of an election, are absent from the city or town of which they are inhabitants in the choice of any officer to be elected or upon any question submitted at such election.

ARTICLE OF AMENDMENT NO. 2

ARTICLE XVIII. Section 1. No law shall be passed prohibiting the free exercise of religion.

Section 2. All moneys raised by taxation in the towns and cities for the support of public schools, and all moneys which may be appropriated by the Commonwealth for the support of common schools shall be applied to, and expended in, no other schools than those which are conducted according to law, under the order and superintendence of the authorities of the town or city in which the money is expended; and no grant, appropriation or use of public money or property or loan of public credit shall be made or authorized by the Commonwealth or any political division thereof for the purpose of founding, maintaining or aiding any school or institution of learning, whether under public control or otherwise, wherein any denominational doctrine is inculcated, or any other school, or any college, infirmary, hospital, institution, or educational, charitable or religious undertaking which is not publicly owned and under the exclusive control, order and superintendence of public officers or public agents authorized by the Commonwealth or federal authority or both, except that appropriation may be made for the maintenance and support of the Soldiers' Home in Massachusetts and for free public libraries in any city or town, and to carry out legal obligations, if any, already entered into; and no such grant, appropriation or use of public money or property or loan of public credit shall be made or authorized for the purpose of founding, maintaining or aiding any church, religious denomination or society.

Section 3. Nothing herein contained shall be construed to prevent the Commonwealth, or any political division thereof, from paying to privately controlled hospitals, infirmaries or institutions for the deaf, dumb or blind not more than the ordinary and reasonable compensation for care or support actually rendered or furnished by such hospitals, infirmaries or institutions to

such persons as may be in whole or in part unable to support or care for themselves.

Section 4. Nothing herein contained shall be construed to deprive any inmate of a publicly controlled reformatory, penal or charitable institution of the opportunity of religious exercises therein of his own faith; but no inmate of such institution shall be compelled to attend religious services or receive religious instruction against his will, or, if a minor, without the consent of his parent or guardian.

Section 5. This amendment shall not take effect until the October first next succeeding its ratification and adoption by the people.

Article of Amendment No. 3

The maintenance and distribution at reasonab'e rates, during time of war, public exigency, emergency or distress, of a sufficient supply of food and other common necessaries of life and the providing of shelter, are public functions, and the Commonwealth and the cities and towns therein may take and may provide the same for their inhabitants in such manner as the General Court shall determine.

All to be voted for on one ballot.

The polls may be closed at 4 o'clock P.M.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Milton at least fourteen days before the date of said meeting, and leaving printed copies hereof at the dwelling-houses in said Milton at least four days before said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk at or before the time of said meeting.

Given under our hands at Milton this nineteenth day of October, nineteen hundred and seventeen.

JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS, NORFOLK, ss.

MILTON, November 6, 1917.

Pursuant to the within Warrant, I have notified the inhabitants of the Town of Milton, as therein directed, to meet at the Town Hall in said Milton, upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

A true record.

Attest:

G. Frank Kemp,
Town Clerk

Whole number of ballots cast, 1,221.

Whole number of registered voters November 1, 1917: Men, 1,890; Women, 625.

Fourth Norfolk Representative District

We, the undersigned Town Clerks of the towns of Canton, Westwood and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify: That at an election duly held in said towns upon the sixth day of November, A.D. 1917, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For ROGER WOLCOTT of Milton, fifteen hundred and eighty-two votes.

For JAMES H. SHEA of Milton, one vote.

BLANKS, four hundred and eighty-two.

Given under our hands at Canton, this sixteenth day of November, A.D. 1917.

WALTER AMES,
W. W. BAKER,
G. FRANK KEMP,
Town Clerks of Canton, Westwood and Milton.

REPORT OF THE COMMITTEE ON SCHOOL BUILDINGS

MILTON, MASS., December 7, 1917.

To the Citizens of Milton:

The addition to the Vose School for use for the High School is now nearing completion. The north wing of the building and several rooms in the south wing have been occupied by the school since the opening of school in the fall. The equipment of the remainder of the south wing is being hastened as fast as materials are available; and the entire building, with the exception of the Assembly Hall, should be turned over to the School Department immediately after the Christmas recess.

The building of the Assembly Hall section was not authorized by the Town until the last Annual Town Meeting, but it has now been roofed in and work is progressing slowly. It should be finished, however, by the first of April.

The many delays incident to the preparation for war have caused inconvenience to the School, but have been unavoidable.

A statement of the expenditures of the Committee to date will be found in the report of the Town Treasurer.

Respectfully submitted,

MALCOLM DONALD,
REGINALD L. ROBBINS,
P. E. SHELDON, *Chairman,*
Committee.

Harris Kennedy did not sign this report.

A. B. Smith has resigned from the Committee.

REPORT OF THE EDWIN D. WADSWORTH FUND, SPECIAL COMMITTEE

MILTON, MASS., January 29, 1918.

To the Citizens of Milton:

The undersigned, having been continued as a Special Committee in accordance with the vote of the Town, March 4, 1916, respectfully reports for the year ending December 31, 1917. The organization of the Committee has remained as before, Mr. Holmes being Chairman and Treasurer, and Mr. Russell, Secretary.

The following sales and purchases have been made during the year:

SALES

	Amount Received	Assessed Valuation
Harry D. Capen's mortgage collected	$2,000 00	
Mary J. Jenkins' mortgage collected	700 00	
$5,000 Chicago Junc. Rys. & Union Stock Yards, mtge. 5s at 101⅞ and int.	5,093 75

10,000	U. S. Gov. 3½s (first Liberty Loan) at par	10,000 00
17,000	U. S. Gov. 4s (second Liberty Loan) at par	17,000 00

The Woodbine Street, Quincy, property was sold at auction July 14, 1917, by Lewis Sears, and was bought by John Grundy.

The Highland Street properties were sold at auction May 19, 1917, by Samuel R. Knights & Co., and were both bought by Katharine A. Spalding, wife of Philip S. Spalding.

The Homestead of 13 8/10 acres had on it the house built by Captain Edwin D. Wadsworth about fifty years ago, and occupied by him until his death in 1901. This house has since been moved across Highland Street to a new location near Reed Street.

It was only after careful consideration that your Committee decided to sell the Homestead and not until the Town had had an opportunity to give the Committee definite instructions. Such an opportunity occurred at the Annual Meeting last March, and, failing instructions, your Committee decided to convert this valuable but unproductive piece of real estate into securities suitable for trust funds and yielding a fair return.

The time when Milton will need a Town Hospital is so indefinite and the present resources of the Wadsworth Fund are so inadequate for building and maintaining a modern hospital that it may be many years before Captain Wadsworth's wishes can be satisfactorily carried out.

The property now held in the fund is as follows:

BONDS	Present worth as of Dec. 31, 1917	
$ 2,000 Kansas City, Memphis & Bir. Income 5s 1934 at 60	$ 1,200 00	
2,000 U. S. Steel Sinking Fund Gold 5s 1963 at 98	1,960 00	
10,000 Amer. Tel & Tel. coll. trust 4s 1929 at 81	8,100 00	
10,000 C. B. & Q. Neb. Extension 4s 1927 at 92	9,200 00	
10,000 Union Pacific 1st. mtge. 4s 1947 at 88	8,800 00	
10,000 Lake Shore & Mich. So. 4s 1931 at 83	8,300 00	
10,000 Penn. R.R. Co. gen. mtge. 4½s 1965 at 89	8,900 00	
17,000 U. S. Gov. 4s (second Liberty Loan) 1942 at 97	16,490 00	
		$62,950 00
STOCKS		
36 shares Mass. Gas Co. preferred at 64	$2,304 00	
34 shares Amer. Tel. & Tel. Co. at 103	3,502 00	
12 shares N. Y., N. H. & H. R.R. Co. at 33	396 00	
11 shares Boston & Albany R.R. Co. at 130	1,430 00	
		7,632 00
Hannah Gleason Mortgage, Pleasant Street, Milton		500 00
Cash on hand		1,472 71
Total		$72,554 71

December 31, 1916, the value of the fund was $67,264.76. In another part of this volume will be found detailed statements by Mr. Holmes as Treasurer.

In accordance with the vote of the Town under Article 56 at the Annual Meeting, March 3, 1917, your Committee obtained the following Special Act from the Massachusetts Legislature:

CHAPTER 305, SPECIAL ACTS OF 1917

AN ACT TO AUTHORIZE THE TOWN OF MILTON TO ADMINISTER CERTAIN TRUST FUNDS AND TO ESTABLISH A PUBLIC HOSPITAL.

SECTION 1. The Town of Milton may, at an Annual Meeting, elect by ballot a Board of Trus-

tees consisting of three persons, male or female, for the purpose of managing and controlling the property, real and personal, bequeathed and devised to the Town by the will of Edwin D. Wadsworth, late of Milton, and of expending the same in accordance with the terms of said will and for the other purposes hereinafter specified. When such board is first chosen, one-third thereof shall be elected for one year, one-third for two years and one-third for three years, and thereafter one-third shall be elected annually for a term of three years: *provided, however,* that the Town may, at any Annual Meeting, or at any special meeting called for the purpose, increase the number of the Board by an additional number, divisible by three, which number shall, at the next Annual Meeting thereafter, be elected one-third for one year, one-third for two years and one-third for three years, and thereafter one-third annually for a term of three years. The Board shall, from its own number, annually choose a chairman, a secretary and a treasurer. The treasurer shall give a bond similar to that given by the Town Treasurer, in an amount and with sureties to the satisfaction of the Selectmen. The Board may appoint such other officers and agents as it thinks fit. Whenever a vacancy shall occur in said Board by reason of death, resignation or otherwise, the remaining trustees shall fill the vacancy for the unexpired term.

Section 2. The Board shall have the custody and management of said property, and shall invest and reinvest the same, and may add the income thereof to the principal and allow said property to accumulate until the same, with any other funds and revenues received by the Board, shall, in the opinion of the Board, be sufficient to establish and maintain a public hospital within the Town of Milton, and when said property, funds and revenues in the custody and

management of the Board shall, in the opinion of the Board, be sufficient for the purpose, or when the Town at an Annual Meeting, or at a special meeting called for the purpose, shall direct the Board so to do, the Board shall establish a public hospital in said Town, to be maintained under rules and regulations made by the Board, from time to time, and may expend so much as may be necessary of the funds at any time in its custody and management in the purchase, in the name of the Town, of such real and personal property as may be necessary for the establishment and maintenance of the hospital; and the hospital together with all funds and other property owned by the Town relating thereto shall be in the custody and management of the Board. The Town may appropriate and raise money for the establishment, support or maintenance of the hospital, which shall be expended by the Board, and may receive money or property by gift, devise or bequest for the hospital, which shall be administered by the Board in accordance with the provisions of such gift, devise or bequest. Section 17 of Chapter 719 of the Acts of 1913 as amended, shall apply to investments by the Board.

Section 3. The Board shall have power to manage, sell, lease, convey and transfer all real or personal property at any time in its custody, management or control, and may in the name and behalf of said Town, execute, acknowledge and deliver all instruments necessary or proper to carry its powers into effect.

Section 4. Nothing contained in this act shall be construed to alter or impair any provision of the will of said Edwin D. Wadsworth relating to said property given to the Town, or any provision of any gift, devise or bequest or vote whereby any other property shall come into the custody, management or control of the Board.

SECTION 5. The Board shall make an annual report to the Town of its receipts and expenditures and of the property in its custody, with a statement of any unexpended balance of money and of any gifts or bequests which it holds in behalf of the Town.

SECTION 6. This act shall take effect upon its acceptance by the Town at the next Annual Town Meeting, and the Board of Trustees may be nominated upon the official ballot and elected at said meeting: but such election shall be null and void if the act fails of acceptance at the said meeting. For the purpose of its acceptance by the Town and of the election of Trustees, this act shall take effect upon its passage.

Under the provisions of this Act three trustees to serve one, two and three years respectively will be elected at the Annual Town Meeting, March 2, 1918, and there will be an article in the Warrant for that meeting so that the Town may accept the Act. This article will be acted upon at the postponed meeting Saturday, March 9, 1918. In case the Town should decline to accept the Act the election of trustees at the earlier meeting will become null and void.

J. PORTER HOLMES,
Town Treasurer.
JAMES S. RUSSELL,
MAURICE A. DUFFY,
JAMES F. MITCHELL,
Selectmen.

9. Edwin Merle Hurder of Milton, and Helen Foster Burgess of Boston.
14. Albert Joseph Gaudreau of Milton, and Claircy Blanche Trahan of Somerville.
18. Robert Upton Whitney and Lucy Holman Burgess, both of Milton.
18. Thomas Knight Fisher of Leominster, and Margaret Burns Vose of Milton.
20. Houghton Pierce Metcalf of Providence, R. I., and Katherine Herrick of Milton.
23. George Newell Hurd and Ruth Herrick, both of Milton.
23. Thomas M. Lennon and Kathleen E. Connor, both of Milton.
26. Sumner E. Bradbury of Milton, and Olive V. A. Watkinson of Boston.
26. John Edward Egan of Quincy, and Helen J. Duggan of Milton.
29. Charles A. Banks of Milton, and Ellen Mary Sullivan of Boston.
30. Austin R. Larrabee of Milton, and Hester Ann Bell of Osterville.
Sept. 1. Walter J. Farrell of Milton, and Evelyn Tracy Richardson of Rowley.
22. Percy Vogel Thayer of Boston, and Ruth May Stephenson of Milton.
Oct. 6. Douglas G. Thomson of Englewood, N. J., and Marion K. Pope of Milton.
7. Wilfred King of Boston, and Mabel Tate of Milton.
11. Paul Connor of Boston, and Hilda Cunningham of Milton.
19. John William Anderson of Quincy, and Leona May Carder of Milton.
24. Michael Joseph Scanlon of Quincy, and Alice Nevada Hansberry of Milton.
27. Henry Van Gemert of Boston, and Annie Muth of Milton.
Nov. 7. David George Moffat of Quincy, and Elizabeth Homer Emerson of Milton.

Nov. 18. John P. Guilfoyle of Milton, and Margaret Mary Quigley of Brookline.
28. George F. McCarty of Boston, and Mary E. Connelly of Milton.
Dec. 1. Edward D. Baker of Boston, and Eva R. Baker of Milton.
6. Vincent Dugmore of Somerville, and Ada Harrison Hunt of Milton.
22. Ellsworth Huntington and Rachel S. Brewer, both of Milton.
24. Weyman Stockton Crocker of Boston, and Nathalie H. Bontcou of Milton.
24. Frank P. Cunningham and Elizabeth M. Briggs, both of Milton.
30. William J. Murphy and Mary Heffernan, both of Milton.

DEPARTMENT REPORTS

REPORT OF THE SELECTMEN

MILTON, MASS., February 1, 1918.

To the Citizens of Milton:

We respectfully submit the following report for the year ending December 31, 1917.

The bonded debt of the Town is as follows:

Outstanding January 1, 1917	$455,000.00
High School Loan of 1917	30,000.00
	$485,000.00
Paid during 1917	35,500.00
Outstanding December 31, 1917 . .	$449,500.00

EDWIN D. WADSWORTH FUND

This is in charge of a Special Committee consisting of Town Treasurer J. Porter Holmes and ourselves. Its report is on another page of this volume.

WILLIAM B. WESTON BEQUESTS

The $6,000 Hospital Fund left with the Massachusetts Hospital Life Insurance Company now amounts to $6,628.99. The $15,000 Poor Fund left with Francis C. Welch, Trustee, is held in the Weston estate of which Mr. Welch is Trustee, and what the value of this $155,000 Poor Fund now is we do not know.

HIGHWAY DEPARTMENT

Henry A. Spates was reappointed and continued in charge throughout the year. December 21, 1917, he resigned owing to ill-health and left the department January 30, 1918. We are sorry to lose him and it will be

difficult for the Town to secure so satisfactory a Superintendent of Streets.

Messrs. Robert H. Hallowell and Sidney A. Parsons have again helped us spend the $50,000 appropriated for rebuilding main thoroughfares.

Last spring we raised the men's pay from $2.50 to $2.75 and included May in the Saturday half-holiday period which now takes in five months from May to September, inclusive. In 1916 the pay was raised from $2.25 to $2.50 and September added to the half-holiday period. The activities of the United States Government at Camp Devens and later at Squantum made it extremely difficult to get the crushed stone and tar needed in rebuilding main thoroughfares and prevented our finishing a stretch of about 500 feet on Brush Hill Road from the Parkway to Paul's Bridge, and also obliged us to carry forward an unexpended balance of about $13,000 from the $50,000 appropriated last March. Toward the end of the season the demand for stone spreaders became so great that we were obliged to raise their pay twenty-five cents.

New Scales

A location near the junction of Brush Hill Road and Blue Hill Avenue having been arranged for with the Metropolitan Park Commission on land controlled by it, the scales voted by the Town last March were finally installed there.

Granite Avenue Bridge

This bridge is maintained by Suffolk County and the Town of Milton, the Mayor of Boston and the Chairman of the Milton Selectmen forming (ex officio) the commission in charge. At present three men are employed as tenders and are paid $1,100 per year each. The cost

of repairs, etc., brings the total annual charge to between $4,000 and $5,000, a tremendous increase over the old days when one bridge tender, named Pike, living nearby, looked after the draw for a very modest sum.

Granite Avenue

The Massachusetts Highway Commission has taken over the 500 feet on each side of the railroad crossing and lying between the two sections previously owned by the state. This makes Granite Avenue a state road from Squantum Street to the draw-bridge over the Neponset River with the exception of a few feet lying next the bridge. Our own Highway Department rebuilt Granite Avenue from Squantum Street to Adams Street this year so that now a first class thoroughfare extends from Adams Street to the Boston line and deflects much traffic which might otherwise pass through the Town over Adams Street to Milton Village or over Brook Road to Mattapan.

Centre Street Subway

The Milton Academy Trustees have been granted a permit to build and maintain a subway under Centre Street for the purpose of connecting their new school building on the south side of the street with their main heating plant on the north side. This is the first permit of the kind granted in the Town, and was carefully prepared by Town Counsel, Lincoln Bryant.

Street Drainage

In Mr. Spates' report you will find something on this subject. The time has arrived when definite steps should be taken to start a comprehensive plan of drainage for the water falling on the public ways of the Town, and we suggest a special appropriation in the highway budget covering this work.

Gun Hill Road

Town Clerk G. Frank Kemp, at our request, has examined the official records of the Town and finds that Gun Hill Road has been laid out as a public way from Pleasant Street to Randolph Avenue but that the section from Randolph Avenue to Centre Street has not been laid out and accepted by the Town and is therefore a private way. We have asked the Auditors to note this in their list of streets near the beginning of this volume and also that the correct name is Gun Hill Road and not Gun Hill Street.

Bay State Street Railway Company

Last year the Town received from this company the sum of $2,267.63, being the excise and commutation taxes for the year. For 1917 the amount due by the company was $2,377.30. Owing to the company being placed in the hands of a receiver this sum has not been paid and our General Highway appropriation was the poorer to that extent.

Fire Department

The report of Engineers, Philip S. Dalton, James S. Gallagher and J. Harry Holmes, is elsewhere in this volume. The year has been a quiet and a satisfactory one. The department no longer needing the old chemical house at the centre, we have let it to the Water Department.

Police Department

The work of this department steadily increases with the growth of Milton and the district at large. There are several points in the Town where traffic becomes very much congested on Saturdays, Sundays and holidays, and to assist in handling this traffic safely and expeditiously we are suggesting a new By-Law.

Street Cars

Our efforts to obtain better service and to lessen the annoyance of freight passing through the Town have been unsuccessful. As noted above, the Bay State Street Railway has become insolvent and passed into the hands of a receiver. The Blue Hill Street Railway, which has been under the management of Stone & Webster since its unfortunate birth some fifteen years ago, has been sold to interests represented by Michael A. Cavanaugh. The Special Committee consisting of Messrs. W. Rodman Peabody, John Ewell and ourselves, has made some progress toward bringing about the much desired changes in the location of this company's tracks in Blue Hill Avenue between Brush Hill Road and Cheever Street, and will make a separate report to the Town at the March meeting.

Town Hall and Lot

Mrs. George Wigglesworth generously gave the Town a blue spruce to be used as a Christmas tree. April 20, we authorized Tree Warden Ralph S. Carpenter to plant this tree at a point chosen by us where it can remain until the land is needed for more important purposes.

The office in the hall occupied by the Town Clerk becoming overcrowded, we put in a mezzanine floor.

The old copper tank west of the hall and formerly used in connection with the lighting facilities has been sold and removed, the high price of copper enabling us to do this at a small profit.

The kitchen facilities in the Town Hall have long been insufficient and this year particularly so. After obtaining an appropriation of $275 from the Warrant Committee we made various changes and improvements assisted by a committee of women headed by Mrs. John R. Rablin.

Service Flag

On January 1, 1918, we hoisted a service flag in front of the Town Hall showing 311 men in the military service of their country. Rev. Albert D. Smith gave the prayer and patriotic songs were sung by those present led by some of the soldiers from Camp Devens.

Overseers of Poor

On May 18, acting as a Joint Board with the remaining Overseers of the Poor, we elected Mrs. Roderick Stebbins to succeed Mrs. Charles H. Williams, resigned.

By-Law, Chapter 10

We are asking the Town to consider the advisability of repealing this By-Law as it has not worked well in a number of cases.

Street Lights

At the request of the Milton Fuel Committee we ordered the street lights out at 11 P.M., beginning January 29, 1918, until further notice. This action was caused by the coal shortage.

Committee on Public Safety

After consultation with the State Committee on Public Safety we addressed the following letter, dated March 19, 1917, to fifteen citizens, namely: Jesse B. Baxter, Stanley Cunningham, H. Clifford Gallagher, James S. Gallagher, Michael Gibbons, W. Newton Harlow, Charles S. Pierce, Edmond M. Poitevin, Robert L. Raymond, Reginald L. Robbins, James S. Russell, Percy E. Sheldon, William B. Thurber, Theodore T. Whitney, Jr., Samuel H. Wolcott.

> "Dear Sir:—We have asked fifteen citizens to act as a Milton Committee on Public Safety, and we hope you can serve on it. The committee will fill its own vacancies, increase its

> size as it deems advisable, and act in conjunction with the State Committee on Public Safety appointed by the Governor, February 10th. There is no appropriation available for the purposes of the committee, but we shall be glad to have it use the Town Hall free of charge."

This committee later increased its size to thirty and has taken general charge of the unusual situations created by the war which did not naturally fall to existing agencies or which were not handled direct by the state or national government.

In General

Since writing our report a year ago, the United States has become involved in the greatest war the world has ever known and the issue is yet undecided. Instead of selling our products at high prices to France and her allies as was the case for more than two and one-half years after the war started in August, 1914, we are now one of those allies, and must exert ourselves to be a worthy one. The country is spending for war purposes more than $1,000,000,000 a month, which is about twelve times what all branches of the national government cost before the war. A small part of this tremendous sum will be met by increased taxation, the balance must be provided by selling United States bonds and there is practically no one to buy them except ourselves. Milton should do its full share and we therefore urge extreme care in spending money for ordinary purposes during the coming year.

Respectfully submitted,

James S. Russell,
Maurice A. Duffy,
James F. Mitchell,
Selectmen of Milton.

REPORT OF THE ART COMMISSIONERS

MILTON, MASS., January 30, 1918.

To the Selectmen of the Town of Milton:

GENTLEMEN:—The Art Commission of the Town of Milton begs to report as follows for the year 1917:

The Commission was called upon by Mr. F. M. Marsh, Superintendent of Schools, to pass upon an oil painting offered by Mr. Nathaniel Kidder for the Milton High School, on February 16, and recommended its acceptance on February 21.

Other than this, the Commission has not been requested to pass upon any Municipal structure, work of art or ornament, as provided by law.

Very respectfully,

MILTON ART COMMISSION,

By

PHILIP WADSWORTH,

Chairman of Art Commission.

REPORT OF THE ASSESSORS OF TAXES FOR THE YEAR 1917

MILTON, MASS., January 11, 1918.

To the Citizens of the Town of Milton:

The Assessors of the Town of Milton herewith submit their annual report for the year 1917.

Numerous meetings of the Board of Assessors in January and February were held for the transaction of routine business, consideration of the Collector's list as submitted by him, of uncollectible taxes, and such other matters as were presented for consideration.

At the annual election for Town Officers held in March Mr. Charles H. Horne was re-elected to office.

The Board organized as follows: Chairman, William W. Churchill; Secretary, Charles H. Horne. Mr. Wallace C. Tucker was re-appointed Clerk of the Board.

The year 1917 was notable for the radical change in the laws for the assessment of personal property, the results of which are shown in the valuation of the personal property and comparison of this with last year's personal property valuation shows a shrinkage of over $18,000,000. If assessments could have been on personal property under the old law and allowing for a normal increase in that class of property the rate would have been held where it was in 1916; that is, $14.20 per thousand dollars instead of advancing to $16 per thousand dollars. The new law is also responsible for the loss of at least $10,000 in the distribution of Public Service and

Bank Corporation taxes. The Town did not feel the effects of this in 1917 but will in 1918.

The Assessors were late in computing the rate of taxation, due entirely to the provision of the new law in regard to the date on which the State Tax Commissioner's office is to notify the Assessors of the amount their municipality is to receive as their share of the Income Tax distribution, and so long as this date continues the same, so long will computation of the rate be late, with a consequent delay in making out the tax bills. It was finally computed August 22, and declared to be $16 per thousand dollars, an increase of $1.80 over last year.

The month of April was devoted to gathering a list of poll taxes and such other data as is required. Districts were assigned as follows: Central section to Mr. Horne; East section to Mr. Boylston; West section to Mr. Churchill. During the first part of May the new buildings and new areas which had been subdivided into small lots were viewed; the balance of the month of May and all of June and July were spent in assessing the real estate and tangible personal property. Everyone was required to file a list of tangible personal property and the compliance with this request was very general. The examination of all these lists prolonged the work beyond the usual time of completion.

In October were held the usual abatement hearings, and the completion of that task was carried over into November and December.

In November the Assessors made their annual trip to the State House and examined the records of the Commissioner of Corporations with regard to Public Service and Bank Stock tax distributions, and there found several items credited to the City of Boston which should

have been credited to the Town of Milton. Claims were filed for revision of these items. The claims were allowed and the tax given to Milton. All this extra work on the part of the Assessors would be unnecessary if people would give in to the corporations in which they are stockholders their legal domicile as their address and not their place of business as their address. For the sake of conserving time they are urged so to do. Each Assessor took his turn at attending the February and October meetings of the Registrars of Voters.

The Assessors report the population of the Town to be 9,129.

Additional statistics are as follows:

Number of people liable to military duty	1,631
Total number of horses	543
Total number of cows	598
Total number of sheep	41
Total number of swine assessed	91
Total number of fowls assessed	2,812
Total value of fowls assessed	$2,538 80
Total number of dogs	516
Total number of dwelling houses	2,011
Total number of acres assessed	6,218.4
The Town received in corporation and bank taxes	$55,120.49
The Town received in distribution of State Income Tax	$230,305.74

TAXES ASSESSED IN THE TOWN OF MILTON FOR THE YEAR 1917

Valuation of personal property, including resident bank tax	$2,144,953 00	
Valuation of real estate, including buildings	15,685,750 00	
Total valuation		$17,830,703 00
Tax rate $16.00 per thousand; total tax		285,291 25

Town tax	$141,935 03	
State tax	69,410 00	
County tax	27,219 61	
South Metropolitan sewerage tax	21,585 77	
Metropolitan Park and State Highway tax	15,800 56	
Charles River Basin	3,650 98	
Metropolitan District Fire Prevention	228 04	
Overlay	5,461 26	
Total		$285,291 25
2,554 poll taxes	$5,108 00	
Local Town sewer	5,230 59	
Gypsy moth tax	907 55	
Sidewalk assessment	76 43	
Non-resident bank tax	2,226 00	
Bay State St. Ry. Commutation tax	2,377 30	
Blue Hill St. Ry. commutation tax	600 00	
Additional tax (December levy)	62 40	
Additional poll taxes	52 00	
		16,640 27
Total		$301,931 52

Respectfully submitted,

WM. W. CHURCHILL,
CHARLES H. HORNE,
CLARENCE BOYLSTON,
Assessors of Milton.

REPORT OF THE BIRD WARDEN

MILTON, MASS., January 1, 1918.

To the Citizens of the Town of Milton:

I beg to submit to you my report as Bird Warden, for the year 1917.

No appropriation was made by the Town,—no expenses were incurred, and there are no accounts to be submitted.

I regret to report that there appears to be a marked diminution in numbers of several of the most useful species of birds, more especially the insect-eating ones.

I have, during the past year, made some observation and study, and comparison with notes made in previous years, and I have reached the conclusion that the number of birds which we have now as compared with what appeared to be common residents of the Town eight or ten years ago, is very considerably diminished. I am inclined to attribute this to three possible causes:

First. The unusually unfavorable weather conditions which have existed during the last two years throughout the breeding season of the birds,—1916 being extremely wet and cold, and 1917 being very late and cold.

Second. The gradual increase of the population of the Town, and consequent clearing of land and erection of new buildings, which naturally drives away to a considerable extent, the song and insect-eating birds.

Third. The clearing away of large tracts of under-

growth which afforded natural shelter and food for the birds, and suitable nesting places.

That much of this has been regarded as necessary for the conduct of the fight against the gypsy moth does not in any way lessen the unfortunate result which is, probably, to increase many of the other injurious insects whose natural enemies the birds are.

It seems unfortunately well-established, that the birds cannot and do not adequately fight the gypsy moths, or aid much in their control,—but neither is it possible apparently to attain the extermination of the gypsy moth by the extensive clearing which has been done. It merely makes it easier to control this pest by man labor, which as we all know is expensive and always very incomplete.

I have been informed by some careful students of the gypsy moth problem, that where in one spring the gypsy moths become in uncleared land extremely numerous, the introduction of some disease among them which will destroy them in large numbers, is much easier than where they are sparsely scattered over a large area; and that where such disease is successfully established, few or none of this species of moth can be found in the next succeeding years.

I wish that experiments in this line could be conducted by some of our citizens, allowing natural wild growth and tangles of cover to grow up again on their places, rather than to continue the extensive clearing away of everything but a few large trees, which has been tried on many places in the past.

When such covers shall be found to be infested, then I believe that a smaller amount of money than the clearing would cost, spent in trying to infect the region with some wilt or gypsy cholera, might prove to us a useful and valuable experiment.

I have again this year urged the feeding, and establishing of bird shelters and nesting boxes for the few varieties of birds which use such contrivances, and find that many of the citizens are interested and have given good help in this matter.

Respectfully submitted,

RALPH E. FORBES,
Bird Warden.

REPORT OF TRUSTEES OF CEMETERY

MILTON, MASS., February 5, 1918.

To the Citizens of Milton:

The Trustees make the following report for 1917:

The meeting to organize was held at the office of Mr. T. K. Cummins, Boston, April 30, 1917.

There were present at the meeting, Mr. S. Gannett, Mr. J. Frank Pope, Mr. T. K. Cummins and Mr. Percy E. Sheldon. Mr. S. Gannett was chosen Chairman and Mr. J. Frank Pope Secretary and Treasurer. The Trustees appointed Mr. T. W. Pond, Superintendent.

132 interments were made (78 from out of Town). 25 lots taken by citizens, 1 lot sold to non-resident, 5 single graves sold, 7 lots re-graded and seeded, 2 perpetual care lots re-graded and seeded, 11 lots taken under perpetual care, 1 English ivy border planted, 17 graves planted to English ivy or myrtle, 20 foundations for monuments, 11 foundations for markers or headstones, 26 graves evergreened, 2 corner posts set, 5 steps set, 1 step re-set, 16 markers set with butts, 19 lots laid out in 1914 were finished.

Mr. Pond reports the work done by the Tree Warden is very satisfactory.

We respectfully ask for $6,500.

SAMUEL GANNETT,
J. FRANK POPE,
PERCY E. SHELDON,
C. MINOT WELD,
THOMAS K. CUMMINS,
Trustees of Cemetery.
THOMAS W. POND,
Supt. of Cemetery.

ENGINEERS' REPORT

MILTON, MASS., January 1, 1918.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Board of Fire Engineers submits the following report for the year 1917.

The Board organized with J. Harry Holmes as Chief and James S. Gallagher as Clerk.

There have been 178 alarms, 55 of which were bell alarms. The department has answered 11 calls to Boston, and 1 call to Quincy. Boston has responded to 10 alarms in Milton.

The property at risk was $106,280; total loss $6,056.38; insurance paid $4,166.38; per capita loss $ .67.

The permanent force remains the same. Four callmen are in the U. S. service (at the present time, two in France and two in camp).

The department has laid 5,950 feet of hose, raised 1,251 feet of ladder, and used 1,767 gallons of chemical.

Permits have been issued as follows:

Out-of-door fires, 607; blasting and transportation of explosives, 46; gasoline, 20; fireworks, 1.

The apparatus in the department remains the same as last year, namely, three motor trucks including ladder, combination, pump engine, all located at the Central Fire Station, one combination at Hose 2 in East Milton, and one combination at Hose 4 in Brush Hill, both the latter being horse-drawn.

The motor apparatus has proved to be very successful and it is the opinion of the Engineers that one more piece of motor apparatus should be purchased by the Town. They recommend that a 6-cylinder, 105 H.P. combination chemical and hose car with junior pump attach-

ment with a capacity of 350 gallons a minute be purchased and substituted for the present horse-drawn apparatus at East Milton. They also recommend that the combination chemical and hose car now at the Central Fire Station be placed at Brush Hill. They believe that in this way a very great saving would take place, as it now costs about $1,400 per year to maintain four horses while the operating expense for a motor truck is about $75 per year. With the set-up as outlined they believe that the Town would be adequately covered and could be handled without any additional permanent men. The cost of such a piece of apparatus as described would be in the vicinity of $8,350, and while this may seem a large figure at the present time yet the Engineers believe that the Town should continue along the lines originally started in the purchase of apparatus, namely, that of getting the very best as being cheapest in the end. There is other apparatus in the market and it would be possible to take part of the equipment on the present combination wagons and put it on a new chassis, but we feel that this would be only a makeshift and would prove unsatisfactory in a very short time.

We recommend an appropriation of $27,768.40 for the maintenance of the department for 1918.

Respectfully submitted,

J. Harry Holmes, *Chief*,
J. S. Gallagher,
P. S. Dalton,
Board of Engineers.

RECORD OF ALARMS OF FIRE FOR THE YEAR ENDING DECEMBER 31, 1916

REPORT OF THE FORESTRY DEPARTMENT

(Moth and Tree Warden Department)

MOTH DEPARTMENT

MILTON, MASS., January 1, 1918.

To the Honorable Board of Selectmen:

I beg to submit the following report of the work of the Moth Department of this Town for the past year.

Concerning the work of suppression, there have been few qualities to differentiate it from the work of other years. I consider, however, and believe it is generally conceded that the Town as a whole is in better condition than for some years. I attribute this success largely to the fact that we have cleared out many breeding places, even though the value of the property has not made possible a return to us of the money expended. The good to the community however has, I am sure, warranted it.

The moth season last spring was somewhat like that of the year previous, although not as extreme. It was late and rainy which made the work difficult and expensive. The sprayer, however, which we transported on a motor truck was of great service and did probably three times the work possible with a horse-drawn machine. The cheapness of operation further commends it and demonstrates that with the scarcity of horses and the resulting high cost of hire, advantage could be obtained by, as far as possible, motorizing our apparatus. It will be necessary to use horses for woodland work, but wherever an automobile can be used motor sprayers would be found more satisfactory and much cheaper.

The rapid transportation of the sprayer which we have,

enabled us to go from one end of the Town to the other on short notice, when evidences of serious eating of foliage were shown. As a result, for the first time in many years, there was no case of what is called "stripping." This led many to believe, as was several times expressed to me, that last year's seasonal conditions were responsible for the good results. This is particularly discouraging after a season of great effort to achieve results. Nothing could have been more convincing of the error of this belief than a trip over the road outside of the Town, particularly over any of the several routes to the Cape.

It was, without doubt, an exceptionally bad year for moths and the only possible remedy for many sections is a destructive forest fire. A glance at such conditions will remove the idea that this work can be stopped without disaster.

The cutting of brush, which we have done in the past two seasons has brought us satisfactory results. It has been done for the most part on unimproved land of low valuation and has been largely a net expense. It saved considerable spraying, however, and has removed the menace to adjacent property. It has been the plan to do some new "brushing" each year and go over again that previously cut, but because of our present war conditions and the necessity of financial curtailment it may be necessary to modify the plan for next year.

We were able this past year to advance the motorization idea by the purchase of a one-ton Ford truck and a sprayer. This sprayer we had hired from one of our citizens and it seemed advisable to add it to our equipment. We have had the running gear removed and will transport it on one of the motor trucks. The engine and pump have been rebuilt so that it should give us the service of a new machine.

We have added to our stock of tools and hose anticipating an advance in price, of which we have been warned. It has been necessary to again enlarge the building and there is now little possibility of out-growing our quarters.

In October we advanced the pay of our men twenty-five cents a day, believing it an act of fairness that they might better meet the increased cost of living, which is no fiction.

This will increase our labor expense about eight hundred dollars a year.

We obtained reimbursement from the state, as provided by law, but with much difficulty. There exists a peculiar situation of a provision of the law made impossible of execution by the inadequate provision of funds. Being considered a wealthy Town, Milton was stricken from the list to receive help, but in owing the state for arsenate of lead much more than the reimbursement claimed, we still possessed a very forceful argument. The state has taken ample precaution in this particular for next year, however, so that we are very sure to receive no help. This with the greater cost of labor increases our expenses for next year more than three thousand dollars. The price of arsenate of lead has advanced from 7.9 cents to 11.1 cents but we had about three tons left from last year so that the net cost will be but little more.

We propose to meet these increases next year by the purchase of no new equipment and the elimination of the work previously done on unimproved land. This is desirable work, but in the present crisis can be omitted. The time ordinarily thus spent we will devote to cutting cord wood, thereby performing the double service of moth suppression and providing fuel for the present needs of the community. We are at present engaged in this work and expect to so continue during the severe weather of the winter. If the material is available it will

be possible for us to do further cutting after the spraying season next summer. This work should enable us to overcome our financial disadvantage and I am, accordingly, asking the Warrant Committee to approve the same appropriation for next year.

APPENDIX A

Inventory of Property of the Moth and Tree Warden Department

4 2-horse spraying machines at $1,250.00 each	$5,000 00
1 1-horse spraying machine	150 00
1 motor car spraying machine	250 00
1 motor car spraying machine	533 27
2 50-gallon barrel spraying machines at $15.00 each	30 00
1 1-ton motor truck (Kissell)	1,430 45
1 1-ton motor truck (Ford)	684 85
1 Ford car with express body	450 00
1 Ford runabout	363 35
Tools of all kinds (including field supplies)	1,023 72
Spraying hose	650 00
Building and equipment (including stationary devices)	2,916 15
Total	$13,481 79

APPENDIX B

Work Accomplished

Area sprayed	1,913 acres
	88 miles of road
Area creosoted	819 acres
	88 miles of road
Area cleared of brush and dead trees	113 acres
	1 mile of road

APPENDIX C

Financial Statement

Appropriation	$8,500 00	
Received from tax assessments	731 64	
Received from State of Massachusetts	2,228 87	
Received from private work	5,989 07	
Total receipts		$17,449 58

Cost of spraying		$7,027 84	
Cost of creosoting		3,395 10	
Cost of clearing brush and dead trees and trimming		2,441 58	
Repairs, new equipment and stock on hand:			
Building improvement	$713 10		
Repairs to equipment	77 84		
New equipment	2,508 94		
Stock on hand	570 65		
		$3,870 53	
Vacations and Saturday half-holidays		691 50	
Amount reverting to Town Treasury		23 03	
Total disbursements			$17,449 58

Respectfully submitted,

RALPH S. CARPENTER,
Superintendent.

TREE WARDEN DEPARTMENT

MILTON, MASS., January 1, 1918.

To the Honorable Board of Selectmen:

I beg to submit my report as Tree Warden. We have followed out the program described in my last year's report, for which the Town voted the money asked. We planted 202 trees instead of 100 trees, for which money was provided. This was neither a poor estimate nor supreme efficiency, but was due to the fact that the figures given were for a long period of years and include the yearly care of trees up to about five to eight years.

The past year there were no young trees requiring care so that the entire amount could be spent on planting. Over a period of years the average would be as estimated. Of the total number planted we lost two.

We have found teamsters to be the worst obstacle to the success of our tree planting. An unbelievable number have been run into by careless driving and by allowing horses to wander about unattended. In all cases the guards have saved the trees from destruction, but many have been injured. The Police Department has given every assistance possible, but it is difficult to discover the offenders and in one instance only of the many cases we had were we notified by the driver responsible. If such notification is given, prompt attention makes the repair of damage much easier and successful. I believe the fault lies in the lack of education in the value of street trees. An occasional talk on the subject might well be made a part of our public school curriculum.

Appended is a detailed report of the planting done and its cost.

We have trimmed street trees as planned and have marked the parts covered on a permanent map so that as the work progresses it may be done systematically.

With the special appropriation for trimming in the cemetery we covered about 6 acres and cut out 120 cartloads of dead wood. It will take about five years to complete this work, but it will improve our cemetery.

There were fewer dead trees to be removed from the roadsides the past year than usually.

I believe we should change our plans for next year in view of the present war conditions and propose to do no tree planting. Much as I dislike to suspend this program, almost at its inception, it should I believe be done. The cemetery trimming is necessary but can be suspended and the roadside trimming I propose to reduce to a minimum, namely, only that which is necessary to insure public safety. I am asking the Warrant Committee, therefore, to recommend a reduction of the appropriation from $2,650 to $1,500.

When conditions again become normal I trust the Town will permit the continuation of the work which we have this year begun.

APPENDIX A

Work Accomplished

Trees planted:

Norway maples	30
Sugar maples	26
Horse chestnuts	109
American lindens	34
Tulip	3
Total	202

Streets on which trees were trimmed	11.2 miles
Dead street trees removed	16
Trees on private property removed	2
Area in cemetery in which trees were trimmed	6 acres

APPENDIX B

Cost of Tree Planting

Trees	$333 50
Guards and supporting irons	451 02
Teaming	92 50
Labor	218 25
Total	$1,095 27

202 trees planted, $5.42 per tree.

APPENDIX C

Financial Statement

General appropriation	$2,350 00	
Special appropriation for cemetery	300 00	
Received from private work	317 26	
Total receipts		$2,967 26
Cost of street tree trimming	$1,227 83	
Cost of trimming trees in cemetery	312 77	
Cost of tree planting	1,095 27	
Cost of removing dead trees and clearing obscure street corners	282 25	
Amount reverting to Town treasury	49 14	
Total disbursements		$2,967 26

Respectfully submitted,

RALPH S. CARPENTER,
Tree Warden.

REPORT OF THE BOARD OF HEALTH

MILTON, MASS., January 1, 1918.

To the Citizens of Milton:

The number of cases of contagious diseases reported to the Board of Health for the past three years has been as follows:

	1917	1916	1915
Chicken Pox	20	36	27
Cerebro-Spinal Meningitis	0	0	0
Diphtheria	19	17	23
German Measles	62	10	2
Lobar Pneumonia	3	0	0
Measles	86	35	362
Mumps	49	5	6
Ophthalmia Neonatorum	1	0	0
Scarlet Fever	27	45	29
Septic Sore Throat	1	0	47
Suppurative Conjunctivitis	2	0	2
Tuberculosis	10	8	16
Typhoid Fever	0	4	4
Whooping Cough	0	20	55
Anterior Poliomyelitis	0	11	0

The whole number of deaths recorded in 1917 is 103 (male 48, female 55), giving a death rate of 11.97 per thousand inhabitants.

During the year past the Board of Health has held its regular monthly meetings as well as some special meetings. The time for the regular meetings has been changed from the first to the second Thursday of each month.

This year the Board of Health issued a new book of Rules and Regulations. In this new book an effort has been made to simplify the rules so that the reader can very quickly tell which are the regulations laid down for

the Town by the Board of Health, and which are statutes made for all people of the Commonwealth of Massachusetts by the State Legislature. The statutes are the same for all cities and towns and the regulations are made by the Board of Health to meet the special conditions of the Town of Milton.

Attention is called especially to the regulations pertaining to the Periods of Exclusion from schools of children and persons who have been exposed to a contagious disease. These Periods of Exclusion have been worked out with a great deal of care and were decided upon only after conferences with several experts in this line.

The Board appreciates that in individual cases the required Periods of Exclusion may cause a real hardship, but it wishes the people of the Town to realize that a severe epidemic with all its attendant horrors may be started from a seemingly mild case of contagious disease. It is oftentimes very difficult to determine whether or not an individual has one of the contagious diseases. This determination, for the safety of the rest of the members of the family as well as of the general public, should be made by a physician and should not be left to nature or to chance. Therefore, the Board urges the inhabitants of the Town to call a physician or to notify the Board which will see that a physician is sent to any case of suspected trouble. It is only by the close co-operation of the Town and its Board of Health that the ever present contagious diseases can be kept under control.

During the year the Board asked the physicians of the Town to recommend to their patients the advisability of vaccination as a protection against small-pox. There had been an epidemic of small-pox in Maine and a few cases had drifted to Massachusetts. The Board recommended that all persons who had not been successfully vaccinated within seven years be vaccinated. This was

so recommended because vaccination in itself is a harmless procedure and is the only way to prevent an epidemic from getting started. Anyone who has seen a case of small-pox run its course could have no hesitation about getting vaccinated immediately rather than run any risk of becoming infected, or being the cause of infecting any of his or her family or friends.

In the early part of the year the Board held a public hearing in reference to some written and signed complaints as to a nuisance caused by the method of the disposal of the garbage of the Town. The result of this hearing was that the nuisance was so remedied that there have been no more complaints sent in and the conditions surrounding the place of disposal have been more satisfactory.

In regard to certain other written complaints the Board deplores the fact that in some instances what the Board asked to be done for the purpose of keeping the conditions healthy, sanitary and safe for the neighborhood is at first ignored and finally partially done under protest.

The Board wishes to state again that it can not recognize any complaints that are not duly signed by the complainants. It wishes also to deplore the fact that certain citizens of the Town seem to feel that the Board is doing them an injustice when it repeatedly insists on having its suggestions carried out to their full extent. The Board does not ask that anything be done which is not considered necessary for the public health and since the Board is elected by the citizens of the Town it has a right to expect their co-operation.

Once again the Board wishes to bring to the attention of the Town the unsatisfactory conditions of Pine Tree Brook. The Town needs a place that could be used as a public bath. Pine Tree Brook, if it is properly cleaned up, offers an excellent and unusual chance for filling a

need the Town has long felt. The Board hopes that when the urgent needs of the present war have been lifted from us, proper steps will be taken to make use of this opportunity for beautifying our Town.

Respectfully submitted,

LLOYD T. BROWN, M. D.,
J. S. LINCOLN,
A. W. DRAPER,
Board of Health.

MILTON, MASS., February 1, 1918.

To the Board of Health:

GENTLEMEN:—I herewith submit my report for the year ending December 31, 1917.

I have collected 1,042 double loads and 209 truck loads of ashes, 479 loads of paper and 127 cords of garbage.

Yours respectfully,
SAMUEL G. GRAIG.

MILTON, MASS., January 15, 1918.

To the Board of Health:

GENTLEMEN:—I herewith submit my report for the year ending December 31, 1917.

Cleaning 4 vaults.
Cleaning 30 cesspools.
Removing 75 loads from cesspools.

ESTATE OF JOHN R. LAWRENCE,
by
M. A. LAWRENCE.

REPORT OF THE INSPECTOR OF ANIMALS

MILTON, MASS., January 1, 1918.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present my report for the year ending December, 1917. I inspected 95 stables and premises where cattle are kept and found them in good sanitary condition. Also gave a physical examination to 704 cows, 13 bulls, 227 swine, 36 sheep and 1 goat, all of which were free from tuberculosis or other contagious diseases. Five cows were quarantined for tuberculosis, and one horse for glanders. On account of suspected tuberculosis in these cows, the Department of Animal Industry ordered a second examination of the herds in which they were found, so gave a careful re-examination to these 104 cattle and again passed them as free from disease.

Respectfully submitted,

JAMES SPENCER,
Inspector of Animals.

REPORT OF INSPECTOR OF BUILDINGS

MILTON, MASS., January 1, 1918.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my annual report for the year ending December 31, 1917.

There have been 171 applications made and permits issued for building and repairing.

I have made 1,048 inspections.

There have been 25 buildings examined for permits to move and 5 permits issued.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT

Months	Permits for Wooden Buildings	Permits for Stone, Cement and Brick Buildings	Valuation per Application
January	4	3	$48,650 00

Making the valuation as per applications $571,244.

Respectfully submitted,

G. E. BURT,
Inspector of Buildings.

REPORT OF THE INSPECTOR OF MILK

MILTON, MASS., January 1, 1918.

To the Honorable Board of Health:

GENTLEMEN:—I herewith submit the following report as Inspector of Milk for the year ending December 31, 1917. There have been 37 licenses issued for the sale of milk and cream—29 to residents and 8 to non-residents; 14 to stores and 23 to wagons. There have been 160 samples of milk and cream for chemical tests and 173 samples for bacteriological examinations.

Respectfully,

WALLACE C. TUCKER,
Inspector.

MILTON, MASS., January 26, 1918.

To the Board of Health:

GENTLEMEN:—In the interests of the Inspection of Milk I should like to lay before you a review of my services as Inspector during the past seven years, in the attempt to show you what improvement has been brought about in the care and handling of our milk supply and what interest and co-operation is shown by the dairymen in their desire to keep a high standard.

The first few years I struggled against more or less opposition on the part of the producers. They knew very little if anything, about the inspection of milk and cow barns, and what such inspection meant both to them and their customers. To be sure, they understood that at some time in the course of the year the inspector was likely to come to their dairies and barns to get samples of milk. This, to them, was the end of it; they

showed no interest in the Inspector's visits; seldom cared about the reports, and never issued further invitations. It was only after repeated visits and a good deal of persuasion on my part that they began to understand and be interested in the work, and to read with intelligence the reports of the various tests and examinations which I sent them. Facts were proved by figures, and I explained the figures. It was not uncommon to find in our barns cows with sore quarters and teats, milk that was low in fats and high in bacteria and disease germs, and dairies and utensils that were far from clean and sterile. Old-fashioned methods prevailed, antedating our present statutes relative to milk supplies and production, and careless handling often courted trouble.

By spending more time and attention to particular cases, by showing a personal interest in the dairyman and his troubles, and by constant visits with following tests and examinations and "score card" grading of the conditions of barns and dairies, I have been able to report a steady improvement of the conditions of milk supply of this Town. It is a source of gratification to me that as a result of my records, I can safely say that the residents of Milton are getting 50 to 60 per cent better milk than they had six or seven years ago.

It takes constant vigilance on the part of an inspector to keep the whole supply up to a high standard. When the Chemist's reports show a producer's milk to be low in grade, I go back to that dairy and try to discover the cause, giving suggestions as to care and handling of the cows and milk. If the reports show disease germs, I go back immediately to the dairy, stop the output until each cow's milk is tested and analyzed and the diseased cow found. The animal is then isolated from the rest of the herd, and kept so until by treatment her milk is again shown by analysis to be free from trouble. The

law sets the limit on bacteria count at 500,000 per cu. cm. As fast as I have been able to get a response from the preaching of cleanliness, cooling and covering, the Inspector's three C's, the count has correspondingly lowered, so that at the present time it is not unusual to get the bacteria count down to 50,000 or even 30,000. There has not been such a marked change as to the fats and solids tests, probably owing to the fact that many of the larger dealers examine their own milk, and keep it fairly near the standard line. On the whole, however, my records show an improvement in these tests.

I am also gratified to report a growing confidence between Inspector and producers and dealers. The Inspector is now welcomed at all times to barns and dairies, and his suggestions are solicited and faithfully carried out. Hardly a day goes by that some one does not call me. Dairymen are at last realizing that inspection is not only for the welfare of the customer and a safeguard to public health, but also of distinct help and benefit to themselves.

It is my pleasure to report in this connection that my work has been helped to a considerable extent by the hearty co-operation of the Chemist, who is always ready, day and night when called upon, to attend to the analyses.

Respectfully,

WALLACE C. TUCKER,
Inspector.

REPORT OF THE INSPECTOR OF PLUMBING

MILTON, MASS., December 31, 1917.

To the Honorable Board of Health:

GENTLEMEN:—I beg to submit the following report for the Department of Inspection of Plumbing for the year ending December 31, 1917.

One hundred fifty-one permits to perform plumbing have been issued from this office, the approximate valuation of the work being fifty-three thousand one hundred eighty-six dollars ($53,186).

Thirty buildings have been connected with the Town sewers.

Respectfully submitted,

LORENZO E. YOUNG,
Inspector of Plumbing.

REPORT OF THE INSPECTOR OF SLAUGHTERING

MILTON, MASS., January 1, 1918.

To the Board of Health:

GENTLEMEN:—As Inspector of Slaughtering I report that for the year ending December 31, 1917, I have examined and stamped eighteen (18) hogs.

Respectfully,

WALLACE C. TUCKER,
Inspector.

REPORT OF THE PARK COMMISSIONERS

MILTON, MASS., December 31, 1917.

To the Citizens of the Town of Milton:

Much progress was made the past year toward making the Brook Road Playground a most popular and well equipped playground. The tennis courts were resurfaced and properly drained; a quarter mile cinder track was constructed, and the baseball, football, soccer and hockey fields were resurfaced, partially regraded and seeded.

The increase in attendance over last year was about 25 per cent, making it necessary to employ an additional assistant for two months during the summer.

Twenty-eight of the older boys were enrolled by the State Garden Committee, for work on gardens and estates. Their work was laid out daily by our Playground Director. Every boy completed the season, and all received honorable discharges in the fall. The Town Garden Committee used portions of Hollingsworth Field, Crane Field and Dollar Lane Playground for Home Gardens.

The Street Department has taken one thousand seven hundred and ninety-six and one-half (1,796½) double loads of sand and gravel from the pit at the East Milton Playground.

Out of the appropriation made to be spent jointly by the Park Commission and School Committee toward the improvement of school lots, very little was used.

For more complete details of the activities at Brook Road Playground, we wish to refer you to the following report of the Physical Director, Mr. M. W. Souders.

Our recommendations are:

General Appropriation $3,965

Respectfully submitted,

J. Sumner Draper,
Malcolm Donald,
B. W. Trafford,
Park Commissioners of the Town of Milton.

REPORT OF PLAYGROUND AND RECREATIONAL ACTIVITIES

Season 1917

To the Park Commissioners,
Milton, Massachusetts.

GENTLEMEN:—I respectfully submit the following report on the playground and recreational work for the year ending 1917.

WINTER ACTIVITIES

Social Center

Arrangements were made with the School Committee to use the Vose School Assembly Hall one night each week during January, February and March for the young people of Milton. A club was organized, known as the Opportunity Club, the purpose of which was social dancing properly supervised. The early part of the evening was for instruction and from eight o'clock until ten for dancing. A program committee was appointed and special music and entertainment was arranged for each night. At the end of the season a party was given with special music, program, decorations, refreshments and favors. One hundred and twenty-five members attended. The average attendance at each meeting during the season was seventy-eight. The expenses were met by a club fee of twenty-five cents each, an assessment of twenty-five cents, and gifts from some of the citizens who believe that such a center should be held in Milton.

Skating

The tennis courts at the Town Field were flooded for

the Christmas vacation, which gave the small children an opportunity for skating.

Spring Activities

Baseball League

During the spring a baseball league was formed among the grammar schools. The games were played at Town Field and Cunningham Park. The championship was played for on a percentage basis, Belcher School of East Milton winning without losing a game. The champions were presented with a beautiful loving cup appropriate for that sport. This trophy will go to the new champions each year to be kept at their school until the next season.

Playground

The playground and the Athletic Field has improved in appearance and increased in popularity and attendance.

Improvements

Improvements at Town Field have been many. The four double courts were resurfaced with binding gravel, and properly drained. There was no rain so heavy during the playing season that the courts could not be used with satisfaction the following day. A quarter-mile cinder running track with a one hundred and fifty yard straightaway was constructed. The area within the track was resurfaced and seeded to be used for a soccer, hockey and football field. The baseball diamond was resurfaced with from four to six inches of loam and seeded. These fields should be in first-class condition the coming season of the sports for which they are intended. The Athletic Field and equipment will be in use this spring more than ever before as it is close enough

to the new high school to be available for classes in outdoor physical education, class games and school sports.

New Apparatus

Two permanent pieces of apparatus were added to the playground equipment. The most fascinating is the long thirty-foot wave coaster slide. This is considered a "continual round of pleasure" and the long lines seen waiting to go down speaks for its popularity. Although it is high and long, it was selected for its construction, in that there is no element of danger even for the smaller children. Mothers and fathers were called back to childhood days, for they were often seen trying it out with the little tots in the evenings.

The horizontal steel ladder was installed for its benefits as well as the pleasures derived from the stunts. The suspension exercises for which it is chiefly used tend to straighten the backs of the growing boys and girls, and for this reason is considered by physical educators as the most useful of any apparatus.

The above mentioned apparatus, together with the swings and seesaws, is all constructed of steel and non-breakable material, having no protruding nails or screws. These features, with proper supervision, make play practically free from danger.

Program for Summer Months

9.00 to 9.30 o'clock.	Grounds in order.
9.30 to 10.30 o'clock.	Tennis instruction for boys.
9.30 to 10.30 o'clock.	Active games for girls.
10.30 to 12.00 o'clock.	Tennis instruction for girls.
10.30 to 12.00 o'clock.	Active games for boys.
Lunch	
1.30 to 2.00 o'clock.	Free play.
2.00 to 3.30 o'clock.	Sewing, knitting—older girls.

2.00 to 3.30 o'clock. Kindergarten work—children.
2.00 to 3.30 o'clock. Apparatus—boys.
3.30 to 4.30 o'clock. Group games—boys, girls.
4.30 to 5.00 o'clock. Shower baths—boys.
5.00 to 5.30 o'clock. Free play—retreat.

One day each week for hikes, swimming, etc.

Attendance

Again the popularity of supervised play has been demonstrated by an increased attendance. Owing to the demand for farm and garden help and its encouragement, the larger boys did not come much except for special occasions, such as trips to Braves Field or outings to the beach. The attendance of the smaller children increased to such an extent that it was necessary to employ an assistant to give her full time to kindergarten work, story-telling and games. Mothers are gaining more confidence in the activities and environment of the playground and allowing their children to come.

The attendance was taken at 10 o'clock in the morning and 4 o'clock in the afternoon. The work for the children closed at 12 o'clock Saturday noon and the afternoon was given over to recreation for adults.

The attendance for each week was as follows:

Week ending July 7	1,205
Week ending July 14	1,105
Week ending July 21	1,250
Week ending July 28	1,147
Week ending Aug. 4	1,095
Week ending Aug. 11	972
Week ending Aug. 18	1,006
Week ending Aug. 25	1,162
Week ending Sept. 1	1,173
Week ending Sept. 8	1,275
Week ending Sept. 15	870
Total	12,260

Special Activities

First two weeks the flag was raised at 10 o'clock with ceremony and the pledge.

July 5. 25 boys to Houghton's Pond—swimming.
July 7. Baseball. Brighton and Milton.
July 12. 48 boys and girls to City Point.
July 14. Baseball. Hyde Park and Canton.
July 16. 20 boys to Braves Field. Braves and Chicago.
July 19. 60 boys and girls to Wollaston—swimming.
July 20–22. Boy Scout camp.
July 21. Baseball. Elm Farm and Milton.
July 23. 27 boys to Braves Field. Braves and Pittsburg.
July 26. 45 boys and girls to Wollaston—swimming.
Aug. 3. 30 boys and girls to Wollaston—swimming.
Aug. 4. Baseball. Bay View and Milton.
Aug. 6. Non-par-iel Club to Blue Hills.
Aug. 8. 77 boys and girls to Bijou Theatre.
Aug. 10. 30 older boys and girls to Nantasket.
Aug. 11. Baseball. Lever Bros. Co. and Milton.
Aug. 13. 16 boys to Braves Field. Braves and Philadelphia.
Aug. 20. Start of boys' and girls' tennis tournament.
Aug. 20. 17 boys to Braves Field. Braves and Chicago.
Aug. 21. Finals of girls' tennis tournament.
Aug. 25. Baseball. Milton and Paige Class.
Aug. 25. Finals of boys' tournament.
Sept. 5. Field Day, 350 children participating.
Sept. 11. 55 boys and girls to Franklin Park Theatre.
Sept. 15. Regular activities closed.

An inventory was made of goods on hand. Apparatus was painted and put away. Buildings painted and plumbing cared for, for the winter.

The tennis courts were kept open and supervised until November. All fall activities were held at Cunningham Park on account of the seeded ground.

Respectfully submitted,

M. W. Souders,
Director.

POLICE DEPARTMENT

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1917.

Superintendent.—Maurice Pierce.
Deputy Superintendent.—Timothy McDermott.

PATROLMEN

Fred M. Farrington.
Henry A. Paterson.
John F. O'Connell.
Frank H. McDermott.
William S. Fallon.
Joseph F. Donovan.
James R. Travers.
Patrick H. Donahue.
John P. Driscoll.
William H. Byrnes.
Henry C. Shields.
Lucius E. Damon.
William J. Stephenson.
John H. Higgins.
John J. Haley.
William D. Karney.
Emory H. Farrington.
William B. Ladd.
Norman R. Bowman.
John B. Shields.
Francis G. Doherty.

Driver of Auto Patrol.—John E. Shields.

SPECIAL PATROLMEN

Robert J. Blake.
Timothy A. McDermott.

ARRESTS

Total number of arrests	195
Males	191
Females	4
Residents	27
Non-residents	168

CAUSES OF ARREST

Assault and battery	8
Automobile laws, violating	109
Bastardy	1
Breaking and entering	4

Common railer and brawler	1
Counterfeiting	1
Cruelty to animals	1
Drunkenness	33
Insane	4
Labor laws, violating	1
Larceny	7
Lord's Day, gaming on	3
Malicious mischief	3
Manslaughter	1
Neglect of family	3
Obstructing the Fire Department	1
Setting fire	1
Sodomy	1
Stubborn child	1
Threats	1
Tramps	7
Trespass	1
Unlawful use of milk jars	2

MISCELLANEOUS WORK

Under this head some of the most important work is recorded; assistance rendered sick and injured persons, defects in streets and sidewalks, fires discovered and extinguished without alarm, etc.

Accidents reported and assistance rendered	60
Buildings found open and secured or owner notified	41
Cases investigated	141
Dead bodies found	3
Defective poles	11
Defective streets and sidewalks	27
Defective water pipes	7
Defective wires	19
Dogs killed	6
Electric street lights out	702
Fire alarms given	3
Fires extinguished without alarm	5
Injured and sick persons assisted	48
Lights found burning in vacant houses	17
Lighted lanterns furnished on streets at night	9
Lost children found and cared for	2
Officers detailed for public service	53

Officers detailed by request of citizens	37
Officers off duty reporting at fires	24
Residences temporarily unoccupied and special attention requested	161
Stray animals found	10
Stray teams found	3
Street obstructions removed	23
Stolen automobiles found	4
Suicide	1
Water running to waste	6
Wires burning trees	21
Wires broken, electric light and telephone	27

STOLEN PROPERTY

Amount reported stolen	$672 00
Amount recovered	305 00

AUTOMOBILE SERVICE

During the year the ambulance was called for forty-eight times for accidents and sick calls; has been in constant use throughout the year and is in good condition at the present time. The number of miles run is 5,672.

The Stanley automobile has been in constant service throughout the year responding to emergency calls and performing general patrol work. The number of miles run is 23,228.

CHANGES

Robert J. Blake, who was doing special duty during the vacation season, was drafted for the army and left the department Thursday, October 2, 1917.

John B. Shields, a regular patrolman, enlisted in the navy and left the department Monday, November 12, 1917.

THE FORCE

The conduct of the officers has, in the main, been excellent, and the rules and regulations governing the department have been generally observed.

CRIME

During the year, several houses were burglarized and considerable property stolen. On the night of Monday, September 10, 1917, there was a wholesale raid in the East Milton district, which naturally caused much fear to possess the public mind.

We have made every effort to recover the property and catch the thieves, but as yet have been unable to do so. Other cities and towns have suffered the same and cannot find their property that was stolen.

INCREASE OF FORCE

I wish to recommend a new day route in the Mattapan district. It is being developed so rapidly that it seems to me that a new route should be established there. Should this meet with your approval it would require one additional patrolman.

CONCLUSION

To you, Honorable Board, I desire to return my most sincere thanks for the kind and considerate treatment accorded me in the discharge of my official duties.

My thanks are due Judge Albert E. Avery of the District Court for valuable advice and assistance; and Lawrence W. Lyons, Clerk of the Court; to all members of the Police Department for their loyal co-operation.

Respectfully,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF OVERSEERS OF THE POOR

MILTON, MASS., December 31, 1917.

To the Citizens of the Town of Milton:—

The Board of Overseers of the Poor respectfully submits its annual report.

Although the cases which come before the Board have so much of varied human interest that there is little monotony in the work of the Board, the summary of their work which finds its place in the annual report, varies little from year to year. A study of the statistics which form a part of this report will tell most of the story.

EXPENDITURES AT TOWN FARM, 1917

(Inside Poor)

Salary of Superintendent and Matron	$650 00	
Wages of help, washing, etc.	386 23

					$5,512 40

Ninety-eight persons participated in Outside Relief.

But one change has been made in the personnel of the Board during the year, and the organization has been as last year. Mrs. Caroline B. Williams resigned on account of removal from Town, and Mrs. Roderick Stebbins was elected to fill the vacancy. Mr. and Mrs. Calvin H. Sanford, Mr. Rounseville and Mrs. Brackett, still remain as superintendent and matron of the Town Farm, agent and visitor, respectively.

We are caring at the Farm for two persons from the town of Needham, being reimbursed for their expense by said town. This is a result of discussion and effort, extending over a period of years, of the possibilities of co-operation between towns in the care of their poor. Two inmates of the Farm have died during the year.

The rules proposed for the government of the inmates and printed in last year's report, were adopted by the Town at its last Annual Meeting and are now in force.

The Board recommends an appropriation for the ensuing year of $8,000, together with reimbursements and the proceeds of sales from the Farm.

Respectfully submitted,

ARTHUR H. TUCKER, *Chairman*,
WALTER D. BROOKS, *Secretary*,
HORACE N. PLUMMER,
ALBERT D. SMITH,
MRS. RODERICK STEBBINS.

REPORT OF THE TRUSTEES OF THE MILTON PUBLIC LIBRARY FOR THE YEAR ENDING DECEMBER 31, 1917

MILTON, MASS., January 12, 1918.

To the Citizens of the Town of Milton:

The Trustees of the Milton Public Library have the honor to present their annual report and again to commend to the citizens a careful reading of the report of the Librarian printed herewith. The Trustees believe that the Librarian's report is unusually interesting and significant and will well repay a careful perusal by those persons who wish to have an intelligent idea of what the Library is attempting to do and also of what it is actually accomplishing to a rather remarkable degree.

The work of the Library is constantly on the increase and therefore demands unremitting diligence on the part of the Librarian and her staff. The Trustees feel that the Town is receiving a conspicuous service from the Library force.

The past year the Library has been more widely used than at any time since it was established. Nearly one-half the population of the Town are active card holders, and the use of the Branches has grown with the increase of the population, the Mattapan Branch especially, with the change in the position of the High School.

The work with the schools continues to maintain its customary high standard and what is particularly gratifying, more books of the better sort are in demand and in circulation. Students in greater numbers consult the Library and coöperation with the Government in its efforts to educate people along lines of economy and conservation has been marked.

The Librarian in her report tells of the various societies which have used the building during the past year for their meetings and makes the interesting comment that the "aim to make the Library a common meeting ground for town activities is no longer an experiment; it has come to be an established part of the Library's work and an effective way of reaching the people."

The Trustees will ask of the Town at its Annual Meeting such an appropriation as it had last year, in the confidence that it will be cheerfully and enthusiastically granted, namely $11,500, and the dog tax for 1917, and the fines for 1918.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman,*
FREDERIC M. STONE, *Treasurer,*
RODERIC STEBBINS, *Secretary,*
FRANK E. LANE,
ALEXANDER MCADIE,
CHARLES E. ROGERSON,
ROBERT SALTONSTALL,
ROGER L. SCAIFE,
ARTHUR H. TUCKER,
Trustees of the Milton Public Library.

REPORT OF THE LIBRARIAN

MILTON, MASS., January 1, 1918.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1917.

Contrary to expectations, the Library has been more widely used during 1917, than during any other year since its founding in 1870.

The circulation has reached 79,697, a very large figure for a small town. Of this circulation, 52,031 was adult, and 27,666 juvenile.

There has been a growing demand for books of the better sort: for poetry, drama, and biography; for books on the causes and ethics of war; for books by recognized writers on social reconstruction and social betterment; for books that present a way out of this abnormal condition, in which the world finds itself. There has also been a considerable use of war books, especially of those by well known, or well advertised authors.

Government documents and pamphlets have been called for, notably those covering food and food conservation, canning and preserving, substitutes for meat, gardens, soils, insect pests, etc.

Students have come to the Library in increasing numbers, not only for study and reference work, but also for instruction in the use of a library.

This year, Miss Thurston, the Children's librarian, has given such instruction to a class of 120 of the ninth grade pupils of the High School.

A group of women from the Woman's Club has met at the Library on Thursday mornings for the study of

dietetics: this class has been under the leadership of Miss Gage of Simmons College.

Books on food and dietetics have been put on one of the tables near a bulletin board, on which have been posted all kinds of notices of special interest to the class. In connection with this, the Mattapan Canning Kitchen had a small exhibit of its dried products, which stimulated interest in that comparatively new method of food conservation.

A Garden class, arranged by the Home Gardens Committee of the Education Society, met in the Historical room from February 14 to April 4. Mr. Bevan of Norfolk County Agricultural School had charge: discussions were spontaneous and enthusiastic and the attendance at the eight meetings totalled 578.

Continuing from last year, the Red Cross First Aid Class, connected with the Woman's Club, held three meetings at the Library in February and March.

The Milton Chapter of the Red Cross held its annual meeting on October 25th: the Milton Branch of the Special Aid Society has held eight meetings and the Milton Public Safety Committee has met twice.

A Y. W. C. A. meeting was also held on Saturday afternoon, December 1.

In September, the Library was called upon to help in the Camp Libraries Fund Campaign.

Under the able supervision of Roger L. Scaife, Esq., as Campaign Director, Milton raised $1,875.74, although her allotment was only about $500. Of this sum, the Trustees of the Library raised $658.35, and the members of the staff $423.82, a total of $1,082.17, or 55 per cent of the whole amount raised.

I take this opportunity to again acknowledge the indebtedness of the staff to Mrs. Roger L. Scaife and to Mrs. Robert F. Herrick for the use of their motors and

for their interest in helping with a house to house canvass, during the campaign.

The Library has been, and still is, collecting books for soldiers and sailors. Already 592 books and 366 periodicals have been sent to camps or distributing centres.

In addition to this war relief work, the Boys' Electricity Club formed last year, by Miss Snow, continued to meet at the Library until March.

The Workers' Club, of 30 little girls, has met every Wednesday afternoon during the winter months, with an average attendance of 25.

After the Club is over the girls flock to the Children's room to take out books: this gives the Children's librarian an excellent chance to know the girls and to direct their reading.

As usual, the Milton Historical Society and the Social Service League have had their regular meetings at the Library, and the Junior Woman's Club has had its play rehearsals here.

On Sunday afternoons in February, Mrs. Edward Holton James read stories, plays and poems.

Although the attendance at each reading averaged only 45, the audience was invariably enthusiastic and the Library is greatly indebted to Mrs. James for these interesting Sundays.

No attempt has been made this year to keep a count of the various committee meetings, which are getting to be so many and so frequent, that hardly a day passes without a gathering of people from some part of the town.

Previous records have proved conclusively that the aim to make the Library a common meeting ground for town activities is no longer an experiment: it has come to be an established part of the Library's work and a most effective way of reaching the people.

For example, the Literary League—a club of fourteen Mattapan girls—gave two Christmas plays in the Historical room, on Saturday evening, December 22.

Out of an audience of 65, all fathers, mothers or friends of the girls, only about a half dozen people had ever been in the Central Library before.

The first play was a scene from "The Birds' Christmas Carol": the second, "Toinette and the Elves," by Susan Coolidge. Both plays were well done and the spirit of the girls was delightful. Great credit is due Miss Thurston, who superintended the rehearsals.

A Christmas Book Party was held in the Children's room on Sunday afternoon, December 16, from 3 to 5 o'clock.

The room was decorated with laurel and other greens, and attractive books suitable for both young and old were shown. Miss Mahony, Director of the Book Shop for Boys and Girls, lent many editions, which the Library could not afford to buy.

At 4 o'clock, Miss Thurston told Christmas stories: 150 children and 41 grown-ups were present and all expressed appreciation of the pleasure which they had had.

The work of the Children's department, under Miss Thurston, has grown apace.

The total circulation of children's books has been 27,666, a gain of 1,258 over last year.

Work with the schools varies from year to year, but it is always an important part of the Library's activities.

During the fall and winter months, Story Hours have been held regularly at East Milton and Russell Reading Room on Saturday mornings, and at Mattapan on Tuesday afternoons.

In all, there have been 28 at Mattapan, 26 at East Milton, 23 at Russell Reading Room, with three added

ones at the Central Library, two at the Vose School and one at the Tucker School.

The total attendance—not including the schools, which were special occasions—has been 2,816, as compared with 1,346 in 1916: this is a gain of 1,470, or 34 more than the whole attendance of last year.

The Library is greatly indebted to Miss Charlotte Vose, who has given her time on Saturday mornings to help at the East Milton Story Hour.

Miss Babcock, in making her report of the East Milton Branch, says that the attendance has been 16,429, a gain of 1,310 over 1916, and the circulation has been 19,952 as compared with 17,709 in 1916, a gain of 2,243.

The new registrations from the East Milton section have been 91.

A number of added reference books have been sent to the Branch this year to meet the increasing calls from pupils of the public schools, who more and more, are using the reading room for study.

The same thing is true of the Mattapan Branch. Miss Hills reports that since the change in location of the High School, more pupils are using the Branch than ever before.

Mrs. Calderwood has substituted at the Branch on Wednesday afternoons and has done excellent work.

Mattapan is growing fast: the new registrations from that Branch alone have numbered 150. The attendance at that Branch has been 18,228, a gain of 1,739 over last year: the total circulation has been 19,151, a gain of 2,016 as compared with 1916.

Miss Kennedy reports little change in the work of Russell Reading Room. The value of that Reading Room, however, can never be put into words: it lies in the quiet, personal influence of Miss Kennedy, with the people of that neighborhood.

In fact, this is equally true of the other Branches, where it is possible for the assistants in charge to keep in closer touch with their public than at the Central Library.

New registrations for the whole system number 403, making the total number of active card holders 4,067.

Based on the last census (8,600 population), this is 47 per cent, or nearly half of the population of the Town.

The Exhibits for the year have been as follows: January 7 to January 31, Paintings by Miss Mary Gay, with an attendance 165; February 6 to February 28, Water Colors by Miss Nancy Bent, arranged by the Milton Historical Society,—attendance 112; March 4 to March 29, Paintings by Aldro T. Hibbard, with an attendance of 114; April 1 to April 30, Pastels by Bert Poole,—attendance 134; May 1 to May 30, Paintings by Charles H. Richert and Otis Philbrick, with an attendance of 57; June 4 to June 9, Temperance Exhibit, arranged by the Association of Ministers of Milton, with an attendance of 80; September 22 to October 31, Paintings by John N. Haapanen, with an attendance of 106. Mr. Haapanen, who is now with the Signal Corps, offered to give to the Milton Chapter of the Red Cross, 25 per cent of his sales. Twelve pictures were sold, amounting to $115, which netted the Red Cross $28.75. During the months of November and December, an exhibit of Civil War Relics, arranged by the Milton Historical Society, proved a great attraction. The attendance for the two months was 398.

There has been an unusual number of gifts from Milton authors, for the Milton Collection, and the usual number of books and pamphlets from miscellaneous sources. In the interests of war time economy, I am omitting a detailed list, since these gifts are recorded at the Library and have had personal acknowledgment.

There have been two changes in staff: Miss Lilian C. Kerr, who had been a member of the staff since May 3, 1915, left the Library in March, and Miss Julia D. S. Snow, who was appointed Children's librarian on September 13, 1915, left in April.

Miss Snow's place was taken by Miss Elizabeth Thurston, who came from the New York Public Library on May 1. The other vacancy was filled by Miss Minnie E. Burke, who came to us on September 4, from the Library of the Weather Bureau at Washington. Both Miss Burke and Miss Thurston are graduates of a Library School, and have had excellent training and experience in other libraries.

The Staff as a whole is exceptional: when one considers that in all, there are only four regular assistants at the Central Library, and one at each Branch, the amount and quality of service given the Town is noteworthy.

The Librarian is grateful to the Trustees for their continued interest in the welfare of the Library, and to the Warrant Committee for the increased appropriation of last year, which has made proper working conditions possible.

Respectfully submitted,

GERTRUDE E. FORREST,
Librarian.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES FOR THE YEAR 1917

MILTON, MASS., January 28, 1918.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my report as Sealer of Weights and Measures for the year ending December 31, 1917.

Number of scales, weights and measures sealed	692
Number condemned	2
Total	694
Number of scales found incorrect and adjusted	10

I have throughout the year made inspections at the various stores and places of business and find they are complying with the law in every respect.

Respectfully submitted,

JAMES SANGSTER,
Sealer of Weights and Measures.

REPORT OF SEWER COMMISSIONERS

MILTON, MASS., January 1, 1918.

The Board of Sewer Commissioners makes the following report of operations of the Sewer Department during the year ending December 31, 1917.

General		
Population by census of 1915		8,600
Estimated length of streets of Town (miles)		50
Percentage of length provided with sewers		33.9%
Method of disposal		Metropolitan system
	For Sewage	**For Sewage & Surface Water**
Collection Mains		
Lineal feet pipe (measured)	89,525.24	700 (storm overflow)
Lineal feet extended during year*	4,534.1	
Number of inverted siphons	1	
Number of manholes	388	
Number of storm overflows	1	
Number of emergency overflows	1	
Number of automatic pumping stations	1	
House Connections		
Number made during year	28	
Number of stoppages coming to notice of department	6	
Discharge of Sewer		
Estimated population using sewer system	5,290	
Number of buildings connected	950	
Financial		
Total cost of collection mains to December 31, 1917		$191,755 51
Bonded debt at date		24,000.00
Average rate of interest on bonds		4.17%

For details of sewer construction and maintenance account reference is made to the Financial Report compiled by the Auditors as shown elsewhere.

Respectfully submitted,

CHARLES G. WAITT,
E. B. HILL,
WARLAND WIGHT,
Board of Sewer Commissioners.

*The extensions made during the year were in Central Avenue, 2,557.47 feet; Columbine Road, 495.3 feet; Eliot Street, 499.83 feet; Gun Hill Street, 250 feet; Harold Street, 299.8 feet; Plymouth Avenue, 431.7 feet.

REPORT OF THE SUPERINTENDENT OF STREETS

MILTON, MASS., January 17, 1918.

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration my third annual report for the fiscal year ending December 30, 1917.

The conditions in 1917 were much worse than the previous year, supplies, labor, etc., being higher; for instance: Labor advanced 25 cents to 50 cents per day, stone advanced about 17 cents per ton, and in fact everything used in road construction has advanced over 1916.

PERMANENT CONSTRUCTION

There has been a portion of four (4) streets rebuilt the past year in the following manner: First, by subgrading the road, then spreading 2½-inch stone to a depth of 5 inches in the center, running to 4 inches in thickness at the sides. After the stone is rolled smooth, hot tar is sprayed by pressure into the stone, from 1½ gallons to 1¾ gallons per square yard. Then the road is covered with 1½-inch stone, just enough to fill the void and then rolled; to this is spread another half gallon of hot tar, then the road is sanded with coarse sharp sand and rolled hard and opened to traffic until the sand is well worked into the tar, and the surplus sand swept to the side of the road by action of the traffic. After which the road should be seal-coated with about one-third of a gallon to the square yard of light cold tar applications, and sanded and opened again to traffic.

White Street from Canton Avenue to Brook Road 1,610 feet in length, and an average width of 18 feet, making 3,220 square yards. Cost per yard, $0.868.

Granite Avenue from Adams Street to State Highway, 2,010 feet long, 25¼ feet wide, making 5,639 square yards. Cost per yard, $0.89.

Eliot Street from Central Avenue to Metropolitan Parkway at Mattapan, 6,015 feet in length, 18 feet wide, making 12,030 square yards. Cost per yard, $1.237.

In the hollow between Hinckley Road and Curtis Road, the location of the road was entirely changed in line of safety to public travel. There were heavy cuts and fills, and a system of drainage installed. The construction of this road is the tar penetration method, and is all the same construction excepting that one-half was built with the Independent Coal Tar Company's product—from Central Avenue half the distance westerly—and the rest with the Barrett Company's product to Mattapan. This will give a fair chance for observation to determine the qualities of each company's product, although I am satisfied that one is equal to the other. One company's product was one-half cent cheaper than the other as will be shown below. The westerly half of this road has been seal-coated; the other half has not been seal-coated owing to difficulties in getting the tar until it was too late to apply it, but it should be seal-coated sa soon as weather permits. And I would here recommend that it be seal-coated with the Independent Coal Tar Company's product, making that half of road all Independent Coal Tar Company's tar.

Although the road in the location of the cuts and fills has been cut and filled to its entire width, there is still

more cutting to be done, principally in bankment work and a portion of sidewalk to be rebuilt.

Brush Hill Road was entirely rebuilt from Blue Hill Avenue to Metropolitan Parkway near Paul's Bridge, 4,241 feet in length. This road was built in two sections: The hill on the Blue Hill Avenue end was built the entire width 2,341 feet in length as follows; 14 feet of tar penetration in center of road and on each side of the road. It was built with Asphalt Binder B. with coarse No. 1 stone leaving a mosaic surface in order to give good footing for horse-drawn vehicles and also a protection against the flow of water. The average width of this portion of the road is about 25 feet, making 6,503 square yards. The remaining 1,900 feet in length was built 18 feet wide, making 3,800 square yards. Cost per square yard, $1.08 by tar penetration. Drainage was installed at two points with iron pipe running across the street to cut off the flow of water. This street has not been seal-coated owing to the weather and the tar penetrated portion of the road should be seal-coated as soon as weather permits. It was not planned to seal-coat over the asphalt oil on each side of the 14-foot road on the hill, as it would make it too slippery for horses, and should be left as it is. It was originally planned to reconstruct the road as far as Paul's Bridge about 500 feet further north. Cold weather set in and as we were unable to get stone and tar, we were unable to finish it, and it should be finished the coming spring.

It will be noticed that we have a balance left over from Permanent Construction, of $12,863.40, which may cause some criticism. Owing to the conditions of the past year, this money could not be judiciously spent to carry the work any further, without actually wasting it. It was impossible to get materials fast enough to do the work.

The government work near by had to be carried on and they were commandeering materials from all points and the Town had to take what was left. We were at one time for three weeks with one roller engineer and three rollers on hand to do the work. We were paying engineers $4 per day and the government was paying nearly double,—we had to advance our engineers to $5 per day in order to keep engineers on our work. The government work commenced taking some of our best men as they are paying $4.12 per day and we were paying $3; this compelled us to raise our stone-spreaders to $3.25 per day in order to keep them.

The past year has been the most trying time in history of road building in the United States, and it looks as if it may be worse the coming year, and if you contemplate carrying this work on even to a limited extent, I would advise that you immediately arrange for stone, tar and oil, if it is possible to do so. After it is decided what portion of road you would build, and if the storage place could be had near by, the stone could perhaps be hauled during the winter and stored near the job. Although, of course, the re-handling would add to the expense of the road, it would more than offset the expense of holding a job open and waiting for materials when the building is going on.

We made an attempt to build Wharf Street, but had to abandon it as we were not getting materials fast enough, and had two rollers standing idle without engineers.

GENERAL STATEMENT OF PERMANENT CONSTRUCTION

		$3,339 90

Note. Cost of Tarvia X, 9½ cents; No. 3 Tarbinder, 9 cents; B Tarbinder, 8½ cents.

GENERAL HIGHWAY

TRUCK ACCOUNT

In April we bought of the Autocar Sales & Service Co. one 1½-ton truck fully equipped, at a cost of $2,165.80—one-half cost of this truck was charged to Permanent Construction, the other half to General Highway. The truck has worked the entire season and has given good satisfaction.

Please find below itemized cost of operating the above truck. Our 4-ton Locomobile truck which was bought in 1916, continues to give good satisfaction.

Autocar		
Half cost	$1,082 90	
162 gallons of gasolene	40 50	
Supplies	5 45	
Repairs	16 55	
		$1,145 40
Locomobile truck		
Repairs and parts	$77 84	
480 gallons of gasolene	109 00	
New tires	294 63	
		481 47
Total		$1,626 87

TAR PATCHING STREETS

The tar patching still continues to give good results as you will notice by referring to report 1915, and also to report 1916. The cost has been reduced from $9,306.93 in 1915 to $5,411.81 in 1917. In the meantime the streets have been kept in a fairly smooth condition during the year. The fact that we have continued to build streets is one of the reasons why the cost has been reduced.

Pay Roll		
General work	$1,878 30	
Outside teams	1,135 27	
18,916 gallons of tar-patching composition (carload, 8½ cents; small amounts, 9 cents)	1,937 65	
433 3/5 tons of dust	578 31	
56 loads of sand	16 80	
Miscellaneous	9 00	
		$5,555 33
Credit, 224 empty barrels returned		143 52
		$5,411 81

STEAM ROLLER AND REPAIRS

We still have three steam rollers 12-, 10- and 6-ton.

Early in the season we contracted with the Buffalo-Springfield Steam Roller Co. for a 12-ton roller with scarifying attachment for $4,850. They took in trade the old 12-ton roller allowing $350, making the net price $4,500. Half cost of this roller, $2,250, was charged to Permanent Construction and $2,250 to General Highway. This new roller has given perfect satisfaction. I would suggest that the two older rollers be overhauled and put in condition before spring.

Half cost of new roller	$2,250 00	
Waste and oil	41 96	
Picks	107 32	
Sundry supplies	46 72	
New parts	66 41	
Labor and repairs	121 24	
		$2,633 65

SATURDAY AFTERNOON TIME

The amount of Saturday afternoons off given to the laborers for five (5) months, May to September inclusive, will be seen below:

Laborers	$884 74	
Outside teams	217 87	
		$1,102 61

CLEANING CATCH BASINS AND REPAIRS

Pay Roll		
General work	$1,852 68	
Outside teams	9 00	
Brick and cement	115 48	
		$1,977 16

SMALL TOOL REPAIRS

Pay Roll	$232 75

CART AND WAGON REPAIRS

Pay Roll	$157 94	
Scraper teeth and blades	148 65	
Miscellaneous hardware	47 99	
		$354 58

MURRAY'S PIT

Pay Roll		
General work	$134 64	
Outside teams	9 58	
		$144 52

SQUANTUM STREET CRUSHER

BRIDGES—ELIOT STREET

Pay Roll	$52 11	
Lumber	110 87	
		$162 78

MISCELLANEOUS HIGHWAY WORK, REPAIRS AND SUPPLIES

Thacher Street

This is the most important job charged up to General Highway appropriation for 1917. This street was resurfaced its entire length, the grade was changed between Houston Avenue and Brook Road, resurfaced with broken stone and bonded with tar preparation and seal-coated. Length of street 4,930 feet, average width about 20 feet, 98,600 square feet or 10,955 5/9 square yards. Cost per square yard, $0.392. Although this work is not called Permanent Construction, with proper care to the surface it will wear a number of years. See cost below:

Pay Roll		
General work	$1,165 91	
Outside teams	348 00	
1,009.21 tons of stone	1,110 70	
251 loads of sand	75 30	
17,000 gallons of No. 3 Tarbinder	1,516 65	
203 gallons of gasolene	53 25	
Miscellaneous	27 75	
		$4,297 56

Centre Street

This street was resurfaced from Reedsdale Road to near the green houses north of Brook Road, excepting the old piece of reconstruction near the cemetery. This road was broken up and smoothed off and coated with two applications of tar, with a light application of sand over each application of tar. There was no new stone or gravel applied to this road. Although this road makes an excellent summer road, I expect that portions of it may break up in the spring. This was somewhat in the line of experimental work at a very small cost. See figures below:

Pay Roll	$408 99	
7,050 gallons of Tarvia X	669 75	
25½ loads of sand	7 65	
172 gallons of gasolene	43 00	
		$1,129 39

Brook Road Resurfaced from Adams Street to Canton Avenue

Oil Blanket Coat

Pay Roll	$274 77	
1,500 gallons of Tarvia X	142 50	
9.145 tons of coal	82 30	
223 gallons of gasolene	55 75	
		$555 32

Adams Street Resurfaced from Centre Street to Randolph Avenue

Oil Blanket Coat

Pay Roll	$213 82	
2.34 tons of coal	21 06	
		$234 88

Miscellaneous Supplies and Expenses

Holiday expense	$507 41	
Paymaster	375 00	
Private work	132 19	
Stamps	4 00	
19 cords of wood	135 50	
166 bags of cement	97 80	
Miscellaneous supplies	356 12	
6,000 bricks	92 00

Surface Drainage

We are continually in serious trouble with the surface drainage system, which is in fact no system. Pieces of drain have been laid from time to time, mostly running into private property without any easements. We are constantly called upon to empty the water in other directions, which in the majority of cases seems impossible. We are continually finding drainage which is entirely stopped up and while some have been cleaned—in other cases we have found on investigation that the pipe was poorly laid, and some of it actually graded in the wrong direction: This being the case on Houston Avenue and at the junction of School Street and Randolph Avenue.

Then again, when the old drain was removed at Pierce Street and Granite Avenue, the pipe ran directly into a gas pipe with a few bricks cobbled over the top of gas pipe, expecting the water to climb over the pipe. There is a very slight grade at best in this line of pipe which has been relaid and gas pipe removed to a lower grade. This pipe enters into the main pipe line, on Granite Avenue, which flows along to the Adams Street drain. The main line pipe on Granite Avenue has considerable sediment in it, which interferes with the flow of water from Pierce Street. I would suggest that someone be employed with the proper apparatus to clean the drain. At Adams Street near the corner of Babcock Street, there was a pipe emptying water the entire year on the surface of Adams Street and running to the corner of Brook Road—this has been remedied by tapping pipe

into the main line. Before Granite Avenue was rebuilt we were put to a large expense in cleaning the drainage system at a low point which was entirely plugged up. This was another case of poor construction and has to-day a very incomplete outlet on to private property.

We had also to rebuild several of the old basins the past year, which were poorly constructed, the brick falling into the basins, viz.: on Pleasant Street, Reedsdale Road and Tucker Hill.

The blind drain on Central Avenue between White and Thacher Streets has been extended 86 feet and should be extended further next year.

As I understand, under a law which was enacted in 1917, the Board of Selectmen have the right to seize drainage privilege over private property, and I would, most respectfully, recommend a competent engineer be employed to figure the water sheds in the several districts and arrange for a perfect system of drainage, with trunk lines, latterals and drainage rights where necessary. Until this is done the Town will always be in trouble over the drains.

A proper drainage system can be obtained by starting right and appropriating several thousand dollars each year until the system is completed.

MISCELLANEOUS DRAINS, WASHOUTS, ETC.

SIDEWALK ACCOUNT

Although not one-half of this account was used up last year, it would have been if we could have gotten the oil at the proper time to cover the walks below. We have, however, prepared several walks that are ready for oil when the oil can be gotten, viz.: White Street, Thacher Street, Dyer Avenue, Kahler Avenue, Granite Avenue and Blue Hill Avenue. There has also been work done on other sidewalks on the following: Austin Street, Washington Street, Brook Road, Canton Avenue, Sheldon Street and Beacon Street.

Please find below an itemized account of same:

General Account		Sub-divided as follows:	
Pay Roll		Brook Road	$151 00

Total Highway Department Inventory		$28,308 18

On December 21, 1917, I tendered my resignation with the following communication:

Honorable Board of Selectmen, Milton, Mass.

GENTLEMEN:—Please accept my resignation at your earliest convenience. Although it grieves me to send in my resignation, I feel as though I am forced to, owing to ill health. Although I am aware of the fact that under my agreement with you, I should give one month's notice, still if you see fit, I would like to be released about the first of January. I am not resigning to take another position. I am going to take a long rest.

My health permitting, I will stay about the work long enough to see that all accounts and everything else is properly attended to, to turn over to my successor.

I desire to express my thanks to your Honorable Board, and through you to the foremen, Clerk and men of the Department, also to all the others in the local departments of the Town for courtesies and kindnesses during the past season.

Respectfully submitted,

HENRY A. SPATES,
Superintendent of Streets

REPORT OF THE SUPERINTENDENT OF WIRES

MILTON, MASS., January 21, 1918.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Department of Wires for the year ending December 31, 1917.

INTERIOR WIRING

	1916	1917
Certificates issued for light and power	311	268
Number of inspections	768	630
Number of incandescent lights wired for	4,925	4,121
Number of motors installed	14	8
Total horse-power	33	58
Number of electric heaters and ranges	24	23
Total watts	61,972	54,405

OVERHEAD AND UNDERGROUND WIRES, POLICE AND FIRE ALARM SIGNAL SYSTEMS

In the past year the Wire Department has been able to improve to a higher degree, conditions of the overhead wire construction in the Town by the rebuilding of several overhead lines by the companies owning same, thereby increasing the efficiency of the Fire and Police Signal Systems. Also placing lead cable in conduit in Adams Street between Granite Avenue and Washington Street.

In all cases where lines were rebuilt, construction was changed to conform with the National Code on overhead construction.

The following is a list of streets where lines have been rebuilt, also streets where code wires have been installed

and old wires removed: Washington Street, Pierce Street, Centre Street from Canton Avenue to Randolph Avenue, Blue Hills Parkway from Canton Avenue to Fire Alarm Box 521, Robbins Street, Milton Street, Blue Hill Avenue from Brush Hill Road to Robbins Street, Engine Street, Randolph Avenue from Reedsdale Road to Centre Street, Canton Avenue from Highland Street to cable box front of Town Hall.

Have installed three miles of No. 10 covered iron wire, fifteen hundred feet of two conductor and three thousand feet of four conductor lead cables containing fifteen thousand feet of No. 14 copper wire, thirty-five hundred feet of two conductor and six hundred feet of four conductor circular loom cable and removed six miles of old wire.

For the maintenance of the Wire Department I recommend an appropriation of twenty-two hundred and sixty-one dollars ($2,261).

Respectfully yours,

ERNEST E. CHOATE,
Superintendent of Wires.

REPORT OF THE WATER COMMISSIONERS

To the Citizens of the Town of Milton:

The Board of Water Commissioners respectfully submits the following report for the year 1917.

At the Annual Meeting in March, the Town appropriated money for the use of the department, as follows:

For extensions of mains	$2,500 00
For hydrant rental	9,000 00

Construction

Owing to the continued demand for extension of services on private ways it was impossible again to make much headway this year in extending mains in public ways, with the end in view of closing dead ends to improve the circulation of water. An important dead end was closed up, however, by laying a 6-inch pipe on Pleasant Street, for a distance of 1,253 feet, which should greatly improve the service in the New State and East Milton districts, and which will also afford an auxiliary supply in case of a burst in mains or a large fire in either section.

In Dudley Road an 8-inch main was laid, for a distance of 611 feet, from Adams Street, to make a beginning of completing a circuit through to Centre Street at some future time.

The amount expended for new work was $8,798.65, apportioned as follows:

Public ways	$1,862 26
Private ways	6,936 39
Total	$8,798 65

PUBLIC WAYS

Pleasant Street	$1,862 26

PRIVATE WAYS

Dudley Road	$1,320 93
Aberdeen Road	156 83
Revere Street	498 96
Brierfield Road	726 74
West Street	249 99
Woodland Road	1,022 96
Reservation Road	1,349 09
Hawthorne Road	607 83
Plymouth Avenue	1,003 06
Total private ways	$6,936 39

As has been the case for several years, most of the demands for extension of mains on private ways came from the Mattapan section. During the year 870 feet of 8-inch pipe, and 3,588 feet of 6-inch pipe were installed. In addition, 5,082 feet of service pipe were laid. The number of hydrants installed was eight.

The number of active services is 2,030, an increase for the year of 70, five services having been discontinued. The total number of hydrants now in use is 439, 30 of which are private.

Motor Cars

The department now has four motor cars, one Autocar truck, two Ford trucks and a Ford Roadster, one new Ford truck having been purchased this year.

In February, 1917, the department fitted over the old chemical house in the center of the Town for the purpose of a garage, at an expense of $632.72; the cost of maintaining it for 1917 was $243.54.

Wages

In March, 1917, the wages of all department employees were increased twenty-five cents a day, which conformed with the general increase granted by all the operating departments in the Town. In November, 1917, a further increase of 10 per cent was granted, with a statement from the Commissioners, quoted herewith:

> "Referring to the recent advance in wages, amounting to ten per cent, to the employees of the Water Department, the Commissioners wish it to be understood that this raise should be considered in the nature of a bonus in recognition of the high cost of living occasioned by the present extraordinary conditions arising from the war and not as an established rate of wage to be continued necessarily during the period of readjustment after the war."

The appropriations asked for the ensuing year are as follows:

For extension of mains	$1,500 00
For hydrant rental	9,000 00

The Commissioners have not asked for the usual appropriation of $2,500 for the extension of mains this year. For the duration of the war, or as long as it seems justified by conditions, it will be the policy of the Water Department to approve no expenditures for extension of mains in private or public ways except for purposes that are absolutely necessary to public welfare. In other words, the expenditures for 1918 will be governed as far as possible with the object of conserving the use of labor and material for purposes essential to the war.

Mr. E. E. Ford was elected Water Commissioner at the Annual Meeting in March, to fill the vacancy occurring by the expiration of the term of Mr. Thomas B. Gordon, who had faithfully served the Town as Water Commissioner for a period of twelve years.

We feel the loss of Mr. Howard C. Leslie, who is serving in France, as First Lieutenant of the 102nd Machine Gun Battalion. His term expires in 1918.

We believe the citizens will be interested in the tables of unit cost of construction, cost of motor operation and other statistics appended hereto.

For details of receipts and expenditures for 1917, reference is made to the financial report compiled by the Auditors, shown elsewhere.

FINANCIAL STATEMENT

Amount paid for Milton Water Co.	$199,608 35

HOWARD C. LESLIE (absent),
Water Commissioners.

REPORT OF THE SUPERINTENDENT

MILTON, MASS., January 1, 1918.

To the Honorable Board of Water Commissioners:

GENTLEMEN:—I have the honor of submitting to you the following statistics pertaining to the operation of the Water Department.

STATISTICS RELATING TO THE CONSUMPTION OF WATER

Population of Milton		9,129
Number of families (5 in family)		1,826
Percentage of population supplied (approximately)		98%
Number of consumers		2,030
Total consumption for 1917:		
By Adams Street venturi	116,509,000 gallons	
By Metropolitan Avenue meters	20,355,000 gallons	
Total	136,864,000 gallons	
Registered by house meters	113,697,000 gallons	
Water unaccounted for	23,167,000 gallons	
Percentage of water unaccounted for		17%
Average daily consumption, gallons		375,000
Gallons daily to each inhabitant		41
Gallons daily to each family		205
Gallons daily to each tap		185
Cost of water, 1917, for 136,864,000 gallons		$18,284.15
Cost per 1,000 gallons		.1336
Cost per 100 cubic feet		.0999

STATISTICS RELATING TO DISTRIBUTION SERVICE

Mains

Kind of pipe—cast iron.
Sizes—2 to 16 inches.
Extended 4,458 feet during 1917.
None discontinued.
Total now in use—279,764 feet—52.9856 miles.
Length of pipes under 4 inches—5,344 feet—1.0121 miles.

Number of hydrants added during 1917:

Public	8
Private	0
Total	8

Number of hydrants now in use:

Public	409
Private	30
Total	439

Number of stop-gates added during 1917—27.
Number of stop-gates now in use—711.
Number of stop-gates smaller than 4 inches—19.
Number of blow-offs—16.
Range of pressure on mains—30 to 133 pounds.

SERVICES

Kinds of pipe—brass, cast iron, cement-lined, enameled, galvanized, lead, plain iron, tarred iron, tin-lined lead.
Sizes—$\frac{5}{8}$ inches to 6 inches.
Extended—5,082 feet during 1917.
Discontinued—624 feet.
Total now in use—213,161 feet—40.3174 miles.
Average length of service—105 feet.
Number of services added in 1917—70.
Number of services discontinued—5.
Number of services in use—2,030.

CONCLUSION

Original cost of works:

Amount paid to Milton Water Co.	$199,608 35
Bonds of Milton Water Co. paid off	120,546 67
Total	$320,155 02
Town funds expended on plant to Dec. 31, 1917	345,151 38
Total bond issue	312,000 00
Bonds paid off	162,000 00
Bonded debt, Dec. 31, 1917	150,000 00
Per capita debt	16 43
Rate of interest (payable semi-annually)	3½%

Date of maturity—August 1, 1932.

Respectfully submitted,

D. A. HEFFERNAN,
Superintendent.

FREDERIC M. STONE,
Treasurer.

FUNDS HELD BY THE TOWN

PERPETUAL CARE FUND

Amount held December 31, 1917 . . . . . $38,511 00

This fund is held by the Town Treasurer in accordance with Chapter 82, Sections 15-18, of the Public Statutes, interest at the rate of 6 per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

JASON REED CEMETERY FUND

Amount held December 31, 1917 . . . . . $2,626 67

The interest on this at the rate of 4 per cent per annum is paid over to the Trustees of the Cemetery.

E. T. L. REED PUBLIC PARK FUND

Amount held December 31, 1917 . . . . . $5,164 14

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement, or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

MARY L. PEABODY FUND

Amount held December 31, 1917 . . . . . $5,000 00

The clause under which this bequest is given reads as follows: "To the Selectmen of the Town of Milton, Massachusetts, $5,000, to be invested and the income thereof to be distributed annually to the poor at Christmas."

Sumner School:
WILLIAM A. ADAMS, Decker Street, Mattapan.

REPORT

OF THE

SCHOOL COMMITTEE

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of the Town of Milton:

The School Committee submits herewith its report for the year ending December 31, 1917.

Opening of New High School Building

At the opening of school in September, 1917, the High School including all eighth grade pupils in the Town, was moved to the new building and the Vose School was transferred to the old High School building. The Building Committee changed the name of the old Vose School building to "Milton High School" and the School Committee changed the name of the old High School building to "Vose School." In this report these buildings will be spoken of by their new names.

The transfer was successfully accomplished although attended with difficulties caused by the incompleteness of the High School building. Study rooms, laboratories and several special rooms were not finished. Some of them have not been finished at the time of writing this report. It is, however, expected that the entire building, including the Assembly Hall and the lunch room, will be finished before the opening of school September, 1918.

It will be remembered that the appropriation originally asked for by the Building Committee was cut $20,000. Although an additional sum of $33,000 was appropriated last year, the unprecedented advance in the cost of labor and materials due to war conditions makes it improbable that the Building Committee will be able to complete the equipment of the building within that appropriation.

School Buildings

The new High School building is the only modern school plant in the Town. The Vose School, although a brick building, is old and partly by reason of its remodelling, not economically arranged. The other buildings are all old wooden buildings expensive to heat, care for and keep in repair.

During this year, 1917, approximately $4,500 has been expended for repairs. The Glover School has been entirely reshingled; the Wadsworth School reshingled in part. The work of fireproofing coal pockets in which bituminous coal was stored has been continued.

During this year further repairs will be necessary. The roof of the Tucker School leaks in many places and demands reshingling. There are two more coal pockets to be fireproofed. The floors of most of the older buildings are in very bad condition and require treatment of some sort to make them continue serviceable and to postpone relaying as long as possible.

As long as the Town continues to have old wooden buildings, it must annually make large appropriations for repairs.

Town Use of School Buildings

The finishing of the gymnasium in the High School presents the question of how payment is to be made for the municipal use both of the gymnasium and of other school buildings. The Committee recognizes the desirability of using school buildings to their fullest extent, but it feels that the cost of opening buildings for municipal use is not a part of school work and should not be charged to the cost of such work. If the gymnasium and other buildings are to be used by the Town for other than school purposes, the Committee feels that a special

appropriation should be made to which the cost of opening each building shall be charged. The increased cost of coal will make it impossible for the School Committee to open the gymnasium and school buildings for municipal use unless such provision is made. Your Committee, therefore, recommends a special appropriation of $2,000 which together with receipts will probably cover the cost.

School Lunches

The furnishing of lunches to the school children became a troublesome problem incident to the transfer of the High School. The lunch room in the new building and the domestic science room, in which lunches were to be prepared, were unfinished. Upon completion of the domestic science room lunches were prepared and served in the High School building.

Under present conditions the individual members of the School Committee must guarantee payment of any deficit arising through the provision of school lunches, for, as the law stands, neither the Town nor the Committee is authorized to use public funds for this purpose. The Committee feels that the furnishing of lunches at cost is desirable and ought to be continued and recommends that the Town accept the provisions of the Special Statute Acts 1913, Chapter 575, which authorizes the furnishing of lunches at a price not to exceed cost. The Committee also recommends an appropriation of $300 to meet a possibly unavoidable deficit.

Transportation

In September, 1917, a new arrangement for transportation seemed advisable. The large barge which brought children to the Vose School was discontinued

and the children transported on the street car to the Tucker School. The barge in the Houghton district was continued. By this arrangement there was a substantial saving in the cost of transportation. The only children who formerly had transportation and who by this arrangement were left without it, were within a mile and a quarter radius of the present Vose School building. Consequently, the Committee felt that the saving could be made without hardship to the children.

Change of Superintendents

The Committee shortly after organization in March, 1917, gave special consideration to the management and conduct of the schools. Some of the older members had long been dissatisfied. As a result of their study the Committee concluded that there were radical defects both from an administrative and from a scholastic point of view, namely, that there was lack of careful business supervision; that there was lack of system, so that our eight schools were not parts of one system, but each an independent unit, proceeding along its own lines; that courses of study were inadequate or missing, with consequent lack of harmony in what was taught and in the time given to each subject; that the supervision by the Superintendent was conducted at long range through special teachers and subordinates and not personally and directly.

Being convinced of the existence of these defects, the Committee felt that a change of policy was necessary. The Superintendent—although assured of the backing of the entire Committee, was either unwilling or unable to change. The prospect of entering the new High School building and the changes which would thereby be entailed, made efficient and effective supervision absolutely imperative at the very earliest possible moment.

The Committee asked the Superintendent to resign. He emphatically refused. As he was on tenure, the Committee had no choice but to dismiss him in accordance with the statute. This was done unanimously by the entire Committee.

As soon as it became evident that the change in Superintendents was unavoidable, the Committee began to look for a new Superintendent who would bring the needed strength and ability to the work of reorganizing our school system. After thoughtful and careful consideration the Committee unanimously elected Herbert J. Chase, a graduate of Bates College, who, at the time of his election, was Superintendent of Schools in Gardiner, Me. He has had extended experience in teaching substantially all grades, and in school administration.

Finances

The Committee has modified its financial report in order to show more clearly and effectively the actual cost of maintaining the schools. In doing so it has seemed advisable to take into the general appropriation for the maintenance of schools what had hitherto been special appropriations for transportation and for the promotion of health including salaries for directors of physical training. Both of these matters are an essential part of school work and should be included under the general appropriation.

The expenditures of the past year, which distributed in accordance with the new form, appear at the end of this report, show an increase over the expenditures for the previous year. This increase is accounted for in part by the increase in salaries which went into effect the first of this school year, increased expenditures for school gardens during the summer of 1917, expenditures for labor and materials upon new equipment for the High

School building, increased expenditures for coal, light and water in the enlarged High School and the expense of moving from the Vose School to the High School. The greatly increased cost of books, stationery and other supplies, and the much higher price of coal, are also responsible for much of the increase.

Gifts to the Schools

The Committee desires gratefully to acknowledge the following gifts, which have been made to the schools during the year.

High School:

Silk American Flag from Class of 1917.

Oil painting, "Pastoral Scene" from Mr. Nathaniel T. Kidder.

Set of Charts, showing composition of food materials from Dr. Harris Kennedy.

Money (about $25) to be the nucleus of a fund from which prizes may be offered for the promotion of good citizenship from Class of 1917, Vose School.

Belcher School:

Cast—"Spirit of '76" from Class of 1917.

Silver Loving Cup won by Baseball Team from Belcher School Parents' Association.

Tucker School:

Statue from Class of 1917.

Roll of Honor, engraved from Tucker School Parents' Association.

Recommendations

Your Committee has made careful estimates in accordance with its new budget for the expenses of the

year, 1918. After making allowance for more careful buying and eliminating all things deemed not essential under war conditions, there will, nevertheless, be an increase in the cost of operating the school department, owing in part to the higher price and the greater quantity of fuel needed and in part to the necessary increase in salaries. In view of the rising prices the Committee feels that an increase in the salaries is only fair and just. In order to carry on the usual school activities the following amount will be required.

General school expenses, including transportation, medical service and school nurse	$114,000

Respectfully submitted,

HARRIS KENNEDY, *Chairman,*
CHARLES M. ROGERSON, *Secretary*
FRANK P. FANNING,
STEPHEN C. MITCHELL,
EVA B. T. CHURCHILL,
School Committee.

ANNUAL REPORT

OF

SUPERINTENDENT OF SCHOOLS

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Milton:

My first annual report, though addressed to you, has been prepared chiefly for the citizens of the Town.

Having given freely of your time and thought to school administration during the year, you are already familiar with much of the matter here presented.

It has been said, "Nobody reads a school report, why go to the trouble to make one?" The answer is, citizens ought to know the main facts concerning school administration, and school officials, working for what ought to be, will strive to present those facts in such a way as to win attention and convey the necessary knowledge.

With this view of the case I shall present statements covering school attendance, the assignment, training and experience of teachers, the principal changes in school organization, the work of certain special departments, and the cost of the chief items of school expenditures. I shall discuss those conditions in our schools that seem to demand early attention and improvement and shall outline briefly the educational policy, in accordance with which I believe our school activities should be directed.

It has seemed best to place all statistical tables, the facts regarding teachers, the reports of the High Schoo Principal and of special teachers and officers in an appendix to this part of my report. They merit your careful consideration.

Changes in Organization

The important changes in organization have been incidental to the occupancy of the new High School building and the transfer thereto of all eighth grade pupils, making in effect a five-year High School. These changes include the transfer of the Vose School to the old High School building, renamed the Vose, and the assignment to the Tucker School of all sixth and seventh grade pupils in the Sumner and Houghton districts, who live more than one and one-quarter miles from the present Vose building. They also include various changes in teachers. Miss Grace Woodbury, long the efficient principal of the Vose School, was made teacher of eighth grade music, drawing, and English in the High School. Miss Marian F. Hall, Principal of the Wadsworth School, was also transferred to the High School as teacher of eighth grade history and physiology. Mr. James S. Collins, of Wellesley, was elected supervising principal of the Vose and Wadsworth Schools. Other changes in the assignment or personnel of the teaching force are indicated in Table II of the Appendix.

Liberty Service

Milton schools have already made substantial contributions for the promotion of our nation's cause in the great war. Two hundred and fifteen former pupils of Milton schools are known to be in training or in actual service. Doubtless there are many others of whom we have no record.

Two of our teachers, Mr. F. Laurent Dinsmore, of the Manual Training Department, and Mr. Joseph H. Burlingame, Principal of the Belcher School, have enlisted. Each was granted leave of absence during his time of service.

The demands made upon our schools for contributions of money and service have been many and urgent. To avoid confusion and a possible waste of energy and money we have decided, for the present at least, to concentrate our efforts upon Junior Red Cross work and War Thrift Savings. Every pupil in the Milton public schools is now enrolled in the Junior Red Cross and nearly all are regularly contributing some form of service or material. A constantly increasing number is purchasing Thrift Stamps and War Savings Certificates. Four troops of Boy Scouts are drilling and making ready for such active service as they may best render.

School Gardens

The work in school gardens was much less extensive than formerly. This was due in part to the increased interest in home gardens. Forty-three pupils had school gardens; four hundred had home gardens.

The work of supervision during the summer was carried on by the director and three assistants.

The Canning Club of twelve members began work in August and canned seven hundred quarts of berries, fruit and vegetables. It won third prize at the exhibit in Horticultural Hall, Boston.

There also was an exhibition of garden products and canned goods at the Town Hall in September. About twenty prizes were awarded by the Milton Education Society to those making the most creditable exhibits.

The director, Miss Cleare, in co-operation with the Norfolk County Agricultural School also organized a Poultry Club consisting of twenty-six members, the largest in Norfolk County.

Because of the urgent need for increased food production in 1918, I recommend that school gardens be temporarily discontinued and all efforts centered upon home

gardens. It may be desirable to place this work under the supervision of the Home Garden Committee of the Committee on Public Safety and also to carry on the canning through the municipal canning kitchens.

Ungraded Classes

The attempt to provide for sub-normal or otherwise exceptional pupils by grouping them in two ungraded classes has been abandoned. The class for older children was discontinued in June and that for the younger in December.

The theory that children "born short" or made "short" should be segregated for all school work is in many respects sound, but its successful application depends upon conditions not now existing in Milton.

As only the work of the younger class, from September to December, came under my supervision, I present reasons for discontinuance of that class only:

1. Eleven of the thirteen pupils enrolled were residents of other districts than the Vose, where the sessions were held because the location was most central. Some of these were unable to care for themselves in passing between home and school.

2. Several of the parents strongly objected to the assignment of their children to this special class.

3. By trial it was proved that nine of the thirteen could do the work of some grade in each subject, and, all things considered probably would be better off there.

Thus the continuance of this class meant not only probable disadvantages to more than two-thirds of its thirteen members and a disregard of the wishes of some parents; but, it meant an expenditure of nearly $1,000 per year for such benefit to the other four, as could not be gained in regular classes. Discontinuance of the class and the assignment of each pupil to suitable classes in his own district seemed the only justifiable course.

Teachers and Salaries

Previous reports show clearly that Milton school officials have long considered the Town fortunate in the character and professional equipment of its teachers. The present teaching force is worthy of such consideration. I believe, however, that there is too little measurement of results for the determination of individual efficiency, too little incentive for individual improvement.

This is not the place to discuss proposed measures for increasing efficiency through professional relations; but it does seem fitting here to propose measures that can be carried out only with public approval and support. Two such measures are proposed. Each involves a probable increase in total expenditure for salaries; but they will, I believe, produce a larger proportional increase in effective service.

While the average salary of teachers and the per capita cost of instruction in Milton is high as compared with that in most other towns, by reference to Table II it will be seen that the maximum salary is comparatively low and that nearly all teachers have attained the maximum in their respective classes.

That so many teachers receive the same salary indicates a degree of uniformity in efficiency which is not shown by their work in the class room.

I recommend the establishment of at least two salary grades above the present maximum. A majority of our present teachers should be advanced one grade at the earliest consistent date. Only a very few would be eligible for the new maximum. All consideration for an increase in salary should be based upon merit only.

As an additional incentive and means to steady improvement, and also as a safeguard for the teachers' health, I recommend provision for a "Sabbatical year," which provision will allow any regular teacher after six

years of continuous service in Milton schools to spend a year in study and travel and be paid upon return to his duties one-half of his regular salary for the period of his absence.

Special Departments and Teachers

Milton in comparison with other towns gives unusual attention to the special subjects, drawing, printing, music, sewing, cooking, gardening, woodworking and physical training. While these are important subjects and generally are effectively taught, it is at least a debatable question whether a disproportionate share of time and funds is being devoted to instruction in these subjects. As at present conducted, these courses occupy one-fourth of the school time of the pupils and all of the time of twelve special teachers beside that given to them by regular teachers. Even though the attention given to these subjects be worth while there is left too little time for such important subjects as language, history, geography, writing, mathematics, science, civics and hygiene. I recommend a revised time allotment for the various subjects made with due reference to their relative importance.

Courses of Study

For generations educators have urged that we should teach the child rather than the subject. Schools have gone on teaching subjects and disregarding the needs of the child. Neither the precept nor the practise is comprehensive teaching. Attention should be given both to the child and to the subject. To this end each teacher should be provided with complete outlines for the treatment of each subject in the curriculum. The matter should be selected with special reference to the needs of the child and the society of which he is to be a part.

The arrangement should be made with reference to the gradually developing powers of the child. It should be divided into grades or years in order to afford a standard of accomplishment for each year, with which the child's work may be compared. It should not seek arbitrarily to establish for each year a height to which the child must be stretched or shrunk. It should be a reliable scale by which the child and the teacher may measure progress.

In accordance with these views, outlines are being prepared for use in Milton schools.

Policy

The American public school is an institution to insure necessary training for democratic citizenship. A public school system should provide as nearly as possible equal opportunities for such training to all the children of all the people. Public school officials should have a well-defined policy—adaptable to changing conditions—calculated to administer the system effectively. Teachers and all others associated in the work should be thoroughly familiar with this policy and work harmoniously for the successful accomplishment of its purpose.

It seems fitting to outline briefly here the main features of our administrative policy. They are:

1. To secure buildings and equipment that will insure comfortable quarters and suitable tools for carrying on school work.

2. To provide clear cut and comprehensive courses of study consisting of subject matter selected with reference to the child's present and future needs.

3. To put in operation a plan for assignment of pupils to classes that will enable each always to do his best at the thing he needs to do most.

4. To employ well-trained, loyal, sympathetic teachers to whom teaching is a sacred calling—not simply a job—whose passion is to study the individual child and to develop to the utmost his possibilities for clear thinking and right living.

The policy here outlined cannot be carried out by the Superintendent and his associates, even with the loyal support characteristic of your Committee, without the hearty co-operation and financial backing of our citizens. With such co-operation and backing, which the past leads us to expect, we look confidently to the future.

Respectfully submitted,

HERBERT J. CHASE,
Superintendent.

January 30, 1918.

APPENDIX

TO

REPORT

OF

SUPERINTENDENT OF SCHOOLS

SPECIAL REPORTS

AND

GENERAL STATISTICS

REPORT OF PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent of Schools:

It is the purpose of the following report to present to you such facts of organization and achievement in the High School as will be helpful in forming future plans.

This information will be given under the following headings:

(1) Equipment.
(2) Scholarship and Courses of Study.
(3) Citizenship.
(4) Choosing a Vocation.

Equipment

The new building has brought to the High School vastly increased opportunities and responsibilities. There is every reason to believe that the boys and girls of Milton are distinctly grateful to the community for the unusual advantages this modern school plant brings to them. Despite the annoyances which all suffered during the first weeks of the year, admirable patience and control were shown by both pupils and teachers, all looking forward with pleasant anticipation to the completed building. While all except the Assembly Hall is now practically finished and a considerable amount of equipment has been added to that which the High School already possessed, yet there are urgent needs for which early provision should be made. Only by completely equipping the new building with the cabinets, apparatus, and furniture originally planned, can the fullest and most economical use of this splendid structure be real-

ized. It is hoped that appropriations will soon be forthcoming which will make substantial additions to the library, now for the first time properly housed. We are indebted to Miss Allen of the Public Library for assistance in the difficult task of re-cataloguing the library. An additional teacher who can give at least one-half of her time to the supervision and care of the library should be provided. Such an assistant could devote the rest of her time to teaching, thus relieving certain crowded departments.

Filing cases for instruction in modern methods of office practice should be installed in the commercial department. Instruction in the use of various other kinds of mechanical labor-saving devices is important, such as the mimeograph and the adding machine.

Additional supplies and equipment for the laboratories must be added if individual work is to be done and if practical courses in electricity are provided as a means of giving a useful type of education to boys now leaving school early in the course.

Courses of Study and Scholarship

The removal to the new building carried with it a reorganization of courses of study and a revision of general aims.

While a Junior High School, as the term is broadly used, has not seemed feasible in Milton, yet the spirit of this modern institution and the chief aims of an intermediate school have been largely secured by the consolidation of the eighth grade classes from the different schools with the High School proper. Considering the eighth grade as a pre-academic year, closely correlated with the High School work, an organization has resulted which is in effect a five-year High School. While it is yet too early to measure the results of such a change, it

is very evident that a new interest and effectiveness has been created in the work of this critical year. With the present enriched curriculum and greater unity and definiteness of purpose, the gap between the eighth and ninth year should hereafter be no wider than that between any two succeeding years of the High School course. The eighth year is now one of educational and vocational guidance. The subjects at present taught in the eighth grade are: English, arithmetic with introductory work in algebra and geometry, history with a geographical background, community civics, hygiene, spelling, penmanship, drawing, music, French, typewriting, printing, manual arts and physical training.

The work of the ninth grade, commonly called the Freshman year, is being closely related to the eighth year, according to the prevailing practice in Junior High Schools. The differentiation into the regular High School courses begins in this year. The aims of these courses may be summarized as follows:

The College Preparatory Course prepares for all the leading colleges for men and women.

The Technical Preparatory Course prepares for schools of technology and colleges offering courses in engineering.

The General Course provides a useful type of education for those occupations in business and home life not requiring special technical training. It also prepares for the State Normal Schools and colleges of business administration.

The Commercial Course trains pupils for such business positions as: bookkeepers, clerks, stenographers and typists.

The Manual Arts Course gives a knowledge of scientific and technical principles underlying modern industries and fundamental in many callings—not complete knowledge or skill in any special trade.

The Home Economics Course provides a thorouhg training in Household Arts with emphasis on the scientific principles underlying home management. It also prepares for similar advanced courses in the State Normal Schools.

Milton High School has always upheld the principle that the most important and effective means of securing the aims of the secondary school is thoroughness of scholarship. While the well-known emergencies of the last two years have made serious inroads on the time schedule of the school year, yet the work has creditably progressed in every department. The teachers have given close and constant attention to every intelligent means of stimulating and preserving high ideals of scholarship.

The senior class of 1917, composed of fifty-six pupils, was the largest in the school's history. The following table shows the advantageous manner in which they are making use of their High School training.

Attending higher institutions	24
Post graduates	5
Holding commercial positions	23
In military service	3
At home	1
Total	56

One of the notable achievements of this interesting and able class was the winning of the Yale Alumni Scholarship by Mr. Langdon Parsons. This scholarship was offered by the Yale Alumni Association to the High School boy in the Metropolitan district who showed the greatest all round development during his High School course, and the most promise for his college course. The scholarship is worth $1,200. Mr. Parsons successfully passed his entrance examinations and is making a good record at Yale.

One of the most important innovations of our organization in the new building, has been the lengthening of the school day by one hour, making the present working day for the pupils six hours. This extension was made primarily to have more studying done in the school building under supervision and under conditions favorable to study.

Citizenship

In a democratic form of government like ours a primary purpose of all education must be preparation for intelligent citizenship. The great war has brought home to us the urgent importance of this need.

While the academic studies function in attaining this end, the ideal of good citizenship must be consciously developed in other ways. This is being done by a variety of activities and interests designed to accomplish for boys and girls that capacity for leadership and interest in civic affairs which will make them of greater use to themselves, to the community in which they live, and to the great country with whose welfare our own is indissolubly bound up.

Only a few of these means can be mentioned. Class discussions, school organizations and community projects are most useful in making pupils conscious of their civic responsibilities. The spirit of co-operation between teachers and pupils, as opposed to the old idea of autocratic control, is a fundamental ideal of the modern High School. These are four things that aim to make out of every boy and girl in Milton High School a good citizen of his school community. And if he is industrious, responsible and loyal there, little need be feared about his later usefulness. Good citizenship has recently received a stimulus in the High School by a Citizenship Prize offered by pupils in the ninth grade who were promoted from the Vose School in June, 1917.

One of the community projects that deserves more than passing mention is the Farm Service organized under the direction of the State Public Safety Committee. Twenty-six boys over sixteen years of age left school in April and May to work on estates and farms. The boys showed a 100 per cent. efficiency record in the completion of the required period of service and in October were rewarded by an Honorable Discharge signed by the Governor and publicly presented by Mr. Dow, secretary of the Public Safety Committee.

The boys and girls also helped the local Public Safety Committee by distributing various circulars relating to increased food production.

Choosing a Vocation

The old system of choosing an occupation was based on haphazard choice and often resulted in vocational "hoboes." Boys and girls because of economic pressure or what is more often true, through discontent with school and through the desire to earn a little spending money, leave school as soon as the law allows. They take up some "dead-end" occupation and follow it for a few years when they drop out to make room for other children doomed to the same pitiless vocational fate. These occupational misfits, who are not confined to the uneducated classes, defeat the aim of the schools, lessen the efficiency of the business they enter, and wreck their own careers at the outset.

Milton High School is attempting to avoid these dangers by the work of the Advisory Bureau. This organization is doing three kinds of work (1). A complete vocational record is kept for each pupil above the seventh grade, showing detailed personal and school data. A "follow up" card gives the history of each pupil after leaving school. (2) Information about the principal

occupations is being brought to the attention of the pupils through such agencies as the library, a bulletin system, a series of talks on occupations by experts, and essay-writing in the English classes. Guidance by personal conference is, of course, an indispensable feature of the work of the Advisory Bureau. (3) A most useful type of the Bureau's activities is the finding of proper employment for pupils leaving school or desiring work outside of school hours. Closely related to this practical side of the Bureau's activities, is the useful knowledge of different occupations which is brought together by our investigations. The executive-secretary soon comes to have a broad knowledge of industrial conditions and requirements in and around Boston.

Summary

In this brief report, I have endeavored to set forth some of the broad social aspects of the educational process in Milton High School. They indicate the dominant ideals of thorough scholarship and good citizenship toward which we are working. These cannot be achieved, however, except through the loyal, untiring efforts of a

capable teaching and administrative force. In the present critical shortage of skilled workers in every field, I trust that our present excellent group of teachers may be retained. A short tenure of office for teachers is wasteful and makes progress difficult. The good teacher who has become acquainted with the pupils and with local conditions is indispensable to the socialized school of the present day.

Respectfully submitted,

BURTON P. FOWLER.

January 29, 1918.

REPORT OF DIRECTOR OF PHYSICAL TRAINING

To the Superintendent of Schools:

The purpose of physical education in the schools is:

(1) Educational.
(2) Corrective.
(3) Hygienic.

The educational value is brought out in training the boys and girls for close attention, quick response and alertness.

The corrective value lies in developing the neuro-muscular control and in forming good postural habits through insistance upon doing each exercise correctly.

The hygienic value lies in exercising the large muscle groups and deep breathing, thus assisting the lungs, heart, digestive system and other vital organs in functioning.

The three fundamental purposes of physical education reach every boy and girl in the public schools of Milton. The lesson content is arranged to meet the needs and conditions of the class. From the standpoint of interest, as well as all round effectiveness, rational progression is effective in gymnastic work. Lacking the element of progression, no work can be of much educational value. The exercises given in the lower grammar school grades are simple, imitative and often connected with a story so the imagination will stimulate the child to do each lesson correctly. The lessons are progressive from grade to grade, so by the time the child reaches the sixth or seventh grade his lesson consists of marching tactics, command and rhythmical exercises, folk and aesthetic dances, games and athletic sports.

A new lesson is taught once each week by the supervisor, fifteen minutes being given to each of the lower grades and a half hour to the upper grades. An outline of the lesson taught is given to the room teacher who in turn teaches it each day until the supervisor returns.

The game or athletic period at the end of each class is a reward for the formal gymnastic work. If the class is alert, responds quickly and accurately to commands and the discipline is good, a five-minute game period is given.

In all games a spirit of fair play is taught, also to take the decision of the referee or umpire without dispute, and play the game for sport and not in order to sin by any means.

During the fall and spring, weather permitting, all class exercises are held out of doors. During the winter months the classes are held in the class or assembly room. League games of soccer, football and baseball are arranged in the fall and spring for the upper grammar school grades. A trophy appropriate for the sport is given to the winning school to be kept the following year.

The contrast between rest and work should be most decided. The lesson in physical education is given without fail each day, and is given between two concentrated work periods.

Physical education means more than exercises and games. The room teacher and supervisor watches and helps counteract and eliminate the health depressing influences of school life. The seats and desks are adjusted for the individual and the pupils are arranged according to defects of vision or hearing. Proper room temperature and ventilation are also necessary requirements of good health and vigor. The windows are opened from the bottom and top during the regular gymnastic period, being closed a few minutes before the end.

Short talks on habits of cleanliness, care of the body, good posture, etc., are given to promote good health. Children having special defects, such as spine curvatures, are given special treatment.

In the High School the purpose of the work remains the same. Here the work is more advanced and vigorous. Each boy and girl is required to take two periods a week during his or her course of study. A complete change of dress for this work is necessary, giving a chance for greater freedom of movement and increasing the hygienic value. This work is taken in the gymnasium and with the shower bath following adds to the value and enjoyment of the exercise.

The High School competes with other schools in the various branches of sport, giving the skilled and strong an opportunity for keen and aggressive competition. For those who are unable to make the school teams, class games are arranged so that the majority of the boys and girls may take part.

Athletics and gymnastics are employed for the sake of their value as a means for the development of large numbers. Their value lies entirely in their usefulness in the development of physical strength, endurance and skill, and not in making or breaking of records.

A proper course in physical education tends to make a boy or girl strong, physically well set up and mentally alert. It is the preparation for the real intensive training necessary to make a soldier. It is also the proper preparation for civil life.

Respectfully submitted,

MARTIN W. SOUDERS.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

The School Nurse has made a weekly inspection of each school. The children of the lower schools have been examined at least three times during the year, some much more often. The pupils of the High School have been given Sight and Hearing Tests.

Attention is always given to the general health, cleanliness and posture of each child and any flagrant defect immediately brought to the attention of the parents, and in the event of no family physician, suggestions given as to the best clinics to be attended.

As experience has taught that "one thing at a time" is the most profitable rule to follow, the first inspection has been devoted especially to the hair and teeth, the second to the nose and throat, and the third to the sight and hearing.

Much stress has been laid on the care of the teeth, and the relation of a clean mouth to the health of the body, the great importance of free nasal breathing in contradistinction to mouth breathing, the effect of poor sight or hearing on the nervous system, etc.

Visits regarding the children have been made to the homes and the attention paid by the parents has been most gratifying. In most instances parents have been glad to do anything in their power for their children. There have been and are, of course, cases of enlarged tonsils and greatly obstructed nasal breathing where the family physician, not believing in operation for such obstructions, has advised against it. Again there are children suffering from obstructions such that operation is not advisable before the sixteenth or seventeenth year.

Children have been taken for examination and treatment to the Children's Hospital, the Massachusetts General Hospital, the Eye and Ear Infirmary, and the Forsyth Dental Infirmary. Several have been treated at the Milton Hospital.

Since October, 1917, we have been fortunate in having a reservation of nine chairs at the Forsyth Dental Infirmary, which has made it necessary for the School Nurse to devote one afternoon each week to taking nine children there for treatment. This is a great step in advance, for, although the teeth of many children are in splendid condition, especially those of the older children, still there are many whose parents have not been able to leave the babies, and have been forced to neglect this important work.

Much help has been given by the Milton Hospital, where it has been possible to make arrangements for operation on nose and throat to suit any pocket-book. Heretofore many children were taken to the Boston Hospitals for this work, but as it was almost impossible to get the children in early enough to insure operation, the attempt has been abandoned.

There are in the schools to-day seven families troubled with pediculosis; of these, three are new families, only newly infected, one an old and stubborn case, which together with the final two requires constant watching. However, as "much dropping wears the stone," these, too, will undoubtedly disappear.

The vaccination certificates in all lower schools have been checked up. Children who had no certificates were examined, and certificates filled out for those showing scars. Lists of children having neither scars nor exemption certificates were given the principals of the various buildings that notification concerning the matter might be sent the parents. At the present time, with but few

exceptions, all children in the schools, even including those who have previously brought us exemption certificates, have been vaccinated.

Last year there were several cases of tonsilitis—with and without swollen glands—mumps, measles, German measles and scarlet fever. From the end of September to January of this year, we have had two cases of appendicitis, which were operated upon successfully, three cases of diphtheria, five cases of scarlet fever, one case of whooping cough, scabies which ran through one family, and a few of mumps.

Our summer vacations suffered much from impending war conditions. It was planned to send several boys to Brantwood Camp in Peterboro, N. H., for a month or six weeks, but unfortunately for the boys, at the last moment, the camp was offered to the government to be converted into a convalescent hospital. This was a great disappointment as some of the boys had worked faithfully during the year with a possibility of Brantwood in sight. Brantwood has done much for some of our boys in developing manliness, and giving them worth while ideals.

Through the help of two of the Town organizations one boy was sent to the Agricultural Camp at Amherst for one month. The report of this boy's work was most gratifying. Two girls were sent to Lincoln for three weeks and one little lame girl went to the Children's Island in Marblehead for the summer.

Much help has been given the School Nurse by the various organizations of the Town and by private individuals. Clothing, shoes, money, food, etc., have been supplied. One gentleman sent in five dollars ($5), which did good work in buying shoes and rubbers, and supplying necessary "taps." If it were not for this outside help, some of our school work could not be done, because

it is not possible for a child insufficiently clothed or fed to do his best work.

From the opening of schools in September, 1917, to January, 1918, seventy-four home visits have been made, four trips to the Massachusetts Eye and Ear Infirmary, nine trips to the Forsyth Dental Infirmary, during which time the teeth of twenty-three children have been put in absolute condition.

Respectfully submitted,

SYDNEY CLARKE.

January 28, 1918.

REPORTS OF ATTENDANCE OFFICERS

To the Superintendent of Schools:

I present herein my report as Attendance Officer of the Town of Milton for the year 1917.

Number of cases investigated	31
Number of different pupils	24
Number of visits to schools	25
Number of visits to homes of pupils	28
Number of visits to mercantile establishments	7
Pupils absent because of sickness	4
Pupils kept from school by parents	14
Truants	13
Pupils illegally employed	3

Respectfully,

TIMOTHY MCDERMOTT.

December 31, 1917.

To the Superintendent of Schools:

I hereby submit to you my report as Attendance Officer of the Belcher district for the year ending December 31, 1917.

Number of notices received	11
Number of pupils kept by parents	0
Number of pupils kept on account of sickness	5
Number of pupils kept for want of clothing	2
Number of cases of truancy	4

Respectfully yours,

HENRY F. BRIERLY.
